Town of Needham Community Profile

The **Town of Needham** is located on rocky uplands within a loop of the Charles River in Eastern Massachusetts. The town is bordered by Wellesley on the west and northwest, Newton on the north and northeast, the West Roxbury section of Boston on the east, Dedham on the southeast and south, and Westwood and Dover on the south. Needham is ten miles southwest of Boston, twenty-nine miles east of Worcester, and about 208 miles from New York City.

Needham is situated in the greater Boston area, which has excellent rail, air, and highway facilities. Principal highways are State Routes 128 (the inner belt around Boston) and 135, and Interstate Route 95, which shares the same roadway as State Route 128. Commuter rail service is available via four stations to Back Bay Station and South Station in Boston. Needham is a member of the Massachusetts Bay Transportation Authority (MBTA), which provides fixed bus route service between Needham Junction and Watertown Square.

READER'S GUIDE TO THE FISCAL YEAR 2025 PROPOSED ANNUAL BUDGET

The Proposed Annual Budget document is more than estimates of revenues and expenses; it is a reflection of the Town's values, priorities, and goals. The budget document serves as a policy document, a financial guide, and a communication device. This guide was created to help orient interested readers by providing a brief overview of the budget process, as well as an explanation of the organization of the budget document itself. Presented in distinct sections, this budget document provides both general and specific data, including line-by-line department spending requests.

THE BUDGET APPROVAL PROCESS

The Town Manager, the Finance Committee, the Select Board, and the School Committee all play different and important roles in the budget process. The General By-laws of the Town of Needham provide for the following process:

2.2.1 Operating Budget The Town Manager shall issue budget guidelines and instructions for all Town departments to submit their spending requests for the ensuing fiscal year. The Town Manager shall consult with the Finance Committee prior to the issuance of said guidelines and instructions. The Town Manager and School Superintendent will provide the Finance Committee with copies of their respective departmental spending requests on or before the 2nd Wednesday of December. Following receipt of these spending requests, the Finance Committee may begin its consideration of same, including the commencement of budget hearings. The Town Manager, after consultation with the Select Board and School Committee, shall not later than the 31st day of January, present to the Finance Committee a balanced budget recommendation in the form of an executive budget, which shall include the spending priorities of all Town departments for the ensuing fiscal year, including in addition thereto, the voted School Committee budget request if different than that contained in the proposed balanced budget. The Town Manager's executive budget recommendation shall not be binding on the Finance Committee. Said executive budget recommendation shall include the estimates of Town revenues and proposed expenditures of all Town departments, including debt service and other amounts required to be raised for the ensuing fiscal year. The Town Manager may amend or otherwise revise revenue estimates as may be warranted. All such revisions shall be provided in writing to the Board of Selectmen, School Committee and Finance Committee.

The Legislative body of Needham's Town government is Representative Town Meeting. This is a unique form of government in New England that sets it apart from most other sections of our country. The Town is divided into ten precincts, and each precinct votes for 24 representatives to the Town Meeting. There are a total of 240 elected Town Meeting Members. In addition, there are the following at-large members:

- Moderator
- Town Clerk
- Members of the Select Board
- Chair of the Board of Assessors
- Chair of the Board of Health
- Chair of the Trustees of Memorial Park

- Chair of the Park and Recreation Commission
- Chair of the Planning Board
- Chair of the School Committee
- Any resident member of the General Court whose state legislative district is wholly within the Town

It is important to understand this structure, as no budget or fiscal appropriation can be made without the approval of Town Meeting Members at either the Annual Town Meeting, held the first Monday in May each year, or at a Special Town Meeting, held in the spring or fall of each year, or as otherwise needed. The Town Manager presents a proposed annual budget to the Finance Committee for its consideration, and the Finance Committee then forwards its proposed budget to the Annual Town Meeting for appropriation. The final budget voted by Town Meeting constitutes the legal budget authority which ultimately governs the manner and amount of local funding expended during the fiscal year. This document presents information on the General Fund, and two Enterprise Funds – each must be appropriated by Town Meeting in accordance with State law.

Readers should also obtain a copy of the Annual Town Meeting Warrant, which contains the actual budget articles to be voted upon. The Warrant is available in April at www.needhamma.gov under the Town Government / Town Meeting listing.

THE BUDGET PROCESS/CALENDAR

In order to be ready for the Annual Town Meeting vote, the budget development process begins a year earlier.

Budget guidelines were distributed to departments, boards, and committees on September 28, 2023, with spending requests due on October 27, 2023. The senior management team held budget review meetings with all departments during the month of November. Finance Committee and Community Preservation Committee liaisons were invited to attend these meetings in order to prepare for their own deliberations. Discussions with the Select Board, Finance Committee, and School Committee continued during the fall and winter. The Town Manager's official budget consultation with the School Committee occurred on January 2, 2024.

BUDGET DOCUMENTS

The five-year Capital Improvement Plan is issued as a separate document. The following documents are available for viewing at www.needhamma.gov.

- FY2025 – FY2029 Capital Improvement Plan
- FY2025 Proposed Annual Budget

BUDGET CALENDAR

July/August

- Start of Fiscal Year

September

- Capital improvement plan guidelines are released
- Town Manager budget consultation with the Select Board
- Town Manager budget consultation with the Finance Committee

October

- Budget guidelines released
- Capital requests are due
- Town Manager budget consultation with the Select Board
- Special Town Meeting

November

- Department spending requests are reviewed
- Town Manager budget consultation with the Select Board

December

- Department spending requests are due to Finance Committee from the Town Manager and School Superintendent
- Select Board votes CIP recommendation

January

- Capital Improvement Plan is released
- Town Manager budget consultation with the School Committee
- Town Manager's Proposed Annual Budget is released

February

- Warrant articles for Annual Town Meeting are due to the Select Board
- Finance Committee's draft budget is due to the Town Manager

March

- Finance Committee's budget recommendations are due for inclusion in the Annual Town Meeting Warrant

May

- Annual Town Meeting

SUMMARY OF THE PROPOSED ANNUAL BUDGET

<u>Section 1</u> Town Manager's Budget Message	This section contains the overall philosophy upon which the budget was developed and provides an explanation of the budget process and any significant changes to the budget as compared to previous years. This section also covers the budget highlights and provides a summary of the balanced budget proposal.
<u>Section 2</u> Revenue Summary	This section identifies the sources of revenue to meet the proposed operational, miscellaneous, and capital expenses for the coming year. The section also provides the reader with an overview of historical and proposed revenue, including the assumptions used to develop the estimates.
<u>Section 3</u> Departmental Budget Submissions	This section contains budget submissions for General Fund, Enterprise Funds, and the Community Preservation Fund, as well as descriptions that identify the general purpose of each department and include a history of past year expenditures, the current year budget, and the recommended balanced budget.
<u>Section 4</u> Recommended Capital Improvement Plan Executive Summary	This section contains the executive summary of the recommended FY2025-FY2029 Capital Improvement Plan.
<u>Section 5</u> Financial Policies, Glossary, and Town Manager Budget Guidelines	This section contains a list of Town financial policies, a glossary of terms that may prove useful in reviewing this budget document, and the Town Manager's guidelines to develop the FY2025 Proposed Annual Budget.

TOWN OF NEEDHAM ORGANIZATIONAL CHART

- The Select Board appoints the Town Manager, Town Counsel, and many members of Boards and Committees that can be found on the following pages.
- The School Committee appoints the School Superintendent.
- The Moderator appoints the Finance Committee and the Personnel Board.
- The Town Manager appoints, subject to the approval of the Select Board:
 - Police Chief
 - Fire Chief
 - Director of Public Works
 - Deputy Town Manager/Director of Finance
 - Deputy Town Manager
- The Town Manager appoints all other employees of the Town excluding the Executive Secretary to the Finance Committee and employees of the School Department.

Town Manager's FY2025 Budget Message: Uncertainty Ahead

“Uncertainty is the refuge of hope.” – Henri Frederic Amiel

There have been numerous times in our history when the future has felt uncertain. In the three decades I have worked for the Town, we have experienced economic downturns, the “dotcom” bust, housing crises, the Great Recession, and a worldwide pandemic. For a majority of those years, our country was at war. The rights and safety of many residents feel tenuous, world events overshadow our daily lives, and the impact of climate change is becoming closer and more tangible.

From a government financing perspective, we face great uncertainty in the coming year. American Rescue Plan Act (ARPA) and other Pandemic related funding is ending. Growth in the commercial sector is slowing. State tax collections are dropping. And the impact of the 2024 Presidential Election is unknowable.

But where there is uncertainty there is also hope. Not irrational hope or blind faith, but the “Stockwell version” – the faith that we will ultimately prevail is inextricably linked to the importance of confronting the brutal facts of our current reality.

Confronting uncertainty with hope requires that we control of what we can. We plan for numerous scenarios, and we have multiple contingency plans. We will take our brutally honest hope and take refuge in uncertainty. In doing so, we are well-equipped for success.

BUDGETING BEST PRACTICES

1. Current revenues must be sufficient to support current expenditures. *The FY2025 operating budget is supported by current revenues. These are revenues that are reasonably expected to recur annually and can be relied on to fund on-going operations during strong and weak economic periods.*
2. The Operating and Capital Budgets must be developed in conformance with the Town's comprehensive financial policies and must not be reliant on one-time revenue or unsustainable practices. *Revenue that cannot reasonably be expected to recur annually is allocated to one-time costs and reserves and is not used to support the operating budget except as provided under the Town's Free Cash best practice.*
3. The five-year Pro Forma budget should be reviewed on a regular basis to ensure that the underlying assumptions are adjusted based upon changing conditions and data. *The Pro Forma budget is a planning tool that provides early opportunity for the Town to anticipate and prepare contingency plans for the operation of the government and the continuation of primary services.*
4. Debt must not be used to fund on-going operating expenses and will only be issued for capital improvements greater than \$250,000 with a useful life of five years or more. *The FY2025 – FY2029 Capital Improvement Plan includes four projects funded in whole or in part by debt.*
5. The use of Free Cash to fund operations will be minimized by limiting such use to no more than 2% of the prior year's appropriated operating budget, or the actual turnback, whichever is lower. *The amount of Free Cash used to support on-going operations for FY2025 complies with this best practice.*
6. Adequate contingency funds must be maintained. *This proposed balanced budget allocates funding to the Athletic Facility Improvement Fund and maintains the status quo in the other contingency funds.*
7. Sufficient maintenance and replacement funds will be allocated to ensure that capital facilities and equipment are properly maintained. *The recommended Operating and Capital Budgets include investment in facilities, equipment, and infrastructure, including a continued investment in the Facilities Maintenance Program.*
8. The Operating and Capital Budgets must be resilient and allow the Town to maintain existing service levels, withstand typical local and regional economic disruptions, and meet the demands of natural growth, decline, and change. *Examples of budget resiliency include: the Town's ability to pivot and use alternative revenue sources to maintain the original approved budget for FY2021 during pandemic uncertainty, monitoring of revenue trends and adjusting estimates to account for unanticipated changes, and staffing in a manner to avoid hiring and laying off employees.*
9. The Operating and Capital Budgets must be sustainable and meet the needs of the present without compromising the ability of future generations to meet their own needs. *Proposed increases in service delivery are focused and affordable within historical revenue growth assumptions. The Town's funding of its post-employment employee benefits liability is an example of sustainability in that currently accruing expenses are being funded with current revenue.*

TRADITIONAL BUDGET DRIVERS: ENROLLMENT, EMPLOYEE BENEFITS, AND STAFFING

As is true every year, expenditures relating to growth in the population served, and the costs associated with providing those services are key drivers of budget growth.

School Enrollment

School enrollment declined by 3.9% in 2020/2021, ticked up 0.6% in 2021/2022, increased again slightly by 0.2% in 2022/2023, and again by 0.4% in 2023/2024. Current enrollment of 5,547 is still 159 students below the last school year before the Pandemic (2019/2020), although it has steadily rebounded from the loss of 223 students in the 2020/2021 school year. Students remain impacted by the pandemic and continue to require critical support services. Table 2 details school enrollment from 2014/2015 to 2023/2024.

Table 2
School Enrollment 2014/2015 to 2023/2024

School Year	Enrollment	Percentage Change
2014/2015	5,519	-0.1%
2015/2016	5,581	1.1%
2016/2017	5,588	0.1%
2017/2018	5,666	1.4%
2018/2019	5,721	1.0%
2019/2020	5,706	-0.3%
2020/2021	5,483	-3.9%
2021/2022	5,515	0.6%
2022/2023	5,525	0.2%
2023/2024	5,547	0.4%

Source: DESE/Needham Public Schools

Employee Benefits

The recommended FY2025 employee benefits budget represents an increase of 4.4%. The budget is based on an estimated increase in group health insurance rates of 10% and includes \$124,748 in funding to support the recommended increase in employee headcount. The Town has managed to keep its employee benefits line fairly stable for the past several years – due to enrollment trends and plan selection – which has had a positive impact on the operating budget. Table 3 highlights group insurance enrollment for the last ten years.

Table 3
Group Health Insurance Enrollment FY2015 to FY2024

FY2015 - 2024						
Fiscal Year	Town	% Increase over Prior Year	School	% Increase over Prior Year	Total Actives	% Increase over Prior Year

Staffing

Targeted staffing increases are recommended to meet existing and growing service delivery needs, safety, and sustainability of Town assets. Recommended funding on the municipal side is targeted to service delivery redesign (3 FTEs in Public Works), new project support (0.3 FTE in Building Design and Construction), delayed funding of prior year requests (1 FTE in the Department of Public Works), and continuation of existing grant-funded staff (3 full-time and 1 part-time FTEs in Health & Human Services). The total recommended headcount increase is 7.3 Municipal FTEs and 9.1 School FTEs. Table 4 details the growth in Full-time Equivalent Employees from FY2020 to FY2024 – 18.4 or 4.9% on the Municipal side, and 58.8 or 7.4% on the School side.

Table 4

* Proposed FY2025 reflects the Superintendent's revised budget

SCHOOL/TOWN INFORMATION TECHNOLOGY CONVERSION PLAN

Over the past year, Town and School staff have engaged in an evaluation of the possibility of consolidating Information Technology (IT) functions. The firm Plante Moran LLC was engaged to conduct an analysis and concluded its Organizational Assessment in November, 2023. That report recommended that the Town and School technology departments be unified within a single structure under the School Department. The planned move is predicted to result in greater cohesion, efficiency, and collaboration; improve strategic planning; and provide consistent implementation of policy, procedure, and training. Additionally, the firm recommended the Town strengthen services by investing in IT infrastructure, including cybersecurity resources.

Staff have developed a budget recommendation for this transitional year in the amount of \$934,055 proposed for a financial warrant article. Of this amount, \$248,000 would be funded by the Tax Levy and \$686,055 would be funded through Free Cash. No additional staff are requested to implement the proposed transitional structure in FY2025, however, \$129,859 is recommended for transition personnel costs and to backfill certain functions. The balance of the funding will support network monitoring, response and cybersecurity training (\$204,035), Zoom phone system configuration, deployment and support (\$91,700), print management services (\$65,000), Town help desk support, including 24/7 services to public safety functions (\$93,673), network managed services (\$181,128), strategic plan and policy/procedure development (\$100,000), expansion of device replacement to 100 devices per year (\$52,500), and miscellaneous expenses (\$16,160). For the purposes of this budget, the \$248,000 tax-levy supported amount is included in the Finance Department budget – our

recommendation is to remove that funding from the operating budget and include it in the proposed warrant article.

BALANCED BUDGET HIGHLIGHTS

The recommended FY2025 budget was developed with the Select Board's voted goals in mind. A full list of the Select Board's FY2024-FY2025 goals is included as Appendix A. The following is a summary of significant changes from prior years and recommended changes to the submitted budgets. A full discussion of each department is included in the submitted departmental spending requests in Section 3.

Casualty, Liability, Property, & Self-Insurance Program – \$972,560

The Insurance budget recommendation is 5.4% higher than FY2024. This increase is primarily attributed to increased premium costs.

General Fund Debt Service - \$17,503,332

The recommended debt service budget is 0.2% less than in FY2024, due to a decline in excluded debt service.

Group Insurance, Employee Benefits, and Administrative Cost – \$18,379,285

The recommended budget is 4.4% higher than FY2024 and includes \$124,748 in funding associated with recommended increases in headcount.

Needham Electric Light & Gas Program – \$5,669,038

The recommended budget is 0.2% higher than FY2024. The primary factors which have influenced this budget submission are the increase in the average rate for electricity, level price for natural gas, lower consumption estimates for both electric and natural gas, and only one new building coming online during FY2025. The budget for solar power generation decreased by approximately 1%, based on the amount of power produced.

Retiree Insurance and Insurance Liability Fund - \$8,141,306

The recommended budget is 0.7% lower than FY2024. This line funds the on-going health insurance program for retirees and the reserve for Other Post-Employment Benefits (OPEB) liability. The funding schedule is consistent with the actuarial analysis as of June 30, 2023 (measurement date).

Contributory Retirement Assessment – \$13,305,237

The recommended budget is 8% higher than FY2024. The Retirement Assessment is based on the most recent actuarial analysis as of January 1, 2023.

Workers Compensation – \$784,263

The recommended Workers Compensation budget is level funded except for an increase of \$5,008 (0.6%) reflective of costs associated with recommended increases in headcount.

Injury on Duty & 111F – \$165,792

The recommended budget is 4% higher than FY2024 to reflect the expected cost of salary and wage growth.

Classification, Performance, and Settlements (CPS) – \$881,000

This line provides a reserve for funding General Government personnel-related items as they occur during the year and fluctuates annually depending on the number of collective bargaining agreements that have not been settled for a given year. The Needham Independent Town Workers Association and the Needham Independent Public Employee Association contracts are not settled for FY2025. FY2025 salary and wage increases for these

employee and for non-union staff are included in this line and not in the individual department budgets.

Reserve Fund – \$2,000,000

The recommended budget for the reserve fund is the same as in FY2024, a reduction from the submitted budget in the amount of \$499,995.

Office of the Town Manager/Select Board – \$1,586,314

The recommended budget for the Office of the Town Manager/Select Board is 5.4% higher than in FY2024. The increase is primarily attributable to salary and wage increases for existing personnel, and the one-time and ongoing costs (\$35,000) for town-wide board and committee board meeting software.

Town Clerk/Board of Registrars - \$578,078

The recommended budget for the Office of the Town Clerk/Board of Registrars is 14.2% higher than FY2024. The increase is primarily attributable to regular salary and wage increases for existing personnel, and an increase in the number of elections to be held in FY2025.

Legal Services – \$329,140

The legal services budget has been level funded for FY2025 (a reduction from the submitted budget in the amount of \$10,860).

Finance Department – \$4,274,804

The recommended budget for the Finance Department is 12.1% higher than in FY2024. The increase is attributable to regular salary and wage increase for existing personnel, increasing costs for software licenses, and the additional out-sourced technology services discussed above. Funding for a multi-purpose printer has been deferred (\$16,500).

Finance Committee – \$47,125

The recommended budget for the Finance Committee is 0.4% higher than FY2024. The increase is primarily attributable to salary and wage increases for existing personnel.

Planning & Community Development – \$627,296

The recommended budget for the Planning and Community Development Department is 2.2% higher than FY2024, primarily attributable to salary and wage increases for existing personnel. The submitted budget has been reduced by \$97,700 to reflect the deferral of an additional planner for the Department (this item remains a priority and will be considered in a future year) and for additional administrative support hours.

Police Department – \$9,673,085

The recommended budget for the Police Department is 10.6% higher than FY2024. The increase is primarily attributable to salary and wage increases for existing personnel, and an increase in the number of police cruisers funded in the operating capital line.

Fire Department – \$11,899,843

The recommended budget for the Fire Department is 6.3% higher than FY2024. The increase is primarily attributable to salary and wage increases for existing personnel, contractual costs increases for existing services, and new software license agreement costs.

Building Department – \$901,424

The recommended budget for the Building Department is 0.8% higher than FY2024. The increase is primarily attributable to salary and wage increases for existing personnel.

Minuteman School Assessment - \$1,844,321

The recommended budget for the Minuteman School Assessment is 12.4% higher than FY2024. The increase is based on the Acting Superintendent's recommended budget to the Minuteman School Committee. The amount of the assessment may change once the Minuteman School Committee votes its final budget for FY2025.

Needham Public Schools - \$97,517,926

The Superintendent's recommended budget for the Needham Public Schools is 5.8% higher than FY2024. The voted budget of the Needham School Committee was not available at the time of the distribution of this proposed budget and will be included as an addendum if the voted budget is different from this recommendation, in accordance with the General By-laws of the Town.

Building Design & Construction - \$392,582

The recommended budget for the Building Design and Construction Department is 10.6% higher than in FY2024. The increase is attributable to regular salary and wage increases for existing personnel, and funding of 25% of a senior project manager to support the Pollard Middle School feasibility study. The remaining funding for the project manager is included in the capital article for that project.

Public Works - \$21,954,868

The recommended budget for the Department of Public Works is 7.6% higher than in FY2024. The expense portion of the increase is primarily associated with contractual cost increases for existing services. The salary portion is attributable to regular salary and wage increases for existing personnel, the addition of an Assistant Fleet Supervisor position (funded mid-year) and three custodians associated with in sourcing the cleaning of the Newman Elementary School. Accounting for the savings associated with canceling the contract cleaning services, the proposed service delivery change nets an increase of approximately \$28,000. The submitted budget was reduced by \$388,707 as several requests were deferred including the forestry management program (except that \$10,000 is recommended to begin the public shade tree inventory), a park ranger position, an HMEO in the Highway Division, half year funding for the Assistant Fleet Supervisor, and a Building Maintenance lift.

Municipal Parking - \$172,252

The recommended budget for the municipal parking program is 7.9% higher than in FY2024. The increase is primarily attributable to cost increases for rent that the Town pays for certain lots, and new parking space rental to accommodate the Center at the Heights.

Health & Human Services (HHS) Department - \$2,748,601

The recommended budget for the Health & Human Services Department is 7.7% higher than in FY2024. This increase is attributable primarily to regular salary and wage increase for existing personnel, and for half year funding for continuation of positions funded by ARPA. ARPA funding expires on December 31, 2024. The positions include a data analyst/epidemiologist, a public health nurse, a youth mental health clinician, and an aging services clinician. The submitted HHS budget has been reduced by \$43,324 as additional administrative hours for the Center at the Heights and additional hours for environmental health services have been deferred.

Commission on Disabilities - \$2,050

The recommended budget for the Commission on Disabilities in FY2025 is level funded.

Historical Commission - \$1,050

The recommended budget for the Historical Commission in FY2025 is level funded.

Public Library – \$2,310,045

The Needham Public Library budget recommendation is 3.3% higher than in FY2024, primarily attributable to regular salary and wage increase for personnel. The recommended budget reflects a decrease from the submitted budget in the amount of \$40,890, as funding for a part-time reference librarian has been deferred.

Park and Recreation – \$1,513,502

The Park & Recreation budget recommendation is 2.4% higher than in FY2024, primarily attributable to regular salary and wage increases for existing personnel, and contractual cost increases for existing services.

Memorial Park Trustees – \$750

The recommended budget for the Memorial Park Trustees in FY2025 is level funded.

Needham Council for Arts and Culture – \$8,300

The recommended budget for NCAC is level-funded. The NCAC did seek funding for an additional \$10,000 to support art and culture in Needham. We support this proposal and will endeavor to fund it in future years. The NCAC still has access to some limited ARPA funds in the first half of FY2025 that it can use for this purpose.

ENTERPRISE FUNDS

Sewer – \$9,946,823

The Sewer Enterprise Fund budget is increasing by 1.9%. The increase is attributable to regular salary and wage increases for existing personnel, expenses (mostly contractual cost increases for existing services), operating capital (replacement pumps), and debt service. The MWRA Assessment has been level-funded at this time, as final water and sewer assessments have not been determined.

Water – \$6,801,995

The Water Enterprise Fund budget is increasing by 5.8%. The increase is attributable to regular salary and wage increases for existing personnel, expenses (energy and contractual cost increases for existing services), and debt service. The MWRA Assessment has been level-funded at this time, as final water and sewer assessments have not been determined.

BEYOND THE OPERATING BUDGET

Capital Improvement Budget

The Capital Improvement Plan Executive Summary is contained in Section 4 of this document. The recommended FY2025 Capital recommendations have been updated as follows:

- The School Department and Building Design and Construction Department have determined that the amount needed for the Pollard Middle School feasibility study is \$2,750,000 – a reduction of \$1,200,000.
- We recommend full funding of the General Fund Fleet Replacement including:
 - Purchase of an additional pick-up truck (Unit 302) for the Department of Public Works (\$50,880)
 - Replacement of Unit C43 Ford Escape (\$72,523)
 - Replacement of Unit 74 Ford F550 (\$116,996)
 - Replacement of Unit 72 Ford F-550 (\$152,142)
 - Replacement of Unit 703 Ford Transit Cargo Van (\$81,647)

- Replacement of Unit 588 For F-150 (\$82,902)
 - Replacement of Unit 350 John Deere Loader (\$68,229)
 - Auditorium Theatrical Light & Sound Design (\$229,928 – for a total of \$344,558)
- If the amount of Free Cash certified exceeds our projection, we will recommend that the Fire Engine – currently proposed to be funded through debt – be funded partially or entirely by cash.

Other Financial Warrant Articles

Given the amount of cash available for appropriation, and consistent with the Town's policy to minimize the use of Free Cash for recurring operating expenses, the FY2025 proposed budget includes the allocation of funds to one-time programs, projects, and reserves. Changes to the funding recommendations may be made during the coming months depending on updated revenue estimates.

Consolidated Technology Services - \$686,055

This is the balance of funds requested for the School/Town Information Technology Services Consolidation plan as described above. The balance of the funding needed (\$248,000/tax levy) is included in the Finance Department budget at this time. (Source: Free Cash)

Facilities Maintenance Program – \$1,000,000

This recurring warrant article funds the annual maintenance of public buildings throughout the Town and School department, including, but not limited to asbestos abatement, duct cleaning, painting, and other repairs and necessary upgrades. (Source: Overlay Surplus)

Fire Alarm Wire Removal - \$201,885

This request is to fund the removal of all the fire alarm wiring on circuits throughout Town. The wiring is no longer in use and must be removed whenever a pole is relocated or replaced. (Source: \$99,145 Free Cash and \$102,740 Other Available Funds)

Planning Consulting Assistance - \$80,000

These funds would provide support to the Planning and Community Development Department, enabling the Director to engage professional services from time to time to support regulatory functions of the Planning and Community Development Department, which oversees permit granting for the Planning Board, the Zoning Board of Appeals, and the Conservation Commission; and land use and town planning initiatives of the Planning Department. (Source: Overlay Surplus)

Property Tax Assistance Program – \$50,000

The Property Tax Assistance Program provides small grants to taxpayers in need. (Source: Overlay Surplus)

Scientific Experts and Consultants – \$50,000

The request is to establish a source of funding that allows the Board of Health to retain outside scientific experts and consultants to evaluate novel and emerging health issues about which the Board and the Public Health Division lack the necessary expertise. (Source: Overlay Surplus)

Small Repair Grant Program – \$50,000

The Small Repair Grant Program provides financial assistance to low-income or disabled senior Needham residents to make repairs and alterations to their homes for health and safety reasons. (Source: Overlay Surplus)

Unpaid Bills of a Prior Year – \$16,845

Approval of Town Meeting is required to pay bills of a prior fiscal year received after the close of the year. (Source: Overlay Surplus)

Athletic Facility Improvement Fund – \$68,743

The purpose of the Athletic Facility Improvement Fund is to set aside capital funds for renovation and reconstruction of the Town's athletic facilities and associated structures. Table B.1 in Appendix B outlines appropriations to the fund over the past five years and is included at the end of this section. The funding recommendation is based on the amount raised by the Park & Recreation Department's field maintenance fee collected in FY2023. (Source: Free Cash)

Drains/Sewer Contribution – \$776,019

The annual contribution to the Sewer Enterprise Fund offsets the cost of the drains program. The drains program - a General Fund expense - is appropriated to the Sewer Enterprise Fund as it is more efficient to account for the program in that manner. The Town continues to evaluate the benefits and challenges of funding the drains/stormwater program within the General Fund and will be recommending changes to the financial structure in the coming years. (Source: Tax Levy)

Fleet Refurbishment - \$75,000

The goal of this program is to extend the life cycle of vehicles, increase operational safety, and eventually reduce reactive maintenance. This is a recurring request, based on need. (Source: Water Enterprise Fund Retained Earnings)

Allowance for Abatements and Exemptions – \$1,929,902

These funds are reserved for property tax abatements and statutory exemptions. After the actual new growth revenue for FY2025 is known, the amount of overlay may change. The final amount of the reserve will be determined by the Department of Revenue when it approves the tax rate in December. (Source: Tax Levy)

CONCLUSION

This balanced budget proposal is promulgated prior to the completion of the budget process for the Commonwealth. As revenue estimates are refined in the winter and spring, we will work with the various Town boards and committees in preparing the final budget to be presented to Town Meeting.

Our entire management team has worked collectively to implement creative ways of meeting the Town's sustainability goals. Efforts have been made to implement measures that will maximize the productivity of our organization and deliver the highest quality of services within available resources, aligned with stated goals of elected and appointed boards, committees, and commissions. I would especially like to thank Superintendent of Schools Dan Gutekanst, Deputy Town Manager David Davison, Deputy Town Manager Katie King, and Support Services Manager Myles Tucker for their work in the development of this budget.

I appreciate the spirit of cooperation that has been demonstrated by the Select Board, School Committee, and Finance Committee in the development of this budget, and applaud the commitment to sustainability on the part of Town boards and committees, Town Meeting, and ultimately the community. We are fortunate to have dedicated staff working every day to maintain the high quality of life our residents expect and deserve.

I couldn't be prouder to be associated with local government and the Town of Needham. I thank you for the opportunity to serve the residents and businesses in the Town of Needham.

Respectfully submitted,

A handwritten signature in cursive script, appearing to read "Kate Fitzgerald".

Town Manager

Appendix A

Select Board Budget Priorities

Budget Priorities

The Select Board has adopted seven goals that serve as key guidelines in the evaluation and prioritization of departmental spending requests.

1. Healthy and Socially Thriving – Needham residents enjoy plentiful recreational, cultural, and educational opportunities in an environment that upholds human rights, celebrates diversity, and fosters a sense of connection among neighbors, thus strengthening their bond to the community they proudly call home.
 - a. Cultivates a wide range of recreational, cultural, educational, civic, and social opportunities for all socioeconomic and age groups;
 - b. Supports the physical and mental well-being of its community members;
 - c. Fosters inclusion, diversity, and equity in order to become a culturally responsive, anti-racist, and anti-biased community; and
 - d. Values public art.
2. Economically Vital – Needham welcomes investment in local businesses and has a thriving local economy that contributes to a growing local tax base to support desirable community amenities and programs.
 - a. Has a growth mindset and encourages business development and redevelopment;
 - b. Supports an environment for creativity, innovation, and entrepreneurship;
 - c. Promotes a well-educated, skilled, and diverse work force that meets employers' needs;
 - d. Fosters a collaborative and resource-rich regional business climate;
 - e. Attracts, sustains, and retains a diverse mix of businesses, entrepreneurs and jobs that support the needs of all community members; and
 - f. Supports financial security and economic opportunity.
3. Livable– Needham values diversity and a broad spectrum of housing options. The community is supported by well-maintained public infrastructure and desirable amenities that accommodate a variety of community needs.
 - a. Promotes and sustains a secure, clean, and attractive place to live, work and play;
 - b. Supports an increase of housing, including a variety of types and price points;
 - c. Provides high-performing, reliable, affordable public infrastructure and Town services;
 - d. Encourages and appropriately regulates sustainable development; and
 - e. Supports and enhances neighborhood livability and accessibility for all members of the community.
4. Accessible and Connected – In Needham, people can easily and affordably travel to their desired destinations without relying solely on cars.
 - a. Supports a balanced transportation system that reflects effective land use, manages congestion, and facilitates strong regional multimodal connections;
 - b. Offers and encourages a variety of safe, comfortable, affordable, reliable, convenient, and clean mobility options;
 - c. Applies Complete Street principles to evaluate and prioritize bicycle and pedestrian safety;
 - d. Coordinates with state and federal leaders to ensure access to safe, reliable, and efficient public transit;
 - e. Provides effective infrastructure and services that enables people to connect with the natural and built environment; and
 - f. Promotes transportation options to remain an age-friendly community.

5. Safe – Needham is a welcoming and inclusive community that fosters personal and community safety.
 - a. Provides public safety in a manner consistent with community values;
 - b. Provides comprehensive advanced life support level care;
 - c. Plans for and provides equitable, timely and effective services and responses to emergencies and natural disasters;
 - d. Fosters a climate of safety in homes, businesses, neighborhoods, streets, sidewalks, bike lanes, schools, and public places; and
 - e. Encourages shared responsibility, provides education on personal and community safety, and fosters an environment that is welcoming and inclusive.
6. Responsibly Governed – Needham has an open and accessible Town government that fosters community engagement and trust while providing excellent municipal services.
 - a. Models stewardship and sustainability of the Town’s financial, human, information, and physical assets;
 - b. Invests in making Town-owned buildings safe and functional;
 - c. Supports strategic decision-making with opportunities for engagement and timely, reliable, and accurate data and analysis;
 - d. Enhances and facilitates transparency, accuracy, efficiency, effectiveness, and quality service in all municipal business;
 - e. Supports, develops, and enhances relationships between the Town and community and regional partners;
 - f. Proactively reviews and updates Town policies and regulations and ensures compliance;
 - g. Promotes collaboration between boards and committees;
 - h. Values the local government workforce;
 - i. Identifies and implements strategies to hire, support and retain diverse staff at every level of the organization; and
 - j. Prioritizes acquisition of strategic parcels.
7. Environmentally Sustainable – Needham is a sustainable, thriving and equitable community that benefits from and supports clean energy; preserves and responsibly uses the earth’s resources; and cares for ecosystems.
 - a. Combats the climate crisis;
 - b. Prioritizes sustainability, including transitioning from fossil fuels to clean, renewable energy;
 - c. Encourages the efficient use of natural resources; and
 - d. Protects and enhances the biodiversity and vitality of ecological systems.

Community Preservation Fund	4,550,915	4,619,839	3,966,115	(653,724)	-14.2%
Total Funding Sources*	258,150,700	256,770,145	266,163,644	9,393,499	3.7%

* Before adjustments, reimbursements, and subsidies

The General Fund accounts for revenues and expenditures necessary to provide governmental services and expenses. By definition, all financial resources that are not required to be accounted for in other funds are accounted for in the General Fund. The above table 2.1 shows that the total estimated funding sources for FY2025 will increase by approximately \$9.4 million or 3.7%. There is a large funding request from the Needham Housing Authority to the Community Preservation Committee, which if funded will require a substantial amount of the CPA reserves to fund, but no amount has been assumed or included in the CPA funding estimate for FY2025. The amount of Free Cash available for General Fund appropriation is not yet known, but we estimate the amount will be similar to the amount certified last year, in part because more than \$2.8 million was returned. For the purpose of this budget plan, we assume a Free Cash amount of \$15 million available for appropriation. This compares to the \$14,522,850 of Free Cash that was appropriated last year. Enterprise Fund appropriations for FY2024 included the use of \$5,006,274 of retained earnings. This budget plan has \$3,679,765 in retained earnings being used for appropriations and \$825,128 in one-time funds (prior capital projects) for FY2025 and receipts of \$15,800,000 (combined enterprise \$20,304,893). The Community Preservation Act (CPA) revenue estimate is \$3,966,115, but there is no assumption on the amount of CPA reserves that would be used to fund the three requests submitted to the Community Preservation Committee (CPC) for FY2025.

^subject to final audit

Table 2.2 shows total revenue available for General Fund appropriations projected at **\$244,580,718** or **\$10,835,440** more than FY2024. Revenue from the property tax is estimated to grow by approximately \$7.9 million, state aid is estimated to grow by \$584,717, and local

receipts are estimated at \$279,750 more than the current year. Free Cash for appropriation has been assumed at \$15 million for FY2025.

The use of reserves and other available funds is approximately \$1.3 million higher than was used for FY2024. Free Cash is essentially level when compared to \$14,522,850 used for FY2024. The estimated total adjustment to General Fund revenues is \$253,053 more for FY2025 compared to FY2024. It is important to note that these are preliminary revenue projections. They are subject to change and should be viewed in this context for reasons discussed later.

FY2025 GENERAL FUND REVENUE ESTIMATE ASSUMPTIONS

Property Taxes

Under Massachusetts General Laws, property taxes overall are restricted to increases of 2.5% plus tax revenues derived from new growth. This is referred to as the annual levy limit. An additional taxing limitation under Proposition 2½ is the levy ceiling. The levy ceiling is equal to 2.5% of the Town's valuation. The total taxable value of the Town as of January 1, 2023 was \$13,145,798,176. This puts the tax levy ceiling at \$328,644,954. The tax levy including debt exclusions for FY2024 was \$184,565,923, so the Town is well below its legal ceiling.

The new growth tax revenue is derived from improvements to property by its use, reconstruction, or new construction, and is added to the tax base. The annual levy limit may also be increased by the amount of any general override (usually for operating expenses), and capital exclusion override. The annual levy limit is also increased by the amount of debt service that is payable during the year for debt that has been approved by the voters as a debt exclusion override. The increase in the FY2025 tax levy attributable to new growth is estimated based upon information provided by the Assessing and Building Departments.

Property Tax Levy

The property tax levy (refer to Table 2.3.1 on the next page) represents approximately 79.6% (Table 2.8) of all general fund revenues before adjustments. The FY2025 property tax levy is estimated to increase approximately 4.3% over the FY2024 actual tax levy, or approximately \$7.9 million. This compares to the nearly \$6.3 million increase that FY2024 tax levy was over the FY2023 actual levy, or approximately 3.2% increase. The tax revenue to support operations within the levy limit is increasing by an estimate of 5.1% over FY2024. Property Tax New Growth revenue has been much higher in recent years and the amount of New Growth for FY2024 (\$4,988,788) was over one million dollars more than FY2023 (\$3,968,707) and comparable to the amount realized for FY2022 (\$4,731,856). This higher New Growth amounts are not anticipated to continue. Higher interest rates have had an impact on the real estate market. Recent construction activity are projects that were approved and permitted before the series of interest rate hikes. The FY2025 budget plan assumes New Growth revenue of approximately \$2.2 million but may be amended when building activity through the end of 2023 is captured. The New Growth revenue during recent years was higher due to the significant investment and installation of equipment by the public utilities. New Growth revenue increase during those years resulted from the reduction of the exemption in the Tax Incremental Financing (TIF) agreement with TripAdvisor from 76% of the original new construction value to one percent of the initial value. With the reduction in the TIF amount for TripAdvisor, the new tax revenue increased by more than \$1.4 million. The one percent exemption continues through FY2028. The State has allowed the TIF to remain in place even though TripAdvisor fell short on some of its required benchmarks, which

Fiscal Year 2025 Proposed Budget

were primarily due to COVID. COVID impacted much of the economy, but the hospitality and travel markets were impacted much more so than many. The Town also has a ten-year TIF agreement with NBCU which provides for a 70% deferral of the initial new growth value for four years, then declines to a 5% deferral for the fifth year, and then declines to a deferral of 1% of the original growth for the last five years of the agreement. However, the NBCU project delivered \$1.5 million in new personal property tax revenue for the Town in FY2020, revenue the Town would not have realized from a standard office complex development. The redevelopment of the former MUZI site that was anticipated to generate \$3 to \$5 million in New Growth revenue within the next couple of years has not materialized as the developer plans have been put on hold for an indeterminate period. Therefore, we have not included any amount in the FY2025 New Growth estimate related to that property. However, we are still weighing the options to amend the Debt Services Stabilization Fund (DSSF) to dedicate a New Growth revenue that could be realized from the redevelopment of the property to the DSSF. Town Meeting approval is required. The Town can take proactive steps now to secure those funds for the considerable investment in Town assets in the coming years.

Property Tax Levy	162,438,801	170,833,899	178,892,914	184,565,923	192,495,723	7,929,800
Collections by Year End*	161,661,687	170,417,731	178,257,886			

*Includes collections of prior year taxes and pending refunds

The tax levy limit is calculated by increasing the allowed FY2024 levy limit, exclusive of debt exclusions, by 2.5% and then adding a component for new growth. New growth is a function of the additional value generated by construction during the preceding year. The additional tax dollar amount for new growth is determined by the value on the January 1 assessment date and is then multiplied by the applicable FY2024 tax rate.

The increase in the levy limit above the allowable annual limit and new growth is limited to the amount to be raised to pay the debt that has been excluded from the levy limit by the voters of Needham. The base tax levy, before accounting for debt exclusions, is expected to increase by approximately \$8.8 million over the FY2024 actual base levy. The amount of tax excluded debt that is to be paid by property taxes is estimated to decrease by \$861,782 for FY2025 over the FY2024 tax levy. The total excluded debt declined from \$13,844,279 in FY2023 to \$10,764,226 in FY2024. The excluded debt in FY2025 will decline to \$9,794,892. The excluded debt service and its effect on the tax levy will decline every year going forward, unless and until new projects are approved by the voters of Needham.

Table 2.3.2 (next page) shows the annual debt service by project that was added to the tax levy for fiscal years 2021 through 2024, and the amount to be added to FY2025. The table

Fiscal Year 2025 Proposed Budget

shows the percentage that the gross excluded debt would have increased the tax levy, and the percentage that the net excluded debt (the gross debt adjusted for offsets and adjustments) made up of the total tax levy. For FY2024, the total excluded debt service was \$10,764,226 which could have added 6.2% to the tax levy, but after accounting for the allowed adjustments, the actual amount added to the tax levy was \$10,584,979 which represented 5.7% of the total tax levy for the year. For FY2025, the \$9,794,892 in total excluded debt would add 5.4% to the estimated levy for the year, but with the credits, the net to be raised as the percent of the levy would be 5.1%.

Debt Exclusions Added to Tax Levy FY2021 - FY2025

Chart I

The property tax that one pays is primarily influenced by three factors: 1) Town Meeting appropriations and other amounts that the Town is required to pay, 2) the property tax allocation between commercial and residential, and 3) property values (assessments). The real estate market in Needham has remained strong compared to other areas in the state and the nation. The actual New Growth Figure will not be finalized until the fall and cannot be incorporated in the tax recap until certified by the Massachusetts Department of Revenue.

* Adopted shift of property taxes from residential to commercial (rounded)		
Source: DOR		

The Average Single-Family Home (ASFH) property tax bill for FY2024 in the Town of Needham was \$14,994. This represents a 3.2% increase over FY2023 (\$14,528). The chart on the previous page (Chart I) shows the ASFH tax bill for Needham and the percent change from the prior year for the period of FY2015 to FY2024. The Department of Revenue has not yet released any data related to the ASFH property tax bill in other communities for FY2024, so we have provided the data for FY2023. Needham's average single family home property tax bill is in the lower middle of 22 nearby or comparable communities (Chart II), but well over the state-wide average of \$7,059. Other than the Town of Norwood, all the communities in the group are above the state-wide average. This should not be unexpected as the value of many homes in this area is much greater than in the state overall. The average tax bill of the identified communities (excluding Needham), for FY2023 was \$14,365 which is 5.0% more than the average

of those communities in FY2022 (\$13,678). The average single family home tax bill in Needham for FY2023 increased by 6.9% from FY2022 (\$14,528 vs \$13,586). The average single family home tax bill increase state-wide was 5.0% (\$7,059 vs \$6,724). Another variable which affects the residential tax bill is whether a community shifts additional taxes from residential property to commercial property. The Select Board must hold an annual public hearing prior to submitting

Fiscal Year 2025 Proposed Budget

approval of the tax rate to the Department of Revenue of whether adopt split tax rates and if so to what extent. State law allows a maximum shift of 1.75. The Town of Needham has adopted that shift level for a number of years. Of the 22 nearby or comparable communities, 12 adopted a shift of taxes from residential to commercial and ten communities did not shift taxes (adopting a single tax rate for all property) for FY2023. The range of the shift for communities that did adopt a shift was 1.260 (Sudbury) to 1.750 (Bedford, Dedham, and Lexington).

State Aid

Most State aid, especially Cherry Sheet aid, is a function of the State budget. The Governor is not required to file the state budget plan until the fourth Wednesday in January (January 24, 2024). This will be after the release and presentation of the Town Manager's Balanced Budget for FY2025. At the time of this estimate, the Governor had already announced 9C FY2024 budget cuts. 9C is a general reference to the section of State Law (Chapter 29) that gives the governor the authority to make unilateral budget cuts to balance the current year budget without legislative approval. Although the reductions do not impact the current Cherry Sheet revenue distribution to Needham for FY2024, there are other appropriations approved by the State which support specific expenditures and programs that Needham relies on which have been reduced. The state revenue forecast for FY2025 suggests an increase in state aid, but at this time, we anticipate that the amount of aid will not be at that level and not at a level seen during the last couple of years. For the purposes of this estimate, we have assumed a 4.0% increase over the current fiscal year in Chapter 70 and a 2.5% increase in Unrestricted General Government Aid (UGGA). We have assumed that all the other Cherry Sheet aid programs which the Town is scheduled to receive for FY2024 will be level dollar for FY2025. During the winter and spring months, the Legislature will review the Governor's budget proposal, and will release its own budget proposal. In past years, such changes to local aid have altered both the amount of aid and the method of distribution.

State Aid Table 2.4						
Description	FY2021 Actual	FY2022 Actual	FY2023 Actual^	FY2024 Recap	FY2025 Estimate	\$ Change

^subject to final audit

The Governor's budget is presented to the Legislature, and the House of Representatives reviews it. The House Ways and Means Committee will develop its own recommendations to

present to the full House for debate and amendment. After the House adopts a budget plan, it is forwarded to the Senate for a similar process. After the Senate prepares and votes on its budget plan, the House and Senate conference by way of a committee to resolve any differences between the two budget plans. A single budget document is then presented to the full body of the House and subsequently to the Senate for final debate and vote. The approved budget is then sent to the Governor for approval or veto. During this entire process, amendments are usually made which can alter the amount of aid the Town will actually receive.

State aid (Table 2.4) on the previous page, represents approximately 6.7% (Table 2.8) of the total general fund before adjustments. As noted earlier, the Governor's budget plan is not expected until January 24, 2024, and so unless the Governor's budget plan assumes less total aid to Needham than our estimate, any revision to revenue would be to mitigate the reduction to Overlay. The Governor's budget proposal is subject to review and amendment, and final figures are not expected until late spring.

Cherry Sheet Aid

Cherry Sheet aid comes from the Commonwealth where funds are allocated either through distribution formulas or reimbursement formulas. Distribution formulas often incorporate equity factors such as property wealth, income, and effort. Reimbursement formulas provide full or partial funding for program expenditures or foregone revenues. In addition to reimbursements and distributions, there are also Cherry Sheet programs designated as Offset Items. These items are amounts that constitute categorical aid, i.e., funds that must be spent for specific programs. The funds received under programs designated as Offset Items may be spent without appropriation by the Town for the intended purpose (see Adjustments to General Fund Revenue). All other receipt items on the Cherry Sheet are considered revenues of the Town's general fund and may be spent for any purpose subject to appropriation. Chart III reflects the history of the total amount of Cherry Sheet aid broken out by general and education aid with the annual percentage change in the total for the years FY2015 through FY2024.

Chart III

Chapter 70 aid is commonly referred to as general school aid. The State explains that Chapter 70 is a formula aid program that is based on a Foundation Budget that is calculated by the Commonwealth for each school system, which considers enrollment, pupil characteristics, inflation, and geographical differences in costs such as wages. The Foundation Budget is what the State has determined to be the minimum spending level for a school system. The formula takes into consideration a community's ability to pay the cost of education based on property values and income. This information is based on equalized property valuations calculated by the Massachusetts Department of Revenue every other year and income data from State tax returns. The State's goal was to ensure that a minimum of 17.5% of the calculated budget for each school system was made up of State aid. This is not 17.5% of what a community may choose to fund.

The Town of Needham saw an increase in Chapter 70 funding every year since FY2015. The Town received \$337,938 more in FY2015, an increase of 4.3%, followed by \$134,050 increase, 1.6% in FY2016. The distribution from the State in FY2017 was \$297,605 more or 3.6% over prior year, followed by a \$494,965 (5.7%) increase for FY2018. The Town received \$709,792, an increase of 7.7% in FY2019, followed by a 5.8% increase or \$575,563 in FY2020, and \$574,068 more in FY2021 or 5.5%. During FY2022 the Town received \$166,830, just 1.5% more than FY2021, but during FY2023 the Town received \$12,371,314, an increase of \$1,178,701 (10.5%). The Town is estimated to receive \$13,312,456 or \$941,142 (7.6%) more for FY2024, provide the Governor does not make additional cuts which impact local aid. The FY2025 estimate (\$13,845,000) is 532,544 higher than the current year, or a 4.0% increase. Chart IV shows the annual percent change in Chapter 70 aid from FY2015 through FY2025.

Chart IV

The Additional Assistance and Lottery aid programs were consolidated into a new aid category called **Unrestricted General Government Aid (UGGA)** in FY2010. The Town received \$1,853,722 in FY2020, an increase of \$48,735 or 2.7% more than the prior year; for FY2021 the Town received the same amount (\$1,853,722), and for FY2022 the Town received \$1,801,326 a decrease of \$52,396. The Town was scheduled to receive \$1,918,602 for

FY2022 or \$64,880 (3.5%) more than the prior year, but the State distribution was not received until after end of the fiscal year. The monies were credited to FY2023. The Town received \$2,182,096 an increase of 21.1% during FY2023. The Town is estimated to receive \$2,086,917 for FY2024. This is \$95,179 less than what was credited during FY2023. However, as previously mentioned, FY2023 included an FY2022 payment which was not received until after the close of FY2022 (\$52,396) and also the Town received an additional \$107,493 above what was expected. We have estimated \$2,139,090 for FY2025, or \$52,173 (2.5%) more than the FY2024 Cherry Sheet amount.

The total for all the **other Cherry Sheet aid** programs that have been identified for Needham - charter school tuition, homeless transportation reimbursements, veterans' benefits, property tax exemption reimbursements, and aid to public libraries totaled \$71,021 for FY2021. The Town received \$163,441 in FY2022, and for FY2023 the Town received a total of \$140,661. The total of the other Cherry Sheet aid programs is \$141,429 for FY2024 and we assume the same amount for FY2025.

Local Receipts

Our time-honored approach of conservatively estimating local receipts is based on a target range. Our goal is to have a local estimate total, by the time the tax rate is sent to the Department of Revenue (DOR) for review, which is less than 80 percent of the prior year's actual receipts excluding non-recurring revenue. The FY2023 actual receipts were higher than FY2022 receipts by \$6,743,398. The FY2022 actual receipts were higher than FY2021 receipts by \$1,627,220. But the FY2022 local receipt increase was the first since FY2019. The FY2023 actual receipts of \$22,960,442 included \$616,205 of receipts that are classified as nonrecurring receipts. We have estimated total local receipts will increase by two percent over the FY2024 estimate. However, excluding nonrecurring revenue, the increase is 5.3%. The estimate, excluding nonrecurring revenue, is currently projected at approximately 63.6% of the 2023 actual receipts. The lower estimate as a percentage of the prior year actual is a reflection of two local receipt categories where the FY2023 revenue was exceptionally high. Comparing the estimate to the FY2022 actual, the estimate is approximately 89.4% of the actual.

We prepare the projections of local receipts by comparing FY2023 estimated receipts to actual receipts; FY2023 actual receipts to FY2022 actual receipts, FY2024 estimated receipts to the FY2023 actual receipts and FY2024 year-to-date numbers. We also look at trend lines over three and five years. The Department of Revenue will only allow a community to forecast local revenue up to the level of collection in the previous fiscal year. Under certain circumstances and with appropriate documentation, the Department of Revenue may allow a community to exceed its prior year actual revenue, e.g., by establishing a new fee or significantly increasing an existing fee or charge. During this analysis, the FY2024 estimated receipts were revised. As the year progresses, further analysis of collections will be performed to determine if fiscal year 2024 activity demonstrates a trend that deviates from projections. It is also important to note that if certain budgetary reductions are made to departments that generate or manage the collection of receipts, the estimate may need to be revisited.

Consequences of overly aggressive local receipt estimation include a reduction in the margin between budgeted and actual receipts to cover unanticipated drops in other revenue sources and unexpected increases in expenses (particularly non-appropriated costs), and lower Free Cash certification for the future year than would otherwise be possible. A tighter margin could

Fiscal Year 2025 Proposed Budget

also negatively affect the Town's credit rating, and hence increase borrowing costs for the Town and consequently higher tax bills for residents.

Local Receipts
Table 2.5

Description	FY2021 Actual	FY2022 Actual	FY2023 Actual^	FY2024 Recap	FY2025 Estimate	\$ Change

^subject to final audit

Local receipts represent approximately 5.9% (Table 2.8) of the total general fund before adjustments. Local receipts consist of items such as other taxes and excises, licenses, permits, and penalties, fines and forfeitures, investment income, and income from departmental activities and services. The budget estimate for FY2025 of **\$14,210,000** (Table 2.5) is an increase of \$279,750 or 2.0% from the revised FY2024 budget of \$13,930,250. However, the FY2024 estimate included \$435,000 of non-recurring receipts; so, a better comparison would be recurring receipts to recurring receipts. The FY2025 \$14.2 million estimate is 5.3% more than the \$13.5 million recurring estimate for FY2024, or \$714,750 more. When completing the tax rate setting process, we reduced some of the estimates and increased others for the FY2024 receipts based on FY2023 results and trends. The total was below the target range for estimation because some receipts for FY2023 were exceptionally (penalties and interest, building permits and investment income) higher than the prior year (FY2022) actual receipts, and current market conditions suggest these receipts may be lower than the actuals for FY2023.

The three major sources of local receipts, which made up nearly 67% of total receipts over the last four years (Chart V) on the next page, are Motor Vehicle Excise, Charges for Services, and License and Permits. Year after year motor vehicle excise tax is the major local revenue source accounting for as much as 37% of the total local receipts in a given year and the average percentage over the 2020 – 2023 time period was 33.9%. Therefore, an overestimation of this revenue will have a negative impact on the Town's financial position. All three receipt categories are influenced by the economy, locally and nationally, more so than other receipts.

Chart V

All vehicle owners who have their vehicles registered in the Commonwealth of Massachusetts pay an annual **Motor Vehicle Excise** tax to the community in which the vehicle is principally garaged. The Registry of Motor Vehicles provides listings several times during the year with the vehicles that are registered in Needham, along with the value for each. The vehicle values are the manufacturers' list prices for vehicles in their year of manufacture. The present market value, price paid, and/or condition are not considered for excise tax purposes. The excise tax law establishes its own formula for valuation for state tax purposes whereby only the manufacturer's list price and the age of the motor vehicle are considered. In the year preceding the model year of the vehicle (i.e., 2025 vehicle purchased in 2024) the value is 50%; in the model year the value is 90%; in the second year the value is 60%; in the third year the value is 40%; in the fourth year the value is 25%; and in the fifth and succeeding years the value is 10%. The Town relies on this information to calculate and issue excise bills. The motor vehicle excise tax rate is set by State law at \$25 per \$1,000 valuation. The rate is uniform throughout the Commonwealth.

We have assumed approximately an 8% increase or \$3,425,000 from the FY2024 revised estimate of \$5.1 million. Motor vehicle excise receipts for FY2025 are projected at approximately **\$5.5 million** which is 81.1% of the FY2023 actual. This is a revenue source that we continue to monitor closely. We do not anticipate increasing this revenue estimate

Fiscal Year 2025 Proposed Budget

any higher because a negative swing with this revenue item can have a notable impact on Free Cash.

In 1986, the Town of Needham adopted a local option room excise tax at 4%; the Town adopted the State-allowed rate of 6% which became effective January 1, 2010. Hotels, motels, and certain other establishments collect this excise on the taxable portion of rents they collect. The businesses remit the funds to the State. The State sends payments to the Town during the year, which is accounted for as **Other Excise** under the local receipts group. The Town of Needham also accepted the 0.75% local option meals excise effective January 1, 2010. The local establishments report and remit the meals tax to the Department of Revenue (DOR). Collections from both the room excise and the meals excise have shown recovery after the downturn due to COVID, which negatively impacted these revenue sources for a couple of years. A history of the last six completed fiscal years for each excise is shown in Chart VI. During FY2020 the Town received \$1,684,874 which was a decrease from the prior year. Revenues for FY2021 dropped to \$643,481, a decline of more than \$1 million from FY2020. However, during FY2022 the Town received \$1,415,760, a swing of \$772,279, more than 120% increase over the prior year. The following year (FY2023) receipts increased by \$551,809 to \$1,967,568, an increase of 39%. The revised estimate for FY2024 was set at \$1,400,000. We are forecasting an increase for next year but at a lower growth rate. The FY2025 estimate is **\$1,500,000**, a 7.1% increase over the FY2024 estimate and represents approximately 76% of the FY2023 actual.

Chart VI

Meals Excise				Room Excise			
Fiscal Year	Meals Excise	Fiscal Year	Meals Excise	Fiscal Year	Room Excise	Fiscal Year	Room Excise
2018	\$497,446	2021	\$329,495	2018	\$1,045,862	2021	\$313,986
2019	\$543,389	2022	\$501,341	2019	\$1,357,713	2022	\$914,419
2020	\$499,167	2023	\$599,284	2020	\$1,185,706	2023	\$1,368,285

The **Penalties & Interest** category includes penalties charged for the late payment of real estate and motor vehicle excise bills, tax lien redemptions, and interest accrued on deferred taxes. This is a revenue source that can have major swings from year to year. The fluctuations in actual collections reflect the unpredictability of the timing of payments, particularly settlements on deferred taxes and tax title accounts. The FY2021 actual receipts were \$499,343 and FY2022 receipts were \$515,392. The FY2023 receipts were \$877,076 as the Town has been seeing more overdue accounts settling up as entities continue their recovery from the economic effects of the pandemic. The revised estimate for FY2024 was increased to \$315,000 and we have set the FY2025 estimate at **\$337,000** which is a 7% increase over the current year and is approximately 38% of the prior year actual.

Payment In Lieu of Tax is a voluntary payment made by certain tax-exempt entities. The Town receives payments from BID/Needham and the Needham Housing Authority (NHA), but payment from the NHA is dependent on Federal funding. The Town and the Hospital executed a new PILOT agreement in November 2023. The Town received \$93,000 in FY2020 which was a decline from the prior year. However, there was a delay in receiving scheduled payments during FY2020. There was a bump up in revenue for FY2021 with \$139,204, and a further increase for FY2022 at \$147,913, only to decrease by \$44,053 in FY2023 for a total of

Fiscal Year 2025 Proposed Budget

\$103,860. We lowered the FY2024 estimate from \$120,000 to \$85,000 and have level dollar the estimate at **\$85,000** for FY2025. This is approximately 82% of the FY2023 receipt.

Solid Waste Fees are the charges and fees collected for the disposal of solid waste and other items. This will be the fourth year that this revenue is part of the General Fund. FY2020 was the first year that this revenue was part of the General Fund which generated \$1,108,099. There was a visible uptick in activity at the RTS which generated \$1,448,570 in solid waste disposal fees for FY2021. During FY2022, there was a decline of \$259,160 (17.9%) in disposal receipts with a total of \$1,189,410 collected. During FY2023 the Town received \$1,461,825, an increase of \$272,415 (22.9%). The estimate for FY2024 was increased from the original estimate of \$1,000,000 to \$1,100,000. The estimate for FY2025 is level dollar at **\$1,100,000**. This represents approximately 75% of the FY2023 actual.

The category of **Charges for Services** includes charges for ambulance services, certain parking revenue, and charges by the DPW. This revenue also includes solar electric payments the Town receives from Eversource for power generated by the solar array at the former landfill. The amount generated from the solar array is a significant portion of the total receipts under this category, but fluctuates. The revenue generated from the solar payments is affected by the amount of power produced, the time of day the power is provided (the utility pays different rate depending on the peak and off-peak demands), and the actual rate Eversource must pay for the production. A history of the last six completed fiscal years collections is shown in Chart VII. The total from all services provided was \$1,889,262 in FY2020. With the increase in solar revenues, the running of two full-time ambulances, and the resumption of the sale of parking permits, revenue collections improved with \$2,435,242 received during FY2021. The FY2022 receipts declined to \$2,245,676. FY2023 revenue increased to \$2,669,089 which was due to the increase in solar energy payments from Eversource. The estimate for FY2024 is \$1,900,000. We have increased the estimate to **2,045,000** for FY2025. This represents an increase of 7.6% and is approximately 77% of the FY2023 actual revenue.

Chart VII
Solar Energy Payments

Fiscal Year	Payment	Fiscal Year	Payment
2018	\$1,025,931	2021	\$1,234,585
2019	\$1,147,907	2022	\$905,263
2020	\$807,467	2023	\$1,188,079

The Town collects various **Fees** which include returned checks, FID cards, administrative fees for details, Registry of Motor Vehicle license and registration non-renewal releases, and parking meter receipts. The total fees collected in FY2020 was \$351,189 which included payment of cannabis related fees of \$135,685. During FY2021 the Town received \$405,578 again benefitting from the increase in cannabis revenue with \$263,488 paid to the Town. The total amount in fees collected during FY2022 increased to \$419,607, of which \$228,025 was from cannabis. The actual revenue was lower than the FY2023 estimate, which was originally at \$320,000, but we decreased the estimate to \$155,000. This was done in anticipation that state law will be amended to restrict local agreements with cannabis operators from making payment to the municipality beyond direct cost offsets. As anticipated the Town saw the loss of the cannabis revenue but the total actual income from fees also decreased with a total of

\$146,866, a decrease of 65% (\$272,741) from FY2022. Consequently, the estimate for FY2024 was lowered from \$165,000 to \$117,250. The estimate for FY2025 has been lowered to **\$115,000** which is 1.9% less than the revised estimate for FY2024, and represents approximately 78% of the FY2023 actual.

Rental Income is collected on a lease with the Needham Golf Club. The Town has a long-term lease with the Needham Golf Club (NGC) which runs for twenty years. The land which the NGC leases is considered taxable. The Town also has a rental agreement with Tesla for use of the former landfill site where the solar panels are located. The Town also collects rent on the use of Town facilities such as Powers Hall. Total rental income for FY2021 was \$265,619 which included collections on back year rents which were deferred because of COVID. The total rents collected during FY2022 declined as expected to \$208,202 and declined again, which was not expected to \$167,972. The estimate for FY2024 was revised from the original estimate of \$180,000 to \$143,000. The FY2025 estimate has also been set at **\$143,000** which is approximately 85% of the FY2023 actual.

School Income generated by the School Department for tuitions received began in FY2016. Most all revenue received by the School Department from its activities is accounted for through revolving funds and special revenue accounts and is not available for general governmental purposes. The School Department turned in \$8,507 for FY2021 and nothing in FY2022 or FY2023. There was no estimate for FY2024, and we assume the same for FY2025.

Recreation fees are collected by the Park and Recreation Department for Rosemary Pool, summer programs, and rental of fields. Other Park and Recreation programs are accounted for separately in a revolving fund. Park and Recreation was one of the departments that were financially impacted negatively because of COVID. FY2020 actual receipts totaled \$358,649, which was a decline from the previous year and FY2021 revenue declined to \$196,578. Revenue increased during FY2022 with \$236,392 as most activities were running and attendance levels high. FY2023 saw income increase to a level above the pre-COVID years, with \$561,474 collected by year end. The estimate for FY2024 was increased from \$205,000 to \$450,000 and is level dollar for FY2025. The **\$450,000** estimate represents approximately 80% of the FY2023 actual.

Other Department Income includes revenue collected by the various Town departments, which are not properly accounted for in the other accounts. This would include amounts received by the planning and conservation departments. The total receipts for FY2021 were \$461,491, which increased to \$600,976 for FY2022, and to \$641,663 for FY2023. The estimate for FY2024 is \$485,000. The estimate for FY2025 has been increased approximately by 5.2% to **\$510,000**, which is more than 79% of the FY2023 actual.

The category of **Licenses and Permits** includes licenses issued by the Select Board and Town Clerk, and permits issued by the Building, Fire, and Health Departments. Actual receipts in FY2020 were \$2,381,660, which was a decline from the prior year and the decline continued for FY2021 with total receipts of \$2,068,299, a drop of 13% from the prior year. Revenue increased during FY2022 with \$2,771,497 in total receipts, or \$703,199, approximately a 34% increase. FY2023 was a banner year with total income of \$5,099,527, primarily all from building permits. This was an increase of \$2,328,030 (84%) over the prior year. The estimate for FY2024 is \$1,925,000 and the estimate for FY2025 is the same. The **\$1,925,000** estimate is approximately 38% of the FY2023 actual. Building permit activity is the primary and

substantial revenue stream for this category of receipts. Chart VIII provides the history of the actual building permit revenue collected during the past six completed fiscal years. Over the seven-year period, building permits generated revenue with a high of more than \$4.8 million (FY2023) and a low of \$1.8 million (FY2021). Building and construction activity is volatile, and has a greater sensitivity to changes in interest rates, and hence we estimate a lower percent of the actual than most receipts.

Chart VIII

Building Permit Activity

Fiscal Year	Permits	Fiscal Year	Permits
2018	\$2,257,261	2021	\$1,822,461
2019	\$2,261,032	2022	\$2,508,020
2020	\$2,079,634	2023	\$4,820,695

Special Assessments are usually one-time or series events and are projected as they become known.

The category of **Fines and Forfeits** includes parking tickets, court fines, and other violations. Enforcement of parking regulations and other non-criminal infractions were limited due to concerns related to COVID, but resumed in 2021. There has also been a growing trend across the United States to not overtly depend on fines and forfeiture to fund governmental activities, which tend to fall more heavily on those with limited means. The Needham Public Library ended the assessment of fines for overdue returns.

Chart IX

General Fund Investment (Interest) Income

Fiscal Year	Interest	Fiscal Year	Interest
2018	\$434,319	2021	\$228,969
2019	\$979,649	2022	\$194,651
2020	\$834,163	2023	\$1,520,840

Investment (Interest) Income is another revenue stream that has significant up and down swings (Chart IX). The actual interest earnings of \$834,163 during FY2020 were lower than FY2019 (\$979,649), and FY2021 saw a momentous decline in total interest of \$228,969, more than a 72% drop. The decline in interest earnings was driven by the actions taken by the Federal Reserve Board to lower interest rates to near zero to stimulate the economy during the Pandemic. We revised the original FY2022 estimate from \$264,000 to \$150,000. Actual income earned during FY2022 declined to \$194,651, a decline of nearly 15%. FY2023 was surprisingly a banner year as well with interest earnings of \$1,520,840 or a 681% increase over FY2022. The anticipated decline in interest rates did not happen during FY2023, and rates, although they have come down a little, are higher than they have been and hence the FY2024 estimate was increased from \$195,000 to \$500,000 which was a 256% increase. We have estimated FY2025 at the same **\$500,000**, which represents approximately 33% of the FY2023 actual, which provides a buffer should interest rates decline next year.

Medicaid reimbursements are classified as a local receipt revenue source, which often fluctuates from year to year (Chart X), but the last few years the trend has been one of noticeable decline. In FY2020 the Town received \$67,188 in Medicaid revenue, which was a decline of \$113,484 or 62% from FY2019, and FY2021 the revenue declined to \$2,319. FY2022 was the lowest at \$1,642, until FY2023 which the Town received no funds. We made no estimate for FY2024, nor an estimate for FY2025.

Chart X
Medicaid Reimbursements

Fiscal Year	Medicaid	Fiscal Year	Medicaid	Fiscal Year	Medicaid
2015	\$211,056	2018	\$207,679	2021	\$2,319
2016	\$176,672	2019	\$180,672	2022	\$1,642
2017	\$194,935	2020	\$67,188	2023	\$0

Miscellaneous Income totaled \$7,967 for FY2020, and declined to \$3,282 for FY2021. The total for FY2022 was just \$14 more (\$3,296), but FY2023 saw \$220,618 collected. However, \$217,288 was from Opioid settlement payments, which now will be credited to Opioid Stabilization Fund that Town Meeting approved in May 2023. Excluding the opioid payments total receipts were \$3,330. For recurring miscellaneous income, we have made no estimate for the current year nor FY2025.

Nonrecurring Income represents funds that may be received but are not expected to reoccur, e.g., one-time grants, financial assistance for an event, etc. In FY2021, the Town reported nonrecurring receipts of \$592,701. Most of the nonrecurring receipts were a result of various refunds and rebates which totaled \$394,001. The sale of surplus equipment by the Town and the School departments generated \$108,575. The Town also received payment of \$90,125 from its solar energy producer because the company did not meet its power production guarantee. The \$319,369 of nonrecurring receipts received during FY2022 were a result of various refunds and rebates which totaled \$31,089. The sale of surplus equipment by the Town and the School departments generated \$266,691. The Town also received payment of \$10,159 for an energy rebate and \$8,662 in electricity refunds from Eversource. The Town collected \$2,768 in prior-year receivables that were previously deemed uncollectible and written off. For FY2023, the nonrecurring receipts included various refunds and rebates which totaled \$5,628.98. The sale of surplus equipment by the Town and the School departments generated \$331,858. The Town received a community payment of \$200,000 from Children's Hospital in connection with the construction of a new medical facility in Needham. The Town received \$35,515.37 in monies deemed abandoned. The Town also received payments of \$36,224.59 for energy rebates and \$2,536.67 in electricity refunds from a contractor. The Needham Public Schools received a payment of \$3,500 from National Center for Civil Innovation to reimburse for a stipend. The Town collected \$534.37 in prior year receivables that were previously deemed uncollectible and written off and \$407.00 in lost motor vehicle excise revenue from the Commonwealth. The FY2024 estimate of \$435,000 of miscellaneous nonrecurring receipts represents proceeds from Eversource (\$205,000) for road repairs and \$230,000 from Children's Hospital of which \$30,000 is to mitigate traffic impacts as required under the project approved by the Planning Board and \$200,000 is a one-

Fiscal Year 2025 Proposed Budget

time payment required under the agreement approved by the Town. There is no estimate for miscellaneous nonrecurring receipts for fiscal 2025.

General Fund Recurring Receipts
Table 2.6

Description	FY2021 Actual	FY2022 Actual	FY2023 Actual^	FY2024 Recap	FY2025 Estimate	\$ Change
Property Taxes	148,004,594	158,014,832	178,257,886	173,980,944	182,772,526	8,791,582
State Aid	12,950,526	13,157,380	14,694,071	15,540,802	16,073,346	532,544

Total Receipts	174,952,243	187,069,887	215,296,195	203,016,996	213,055,872	10,038,876

^subject to final audit

Other Available Funds

Other available funds (\$4,061,394) represent 1.7% (Table 2.8) of the total general fund before adjustments and offsets. Projections of reserves follow past budget methodology. The uses of the funds are based on historical uses of these funds. The two available funds that have been recurring are Debt Exclusion Offsets and Overlay Surplus. Other available funds are correlated to expenses. These funds must be specifically identified by Town Meeting in the motion in order for them to be used.

Debt Exclusion Offset is an amount equal to the amortized value of a premium that may have been received on a debt-excluded bond or note and is spread over the life of the loan. The offset reduces the amount of the excluded debt service that is raised on the tax levy. The amount for FY2025 is **\$24,130**.

Overlay Surplus is generated when it is determined that all claims for abatements and exemptions on property tax levies of a particular fiscal year have been resolved, and uncollected taxes for the year have been secured with a tax taking lien filed with the Registry of Deeds or Land Court, depending upon the type of property, leaving a balance in the overlay account. Abatement and exemption activity is tracked on a fiscal year basis, but the overlay reserve which covers those costs is held in a single account. From time to time the Board of Assessors may vote to release funds from the overlay fund, which then is considered a surplus and may be used as a funding source by Town Meeting during the year that the surplus is declared. Any funds declared as surplus and not appropriated by Town Meeting will be closed out to the fund balance and will contribute to the Free Cash certified in the following fiscal year. We have planned on the use of **\$2,400,000** to fund appropriations. Per state statute, the Board of Assessors must formally vote to release any determined surplus before it is available for appropriation. The Board approved the release of \$2,600,000 at the August 10, 2023 meeting. \$200,000 of the overlay surplus was appropriated at the October 30, 2023 Special Town Meeting.

The **Parking Meter Fund** is reserved for appropriation and the revenues are derived from parking meters, which under State Law must be used for parking-related purposes. With the passage of the Municipal Modernization Act, parking meter receipts collected after November 7, 2016 are now considered General Funds. The Act allows the Town to reestablish the Parking Fund, but this budget plan does not contemplate such action. The residual balance is \$244,224.

Transportation Infrastructure Funds are received funds from the Commonwealth through a state assessment on transportation network companies, such as Uber and Lyft, operating in the state. Each company reports to the State the number of rides that originated in Needham and

remits a per-ride assessment of \$0.20, which is credited to the State's Transportation Infrastructure Enhancement Fund of which one half of the amount is sent to the Town. The distributed funds are special revenue, which require appropriation prior to use. The funds are reserved to be appropriated by Town Meeting for expenses related to the operation of transportation network services in the town including, but not limited to, the complete streets program established in Chapter 90 and other programs that support alternative modes of transportation. However, starting with distributions received on or about June of 2023, if the amount of the distribution to the Town is \$25,000 or less, the chief executive officer as defined in section 7 of chapter 4 of the General Laws may expend the funds for the statutory purposes without further appropriation. St. 2022, c. 176, § 27. The amount for FY2025 is not yet known.

Other available funds in prior years have included items such as unexpended balances of prior warrant articles, grants, and general and dedicated reserves. The budget plan assumes the use of **\$1,000,000** from the **Athletic Facility Improvement Fund** for High School tennis court improvements project, and **\$637,264** from nine prior project appropriations which are closed and have unexpended funds that may be used. Those funds are being used to partially fund the public works facilities improvements phase 1 design (\$523,720), the High School tennis court improvements (\$10,804), and the fire alarm wire removal project (\$102,740).

Free Cash

Free Cash balance is largely a function of actual revenue collections in excess of estimates and expenditures less than appropriations. Given the nature of Free Cash, it should not be depended upon as an operating revenue source, but rather a supplemental source. We have taken deliberate steps to reduce the level of Free Cash that is used to support ongoing operating expenses, and recommend using it to improve reserves, invest in capital assets, support one-time or short duration programs, or as a temporary funding source for recurring expenses if an increase in recurring revenue is anticipated.

The Free Cash has not yet been certified for FY2024. We have assumed **\$15,000,000** for this budget plan. Free Cash above the amount for this budget plan may be directed to larger capital projects and or reserved for future years. The \$15 million represents 6.2% of the total general fund before adjustments and offsets. This is an increase of \$477,150 from the amount that was appropriated last year. The expected Free Cash figure is due to several factors: the FY2023 operating budget return, which resulted from a greater number of vacancies during the year in several departments (Finance, Library, Park and Recreation, Police, and Public Works), a larger return from the school department budget (\$2,427,921) a return of approximately 2.8% of their budget, extraordinary increase in local receipts, and using less of the certified Free Cash last year (during FY2023) for FY2024 appropriations so that a greater amount would be rolled over to this year. The Certified Free Cash in FY2023 was \$17,356,938 of which \$14,522,850 was appropriated and \$2,834,088 was closed out at the end of the year and should become part of the Free Cash that will be certified by the State this year. The Certified Free Cash in FY2022 was \$16,952,126 of which \$14,644,455 was appropriated and \$2,307,671 was closed out at the end of the year. The Certified Free Cash in FY2021 was \$16,665,406 of which \$11,526,630 was used for FY2022 appropriations and the balance of \$5,138,776 was closed out at end of the year. The Certified Free Cash in FY2020 was \$12,369,898 of which \$7,862,473 was used for FY2020 and FY2021 appropriations and the balance of \$4,507,426 was closed out at the end of the year. Table 2.7.1 (next page) shows how much Free Cash was used for the operating budget, cash capital, other financial warrant articles, reserves, or closed out.

Fiscal Year 2025 Proposed Budget

Uses of Free Cash
Table 2.7.1

Certification Year	Fiscal Year Activity	Free Cash	Operating Statement Maximum	Budget	Capital	FWA	Reserves	Total of Uses	Returned
FY2020	2019	12,369,898	3,217,536	3,208,040	3,939,433	715,000	-	7,862,473	4,507,426
FY2021	2020	16,665,406	3,527,570	3,527,570	6,246,653	1,752,407	-	11,526,630	5,138,776
FY2022	2021	16,952,126	3,763,414	3,625,000	10,475,329	492,000	52,126	14,644,455	2,307,671
FY2023	2022	17,356,938	3,874,475	3,597,105	9,236,607	1,471,850	217,288	14,522,850	2,834,088
								-	-

Given that the Town of Needham develops its annual operating and capital budgets in such a way that Free Cash can be counted upon each year, some amount of Free Cash has been used to support operating expenses. We continue to recommend that the amount of Free Cash used to fund the operating budget should not be more than 2% of the budget turn back of the prior completed fiscal year or the actual amount returned, whichever is less. We use the final adjusted operating budget to calculate the two percent figure. We define the final adjusted operating budget as the total of the Departmental budgets and Townwide expenses, except for the Reserve Fund. We do not include any transfer from the Reserve Fund line into the Departmental budgets. Any return from the Reserve Fund would not be considered part of the budget return when calculating the lesser of the two calculations: two percent of the final adjusted budget, or actual return, wherever is less. In table 2.7.2, we show what the budget returns have been in the past four years and what two percent of the final adjusted operating budget would have been.

Operating Budget Returns
Table 2.7.2

Fiscal Year Activity	Final Budget	Returned	Adjusted Final Budget	Related Return	Percent of Budget	Reserve Fund Return	Reserve Fund Return as a % of Total Return	Two Percent of the Adjusted Final Budget
2020	178,260,006	7,634,782	176,378,506	5,783,282	3.3%	1,851,500	24.3%	3,527,570
2021	190,247,810	6,473,319	188,170,719	4,787,338	2.5%	1,685,981	26.0%	3,763,414
2022	195,800,817	7,658,330	193,723,726	6,354,076	3.3%	1,304,254	17.0%	3,874,475
2023	206,188,160	8,278,121	204,226,069	7,099,273	3.5%	1,178,848	14.2%	4,084,521

Two percent of the FY2023 adjusted final budget equals \$4,084,521; the actual FY2023 budget return less the Reserve Fund return was \$7,099,273 which is more than two percent. The budget plan has **\$4,081,603** of the Free Cash being used for operating expenses. Free Cash is also proposed to be used to fund cash capital and warrant articles. Certification of Free Cash above the amount identified for use is proposed to fund capital that otherwise may not be funded or would be funded by debt, provide advance funding to the stabilization funds to reserve for future projects, or a combination of the aforementioned. The Town has been following the recommended practice of limiting the amount of Free Cash that supports the operating budget by using the funds to pay not only for needed cash capital, but also to put aside funds for future demands that may arise unexpectedly and for various one-time financial warrant articles.

Fiscal Year 2025 Proposed Budget

Revenue as a % of Total General Fund Revenue
Table 2.8

Description	FY2021 Actual	FY2022 Actual	FY2023 Actual	FY2024 Recap	FY2025 Estimate

*May not equal 100% due to rounding

ADJUSTMENTS TO GENERAL FUND REVENUE

While most enterprise fund expenses are accounted for in the enterprise fund, certain costs of the department are reflected in the general fund budgets of other Town departments (e.g., treasurer/collector, information technology, personnel, insurance, etc.). These enterprise-related general fund expenditures are funded with transfers of revenue from the enterprise fund to the general fund. The amount projected for FY2025 is based on the current year and is estimated at **\$1,300,000**.

The preliminary estimate for the sewer fund reimbursement is **\$475,000**. The estimate for the water fund is **\$825,000**. Because indirect costs associated with the two funds are a factor of Town Meeting appropriations, the actual FY2025 transfers may be adjusted accordingly.

Enterprise Reimbursements to the General Fund
Table 2.9

Description	FY2021 Actual	FY2022 Actual	FY2023 Actual	FY2024 Recap	FY2025 Estimate	\$ Change
Sewer	465,865	507,526	500,948	476,616	475,000	(1,616)
Water	864,193	899,889	715,567	879,782	825,000	(54,782)
Total	1,330,058	1,407,415	1,216,515	1,356,398	1,300,000	(56,398)

FY2025 is the 14th operating budget that will include **CPA** supported debt service. The Town Hall financing plan calls for debt service paid by CPA funds to be \$351,600 which is a decrease of \$12,300 from FY2024. This is the sixth year that debt service related to the Rosemary Recreation Complex (RRC) project comes due. The amount payable during FY2024 is \$556,482 which is a decrease of \$18,249 from FY2024. The annual debt service will decline each year on the Town Hall and Rosemary Recreation Complex projects until they are paid off: Town Hall in 2031, and RRC in 2039. However, the Emery Grover project was approved by Town Meeting in May 2022 and is financed in part from CPA funded debt which will increase the annual debt expense. The amount for FY2025 is \$480,000 which is \$340,000 more than FY2024.

The total transfer for FY2025 is **\$1,388,082**, an increase of \$309,451, or approximately 28.7%. We reflect \$1,388,082 as another adjustment to General Fund revenue because the CPA debt is included in the general operating budget of the Town.

OTHER RESERVES AVAILABLE FOR APPROPRIATION

The available balance in the **Stabilization Fund** as of July 1, 2023 was \$4,665,099. The Stabilization Fund may be appropriated, by a vote of Town Meeting, for any municipal purpose. No assumption about an appropriation from the Stabilization Fund to support the Town's operating budget is made in this projection.

The Town also established an **Athletic Facility Improvement Fund** for the purpose of reserving funds for future extraordinary athletic field and artificial turf replacement and maintenance costs. The balance in the fund as of December 29, 2023 was \$1,169,616. The budget plan calls for an appropriation of \$68,743 to the Fund, which is the calculated share of the Park and Recreation receipts collected last year for this purpose. The FY2025 Capital Improvement Plan recommends **\$1,000,000** be transferred from the Fund to cover a portion of the appropriation for the High School tennis courts project.

The Town also established a **Capital Facility Fund** for the purpose of reserving funds for future extraordinary capital facility maintenance costs. The balance in the fund as of December 29, 2023 was \$2,063,076. No appropriation to the Fund is planned for the 2024 Annual Town Meeting but there may be an appropriation recommendation to the Fund at a Special Town Meeting.

The Town also established a **Capital Improvement Fund** for the purpose of general fund capital equipment. The balance in the fund as of December 29, 2023 was \$1,617,038. No appropriation to the Fund is planned for the 2024 Annual Town Meeting but there may be an appropriation recommendation to the Fund at a Special Town Meeting.

The Town also established a **Debt Service Stabilization Fund** for the purpose of setting aside funds to smooth out the impact of General Fund Debt Service within the levy limit that may exceed the Town's goal that only three percent of General Fund revenues be designated for debt. The balance in the fund as of December 29, 2023 was \$2,312,383. No appropriation to the Fund is planned for the 2024 Annual Town Meeting but there may be an appropriation recommendation to the Fund at a Special Town Meeting.

The Town also established a **Stormwater Stabilization Fund** for the purpose of reserving funds for future capital costs associated with compliance with the National Pollutant Discharge Elimination System (NPDES) program. The Town Meeting authorization for this fund allows 100% of the community stormwater mitigation assessments collected to be credited directly into the Fund. Use of the monies in the Fund may only happen, the same way as with all the other special stabilization funds, by appropriation. As of December 29, 2023, there have been no monies collected and the balance is zero. No appropriation to the Fund is necessary.

The Town also established an **Opioid Settlement Stabilization Fund**. As a result of a nationwide settlement with opioid distributors funds, the Town receives monies from the Commonwealth which are required to be used for programming and strategies for opioid use disorder prevention, harm reduction, treatment, and recovery. The Fund was authorized by Town Meeting in the same manner as the Stormwater Stabilization Fund which allows all opioid settlement payments to be credited directly to the Fund. Future expenditures out of the Fund are subject to appropriation by Town Meeting. The balance in the fund as of December 29, 2023 was \$115,125. No appropriation to the Fund is necessary.

ENTERPRISE FUNDS

An enterprise fund is used to account for those operations that are financed and operated in a manner similar to a private business. The Department of Revenue states that Enterprise Funds allow a community to demonstrate to the public the portion of total costs of a service that is recovered through user charges and the portion that is subsidized by the tax levy or other available funds, if any. The Town has established an Enterprise Fund for its water service operation and sewer service operation. The enterprise funds are reimbursing the general fund for their related indirect costs (e.g., enterprise employee benefits, property insurance, shared staff, etc.).

Enterprise Receipts Table 2.10						
Description	FY2021 Actual	FY2022 Actual	FY2023 Actual	FY2024 Budget	FY2025 Estimate	\$ Change
Sewer Enterprise	9,521,834	8,405,195	9,458,052	8,984,010	8,900,000	(84,010)
Water Enterprise	7,452,180	6,085,833	7,495,694	6,808,673	6,900,000	91,327
						0
Total*	16,974,014	14,491,028	16,953,746	15,792,683	15,800,000	7,317

* Receipts before adjustments, reimbursements, and subsidies

The combination of the Sewer and Water Enterprise funds has total receipts at \$15,800,000 for FY2025 compared to the \$15,792,683 estimate for FY2024 (Table 2.10). This represents a slight increase of \$7,317 or approximately 0.05%. However, the MWRA sewer and water assessments have not been received, and therefore the plan level funds the assessments. Any change will be reflected by an adjustment to receipts.

Use of Enterprise Reserves and Other One-Time Funds Table 2.11						
Description	FY2021 Actual	FY2022 Actual	FY2023 Actual	FY2024 Budget	FY2025 Estimate	\$ Change
Sewer Enterprise	918,088	365,000	1,470,255	1,234,641	2,345,804	1,111,163
Water Enterprise	43,002	1,370,913	0	3,812,733	2,159,089	(1,653,644)
Total	961,090	1,735,913	1,470,255	5,047,374	4,504,893	(542,481)

The budget calls for the use of **\$2,345,804** of retained earnings and other available funds in Sewer Enterprise for a combination of funding the operating budget (\$745,804) and cash capital (\$1,600,000) for FY2025. The Water Enterprise budget calls for the use of **\$2,159,089** of retained earnings and other available funds for the operating budget (\$726,995), other financial warrant articles (\$75,000), and cash capital (\$1,357,094) for FY2025. Table 2.11 shows the total appropriated from enterprise reserves and other one-time funds since FY2021.

Transfers to the Enterprise Funds

The Town approved a change effective with the FY2012 budget that the expenses associated with the Drains Program that were carried in the DPW General Fund Operating Budget are now part of the **Sewer Enterprise Fund Budget**. The employees who perform a majority of the drains-related work are assigned to either the water or sewer division. There are benefits for the Town to have the water and sewer employees perform the drains-related work

rather than hiring additional staff for the sole purpose of drain work. The drains program is considered a general fund expense and not a sewer or water fund expense. The weekly tracking and processing of drains related procurement, accounts payable, and payroll, as well as the budgeting process is easier and more efficient (less cross-fund accounting work) to process the finance-related tasks through one of the enterprise funds, rather than the prior three fund process (general fund, sewer fund, and water fund). The General Fund still pays the drains-related costs, but the appropriation is made from the General Fund to the Sewer Enterprise Fund Budget. The FY2025 budget recommendation is **\$776,019, a decrease of \$34,339 (4.2%) from the FY2024 funding of \$810,358**. Chart XI shows the payment made to the Sewer Enterprise Fund since FY2015. The FY2023 operating budget required a General Fund subsidy of \$52,323. The FY2024 operating budget did not require a subsidy, because sewer rates were increased on October 1, 2022 and again on July 1, 2023, but the operating budget did rely on retained earnings in order to cover all the operating expenses. The preliminary outlook for FY2025 also relies on retained earnings (\$745,804) to fund the budget, and will require another increase to the sewer rates in order to avoid a General Fund subsidy. The next rate change is anticipated to be effective July 1, 2024.

Chart XI
General Fund Payment

Fiscal Year	Payment	Fiscal Year	Payment	Fiscal Year	Payment
2015	\$463,430	2018	\$491,749	2021	\$544,698
2016	\$494,488	2019	\$504,750	2022	\$526,368
2017	\$519,846	2020	\$530,467	2023	\$782,928

The **Water Enterprise Fund Budget** required a General Fund subsidy of \$284,721 for FY2023 as well as the use of retained earnings. The FY2024 operating budget had to be covered in part by retained earnings (\$500,000) but did not require a General Fund subsidy, and has repaid 50% of the FY2023 subsidy (\$143,361) to the General Fund. The FY2025 budget plan relies on Water retained earnings to fund a portion of the budget (\$726,995) but is not expected to require a General Fund subsidy. FY2024 thus far has been a wetter year, irrigation water use may be less, which could lower total receipts, especially since irrigation water is usually charged at a higher rate than water use through the domestic (primary) meter.

ENTERPRISE FUND RETAINED EARNINGS

These sources are not available to support the General Fund and are shown for informational purposes only.

Similar to Free Cash, retained earnings are a function of the operations of the prior fiscal year and are generated by revenues collected in excess of estimates and unexpended balances of appropriations, as of June 30th. Once certified by the Massachusetts Department of Revenue, retained earnings are then available for appropriation or reserved to support the enterprise. Retained earnings for FY2024 have not been certified by the Department of Revenue as of the publication of this plan.

Table 2.12 shows the amounts which were certified as retained earnings by the Department of Revenue for the previous four complete fiscal years. The RTS retained earnings that were certified last year were closed out to the General Fund with the dissolution of the enterprise fund which contributed to the higher Free Cash certification last year. The decline in the Sewer retained earnings was due to a greater use to fund operations expenses in order not to raise rates last year. We anticipate a further decline in Sewer retained earnings. The Town's use of Water retained earnings last year was limited in order to preserve the account balance and to prepare for funding several major capital projects coming for a vote in the next three years that will rely on retained earnings in order to reduce the amount that would otherwise be financed by debt.

Certified Retained Earnings
Table 2.12

Fund	FY2020	FY2021	FY2022	FY2023
Recycling and Transfer Station	420,749	N.A.	N.A.	N.A.
Sewer Enterprise	2,097,365	1,745,424	3,088,415	1,510,094
Water Enterprise	4,134,675	4,737,743	5,382,804	6,035,459

COMMUNITY PRESERVATION FUNDS

Town voters approved a 2% Community Preservation Act surcharge on real estate property tax bills effective July 1, 2005. The 2% surcharge is assessed on the total property tax due, adjusted for certain exemptions. The tax on the first \$100,000 of residential valuation is not included in the CPA surcharge, and there are also exemptions for certain low and/or moderate-income taxpayers. Actual CPA revenues collected by the Town in the prior year are eligible for matching funds from the State. The match is equal to a percentage determined annually based on available funds for distribution, not to exceed 100% of the receiving community's actual receipts. The distribution rate that Needham received on its FY2019 CPA surcharge revenue was 23.90%, which increased to a 28.63% match on its FY2020 surcharge revenue, followed by 43.84% match on the FY2021 surcharge revenue. The state match on the FY2022 revenue declined to 38.51% and declined to approximately 21% of the FY2023 revenue. The original estimate for the state match for the current year was \$1,131,787, a level dollar assumption, which was then lowered to \$1,096,787. The actual distribution thus far was \$656,397, a considerable decline which may result in a revenue gap for FY2024.

We believe the distribution range in FY2025 on the FY2024 revenue will be between 15% and 30% and our revenue estimate is at the lower end. The current estimate based on FY2024 collections that will be received as state matching funds in FY2025 is **\$578,615** or 18%. The 2% **CPA surcharge** on FY2025 property tax bills is currently estimated at **\$3,387,500**. The total estimated receipts for FY2025 are currently \$3,966,115.

Town of Needham Community Preservation Fund Revenue and Appropriations FY2025	
<u>Community Preservation Fund Revenue Estimates</u>	
Surcharge Revenue Estimate	3,387,500
State Trust Fund Distribution Estimate	578,615
Revenue Estimate	3,966,115
<u>Community Preservation Fund Appropriation Estimates without Projects</u>	
Town Hall Project Debt Service (GF Debt Budget)	351,600
Rosemary Recreation Complex Project (GF Debt Budget)	556,482
Emery Grover (GF Debt Budget)	480,000
Community Preservation Committee Administrative Budget	82,000
Community Housing Reserve	872,545
Historic Resources Reserve	0
Open Space Reserve	436,273
Community Preservation Fund Reserve	1,187,215

<u>Reserve Balances 12/31/2023</u>	
Community Housing Reserve	3,649,749
Historic Resources Reserve	106,669
Open Space Reserve	2,401,894
FY2024 General Reserve*	1,749,706
CPA Free Cash*	Pending
Total Reserves	7,908,018
<u>Specific Appropriation Requests</u>	
DeFazio Fencing	417,000
High School Tennis Court (Requested Share) Project Cost \$2.6M	1,440,000
NHA Pre-Development Linden Chambers	5,500,000
Total Project Requests	7,357,000

*This a single year reserve, any unused balance closes out June 30, 2024.

The estimate provides for \$82,000 to be appropriated to the Community Preservation Committee's (CPC) administrative budget and \$436,273 to be credited to the Open Space Reserve. The \$436,273 figure is approximately 11% of the new revenue estimate for FY2025. Because the final revenue estimate is usually not known until the actual tax rate has been approved and the bills calculated, the practice has been to appropriate an amount of 11% of the revenue estimate to each of the required reserves to better ensure that the minimum CPA use requirement is satisfied. The amount assumed to be credited to the Community Housing Reserve is \$872,545 or approximately 22%, which is in keeping with the recent practice of the CPC of setting aside more funds for housing. The FY2025 debt budget includes \$351,600 of debt service for the Town Hall project and \$556,482 of debt service for the Rosemary Recreation Complex. FY2025 also includes \$480,000 for debt service related to the Emery Grover project. The Town Hall project was previously designated as a historic preservation

project, and the portion of the Emery Grover project that is funded by CPA is also designated as a historic preservation project. The combined debt service for FY2025 for those two projects is \$831,600, which is more than our \$436,273 estimate to be reserved, so no appropriation from CPA receipts for Historic Resources is necessary. The balance of the CPA revenue estimate of \$1,187,215 would be transferred to the Community Preservation Fund General Reserve for FY2025. The amount that is actually appropriated to each reserve would be adjusted as needed based on the CPC's project funding recommendations and Town Meeting votes on those recommendations.

CPA Free Cash for FY2024 has not been certified as yet. After the amount has been determined and declared, the amount remains available for appropriation until June 30, 2024. The FY2024 CPA General Reserve has a balance of **\$1,749,706** and the funds remain available for appropriation until June 30, 2024 as well. The CPA Free Cash and General Reserve will close out to the CPA fund balance after the end of the FY2024 and will not become available for use in FY2025 until after the CPA Free Cash is certified for the year. The Community Preservation Committee (CPC) has not yet made any funding recommendations for FY2025.

Fiscal Year 2025 Proposed Budget

Townwide Expense Budget

Townwide Budget

Casualty, Liability, Property & Self-Insurance Program

Purpose of the Budget

The General Insurance budget provides for auto liability, general liability, property and casualty, law enforcement, public officials and school board liability, self-insurance, and deductible expenses for the Town of Needham including the Needham Public Schools. The general insurance program is overseen and managed by the Finance Department. The program is designed to reduce risk to protect the Town and its assets from the negative effects of unpredictable and significant claims and losses.

Budget Activities

The Town is insured through the Massachusetts Inter-local Insurance Agency (MIIA), which is a self-insurance pool created under G.L. c. 40M (governmental units pooled insurance) and is a provider of insurance exclusively to municipalities and other governmental entities in the Commonwealth. The Town has usually seen favorable rates in comparison to the overall insurance market, because of the unique nature of the insurance pool, this is still true.

The Risk Management Committee promotes a safe and healthy work environment, loss prevention and risk mitigation through training and promoting best practices. The Risk Management Committee makeup consists of employees across many departments including the School Department. As a member of MIIA, the Town may participate in the rewards program. The rewards program is designed to encourage discounts and savings on the insurance premium, by promoting workplace safety awareness and good maintenance practices. Credits are earned by the Town when employees attend training courses designed to increase awareness of safety issues and by following best practices to reduce risks.

	FY2019	FY2020	FY2021	FY2022	FY2023
Earned Rewards	\$33,817	\$33,417	\$23,223	\$25,966	\$34,467

During FY2023, the Town earned \$34,467 in credits through its participation in the MIIA rewards program, which was an increase of \$8,501 over the \$25,966 earned in FY2022. This was the highest reward credit earned in recent years. Town employees gradually went back to normal in-person work schedules after the Covid pandemic and have been attending in-person and online trainings, implementing preventive and maintenance programs, and updating their department policies.

During FY2023, the Town received 92 general liability claims, a decrease of nine from FY2022, which was largely due to the mild winter and fewer snowstorms and hence damage to property from snow plowing operations was less.

	FY2019	FY2020	FY2021	FY2022	FY2023
Liability Claims	116	88	84	101	92

Budget Changes

Premiums for fiscal year 2025 are not yet known, this information is usually received in the late

Fiscal Year 2025 Proposed Budget

Casualty, Liability, Property & Self-Insurance Program

spring (June). Table 1 shows the change in the July 1 initial premium for the insurance coverage provided by MIIA, the actual total premium for the fiscal year which includes policy amendments, credits, and discounts, and the total budgetary expenditures for the immediate prior five fiscal years (2019 – 2023). FY2024 shows the initial premium and the amount the Town paid to date after applying credits and an early payment discount. The fluctuations in the annual premium were due to buildings coming off and new or expanded buildings being added to the policy and not due to extraordinary building loss experience. The new or remodeled facilities added over the past few years include the Fuel Depot at 470 Dedham Avenue (2019), a new Memorial Park Field House (2020), the Mitchell School modular classrooms addition (2020), the Sunita Williams Elementary School (2020), the Jack Cogswell Building (2021), Communications Tower on Central Avenue (2021), the new Fire Headquarters (2021), Fire Station #2 (2022), and the Police Station in the spring of 2022. The Emery Grover Building (school department administrative offices) was taken off the policy this year while it undergoes a complete reconstruction and expansion. The building is scheduled to reopen in FY2025 which will then be added back to the Town's property insurance policy.

Year	Budget	Initial Premium	Premium*	Change	Expenditure**	Change
FY2024	\$922,490	\$850,409	\$829,149	5.2%

*Premium after adjustments, amendments, and credits

**Expenditures reflective of all credits, paid settlements, policy amendments, transfers, and encumbrances for the fiscal year.

The annual premium is assumed to increase by 6.1% for FY2025 over the base policy for FY2024. This is reflective of the average change for the past ten years FY2015 through FY2024. We base the budget increase over a longer lookback period because the number of facilities that were added to the Town's policy over the immediate past five years was significant, but with the exception of the Emery Grover project, which is assumed to open mid FY2025, inflationary pressures, rather than new facilities will be the driver on the premium increase. The adjusted premium for FY2024 as of October 2023 increased by 5.2% which compares to the 11.2% increase for all of FY2023. The policy premium includes buildings, casualty and liability, special property, and vehicle coverages. As of July 2023, the total insured value of real property exceeds \$477 million, an increase of 3.9% from the prior year. The budget request reflects the addition of the Emery Grover building which is anticipated to re-open in FY2025.

As of July 1, 2023, the Town's vehicle insurance policy covered 269 vehicles. During FY2023, 13 vehicles were added to the policy and nine vehicles were removed from the policy. The vehicle policy inclusive of vehicles and trailers has 7 assigned to the building department, 17 to school department, one to the planning and community development department, two to the finance

Townwide Expense Budget			
Townwide Budget		Casualty, Liability, Property & Self-Insurance Program	
department, 28 to the fire department, 5 to the health and humans services department, 30 to the police department, and 179 to the public works department. The Town also carries special property coverage on certain heavy equipment vehicles, specialized equipment used by Fire, Health, Police, and Public Works departments, as well as certain independently appraised items such as fine arts in the Library and School Department This coverage also includes some infrastructure such as traffic lights. The Town also carries general liability insurance as well as specialized policies for cybersecurity incidents, law enforcement liability, and school board liability. The budget provides for the self-insurance account to pay settlements and other uninsured property losses which is level funded at \$20,000. The budget also pays administrative expenses, insurance deductibles, other small claims, uninsured losses, and other related claims and has been reduced by \$3,200 to \$26,000. Insurance premiums relating to the two enterprise activities and actual uninsured claims paid are treated as indirect costs which are recovered from the enterprise funds and reflected in the funding sources for the general fund operating budget. The total (\$972,560) General Insurance program budget request is \$50,070 higher, approximately 5.4% more than the current budget of \$922,490.

V2025			

Fiscal Year 2025 Proposed Budget

Townwide Expense Budget	
Townwide Budget	Debt Service
Purpose of the Budget	
To maintain an overall capital investment plan which works within the Town's debt policies and uses modern financial tools to fund equipment, facility, and infrastructure in a sustainable manner. The Debt Service budget provides the appropriation for the Town's annual principal and interest expenses associated with various capital construction projects. The projects have been funded by the issuance of notes and bonds. The Sewer and Water Enterprises pay for their related debt service from user fees and charges.	
Budget Activities	
The Emery Grover school administration building project is well underway at the time of submission of this budget. The building is anticipated to re-open in 2024. The final borrowing associated with this project is forecasted to be in 2025. The Town approved funding for a major water distribution improvement project which encompasses South Street to Charles to Chestnut Street at the 2023 Annual Town Meeting. The cost of that project is \$6.5 million. The appropriation was funded by cash (\$2,500,000), and an authorization to borrow \$4 million that will be paid from the Water Enterprise Fund budget. The Town also approved a \$9 million borrowing authorization for the replacement of roof top units at the Braodmeadow and Eliot schools. The two school projects are anticipated to take 24 months to complete. The debt will be repaid from the General Fund within the levy limit (sometimes referred to as the 3% debt limit). The capital review process had not yet begun when this budget was submitted, but it is anticipated that debt authorizations may be sought for the Claxton Field project, Pollard School, and Public Works. There are also a major multi-year sewer system replacement and upgrades, Cooks Bridge sewer pump station replacement, and water supply development project planned to be presented for funding as early as May 2024, with funding planned over the next three years. The last time that the Town issued bond was in April 2022. The bond issue had interest rates that ranged from a low of three percent to a high of five percent. We anticipate that when the Town goes to issue its next bond that interest rates will be higher and debt service payment will increase. However, the Town is able to lower the interest expense that will be incurred by the Emery Grover project, by transferring monies borrowed for the William School project which are no longer needed as the project is finished, all bills were paid, and the Town received final reimbursement from the MSBA which was higher than assumed. This action was requested on the October 30, 2023 Special Town Meeting. The result of this transfer will be to reduce the amount of debt that will be raised on the tax levy (the William School Project was funded by a debt exclusion) because the monies will not have been used for the William School, and the Emery Grover project was not funded by excluded debt, so effectively a credit will be applied against the Williams School debt reducing the amount to be paid by override. Conversely the original Emery Grover project debt authorization will be reduced by the same amount being transferred (\$286,000) from the William School project to it. Meaning the project budget for Emery Grover remains the same. Because the funds were borrowed when interest rates were lower than they are now, the total interest to be paid related to the Emery Grover project will be less.	
Budget Changes	
The FY2025 total debt service of \$19,633,332 is 1.2% more than the current year (\$19,403,250). The FY2025 debt service budget, exclusive of enterprise fund debt, is \$17,503,332, a 0.2%	

Fiscal Year 2025 Proposed Budget

Townwide Expense Budget

Townwide Budget

Debt Service

decrease from the current year (\$17,543,250). The decrease for FY2025 is due to the decline in excluded debt service. The budget includes amounts required to pay current outstanding long term general fund debt, and new long term general fund debt issues for which authorizations were previously approved by Town Meeting. The budget also pays down certain principal amounts that come due when a bond anticipation note matures when possible. This lowers the interest expense and helps to manage the Town's overall debt burden. This budget accounts for both general fund debt service within the levy, and excluded debt, as well as debt supported by CPA funds.

The General Fund debt service within the levy limit is \$6,320,358 and the excluded debt service is \$9,794,892. The CPA supported debt totals \$1,388,082. This request does not contain any funding for debt that may be authorized at the 2024 Annual Town Meeting or May 2024 Special Town Meeting. Debt service related to the Sewer (\$670,000) and Water (\$1,460,000) enterprise funds are contained in those budgets and are therefore not included in this budget.

The General Fund debt service, which is paid within the levy limit, is approximately 10.9% more than the current year and is in keeping with the Town's policy and financing plan. The General Fund excluded debt service portion of the budget (\$9,794,892) is 9.0% less than budgeted for FY2024 (\$10,764,226). There is no open debt excluded projects remaining to be borrowed. The combined total of debt within the levy limit and excluded from the levy limit is \$16,115,250 which is \$349,369 less (2.1%) than the FY2024 combined amount (\$16,464,619) for those two categories of debt. The excluded debt budget will continue to decline year after year, unless new debt excluded funded projects are approved. The final borrowing related to debt excluded projects was done last year. The projects that were funded by excluded debt and still have annual payments to make are the Eliot School, High Rock and Pollard School, High School, Newman School HVAC project, Public Safety Buildings, and the Williams School. The final debt payment for the Broadmeadow School project is FY2024. The debt outstanding on the Eliot School project will be fully paid in FY2025. The last year for excluded debt payments for the High Rock and Pollard schools project is FY2029, the High School is FY2028, the Public Safety Buildings debt will be fully paid in FY2045, the Newman HVAC project will be FY2033, and the final year of debt payments related to the William School project (Owens Farm land purchase, 609 Central land purchase, and the construction of the school) is FY2044.

There are three projects that have been funded in part with CPA debt: Town Hall, Rosemary Recreational Complex (RRC), and Emery Grover. The CPA supported debt service for FY2025 is \$1,388,082 which is \$309,451 more than the amount for FY2024 (\$1,078,631), an increase of approximately 28.7%. The debt outstanding on the Town Hall will be paid off by FY2031 and the debt on the RRC will be paid off by FY2039. The Emery Grover project is now underway, so the final borrowing and final payment have not yet been determined.

Debt	Levy Limit	Excluded	CPA	Sewer	Water	Total
Principal Payments	\$2,043,000	\$7,037,000	\$665,000	\$427,222	\$485,634	\$10,657,856

V2025			

Fiscal Year 2025 Proposed Budget

Townwide Expense Budget						
Townwide Budget		Group Health Insurance, Employee Benefits & Administrative Costs				
Purpose of the Budget						
The expenses covered under this program include group insurance for active employees, 401(a) Plan deferred compensation payments, employee benefit administration costs, Medicare tax, Social Security tax, unemployment assessments, workers compensation and public safety injured on duty payments, employee assistance services, professional services, and incidental expenses						
Budget Activities						
Health Insurance						
This budget assumes a 10% increase in health insurance premiums for FY2025 and includes a provision for the enrollment of 10 additional employees who do not currently participate in the Town's group health program. Enrollment in the Town's group insurance program has been relatively stable over the past several years, decreasing by 3.36% for the five-year period FY2020-FY2024, and decreasing approximately 0.70% from FY2023 to FY2024. In the current fiscal year there are 48 employees participating in the "opt out" program, whereby employees receive a payment for opting out of the Town's group insurance program. The chart below includes the number of active health insurance subscribers for the past ten years.						
While insurance <u>rates</u> are projected to increase by 10%, the health insurance portion of this budget is projected to increase by 3%. This projection is attributed to lower-than-expected growth in enrollment, the mix of participants within plans, and the level of participation in the opt-out program. The health insurance line is still estimated at this time, as actual health insurance rates will not be available until early CY2024.						
Fiscal Year	Town	% Increase over Prior Year	School	% Increase over Prior Year	Total Actives	% Increase over Prior Year

1-Year Change (FY2023-FY2024)	-2	-0.69%	6	1.07%	4	0.47%

Medicare & Social Security Tax

The Employee Benefits budget also funds Medicare and Social Security benefits for all Town employees, including General Government and School Department employees. These lines are increasing by 5.3% and 5.2% respectively, based on a five-year average of expenses.

Unemployment

The Town is self-insured for unemployment. Benefits are provided by the Commonwealth and the Town is billed for its share of the cost. The Town may be responsible for the entire benefit, or for a portion, based on the former employee's employment status over the previous year. This budget funds unemployment benefits for all Town employees, including General Government and School Department employees. The recommended unemployment line increased by 4% for FY2024 based on salary growth projections.

Workers Compensation and Public Safety Injury on Duty

This budget provides funding for costs associated with Workers Compensation for all General Government and School Department employees. The Town of Needham is self-insured for these programs. The Workers Compensation line item also includes funding for pre-employment physicals for General Government employees. The Town has accepted the provisions of M.G.L. c. 13C, which allows the Town to roll forward unused appropriations for the purpose of establishing a reserve for large claims. The Workers Compensation line is projected to grow by 4%.

The May 1, 2021, Special Town Meeting approved the creation of a Special Injury Leave Indemnity Fund. Beginning in FY2023, funding for expenses relating to Injury on Duty benefits for public safety employees are segregated and the requested amount is appropriated to the fund. The Injury on Duty & 111F line is expected to grow by 4%.

Budget Changes

The planned merger of Harvard Pilgrim Health Care and Tufts Health Care may have an impact on this budget in the coming years. Moreover, enrollment tends to increase in periods of recession, so the state of the economy will impact this budget as well. The total increase in the budget over FY2024 is \$693,062, 3.74%.

V2025			

Townwide Expense Budget											
Townwide Budget	Needham Electric, Light & Gas Program										
Purpose of the Budget											
The Needham Electric, Light and Gas Program budget is administered by the Finance Department, but the day-to-day activities are managed by the individual Town departments, who monitor energy usage in Town and School buildings and along the public ways, public parking lots, and outdoor facility lighting. This budget pays for the cost of electric and natural gas supply furnished by private utility companies, and the monthly fixed, transmission, and distribution charges from the public utility, Eversource. This budget also provides funds for the maintenance and repair of streetlights and electric vehicle charging stations. The program also pays the costs associated with the production of electricity from solar energy that is supplied to the electric grid for which the Town receives payment from Eversource.											
Budget Activities											
The Town reviews and measures electric and natural gas use in public buildings to see how best to limit discretionary usage, and to make improvements that minimize energy use in a cost-efficient manner. The Town has several new and expanded facilities which opened over the last four years which include the Sunita L Williams School (FY2020), the Memorial Park Field House (FY2020), the modular classrooms at Mitchell School (FY2020), the Jack Cogswell Building (FY2020), the Fire Headquarters (FY2021), Fire Station #2 (November 2021), and in March 2022 the new Police Station. The increase in size and number of facilities has increased the energy load required to operate the facilities. Although the facilities are expected to be more efficient in the use of power, the demand increases because the types of systems being introduced to the buildings did not exist before or were limited (central air, elevators, technology, etc.). The Emery Grover Building (school administrative offices) will reopen after the complete interior reconstruction and exterior restoration in FY2025. The Town has also been adding electric vehicle charging stations at various municipal locations, including Public Services Administrative Building (PSAB), Rosemary Recreation Complex, and the Sunita L Williams School. The total billed consumption (excluding sewer and water enterprise facilities) during FY2023 was 12,739,513 kWh which compares to 13,138,487 kWh for FY2022, and 11,397,642 kWh for FY2021. The usage for FY2023 was 3.0% less than FY2022. FY2022 usage was 15.3% more than FY2021. The total billed for FY2021 was 11,397,642 kWh, which was a 12.0% increase over the prior year.											
Electric Usage											
<table> <tr> <td>FY2019 Billed Usage - All Accounts Except Enterprise</td><td>10,811,781</td></tr> <tr> <td>FY2020 Billed Usage - All Accounts Except Enterprise</td><td>10,174,524</td></tr> <tr> <td>FY2021 Billed Usage - All Accounts Except Enterprise</td><td>11,397,642</td></tr> <tr> <td>FY2022 Billed Usage - All Accounts Except Enterprise</td><td>13,138,487</td></tr> <tr> <td>FY2023 Billed Usage - All Accounts Except Enterprise</td><td>12,739,513</td></tr> </table>		FY2019 Billed Usage - All Accounts Except Enterprise	10,811,781	FY2020 Billed Usage - All Accounts Except Enterprise	10,174,524	FY2021 Billed Usage - All Accounts Except Enterprise	11,397,642	FY2022 Billed Usage - All Accounts Except Enterprise	13,138,487	FY2023 Billed Usage - All Accounts Except Enterprise	12,739,513

FY2021 Billed Usage - All Accounts Except Enterprise	11,397,642										
FY2022 Billed Usage - All Accounts Except Enterprise	13,138,487										
FY2023 Billed Usage - All Accounts Except Enterprise	12,739,513										
The Town closed many of its public facilities in response to the COVID Pandemic in March 2020, which resulted in a decline in total billed electric usage for FY2020 compared to FY2019 (10,174,524 kWh vs 10,811,781 kWh). However, energy use increased as public facilities were reopened during FY2021, and the demand for the heating and ventilation systems grew. The power demand grew in FY2022 by more than 1.7 million kWh over FY2021. Overall, electric use											

Townwide Expense Budget

Townwide Budget

Needham Electric, Light & Gas Program

for FY2022 (13,138,487 kWh) was approximately 22% more than FY2019 (10,811,781 kWh). The increase in usage during FY2022 was due to a combination of new facilities opening (Fire Station #2 and the Police Station), the running of air exchange systems all day as a continued response to COVID concerns, which Building Maintenance was requested to do. The Town saw a reduction in total electric consumption during FY2023 with 12,739,513 kWh which mainly was due to a scale back in the amount of air exchanging that was required. Improved air filtering and more timely replacement of air filters has helped to reduce the electric demand, because the equipment did not have to run as often to achieve the desired results.

The Town's contract for electric supply with Constellation is in effect until December 2024 (mid FY2025) at \$0.0931 per kWh, which is very favorable compared to the current market with prices that have been as high as \$0.26 per kWh. The regulated portions of electric services, transmission and distribution systems continue to climb as well. Based on current billings, the Town's all in kWh cost estimate will increase from \$0.23 for FY2024 to \$0.24 for FY2025. The power companies need to upgrade their systems, and secure new sources of supply in order to keep up with the changing demand. With the growth in electric powered vehicles and communities in the Eversource service area adopting "no fossil fuel" building codes, the charge for power will likely continue to increase notwithstanding the infrastructure improvements the public utilities have done.

The Town's usage of natural gas declined for the first time in several years. Usage was increasing year over year due to the conversion from oil heat to natural gas heat in some buildings over the past several years (Mitchell School, Pollard School, Public Works building), and the addition of several new and larger buildings (Fire HQ, Fire Station #2, Jack Cogswell Building, Memorial Park Field House, Police Station, and the Sunita L Williams School) and the expansion of existing facilities (High School and Mitchell School Modulares). Natural gas usage increased by 5.8% in FY2020 with 522,716 therms compared to 494,219 therms for FY2019. FY2021 usage of 667,531 therms was a 27.7% increase, which was followed by a 4.0% increase in FY2022 with 694,198 therms. The total usage for FY2023 was 550,987 therms, a decrease of 20.6%. This decrease is attributable to the warmer winter. Ironically, the 2022 fall season (FY2023) was cooler than usual and natural gas use was running higher than the prior year as the buildings heating systems kicked in much sooner than recent years. However, air temperatures were generally higher than usual during the winter months (2022 – 2023), which lowered the heating needs of the Town and School buildings. During the prime heating months (November – April) the Town's natural gas usage was running at approximately 77% of the usage during the prior year. However, the price per therm increased significantly in FY2023, which required a reserve fund transfer request that was approved by the Finance Committee to pay all the bills for FY2023.

Natural Gas Usage

FY2019 Building Consumption	494,219
FY2020 Building Consumption	522,716
FY2021 Building Consumption	667,531
FY2022 Building Consumption	694,198
FY2023 Building Consumption	550,987

Unlike electric consumption, which declined during FY2020 compared to FY2019, there was no decline in Natural Gas consumption which was attributable to several new facilities that opened in

Townwide Expense Budget	
Townwide Budget	Needham Electric, Light & Gas Program
FY2020, and that the building closures, due to COVID restrictions, did not occur until the spring (March 2020) when the heating season was nearing an end. The significant increase in use during FY2021 is reflective of both a colder winter season, the opening of the New Fire Headquarters, and the facilities which came online during FY2020 and were open for all of FY2021. During FY2022, Fire Station #2 opened in November (start of the heating season), and the Police Station opened in March 2022 (at the end of the heating season). The Town's natural gas supply contract will expire with the December 2023 readings. The supply contract provided the Town with an average cost of \$1.95 per therm. The regulated portion of the natural gas service (provided by Eversource) had increased as well. The Town, has been seeking a new supply contract, but prices have remained high. The Town is likely to may revert back to Eversource as the natural gas supplier for the current year because the supply rate charge approved by the State that Eversource may charge customers is lower than the current market price offerings. We have kept the cost estimate at the same \$3.30 per therm that was assumed for the FY2024 budget. Although supply costs have declined slightly, Eversource's charges (regulated services) have been increasing. We anticipate the State will approve a further increase in the natural gas rates.	
Budget Changes	
The budget request of \$5,669,038 is \$13,981 higher than the FY2024 budget (\$5,655,057), only a 0.25% change. The primary factors which have influenced this budget submission are the increase in the average rate for electricity, level price for natural gas, lower consumption estimates for both electric and natural gas, and only one new building coming online during FY2025. We have decreased the budget for solar power generation by approximately 1%, based on the amount of power produced by Telsa which the Town pays approximately \$0.09 kWh and in turn sells to Eversource on average at \$0.35 kWh during FY2023. The payments the Town receives from Eversource are General Fund receipts and are part of the revenue estimate for the budget year.	

Fiscal Year 2025 Proposed Budget

Townwide Expense Budget				
Townwide Budget		Needham Electric, Light & Gas Program		
Line Item	Description	Change from FY2024	Comments	Net Change
Energy	Solar Energy	(\$3,964)	Assumes a reduction in billable solar generation of one percent.	\$14,341
	Electricity	\$23,361	The consumption estimates are based on the three year average use (2021, 2022, 2023). Facilities open for less than three years is based on the highest year consumption. The per Kwh charge is level at \$0.24. (current supply contract expires December 2024 bill rate \$0.0931 Kwh) Emery Grover Building usage is assumed at 200,000 Kwh.	
	Natural Gas	(\$5,056)	The consumption estimates are based on the three year average use (2021, 2022, 2023). The per therm charge is level at \$3.30 (current supply contract expires December 2023 bill rate \$1.9501 Therm).	
Total				\$14,341

The energy line amount (\$5,555,038) is \$14,341 or 0.26% higher than the current year (\$5,540,697). The energy line represents approximately 98% of the total budget. This request includes the estimated cost for electric and natural gas services for the existing and the new school administrative offices. The energy line pays the supply charges for electric and natural gas, the regulated charges for transmission and distribution, and the payments to produce electric power from solar. The portion of this expense line that is allocated for solar production is 1% lower at \$392,455 for FY2025. A reduction of \$3,964.00

The budget request for natural gas supply is \$2,099,338 which is \$5,056 less than the current budget, a decrease of 0.2%. The calculation for all municipal facilities, except Fire Station #2, was based on each facility's three-year average consumption (FY2021 – FY2023); Fire Station #2 (which has been open for less than three years) was based on the highest usage amount. There are no new facilities opening in FY2025 that will impact this budget line. The consumption estimate was multiplied by \$3.30 per therm plus the basic service fees. The decrease is attributable to the lower three year consumption average for many buildings. The budget calculations for natural gas are shown below.

The electric portion of the budget has essentially three parts, School and Town buildings municipal streetlights, and other facilities. The other facilities include parks and school grounds, traffic signals and highway devices, municipal parking lots, and park and recreation facilities.

In calculating the FY2025 electric budget for municipal (Town and School) buildings and facilities, we used the three-year average consumption (FY2021 – FY2023) to develop the budget. However, accounts which have been serviced for less than three years the estimate was based on the highest year consumption. The facilities which have been open for less than three years are Fire Station #2, and the electric vehicle charging stations. We have assumed 200,000 kWh annual usage for the Emery Grover Building which reopens in FY2025. The streetlight usage was assumed 283,940 kWh. The estimated usage was multiplied by an average rate of \$0.24 kWh plus the basic service fees. The requested amount is based on 12,662,669 kWh which is lower than the 13,113,667 kWh which the FY2024 budget was based. The decrease reflects a lower three year average and only one new building being added. The total amount for electricity is \$3,063,245, an increase of \$23,361 (0.8%). The budget calculations for electricity are shown at the end of this document.

Townwide Expense Budget		
Townwide Budget	Needham Electric, Light & Gas Program	
Repairs and Maintenance Services FY2025	Estimate	Total
EV Charging Station Repairs and Professional Services	\$6,000	
Light Fixtures on Pole Transfers	\$8,000	
Other Repairs and Emergency Calls	\$25,000	
Schools and Town Buildings	\$5,000	
Street Lights and Municipal Facilities	\$45,000	
		\$89,000

The repairs and maintenance expenses (\$89,000) were decreased by \$360 for FY2025. This allowance pays for the annual maintenance and repairs costs for the Town's street and parking lot lights and now electric vehicle charging stations. The work is almost exclusively done by contracted service providers. The account also pays for expenses incurred to remove and replace a streetlight when the public utility replaces an existing pole. The line also pays for emergency response to repair or replace (depending on the amount damage) a streetlight damaged in a pole knock down.

Professional and Technical Services (\$24,000) expense was level funded for FY2025. This allowance is to pay for outside professional consultants who assist in the preparation of the annual report, audit, and review the energy production figures for compliance with the terms of the agreement, resolution assistance in the rate that Eversource compensates the Town for provided power, energy market trends and analysis, and assistance in the procurement of energy supply.

Dues and Subscriptions (\$1,000) expense was also level funded for FY2025. This allowance is to cover membership fees the Town pays in order to participate in joint purchase group for power. The Town pays an annual fee based upon its natural gas load.

V2025					

Townwide Expense Budget	
Townwide Budget	Retiree Insurance & Insurance Liability Fund
Purpose of the Budget	
This budget incorporates both “pay as you go” funding for the health insurance benefits of current retirees, and the normal cost of benefits for future retirees. Post-employment benefits (“OPEB”) are part of the compensation for services rendered by employees, and the Town’s obligations accrue during an individual’s employment. The Town has funded its post-employment benefit obligation since FY2002, and Chapter 10 of the Acts of 2002 created a separate fund for this purpose. In FY2008, the Town began appropriating for retiree insurance and OPEB liability in one line item in accordance with an actuarial schedule. The funding schedule includes both the “normal cost” (the projected cost of current employees’ expected future benefits) and the amortization of unfunded accrued liability. A major benefit of pre-funding in this manner is that investment returns supplement contributions, acting as a reserve to mitigate increases in medical costs. Disclosure of a community’s unfunded liability is a requirement of Government Accounting Standards Board (GASB) 45, and is a factor considered by credit rating agencies. On August 1, 2013, the Town transferred its OPEB assets to the State Retiree Benefits Trust (SRBT) Fund. SRBT Funds are invested in the Pension Reserves Investment Trust (PRIT) Fund. This program allows the Town to participate in a pooled investment of over \$100 billion. Because of this asset size, management fees are lower than the Town could obtain on its own, and the Town has access to alternative investments which would not be available through a smaller investment firm, such as real estate, timber, private equities, and public securities.	
Budget Activities	
The Retiree Insurance & Insurance Liability Fund budget is based on the most recent actuarial valuation of June 30, 2022, with a measurement and reporting period date of June 30, 2023. The plan remains on target to reach full funding in FY2041.	
Budget Changes	
As of November 1, 2023, there are 606 retirees electing health insurance coverage for 867 unique subscriber plans (including retiree individual, retiree family, and retiree spouse plans), along with 38 surviving spouses. While survivors pay 100% of the insurance premium, their participation impacts both the rates calculated for subscribers and the OPEB liability. The only change in actuarial assumptions in the current report is a modified assumption on future health care cost increase. In accordance with the Governmental Accounting Standards Board’s new method of measuring and reporting OPEB benefits, Standard 74 is the basis used to assess the Town’s unfunded OPEB liability. As of the June 30, 2023 reporting date, the Town’s net OPEB liability was \$72,328,590. This liability represents the difference between the total liability of \$143,077,747 and assets of \$70,749,157. This results in a funded ratio of 49.45%. The Town has been reducing the discount rate assumption steadily, from 7.75% in FY2017 to 6.25% for FY2024. The 6.25% discount rate continues for FY2025.

V2025			

Fiscal Year 2025 Proposed Budget

Townwide Expense Budget			
Townwide Budget		Retirement Assessment	
Purpose of the Budget			
This line item funds pensions for contributory (MGL c. 32) retirees. Contributory retirees are those who participate in the Needham Contributory Retirement System. This includes all General Government and non-teaching School Department employees working a minimum of 20 hours per week. As of January 1, 2023, there were 749 active participants, 446 retirees, 35 disabled retirees, and 355 inactive participants. The average pension was \$30,013. Chapter 176 of the Acts of 2011 changed the calculation of pension for employees hired after April 1, 2012. As of January 1, 2023, just over 60% of the System’s active members were hired after that date, and their normal cost is lower than those hired prior to April 1, 2012.			
Budget Activities			
This appropriation funds both the normal cost (the cost of current employees’ future pensions) as well as the System’s unfunded pension liability. The system is expected to be fully funded by 2033. The unfunded actuarial accrued liability (UAAL) is \$88,288,752. The market value of assets as of January 1, 2023, was \$213.8 million-compared to the actuarial value of \$225.1 million. The market value return for the year was -11.23% (6.37% for actuarial value return.) The requested appropriation of \$13,305,237 represents:			
Normal Cost: \$4,354,395 3(8)(c) Transfers: \$ 600,000 UAAL: \$8,350,842.			
Budget Changes			
The Retirement Board voted to adopt a new actuarial schedule for FY2024 that included a reduction in the assumed rate of return (discount rate). The Retirement Board reduced the discount rate from 7.50% to 7.25% for FY2020. 6.50% for FY2022, and 6.25% for FY2024. The discount rate used in the FY2025 assessment calculation remains at 6.25%.			
The 2022 Annual Town Meeting voted to increase the base on which retiree cost of living adjustments are made, from \$14,000 to \$16,000. The only actuarial assumption change in the new actuarial schedule is a reduction in estimated 3(8)(c) payments to other retirement systems.			
The funded status of the System after all assumption changes on an actuarial basis is 74.5%. The actuarial value of assets is the market value of assets as of the valuation date, adjusted to phase in investment gains and losses over a five-year period (constrained to be within 20% of the market value of the assets).

V2025			

Fiscal Year 2025 Proposed Budget

Townwide Expense Budget			
Townwide Budget		Classification Performance & Settlements (CPS)	
Purpose of the Budget			
The Classification, Performance, Settlements (CPS) line provides a reserve for funding personnel-related items as they occur during the fiscal year, as authorized by Town Meeting. Examples include performance-based increases for management employees in accordance with personnel policy, funding of collective bargaining agreements approved by Town Meeting, and funding for any changes to the classification and compensation plans.			
Budget Activities			
The CPS budget fluctuates annually depending on the number of collective bargaining agreements that have been settled for a given year. The collective bargaining agreements not already settled for FY2025 include the Independent Town Workers Association and the Needham Independent Public Employee Association.			
Budget Changes			
The FY2024 appropriation for this line is \$998,000. To date, \$548,143 has been transferred.

Total DSR2 & DSR4	\$881,000		\$881,000
V2025			

Fiscal Year 2025 Proposed Budget

Budget Request Short Form			
Budget		Reserve Fund	
Purpose			
The Reserve Fund is the budget line that sets aside contingency funds that can be transferred to other budget lines upon a vote of the Finance Committee to provide for extraordinary or unforeseen expenditures. The appropriation of funds for such purposes is specifically authorized under state law. M.G.L. c. 40, §6. No direct drafts may be made from the Reserve Fund. Needham Town Meeting appropriates an amount for the Reserve Fund each year as part of the annual operating budget. Any Town department may request that the Finance Committee transfer an amount from the Reserve Fund to another budget line to cover a specific unforeseen or extraordinary expenditure. Town Meeting may also re-appropriate funds in the operating budget, including from the Reserve Fund to different budget lines, without meeting the requirement that an expense be unforeseen or extraordinary. At the end of a fiscal year, any balance remaining in the Reserve Fund, as any budget line, is closed out to free cash.			
Budget Statement			
The request for the FY2025 Reserve Fund is \$2,499,955. This amount was determined in accordance with the method used for projecting the Reserve Fund level for over ten years, though the final approved amount has been reduced in the past two years to help address important budgetary needs. The FY2025 Reserve Fund request is 1.4% of the projected FY2025 operating budget after being adjusted to remove expenses that are either known or do not draw on the reserves (retirement, OPEB, debt service, and the reserve fund). The calculation starts with the approved FY2024 operating budget and adjusts it by applying an annual growth rate of 2.5% to determine a projected FY2025 budget. The FY2025 requested funding level of \$2,499,955 is anticipated to be sufficient to provide for extraordinary or unforeseen expenditures without unnecessarily cutting into other operating needs. The FY2025 request for the Reserve Fund represents a 25% increase over the FY2024 appropriation of \$2,000,000. The FY2024 original request of \$2,346,825 was calculated in the same manner but was decreased to an even \$2,000,000 in order to help balance the budget and cover priority needs, and also to be a placeholder while the Finance Committee considers a new approach. There has been significant turn-back in recent years, and the Committee is wary about tying up funds that could be put to good use. However, recent years have also incurred lower snow removal costs which can fluctuate significantly and unpredictably.			
Budget Changes			
This budget is increased each year roughly in synchronization with the amount that the budget increases overall, since its purpose is to provide a safety net or contingency reserve in case another budget line is unexpectedly insufficient. To illustrate the purpose of the Reserve Fund, the table below shows examples of transfers granted from the Reserve Fund to other budget lines in recent years:			
	<u>Budget</u>	<u>Purpose</u>	<u>Amount Transferred</u>

Department Information DSR1	
Department	Office of the Town Manager and Select Board
Department Mission	
The Town Manager/Select Board budget includes funding for the Select Board, the Office of the Town Manager, and the Human Resources (HR) Department. The Select Board appoints a Town Manager who is responsible for the administration of the day-to-day operation of the Town. The Deputy Town Manager supervises the Town's Planning and Community Development, Building Inspection, Park & Recreation, Health and Human Services, Library, and Economic Development functions.	
<u>Select Board</u> The Select Board is responsible for establishing policies and procedures for the coordination of Town government operations, representing the interests of Town residents in business dealings, legal affairs, and intergovernmental cooperation with other municipal, County, State, and Federal agencies, making appointments to Town Boards and Committees under its jurisdiction, convening the Annual Town Meeting and any Special Town Meetings that may be required, preparing the Warrant for Town Meeting consideration, licensing all food and liquor establishments and transportation companies, and approving certain appointments recommended by the Town Manager.	
<u>Office of the Town Manager</u> The Town Manager is the Town's Chief Executive Officer, responsible for functions that include (but not limited to): reviewing and recommending the reorganization, consolidation, or abolishment of departments; rental and use of all Town property, except School property; maintenance and repair of all Town buildings, including School buildings and grounds; serving as purchasing agent for the Town; awarding all contracts for all departments and activities of the Town with the exception of the School Department; adopting rules and regulations establishing a personnel system in cooperation with the Personnel Board; fixing the compensation of all Town employees except those under the jurisdiction of the School Committee; negotiating and administering all collective bargaining agreements with employee organizations representing Town employees other than employees of the School Department; and serving as Chief Financial Officer of the Town, preparing and recommending a Proposed Annual Operating Budget and Capital Improvement Plan. The Office of the Town Manager executes the day-to-day operations and special projects associated with both the Select Board and the Town Manager. This includes the coordination of licensing and permit activities and public hearings related to: alcohol, public utilities, Class I and II motor vehicle sales, common victualler, outdoor dining, road events, taxi, bowling licenses, entertainment, sale of second-hand goods, lodging, automatic amusement, above ground and underground storage permits, and applications for mobile food vendors. This office also serves as a United States Passport Acceptance Facility, rental and event planning resource for James Hugh Powers Hall, staff liaison for all Select Board appointed committees, as required, and publisher of the Annual Town Report, Town Meeting warrant, and Special Town Meeting warrant(s). The Office of the Town Manager also includes the Town's economic development and communications functions, to include management of the Town's website and official social media accounts.	
<u>Human Resources</u> The Human Resources Department is responsible for the administration of various employee-related functions surrounding the provision of services to Needham residents. The department is charged with finding, screening, and recruiting the best candidates to fill the available positions within the Town. It also serves as the liaison with the Personnel Board on behalf of the Town Manager in its advisory role in such areas as full-cycle recruitment, position classification and policy	

Department Information DSR1	
Department	Office of the Town Manager and Select Board
administration. A key mission of the Human Resources Department is to build a work environment where everyone has equitable opportunities to be and perform at their best. The Department serves as the primary resource for all employees involving a variety of matters such as policy and collective bargaining agreement interpretation, progressive discipline processes, leave administration, and employee and labor relations concerns. The Human Resources Department also oversees various Town-wide employee engagement initiatives, including succession planning, professional development of staff, workplace diversity, equity, inclusion and belonging initiatives, and other organizational development interventions. The Human Resources Department centrally manages the administration of group health and life insurance for all active Town and School employees, as well as Town retirees enrolled with Needham Contributory Retirement Board and Mass Teachers Retirement System. The Town also administers voluntary benefits such as dental, vision, flex spending, health savings accounts, disability insurance, and more for all Town and School employees. The department also centrally administers Town and School unemployment insurance, workers compensation program, and public safety Injured-on-Duty/111F program.	
On the Horizon	
The key priorities for the Select Board and Town Manager in the coming year include fostering a livable community through investment in safe, well-maintained, and attractive buildings, infrastructure, and undeveloped land for passive recreation; encouraging economic vitality by ensuring that residents and businesses alike have access to economic opportunities and resources in Needham; continuing to develop safe, cost-effective transportation infrastructure; providing for the physical and mental well-being of residents in an environment of inclusion, diversity, and equity; continuing to ensure that Needham is a welcoming and inclusive community that promotes community safety both year-round and during emergencies; governing with a focus on responsible management of Town assets and providing excellent customer service; and acting as a responsible steward of natural resources. To these broader ends, the Select Board adopted a set of 42 specific goals in August 2023, working with Town staff to develop timelines and desired outcomes for each. The 2022 Annual Town Meeting approved funding in the operating budget towards Diversity, Equity, and Inclusion consulting, which was funded in FY2023 and is further continued in this proposal. The FY2023 appropriation was used to fund year-long supervisory training. Additionally, the 2023 Annual Town Meeting approved the funding of the Director of Communication and Community Engagement as a full-time position. Over the course of this year, the Human Resources Department saw a change in management with the departure and replacement of the Human Resources Director. The department also welcomed a Management Fellow through the International City/County Management Association (ICMA)'s Local Government Management Fellowship program, which places recent Public Administration Master graduates in full-time government positions. The selected candidate joined the team in August with the objective of moving forward talent retention programs and other long-term impact projects. The implementation of the Town's first application tracking software has brought increased efficiency in the way that the department keeps track of hiring and has allowed hiring managers in each department electronic access to potential candidates, for a quicker, more effective selection	

Department Information DSR1	
Department	Office of the Town Manager and Select Board
process. In FY2023, 81 candidates were placed into full and part-time vacancies through the use of the software. The office also supported the hiring of 154 summer seasonal hires. The Human Resources Department is also exploring the use of the software for the electronic management of personnel and payroll action forms, which are currently handled via paper copies, for which another program module was purchased. Major objectives for the department in the coming year will be proactive recruiting and creative talent retention strategies; continuation of the diversity, equity, inclusion and belonging work that has been ongoing; town-wide professional development and the training and onboarding of the new Assistant Director.	
Budget Statement	
The FY2025 base budget submission is 3% higher than the FY2024 appropriation, with a total increase of \$45,599. This total increase is comprised of a \$41,728 increase in the salary line, due to salary increases for existing personnel and increased overtime allotments for staff assigned to provide AV support for Powers Hall. The expense line shows an increase of \$3,871. The expense line increase is primarily due to the projected replacement of several employee IT items. This submission includes one new, ongoing funding request with an increase of \$23,000 plus \$12,000 in one-time set up costs. The \$35,000 in expenses is related to the procurement of Board Agenda and Committee Management software solutions described in an attached DSR4, which would cost approximately \$23,000 annually with a \$12,000 implementation cost. The requested increase of \$2,346 in Communications is primarily to account for an increase in postage costs incurred across the Offices of the Town Manager and Select Board due to the increased cost of postage, resident communications, and passports being processed. The requested increase of \$1,890 in Travel & Mileage is primarily to account for increased transportation costs related to conferences. The requested increase of \$1,245 in the Other Supplies and Equipment category is primarily related to increased costs in labor related informational posters. The requested increase of \$750 in the Food and Service Supplies category is primarily to account for the increased cost of food Human Resources Department provides during employee engagement activities. The requested increase of \$406 in the Dues and Subscriptions category is primarily to account for projected increased cost in Select Board Massachusetts Municipal Association dues. The requested increase of \$25 in the Office Supplies category is primarily to account for market-related increases in office supplies.

Does the request support activities which produce revenue for the Town?				X
If the request is not approved, will current Town revenues be negatively impacted?				X
Is there an increased exposure for the Town if the request is not approved?				X
Is specialized training or licensing required (beyond the initial purchase)?				X
Does this request address a documented health or safety issue?				X
<i>All "YES" responses above must be explained in the narrative below</i>				
Description and Explanation				
The Office of the Town Manager seeks to procure a Board Agenda and Committee Management software to improve board, staff, and resident experience with public meetings. From a staff perspective, board agenda software would greatly reduce the staff time and processes related to agenda and minute development for elected and appointed bodies. By creating standardized systems, each board and committee would be able to produce timely, quality, and standard documents. Such solutions on the marketplace universally allow for automated routing, review, and templating that is currently done by staff. Further, agendas and minutes would be able to be developed from any computer, anywhere. This will permit staff to work more effectively in remote environments (when necessary) and provide redundancy in the event of Town server failure. Further, minutes would be drafted in the software and development time reduced via templating which draws directly from agendas. Finally, board members would likewise be able to access and mark up agendas without the need for special additional software via any personal device in any location. Relative to the committee management software – which is included in packages with board agenda software options currently on the market – staff from the Town Clerk's office (who have participated in the development of this request) and board liaison staff would be able to share a				

Performance Improvement Funding Request DSR4			
Department	Office of the Town Manager and Select Board	Fiscal Year	FY2025
Title	Board Agenda and Committee Management Software	Priority	
single vantage point to track committee members, which does not currently exist. This would greatly decrease staff workload for simple requests, reduce the amount of time spent tracking down information that often exists in several, non-standard work products, and provide improved ability to actively recruit for vacancies. From a resident perspective, the board agenda software would allow for a much improved user experience and remove barriers to accessibility for those with differing abilities relative to sight and sound. First, the software would create a streamlined central database for board meeting schedules, agendas, packets, minutes, and recordings in a single portal. The recordings would be able to captioned with the ability to mark timestamps for agenda items as a feature in many market options. Additionally, agendas and minutes could be viewed in HTML script, which is a key ADA feature for those who use screen reading audio devices. From a committee management software perspective, residents would be able to more easily access the current composition of boards and apply more easily for vacancies. Such a software would be procured to allow for unlimited staff users. This requirement would ensure that any Town board could use this product. Answers to above marked "Yes" questions: 1. The Select Board's overarching priority of progressing a "Responsibly Governed" and "Accessible and Connected" community aligns with the recommended procurement of a Board Agenda and Committee Management software. A board agenda software solution would not only aid staff in creating agendas, minutes, and other like documents, but enable residents to access information more seamlessly and with improved accessibility features, such as ADA-enabled HTML script and captioned video recordings, all available in a single access point. Further, a centralized committee management solution – to be procured with the agenda software as a single item, as permitted by market availability – would create a standardized backend system for all committees and the Town Clerk, reducing confusion and permitting a single access point for information that residents and staff alike can use to identify current appointed and elected leaders. 2. Relative to exposure, the Town would decrease the likelihood of a valid ADA compliant relative to meeting stream/recording accessibility for deaf people, blind people, or those with other differing abilities that require either screen reader or captioning tools to view public meeting recordings.

Department Information DSR1	
Department	Town Clerk
Department Mission	
The Town Clerk's Office continues to fulfill the mandates of local, state, and federal governments as well as the needs of the general public. FY2024 is one of the quieter election years in the Town Clerk's Office allowing us to play catch up during the summer on projects that had to be put on the back burner. The pace will quickly pick up with the Presidential Primary on Tuesday, March 5, 2024, and the Annual Town Election on Tuesday, April 9, 2024 (the only scheduled elections in FY2024). However, we understand that the State has 19 citizens petitions currently in circulation for possible inclusion on the 2024 Fall State Election ballot. While FY2024 may be a little quieter, FY2025 has three scheduled elections – The Annual Election on Tuesday, April 8, 2025, the State Primary in September 2025 (date not established yet), and the State Election on Tuesday, November 5, 2024. The June 2022 new election laws passed by the State Legislature has created much additional work for clerks and election officials. As of now, over 1/3 of the clerks in Massachusetts have either retired or resigned. In addition to Elections, there are also various other duties and requirements such as receipt of the Town's Vital Records including processing burial permits and the issuance and recording of births, marriage, and death certificates; the Annual Town Census; dog, marriage, and storage of flammable licenses; raffle permits; business certificates, nominations and petitions, meeting notice postings, public record requests.	
On the Horizon	
As we prepare for the Fiscal Year 2025 budget in October 2023, the Town Clerk's Office is gearing up for a Special Town Meeting on Monday, October 30, 2023, and the 2024 elections beginning with the Tuesday, March 5, 2024 Presidential Primary and the Annual Town Election on Tuesday, April 9, 2024. In Fiscal Year 2025 there will be a total of three scheduled elections - the 2024 State Primary and State Election, which is sure to prove one of the busiest election periods in many years, and the Annual Town Election on Tuesday, April 8, 2025. Having conducted the 2022 State Primary and State Election under the new Voter's Act passed by the state Legislators on June 22, 2022, these election revisions have created a huge increase and demand on the election officials and staff of the Commonwealth of Massachusetts. Vote-by-mail postcards were sent out by the state to all registered voters as of July 2022. We processed over 6,000 vote-by-mail ballots and conducted Early In-Person voting for a period of 9 days prior to the 2022 State Primary and processed over 9,600 vote-by-mail ballots and conducted Early In-Person voting for a period of 14 days prior to the 2022 State Election. There was no break and no rest in between these two elections. One thing that stands out is that on the day of the State Election, 840 voters brought their ballots either into the Town Clerk's Office or the red Election Drop Box. The State Elections Division paid for the vote-by-mail postcards. Cities and towns paid to mail out the vote-by-mail ballots. The question that comes to mind is "why those voters couldn't go to their precinct and vote on Election Day. I anticipate that the same amount of work or more will occur for the 2024 State Primary and State Election. We were able to purchase an additional 7 ImageCase Tabulators at a much-reduced rate after the 2018 State Election. This allows Needham to hold a public meeting prior to election Day to advance remove and process most of the ballots that were mailed in prior to the State Election. The Advance Processing allowed ballots to be checked into the Poll Pads and then deposited into the ImageCast tabulator. No results were released until after 8 PM on Election night. This process cost additional salaries for Election Workers but eliminated the need to send these Early ballots to each precinct on Election Day. Again, I anticipate this process will be used for the 2024 State Election. We contracted with Stellar Associates (our former dog program vendor) in December 2022 after	

Department Information DSR1	
Department	Town Clerk
GoPetie failed to fulfill their contract for the dog licensing program contracted through August 2022. We have almost completed our first year with Stellar Associates and find they are helpful and easy to work with. Needham has about 3,300 licensed dogs. We continue to provide an online payment system for our residents for the coming licensing year and are positive Stellar will continue to be a worthwhile vendor. The Public Records Law established by vote of the Massachusetts State Legislators in 2017 continues to increase in volume and the new Public Records Program, FoiaDirect, has proved to be a great asset to the Town Clerk (aka the Chief Records Access Officer for the Town of Needham). All requests are processing either through the Chief Records Access Officer or directly to departments that must respond to these requests within a ten-business day response deadline. FoiaDirect has helped process these public records requests in a much timelier manner. As of October 2023, approximately 800 requests have been submitted this calendar year. It seems that new laws frequently land in the Office of the Town Clerk and adjustments must be made to comply with all legislative and mandated requirements. A Special Town Meeting is scheduled for Monday, October 30, 2023, and contains 15 articles. The law that requires the Town Clerk to distribute biennially to all municipal employees the Open Meeting Law, Conflict of Interest and mandatory on-line training continues to put an additional workload on the Town Clerk's Office. With just the Open Meeting Law requirements, this office has posted almost 11,168 meeting notices since the inception of this law. The Town Clerk is also required to send out these documents to all town employees, elected officials, and members of all committees and boards every two years. The process is time consuming particularly in heavy election years. One small benefit is that the State Ethics Department is now processing the mandatory online training and is the depository for those who have completed the training. The State Vitals electronic records program continues to expand. The Town Clerk is also the Burial Agent for the Town of Needham. This office records and processes electronically all birth and death records of residents and those that occur to non-residents in Needham. Online, by mail and over-the-counter requests are a major part of our daily responsibilities. The issuance of certified copies of these vital records often reaches close to 4,500 - 5,000 or more annually. Since there has been no indication of an electronic marriage system becoming a reality through the State Department of Vital Statistics, we applied for and received funding through the Community Preservation Committee in 2021 to digitize our marriage certificates from 1919 to 2000. This project was completed this past June 2023. As time permits, we are now computerizing the 2001 to 2023+ original marriage certificates to create an electronic system for providing requested marriage certificates. Records Management System –The centralization of town records under the care and custody of the Town Clerk has not progressed much since we moved back into the renovated Town Hall. The basement vault that once housed most of the archival departmental records does contain those of the Select Board/Town Manager department, the Assessors' Department, and the Town Clerk's Office. These records have been computerized. Other archival records are stored in other basement areas behind the vault. One of our goals would be to assist those departments in creating an itemized list to assist in the periodic disposition of records no longer required. This does not seem to be as high importance as other more pressing requirements.	

Department Information
DSR1

Department

Town Clerk

Preservation of old town records continues. To date we have restored thirty-two volumes. We applied and received funding through the Community Preservation Committee twice for restoration of archival records and we will continue to update archival records on an annual basis as needed.

Document imaging of the Town Clerk's records and the Select Board minutes began in Fiscal Year 2005. At that time the Town Clerk's Records from 1900 through 2005 were scanned and put on disk for retrieval. Fiscal Years 2006 through 2015 Town Clerk's Records were added to the program and we plan to continue this method of record management. Funding for the full retrieval program continues to remain a priority on our wish list.

FY2023 revenue totaled **\$184,365.85** compared with FY2022 revenue of **\$188,511.97**. **This represents a decrease of \$4,146.12.**

It is important to note that beginning in FY 2021, the revenue from the sale of Alcoholic Beverage licenses issued by the Select Board and recorded in the Town Clerk's Office was to be recorded in the Town Manager's Office under the new permitting program. This transfer came as a surprise as the collection of Alcoholic Beverage fees had been in the Town Clerk's Office for many years. Hopefully, FY2022 should see the end of this major decrease now that the transfer has been completed.

The following are total revenues by category for Fiscal Years 2019 – 2023

Fiscal Year	2023	2022	2021	2020	2019
General Fees	\$112,312.35	\$99,355.97	\$93,933.05	\$102,239.99	\$119,895.75
Liquor Licenses	0	0	\$ 53,121.00	\$106,569.61	\$94,785.10
Other Licenses	\$5,435.50	\$19,116.00	\$24,842.50	\$19,4554.00	\$25,917.00
Dog Licenses	\$66,618.00	\$70,040.00	\$65,756.00	\$62,068.00	\$66,915.00
Sub Total	\$184,365.85	\$188,511.97	\$237,652.55	\$307,095.10	\$307,512.85
Accrued Interest	0	0	0	0	0
Public Record Request	0	0	0	0	0
TOTAL	\$184,365.85	\$188,511.97	\$237,652.55	\$308,200.92	\$307,512.85

The major concerns of this office in Fiscal Year 2025 are the 2024 Fall Elections in which all city and town election officials must comply with the 2022 Voters Act. While we appreciate the work conducted by our State Legislators, the new laws take a toll on those who have to enforce these laws. Vote-by-mail postcards will be sent out by the state to all registered voters as of January 20, 2024. In 2022 this office processed over **6,000** vote-by-mail ballots and conducted Early In-Person voting for a period of 9 days prior to the 2022 State Primary and processed over **9,600** vote-by-mail ballots and conducted Early In-Person voting for a period of 14 days prior to the 2022 State Election. There was no break and no rest in between these two elections, and I doubt there

Department Information DSR1	
Department	Town Clerk
will be any breaks prior to the Presidential State Election in November 2024. This increase in vote-by mail applications and Early in person voting creates additional mailing costs as well as payroll costs to man the Early Voting hours. At 85 cents per ballot multiplied by 6000 and 9600 vote-by-mail requests is a major increase in the election budget. In addition hiring additional staff/Election workers to man Early Voting hours for the 2024 State and Federal Elections will certainly increase the payroll costs.	
Budget Statement	
<u>Town Clerk/Board of Registrars</u>	
The Town Clerk's Office continues to fulfill the mandates of local, state, and federal governments as well as the needs of the general public. FY2025 has three scheduled elections – The Annual Town Election on April 9, 2024, the State Primary in September 2024 (date not set by Elections Division yet), and the State Election on Tuesday, November 5, 2024. The FY2025 budget is a considerable increase over the FY2024 budget due to the increase in elections from 2 elections to 3 elections and the June 2022 new election laws. However, it is important to note that the voters Act passed by the state legislature now requires vote-by-mail and Early In-Person voting prior to each State Election. For the 2022 State Primary we received over 6000 Vote-by-mail requests and over 9600 for the State Election. It is my understanding that the Select Board must vote to hold Early-In-Person voting for the local town elections. Early Voting requires a huge commitment on the Town Clerk's Office to process each and every early ballot prior to election day! Another concern is the Voters Act created the last day to register to vote before each election is the tenth day before the election. That day now falls on a Saturday in which this office is required to hold a Special Voter Registration session from 9 am to 5 pm. The Town accepted MGL Chapter 41 section 110A at the 2023 Annual Town Meeting that allows towns to change the registration deadline to Friday. With three elections in FY2025 the Town Clerk/Board of Registrars budget shows an increase due to miscellaneous salary adjustments of \$50,323 and an increase of \$21,750 in Purchase of Services and Expenses of for the total increase of \$72,073 as follows: The increase in salary costs = \$50,323 include the following: DSR Sub Total 1: Board of Selectmen/Personnel Board review, step increases, revisions, longevity, cost of living increases. \$2,614 DSR Sub Total 2: Election Workers Salary increase from two to three elections, Temporary department coverage, Early voting staff and election worker salaries And Position open in office for P.T Department Specialist \$47,709 And revisions, longevity, Town Meeting, salary increase of Election Workers Total Salaries FY2025 budget increase: + \$50,323	

Fiscal Year 2025 Proposed Budget

Department Information DSR1	
Department	Town Clerk
Purchase of Service & Expenses: A total increase of \$21,750 as follows:	
1. [524X] Repairs and Maintenance: Stellar dog program = \$4,500 Additional maintenance from 10 to 15 Poll Pad maintenance costs x \$300 = \$1,500 (increase from \$3,000 to \$4,500 per year); Maintenance increases to \$250 for 18 Image Cast tabulators = \$900 and an increase in programming costs from 2 to 3 elections	A total increase of + \$3,040
2. [527X] Rentals & Leases: to include lease of Needham Golf Club + \$2,900 for 3 rd election.	A Total increase of \$2,900
3. [530X] Professional/Technical: costs in election Programming & printing for 3 elections - \$2500, + Early Voting Memory Cards + \$275, ICP Coding + \$1300 + Additional Voter list (3rd election + \$200)	A total increase of \$4,275
4. [5340] Communications: Postage increase for Town Clerk office + \$550 Census \$9,900, Confirmation Notices \$1,320, Misc. Election \$350 = \$11,570 postage increase for vote-by-mail ballots: 6000 for St Primary, 9,000 for St. Election and 600 for Annual Town Election (15,600 x \$.85 = \$13,260 Census sort, stuff = \$3,000 + warrants \$600 = \$3,600	A Total increase of \$15,460
5. [5345] Misc. Printing: Census sort, stuff, and mail by mail order included in Communication above	A total decrease of - \$1,375
6. [5420] Office Supplies: Increase in office supplies of +\$875	A Total increase of \$875
7. [5490] Election Food Supplies: increased food costs for 3 elections - \$2100, Pre- Election Early Voting \$2,100, Election Dinners \$2850, EV morning - \$1750 = \$8,800	A Total increase of \$4,800
8. [5580] Other Supplies & Equipment One time purchase	A total decrease of \$8,225
Total Expense FY25 budget increase	\$21,750
Total Salaries FY2025 budget increase:	+ \$50,323
Total Salary and Expense FY24 budget increase of	=\$72,073

Department Information DSR1	
Department	Town Clerk
Accomplishments and Activities	
The major accomplishment this fall was the successful implementation of the new Voters Act passed by the State Legislature on June 22, 2022. This included vote-by-mail and extended Early In-Person voting. This new law needs to be reviewed by those who pass laws without any knowledge of the consequences. As of the Summer of 2023, over 1/3 of the election officials and Town Clerks have either resigned or retired due to the increased demands and pressures created by the new Voters Act. Vote-by-mail postcards were sent out by the state to all registered voters as of July 2022. We processed over 6,000 vote-by-mail ballots and conducted Early In-Person voting for a period of 9 days prior to the 2022 State Primary and processed over 9,600 vote-by-mail ballots and conducted Early In-Person voting for a period of 14 days prior to the 2022 State Election. There was no break and no rest in between these two elections. One thing that stands out is that on the day of the State Election, 840 voters brought their ballots either into the Town Clerk's Office or the red Election Drop Box. The State Elections Division paid for the vote-by-mail postcards. Cities and towns paid to mail out the vote-by-mail ballots. This office processes approximately 15,000 plus census forms annually under state law to purge the voting list. We issue over 5,000 certified copies of birth, marriage, and death records annually and over 500 burial permits. Burial permits, death records and birth records are now delivered electronically. This includes all death and births that occur in Needham as well as resident copies. The Town Clerk's Office received funding at the 2021 Annual Town Meeting through the Community Preservation Committee to scan and program the Town's marriage records from 1919 to 2000 for ease of certification issuance. The Town Clerks Office will now scan and program as time permits for the remaining years through 2023 and forward to keep this new system up to date. The former dog licensing program, GoPetie cancelled their contract with the Town two months prior to the end of the contract. We have contracted with Stellar Corporation and are pleased that the program and online bill payment process are successful. We currently license approximately 3,600 dogs annually. And last but not least the Public Records Law continues to play a busy part in the life of the Town Clerk who is the Chief Records Access Officer. The Town Clerk's Office has just conducted the 2022 State Primary and State Election for the Town of Needham under new Election regulations passed by the State Legislature and are gearing up for the 2024 Presidential Election in March, the Annual Town Election in April, the State Primary in September, and the State Presidential Election in November. Fiscal Year 2025 will prove to be one of the busiest election periods in the last decade. Yes, we are busy. We will continue to monitor new ideas and programs that will make life easier and more efficient for both our residents and the Town Clerk's Office.

Fiscal Year 2025 Proposed Budget

Budget Request Short Form		
Budget	Legal Services	
Purpose		
Provides legal services to the Town government and School Administration, including providing assistance to outside counsel. Attends all Town Meetings and public body meetings when warranted. Represents the Town before courts and administrative agencies. Drafts and reviews contracts, bylaws, and regulations.		
Budget Statement		
In October 2022, the Select Board appointed Miyares-Harrington (now Harrington-Heep) as Town Counsel. This codified an arrangement that had been operated under since February 2020. This budget funds Town Counsel and special counsel costs for activities to include, but not limited to: land acquisition, building projects, cable licensing, ongoing legal issues, complex licensing matters, human resources issues, contract disputes, environmental issues, title searches, Town Meeting article research, and zoning issues. The Town anticipates services supporting ongoing capital projects, cable grant accounting, and activity related to ongoing litigation.		
Budget Changes		
Due to known increases in labor counsel hourly costs and the potential for either ongoing or unexpected future litigation, the Legal Services expenditure budget for Professional and Technical Services used to pay for outside counsel is increased by \$10,860. In FY2023, unexpected litigation resulted in a reserve fund transfer of \$40,000.		
Description	Purpose	Amount
Professional & Technical Services (530x - 531x)	Town legal counsel and specialty counsel services.	\$340,000

Department Information DSR1	
Department	Finance Department
Department Mission	
The Finance Department by its primary functions, which include accounting, assessing, budget and finance, collections, information technology services, parking appeals, procurement, risk management, and treasury; endeavors to provide professional and responsive services to the Town, its Boards, Committees, Departments, and the community at large. The Finance Department's primary goals are to ensure that the Town's financial assets are protected and managed, and information technology services are reliable, accountable, and resourceful, all while providing high quality customer service to the public and our internal customers.	
On the Horizon	
Many activities of the department are highly regulated and are required by statute. Other department activities that are not required by law but have arisen from other efficiency or cost saving efforts, or are just in keeping with good business practices, have transferred work (and incurred related expenses) from other departments to the Finance Department. Indeed, the increased reliance on, and the ever-expanding dependence on technology has allowed other departments to better perform their functions. By converting manual operations and procedures to computerized or other technology assisted processes, the speed, accuracy, and/or depth of information provides Town departments with a means to continue to deliver services with similar staffing levels. This trend would make the elimination of technology more expensive for the Town rather than a cost savings. The Department is responsible for the oversight of fiscal management functions, establishment of accounting policies and practices and publication of official financial reports. With virtually no exceptions, expenditures made by any department within the fiscal year cannot exceed the appropriation authorized by Town Meeting. In limited cases, such as debt service where the Town is required to pay debt service regardless of the amount of the annual appropriation, or snow and ice removal expenses, provided that the current year appropriation is at least the same dollar amount or more than the previous year's appropriation, spending may not exceed what is appropriated by Town Meeting. The Finance Department develops updates, explains, and puts into effect internal controls. The Deputy Town Manager/Director of Finance in conjunction with the Assistant Director of Finance, Town Accountant, Treasurer/Collector, and others, establishes fiscal internal control policies and procedures in accordance with state finance law. These policies require all departments to develop and maintain an internal control plan. All departments, boards, and committees (except the School Committee) are required to adhere to such policies and procedures. Property Valuation and Taxation Trends During calendar year 2022 it was still too early to have amassed enough data on land sales to ascertain whether the "Small House" zoning regulations have affected land sale prices negatively or not. It was clear that builders are designing homes that comply with zoning and that "teardown" land sales were on the increase and were still very high prices. It was this sustained land sale market that was behind the 10% increase in base land values across all neighborhoods in the 10,000 square foot lot zones which was reflected in the FY2023 residential values. It has also become clear during this year that another upward adjustment to values will be necessary for FY2024, to properly reflect the market price for land. This adjustment will likely be to the residential buildings; in the range of eight to ten percent across the spectrum of properties.	

Department Information DSR1	
Department	Finance Department
The residential market review for adjustment of the FY2025 values will be accomplished by both contracted services and in-house personnel by inspecting all properties that changed hands during calendar year 2023 to confirm that the physical information, as well as the description of the condition of the property in our database, is up to date. As per standard practice, buyers of property are sent questionnaires to confirm the terms of their sale and help establish whether they are in fact "arms-length" market transactions. All the information gathered will be subjected to in-depth statistical analysis by the Department of Revenue (DOR) prior to certification of the FY2025 values. The accuracy of our data on properties that changed hands during calendar year 2023 will be essential to the statistical analysis that needs to be submitted to DOR. The FY2025 process will be more complex and time consuming as this is the Quinquennial valuation. The staff will use publicly available information, in addition to close scrutiny of building permits records, to account for improvements that might warrant an increase or decrease in the current assessed value as it relates to the calendar year 2023 sale price. In calendar year 2023, the Treasurer/Collector went live with the new QDS tax billing software package, in April 2023 for motor vehicle excise and June 2023 for the FY2024 preliminary real and personal property tax bills. This should streamline interaction and productivity between all units of the Finance Department. Despite the use of no outside legal services during FY2024 to date, several potentially costly appeals were settled favorably. Additionally, successful "pre-billing" valuation agreements with high end commercial/industrial taxpayers, may have reduced the Appellate Tax Board (ATB) appeals that may be filed. As of this writing the Town has few outstanding commercial ATB cases of consequence, save the public utility which may involve multiple communities and the DOR. As mentioned previously, prompt follow up is also made on all building permits for new construction, additions, remodeling, and demolitions that are taken out with the Building Department. Although the Town's data collection methods have out of necessity changed, the purpose of these inspections remains the same. In addition to maintaining accurate data for the Assessor's records, the information is integral to the calculation of New Growth for the following fiscal year. Accurate and timely compilation of New Growth is an essential part of establishing the levy for the subsequent fiscal year. The utilization of the outside services, allows the Town to keep track of this growth more efficiently. Owners of Commercial/Industrial property, which is, for the most part, <u>valued on income attributable to the property, are annually required to return Income and Expense forms mailed by the Assessing office.</u> The information on these forms is then analyzed to assess general trends in vacancy rates, expenses, and rental income. Changes, if appropriate, are then made to reflect the fluctuations of the economic environment. The uptick in commercial activity in Needham Crossing has potential to continue its acceleration during calendar years 2024 and 2025 as planning and execution of the redevelopment of the former General Dynamics office properties into commercial, broadcast, hotel and residential is completed and potentially impressive construction by Boston Children's Hospital moves forward. The impact on overall rents in Needham Crossing due to facilities revitalization and the completion of the Highland Avenue widening and the "add a lane" project, with its Kendrick Street ramp, should continue to be positive over time. The same may be true with the redevelopment of the former Avery Manor. Unfortunately, tax revenue from the redevelopment of the Muzi site seems to be on the back burner for the immediate future. A third element of the value triad consists of business personal property. The primary objective in this element is to annually discover and list new accounts and update changes to existing accounts.	

Department Information DSR1	
Department	Finance Department
This is accomplished in large part through the mailing of forms to all business owners, who are required to list their assets. These forms are then reviewed by office staff and, in the case of some of the more complicated returns, an outside vendor is retained to determine the value and ability to tax the listed items. The aforementioned outside vendor re-appraisals of Eversource Gas and Electric have contributed to, and will continue to contribute, to the personal property ledger. A sizable bump in the realm of personal property came to fruition as NBC moved equipment onto their new facility at 189 B Street. Needham Crossing projects currently on the horizon, in addition to the planned revitalization and expansion of the former Avery Manor property, bode well for the continued expansion of the personal property account inventory. FY2025 will require a significant, once in a decade, increase in the budget allotted for our personal property vendor as the DOR is now requiring a total relisting of all existing accounts as well as a canvas of all businesses that could be potential taxable accounts. For the past decade or more our vendor has performed this service on a budget limited annual basis for a smaller percentage of our existing accounts. The return on this annual investment has consistently justified the outlay and will undoubtedly be well worth the additional expense. Median residential sales prices, which began to rise dramatically in the second half of calendar 2013 have continued to increase through 2023. The sustainability of this market into calendar 2024, is yet to be seen, higher mortgage rates have not yet impacted sales prices. In the commercial realm, FY2025 may tell a different story. FY2024 values are based on calendar year 2022 economic activity while FY2025 values will be based on calendar year 2023 activity. In calendar year 2022 some commercial landlords appear to have been cushioned by leases that obligated 2022 payments from their tenants. Going forward there may be necessary economic concessions they will need to make to retain those tenants over time as the pandemic trend of working remotely abates slowly despite the end of the clinical need to do so. The effects of these possibilities are not entirely predictable at this point, but the fact that many businesses may realize that they no longer require office staff may change the rental structure dynamic going forward. What is certain is that properties that function as service businesses, such as Needham's hotels and restaurants, will require continued close scrutiny based on their pandemic-induced reduction in income attributable to the property and a prior slowdown in business travel.	
Budget Statement	
The <u>FY2025 budget submission is \$4,026,804</u> which is a change of \$213,340 (5.6%) over the current budget of \$3,813,464. The current budget is inclusive of \$18,149 transferred by the Town Manager from the Classification, Performance, and Settlements reserve to the Finance Department for compensation adjustments for non-represented employees based on the approved FY2024 compensation and classification plan approved by the Town and merit raises granted to eligible managers. The current budget also reflects the transfers approved by Town Meeting at the October 30, 2023 session. The line item transfers included \$58,604 from the Finance Department salary and wages line to the DPW salary and wages line. The other transfer was \$239,111 from the Finance Department salary and wage line to the expense line. This was done to help offset increased costs for outside services to support technology operations because of vacancies. However, there are other factors which effect the budget for FY2025. The GIS Database Administrator position, which has been part of the Finance Department budget since the position was created, has been moved to the DPW Engineering division effective the beginning of November 2023. The FY2025 Finance Department budget does not include the salary for the position, three software applications, and miscellaneous expenses such as wireless communications, all of which	

Fiscal Year 2025 Proposed Budget

Department Information DSR1

Department Finance Department

will be budgeted by DPW for FY2025. The table below provides an “apples-to-apples” comparison. The true increase for FY2025 to FY2024 comparing the same expenses is \$264,025, 7.0% more.

Description	FY2025	FY2024	\$	%
Appropriated Finance Department Budget Art 12 ATM		\$3,853,919		
Add Classification Performance & Settlements Transfers		\$18,149		
Less October 2023 Special Town Meeting Transfer to DPW		(\$58,604)		
FY2025 Requested Base Budget DSR2	\$4,026,804	\$0		
Subtotal	\$4,026,804	\$3,813,464	\$213,340	5.59%
Less Balance of GIS Database Admin Salary Paid by Finance FY2024		(\$28,464)		
Less ESRI Software in Finance Expense Budget FY2024		(\$11,782)		
Less LEICA Smart Network Software in Finance Expense Budget FY2024		(\$2,386)		
Less DLT Solution AutoCAD in Finance Expense Budget FY2024		(\$7,553)		
Less GIS Position Budgeted Expenses in Finance Expense Budget FY2024		(\$500)		
Requested Base Budget vs Adjusted Current Budget	\$4,026,804	\$3,762,779	\$264,025	7.02%

One of the more significant increases to the base budget, as mentioned previously, is related to the state required recertification of all property in the Town. This process must occur once every five years. This will be the first time that the Town has had to do this since the Commonwealth changed the schedule from a three year certification cycle to a five year certification cycle. Although the frequency has been reduced, the documentation requirements and the need for third party confirmation are more extensive, read expensive. DOR states that the five-year certification review is to ensure the proposed values were derived utilizing a methodology based on generally accepted mass appraisal practices, are supported with current market evidence, and are uniformly and equitably applied to all property. The data quality, all cost and depreciation tables, and land schedules will be reviewed for all real property. In addition, income producing property will be reviewed for income and expense analysis, development of the economic rent schedules, capitalization rates and correlation of the values derived from two appraisal approaches. Personal property accounts will be reviewed for appropriate listing and valuation of assets along with the cost and depreciation schedules. The annual work, which is not as expansive, is budgeted at \$42,625 for the services provided by consultants. The additional work required under the five year cycle will add another \$58,000 for a total expense of \$100,625.

Software related expenses continue to increase and are currently the largest expense for the Finance Department. More software companies are moving to the subscription-based pricing model, and more applications are being hosted in the cloud, which may lower capital equipment replacement cost but increase the third-party fees. These expenses are increasing because the unit cost is increasing as is the number of users. The average increase in the annual license and support fees is approximately five percent. Some fees are lower and others higher. The increase in the budget allocation for software licenses and support services is \$52,455 for a total budget of \$758,655. Software licenses represent approximately 49% of the total Finance Department expense budget.

Before delving deeper into the FY2025 changes from FY2024, let’s review the FY2023 results. FY2023 had a number of extra challenges with several key positions being vacant, staff turnover in multiple divisions, and extra demands on all divisions with the beginning of the conversion to a new billing and collection system. The Department had a total budget return of \$260,542 or 6.7% of the final budget for FY2023. The budget return was due to several factors. First, the department had multiple vacancies including the Director of MIS and the Network Manager, two of the highly compensated employees of the department. The position of Treasurer/Collector was vacant for five months and the individual hired was at a lower salary than the prior incumbent. The Finance and Procurement Coordinator position, was vacant the entire year. The department required the

Department Information
DSR1

Department	Finance Department
------------	--------------------

assistance of Needham Public Schools technology personnel and outside contractors to help close crucial gaps due to the ITC departures. The Finance Committee approved a reserve fund transfer of \$105,180 to the Finance Department expense line because it was uncertain whether the department would have sufficient funds to pay for the temporary services the Town procured to support network and security operations. We reported to the Finance Committee that we would be turning back salary and wage monies in an amount greater than the Reserve Fund Transfer, and we did (\$175,601). The assistance provided by the NPS staff came at no charge.

The expense line returned \$76,460, without the reserve fund transfer the Finance Department expense budget would have gone into a deficit of \$28,720, which is not allowed by law. The turnback was in the area of professional and technical services, where costs were notably lower because some activities were delayed (some billing and hence collections) in part because of the vacant positions. The Assessing division had a limited number of abatement filings, so there was not a need to enlist outside services to defend the Town before the ATB. The amount of new commercial activity was down so the research needed from consultants was less and hence the full value of the contracts was not paid out. Travel expenses were also lower, which is directly related to the number of vacancies in the department during the year.

Salary and Wages

The fiscal year 2025 base budget submission of \$2,378,251 is **\$258,938** more than the current budget of \$2,119,313 an increase of 12.2%, after accounting for the transfer from the Classification, Performance, and Settlements budget line and the transfers approved at the October 30, 2023 Town Meeting. The GIS functions have been transferred from the Finance Department Information Technology Center division to the Public Works Engineering division. The amount of the transfer was \$58,604 which represents the balance of funds appropriated for that position to be paid for the balance of FY2024 (November – June). We have found that there is greater collaboration and efficiency by having the GIS staff person co-located with the engineering staff. The position uses technology as a tool and not specifically to provide technological support to Town Departments. The full year salary will be budgeted by Public Works for FY2025. Town Meeting also transferred \$239,111 from salary and wages to expenses. An apples-to-apples salary and wage comparison for FY2025 to FY2024, by removing the full year salary for the GIS position (\$87,068) from the FY2024 budget, and adding back the transfer from wages to expenses is a \$48,291 increase over FY2024, or 2.1% more. The number of benefit eligible FTE's for FY2025 is 24, which is the same as FY2024, after accounting for the transfer of the GIS Database Administrator from the Finance Department to Department of Public Works.

Finance Department Salary and Wages Apples-to-Apples

Description	FY2025	FY2024	\$	%
Appropriated Finance Department Budget Art 12 ATM		\$2,398,879

Requested Base Budget vs Adjusted Current Budget	\$2,378,251	\$2,329,960	\$48,291	2.07%

There has been some continued restructuring of positions and division assignments during the current year, due to the changing workforce market, but no change in head count. The Computer Operator position was removed in FY2023 and was replaced by a Technology Support Technician

Department Information DSR1	
Department	Finance Department
position. This position was filled in January 2023. The department continues to see turnover in many positions in finance, information systems, and treasury, and less so in assessing. The time to fill the positions is taking longer and consequently projects have been on hold, and regular work is taking longer and longer to complete due to the lack of personnel, coupled with increased regulations. Both the Director of MIS and Network Manager positions in ITC have been vacant since last year. The Network Manager left for a position in another community back in December 2022 and the Director left in January 2023. The positions have not been filled yet (October 2023). The Town has been relying on some assistance from the Needham Public School Technology Department and hiring outside contractors to keep daily operations moving. However, several projects have been delayed due to these vacancies and work is not getting done in a timely manner. The Town is working with Needham Public Schools, which has hired a consultant to review the IT operations of both. We are investigating whether the delivery of technology services can or should be changed, whether the mix of internal and external support services should change and if so what and when, and what synergies could be realized sharing similar resources. The study is ongoing. This budget maintains the Director and Network Manager positions. The department also relies on the services of two part-time positions which are year-round but are not eligible for Town benefits; one is the Parking Clerk, and the other is an administrative position which supports the assessing functions of the department. Previously, including the FY2023 budget, the funding amounts for those two positions were included under regular salary and wage accounts, but now are reflected, appropriately, under temporary, seasonal, and part-time salary and wage accounts. The submission includes step and longevity increases for the thirteen (13) employees who are members of the Needham Independent Town Workers' Association (ITWA) union which are based on the collective bargaining agreement with this group which runs through June 30, 2024, but no wage schedule adjustment for FY2025. There is no successor agreement for FY2025 at the time of submission of this budget. The request also includes step and longevity increases, if applicable, for the five (5) non-represented positions. The wages are based on the FY2024 classification and compensation plan. Merit increases for managers, if any, for FY2025 would be funded through the salary reserve appropriated by Town Meeting and transferred by written approval of the Town Manager. As previously mentioned, the temporary, seasonal, and part-time wage expense is now inclusive of the Parking Clerk, and the Professional Technical Support Specialist in the assessing division, as well as the student intern position for accounting, which was approved with the prior operating budget. Accounting hired a Needham resident student intern. The student was exposed to a variety of public accounting and finance experiences. The total amount for temporary, seasonal, and non-benefitted part-time positions is \$71,188. The allocation for overtime has been held at \$29,265 for FY2025, but the funding has been reallocated amongst divisions based on the individual demands. The overtime allowance for the Accounting, Assessing, ITC, Parking Clerk, and Treasurer/Collector offices has been submitted at \$9,850, \$500, \$6,750, \$5,990, and \$6,175 respectively. Other salary and wage expenses include tuition reimbursement, payment in lieu of vacation, and	

Fiscal Year 2025 Proposed Budget

Department Information DSR1				
Department		Finance Department		
stipends, are budgeted at \$23,426 (\$17,826 + \$5,600) a decrease \$11,188 (32.3%). The decrease is primarily related to a reduction in the amount estimated for payment in lieu of vacation. Tuition reimbursement has been level dollar at \$5,000 and at \$1,500 for the stipends. There is an increase in the vehicle allowance of \$3,000. There are two employees who negotiated the allowance prior to being hired in their respective positions. The vehicle allowances are reflected in the PRD1 schedule.				
<u>Services, Supplies, and other Expenses</u>				
The fiscal year 2025 submission of \$1,546,253 is \$47,898 lower than the current amended appropriation of \$1,594,151, 3.0% less. However, the current budget includes \$239,111 that was transferred from salary and wages to expenses at the October 30, 2023 Special Town Meeting. The transfer was to help cover the expenses the Town is incurring with outside consultants to help support the systems. This was necessary as well as assistance from the Needham Public Schools staff because of the vacancies in the Information Technology Center division. The apples-to-apples comparison shows an increase of \$213,434 in the base budget, 16% more. The major drivers for this increase are technology related, software licensing, communications expenses (postage and printing) other computer supplies and equipment, and the Five Year Certification process explained above.				
Finance Department Expenses Apples to Apples				
Description		FY2025	FY2024	\$ %
Appropriated Finance Department Budget Art 12 ATM			\$1,355,040	
Add October 2023 Special Town Meeting Finance S&W Transferred to Expenses			\$239,111	
FY2025 Requested Base Budget DSR2		\$1,546,253		
Subtotal		\$1,546,253	\$1,594,151	(\$47,898) -3.00%
Less GIS Position Budgeted Expenses in Finance Expense Budget FY2024			(\$500)	
Less ESRI Software in Finance Expense Budget FY2024			(\$11,782)	
Less LEICA Smart Network Software in Finance Expense Budget FY2024			(\$2,386)	
Less DLT Solution AutoCAD in Finance Expense Budget FY2024			(\$7,553)	
Less Finance Department S&W Transferred to Expenses			(\$239,111)	
Requested Base Budget vs Adjusted Current Budget		\$1,546,253	\$1,332,819	\$213,434 16.01%
Some expense lines are lower while others are higher, which is due in part to reallocation of certain budget lines to cover higher expenses in other budget expense lines and due to expected increase costs for FY2025. The table on the next page shows the dollar changes from FY2024.				

Fiscal Year 2025 Proposed Budget

Line Item	Division	Description	Change from 2024	Comment	Net Change	% Change
Professional & Technical	Accounting	Professional Services	(\$500)	Reduced to offset Other Purchases Services	(\$83,903)	-6.5%

Total					(\$47,898)	

Department Information DSR1	
Department	Finance Department
<u>Operational Capital</u> The FY2024 submission is \$102,300, an increase of \$2,300. The 2.3% increase is based on the higher cost of technological equipment. These funds provide for the purchase of replacement PCs, laptops, and network components. The Town has approximately 280 desktops and laptops in use. The average life is under four years. Funding at this level provides for the replacement of 65 units. The replacement of large servers, switch replacements, and expensive specialized equipment are submitted as part of the capital plan. <u>Other Requests for Funding (DSR4):</u> The Finance Department is submitting two DSR4 forms for FY2025. The first request is to provide funding for contracts with outside services to provide afterhours network, security, and technological assistance to the Police and Fire Departments. Both operations are 24 x 7, but Town technology personnel are not. The increased complexity, the greater dependence on technology by personnel out on the street and at the stations, requires the need for services that can be delivered within an hour rather than the next business day. Although the Town is conducting a review of its technology delivery services, we do know that the amount of technology now in place, and the expansion of the police and fire stations has grown the technology footprint, and the need to either have outside services to complement existing staff or increase the number of technology staff is necessary. The second request comes from the Office of the Town Manager for a new larger and greater functioning printer for daily operations. This printer is larger and has more options than the printer the Finance Department Technology Center provides to departments. This printer would allow their staff to remain in the office to print the large jobs, rather than going to and spending a lot of time in one of the two copier rooms to monitor print jobs. The cost of the printer replacement is more than what would be considered standard replacement and part of the base budget. More information and justification for each of the requests is included in the DSR4 forms. <u>Other Funding Resources</u> Although the Finance Department must track and account for numerous revolving funds and grants, usually it does not have any for its own operations. All monies generated by the department go to the general treasury. No position in the Finance Department is funded by a revolving fund. However, the Town was awarded approximately \$9.2 million in American Rescue Plan Act (ARPA) funds of which \$400,000 has been allocated to improve and expand availability of wireless access and increase capacity for hybrid meetings. ITC will use these funds to improve signal strength at many of the municipal facilities including the Center at the Heights, Public Services Administration Building, Rosemary Recreation Complex, and Town Hall. The new Public Safety buildings which opened in the last couple of years were equipped with wireless technology.	
Accomplishments and Activities	
Accounting Division Recap	
1. Direct deposit of pay participation by employees. Direct deposit is more secure and less costly to process. Measure: Percentage of payments by direct deposit vs. check. Results:	

Department Information
DSR1

Department	Finance Department				
	Year	1 st Qtr	2 nd Qtr	3 rd Qtr	4 th Qtr
	FY20	94%	96%	96%	98%

FY2019	4	1
FY2020	3	1
FY2021	3	2
FY2022	2	1

Assessing Division Recap

4. Percent of taxable construction permits issued were captured by the assessment date (Reports how much new construction is captured for taxation).

Measure: Percentage of new construction permits inspected. The percentage of taxable construction permits issued was captured by the assessment date. (Note this measure has been revised to reflect the new growth certified by the Department of Revenue)

Department Information DSR1	
Department	Finance Department
Results: One hundred percent of the permits issued by the building department that had progressed to the point of adding value to the property were inspected by June 30, 2019. This was the statutory deadline for the collection of New Growth information for the following fiscal year. A total of 1,208 properties were inspected. The amount of New Growth certified by the Department of Revenue for FY2020 was \$264,705,884 (\$146,837,050 was residential property). One hundred percent of the permits issued by the building department that had progressed to the point of adding value to the property were inspected by June 30, 2020. This was the statutory deadline for the collection of New Growth information for the following fiscal year. A total of 1,142 properties were inspected. The amount of New Growth certified by the Department of Revenue for FY2021 was \$262,350,943 (\$156,626,063 was residential property). One hundred percent of the permits issued by the building department that had progressed to the point of adding value to the property were inspected by June 30, 2021. This was the statutory deadline for the collection of New Growth information for the following fiscal year. A total of 1,258 properties were inspected. The amount of New Growth certified by the Department of Revenue for FY2022 was \$270,180,846 (\$174,870,082 was residential property). One hundred percent of the permits issued by the building department that had progressed to the point of adding value to the property were inspected by June 30, 2022. This was the statutory deadline for the collection of New Growth information for the following fiscal year. A total of 1,258 properties were inspected. The amount of New Growth certified by the Department of Revenue for FY2023 was \$230,637,881 (\$162,867,738 was residential property). This was corrected from 1,258 to 778 Approximately 67% percent of the permits issued by the building department that had progressed to the point of adding value to the property were inspected by June 30, 2023. This was the statutory deadline for the collection of New Growth information for the following fiscal year. A total of 582 properties were inspected. The estimated New Growth for FY2024 was pending certification by the Department of Revenue at the time of this budget submission. 5. Number of adjustments/changes in property valuation subsequent to the issuance of the actual tax bills. Measure: Number of changes (corrections) per year as a percentage of the total number of parcels. Results: Of the 10,813 Real and Personal property accounts billed in FY2019, the value of 35 of those properties, or 0.32% saw changes in their value through the abatement process vs 0.25% in FY2018. The average adjustment in tax dollars for FY2019 was \$2,562 vs. \$2,815 for FY2018. Of the 10,805 Real and Personal property accounts billed in FY2020, the value of 23 of those properties, or 0.21% saw changes in their value through the abatement process vs 0.32% in FY2019. The average adjustment in tax dollars for FY2020 was \$5,174 vs. \$2,562 for FY2019.	

Department Information DSR1				
Department	Finance Department			
Of the 10,799 Real and Personal property accounts billed in FY2021, the value of 21 of those properties, or 0.19% saw changes in their value through the abatement process vs 0.21% in FY2020. The average adjustment in tax dollars for FY2021 was \$12,903 vs. \$5,174 for FY2020.				
Of the 10,836 Real and Personal property accounts billed in FY2022, the value of 21 of those properties, or 0.19% saw changes in their value through the abatement process vs 0.19% in FY2021. The average adjustment in tax dollars for FY2022 was \$7,230 vs. \$12,903 for FY2021.				
Of the 10,827 Real and Personal property accounts billed in FY2023, the value of 16 of those properties, or 0.15% saw changes in their value through the abatement process vs 0.19% in FY2022. The average adjustment in tax dollars for FY2023 was \$8,059 vs. \$7,230 for FY2022.				
Collector/Treasurer Division Recap – The 2023 activity was not available at the time this was submitted.				
6. The number of customer bill payment transactions done electronically rather than mailing or delivering a payment to the Treasurer/Collector’s office.				
Measure: The number of tax and utility payments submitted via an ACH or Online payment rather than by check to the Treasurer/Collector’s office.				
Tax Payments (Excise, Real Estate, & Personal Property)				
Fiscal Year	2019	2020	2021	2022

3) Customer Payment by ACH	2,801	3,849	4,188	4,472
4) Total Payments (1+2+3)	71,540	69,447	70,343	70,538
5) Total Payments by Customer (2+3)	55,604	51,735	53,480	53,800
I) Percentage of Customer Payments by ACH (3/5)	5.04%	7.44%	7.83%	8.31%
6) Escrow Service Amount Paid	\$46,402,811	\$55,040,391	\$51,519,717	\$61,144,638
7) Check/Cash Amount Paid	\$101,581,374	\$100,999,109	\$115,885,905	\$116,002,231
8) ACH Amount Paid	\$2,560,083	\$3,154,098	\$3,768,678	\$3,787,657
9) Total Amount Paid (6+7+8)	\$150,544,268	\$159,193,598	\$171,174,300	\$180,934,526
10) Total Amount Paid by Directly by Customers (7+8)	\$104,141,457	\$104,153,207	\$119,654,583	\$119,789,888
II) Percentage of Amount Paid by Customers via ACH (8/10)	2.46%	3.03%	3.15%	3.16%
The Town engaged the services of third-party vendors to accept online payments for water and sewer bills by electronic check or credit card. The table on the next page reflects this activity. The benefits to the Town of having customers pay their bill electronically are lower transaction costs, the funds are considered available at the time of receipt, and reduces both the amount of time to receive good funds and the number of returned checks.				

Fiscal Year 2025 Proposed Budget

7. Optimize earnings on general funds while maintaining adequate liquidity.

Measure: Needham average investment yield compared to MMDT index.

Results:

Needham average investment yield for fiscal year 2019 was 1.30% as compared to the MMDT rate of 1.30 %

Needham average investment yield for fiscal year 2020 was 1.31% as compared to the MMDT rate of 1.28 %

Needham average investment yield for fiscal year 2021 was 0.32% as compared to the MMDT rate of 0.29 %

Needham average investment yield for fiscal year 2022 was 0.27% as compared to the MMDT rate of 0.32%

Needham average investment yield for fiscal year 2023 was 2.05% as compared to the MMDT rate of 4.06%

8. Percent change in year-end delinquent tax receivables (tax money owed to the Town).

Measure: Percentage of tax levy uncollected at the end of each quarter and the fiscal year.

Results:

The percentage change in the year-end delinquent tax receivables for FY2020 increased by 0.63% from the prior year. The FY2020 year-end delinquent rate was the highest it has been in years. This was attributable to COVID, not only the impact that COVID related restrictions may have had on the economy, but also the extra time that taxpayers were allowed to pay their property tax bills. The year-end delinquent rate for FY2021 decreased by 0.54% to 0.96%. The year-end

Department Information

Department Finance Department

delinquent rate increased by 0.16% to 1.12% for FY2022, but declined 0.19% for FY2023.

Year	1 st Qtr	2 nd Qtr	3 rd Qtr	Year End
FY2020	0.91%	2.22%	1.94%	1.50%
FY2021	0.61%	2.38%	2.31%	0.96%
FY2022	0.15%	2.62%	3.19%	1.12%
FY2023	-0.63%*	1.50%	0.55%	0.93%

Information Technology Center Division Recap

9. Percentage of normal business hours principal business applications are available

Measure: It was determined that certain business applications were important to the needs of specific departments. These are applications that are housed and supported internally by the Information Technology Center. Downtime hours are captured through internal communications from the departments using the applications.

The percentage of business hours building LANs (Town Hall, Public Services Administration, Public Safety, and the Center at the Heights) are available to employees. Business Hours are 8:30 - 5:00 Monday through Friday.

Total number of business hours Police Computer Aided Dispatch was available:

(FY2019) Public Safety – 2,223.0 out of 2,227.0 = 99.82%
 (FY2020) Public Safety – 2,221.0 out of 2,227.0 = 99.73%
 (FY2021) Public Safety – 2,219.0 out of 2,219.0 = 100%
 (FY2022) Public Safety – 2,219.0 out of 2,219.0 = 100%
 (FY2023) Public Safety – Information Was Not Available

Total number of business hours Town Financial Applications (Central Square/Tyler) were available:

(FY2019) 2,225.0 out of 2,227.0 = 99.91%
 (FY2020) 2,222.0 out of 2,227.0 = 99.78%
 (FY2021) 2,219.0 out of 2,219.0 = 100%
 (FY2022) 2,216.0 out of 2,219.0 = 99.86%
 (FY2023) Information Was Not Available

Total number of business hours Center at the Heights network was available:

(FY2019) 2,227.0 out of 2,227.0 = 100%
 (FY2020) 2,227.0 out of 2,227.0 = 100%
 (FY2021) 2,219.0 out of 2,219.0 = 100%
 (FY2022) 2,219.0 out of 2,219.0 = 100%
 (FY2023) Information Was Not Available

10. Increase training opportunities for Town Staff on the use of various software applications

Measure: Planned hours compared to actual hours.

Results:

Fiscal Year 2025 Proposed Budget

Department Information DSR1					
Department	Finance Department				
FY2019: 50 hours were proposed, and the department provided 30 hours FY2020: 50 hours were proposed, and the department provided 35 hours FY2021: 50 hours were proposed, and the department provided 10 hours (Note: this was directly affected by COVID restrictions.) FY2022: 50 hours were proposed, and the department provided 20 hours FY2023: No hours were proposed.					
Parking Clerk Division Recap					
11. Percentage of parking tickets appealed of the total tickets issued.					
Measure: Number appeals over number of parking tickets issued.					
Results:					
	FY2020	FY2021	FY2022	FY2023	
Parking Tickets	8,596	1,457	4,095	2,853	
Appeals	751	225	312	218	
Appeal %	8.7%	15.4%	7.6%	7.6%	
Parking regulation enforcement was curtailed with the onset of the COVID restrictions which is apparent by the FY2021 data. Parking enforcement was stepped up in the second half of FY2022. During the summer of 2023, staff were pulled from their parking assignments to cover Town priority street detail work.					
	FY2020	FY2021	FY2022	FY2023	Average

If yes, which Board or Committee?				
Has this request been submitted in the last three fiscal years and not funded?				X
Are there additional costs to implement this request (except for future year operating costs which would be ongoing if funding is approved) which are NOT included in this request?				X
Will the assistance of another department be required to provide support (personnel or financial) for this request to be implemented?				X
Will additional staff (beyond the staff requested in this DSR4 submission) be required if the request is approved?				X
Does the request support activities which produce revenue for the Town?				X
If the request is not approved, will current Town revenues be negatively impacted?				X
Is there an increased exposure for the Town if the request is not approved?				X
Is specialized training or licensing required (beyond the initial purchase)?				X
Does this request address a documented health or safety issue?				X
<i>All "YES" responses above must be explained in the narrative below</i>				
Description and Explanation				
The Town is experiencing changes with its use and dependence on technology, especially in public safety. The span, scope, complexity, and the around the clock need for technology systems in use by the Fire and Police Departments can no longer be supported by just in-house personnel. The services are needed 24 hours a day, 7 days a week. We have a growing need and reliance on third-party service providers to be available holidays, weekends, during inclement weather, and declared emergencies for internal and external problems, software integration issues, interruptions with communications between technology equipment in the field and the stations, and enhanced security and monitoring of the networks. Other related work includes a regular software patching schedule based on the software provider recommendations, and limiting interruptions to Town operations by doing this work on off hours. This also includes support for VMWare, firewall and switches. When technology systems are down the tools that are relied upon by Fire and Police personnel may not be available and that may mean lifesaving equipment on fire vehicles may not be functioning properly, or at all. Fire personnel rely on technology to extinguish fires, monitor buildings, or extract people from vehicles that were in accidents. Firefighters and Paramedics cannot stay in contact with others, get up-to-date information, or protect themselves while they serve the community without functioning equipment.				

Performance Improvement Funding Request DSR4			
Department	Finance Department	Fiscal Year	2025
Title	Public Safety Technology Support Services	Priority	1
Officers may not have the ability to communicate with the station or obtain critical information that may be needed for a call or when verifying registration information of an abandoned vehicle or traffic violation stop, which could put the officer and the individual at greater risk. When the technology is not operating properly billing activities could be stalled, affecting the department's ability to bill and collect timely on monies due to the Town, which could negatively impact revenue. The Finance Department would manage the procurement, contract performance, and communications with the providers. The requested amount is based on quotes received from service providers who are on a state contract and are approved for the types of work that would be covered. These services are in addition to what the in-house staff provides to all departments during regular business hours. Funding this request would not reduce the current staff level needs, but not funding the request would require additional staff in order to be available beyond the standard business day.

Budgetary Considerations				Yes	No
Does this request address a goal of the Select Board or other Board or Committee?					X
If yes, which Board or Committee?					
Has this request been submitted in the last three fiscal years and not funded?					X
Are there additional costs to implement this request (except for future year operating costs which would be ongoing if funding is approved) which are NOT included in this request?					X
Will the assistance of another department be required to provide support (personnel or financial) for this request to be implemented?				X	
Will additional staff (beyond the staff requested in this DSR4 submission) be required if the request is approved?					X
Does the request support activities which produce revenue for the Town?					X
If the request is not approved, will current Town revenues be negatively impacted?					X
Is there an increased exposure for the Town if the request is not approved?					X
Is specialized training or licensing required (beyond the initial purchase)?					X
Does this request address a documented health or safety issue?					X
<i>All "YES" responses above must be explained in the narrative below</i>					
Description and Explanation					
The Office of the Town Manager and Select Board requested a new multifunction printer to meet the department's heavy printing volume and production needs. The department is seeking a printer to be installed in the office suite which can print, scan, collate, and print on regular and legal-size paper. The department staff reports that the current small printer (approximate cost new \$1,400) lacks the functionality to produce any product beyond basic print or scan jobs. The printer lacks sufficient capacity for large jobs and adequately sized toner cartridges and is prone to failure due to age. This has made in-house processes tedious and reliant on shared printers that are not easily accessible to all office staff. The cost is approximately \$15,000 and will increase the expense budget (because the number of printers will increase) by \$1,500. This represents the estimated annual costs to purchase toner for the specific machine and for the annual support service contract for regular servicing and repairs. The purchase and setup of the printer will be done by technology staff and depending upon the recommendations of the copier manufacturer, assistance of building maintenance staff may be necessary to provide extra air ventilation.

Fiscal Year 2025 Proposed Budget

Budget Request Short Form														
Budget	Finance Committee													
Purpose														
The Finance Committee is comprised of 9 members who are appointed by the Town Moderator. The Committee is responsible for recommending a balanced budget for the following fiscal year for Town Meeting to consider and vote. The Finance Committee also makes recommendations to Town Meeting on capital requests and all other issues with financial implications. The Finance Committee oversees the Reserve Fund and is responsible for authorizing any transfers needed to other lines in the operating budget to cover unforeseen or extraordinary expenses.														
Budget Statement														
The Finance Committee budget request for FY 2025 represents an increase of 0.38% over the FY 2024 budget. Salary and Wages are increasing 0.02%. The expense line is increasing 10.39%.														
Budget Changes														
The salary and wage line provides for the salary of one half-time staff employee. This line increased in accordance with salary increases for non-represented employees in FY 2024 and is essentially flat in FY 2025. The expense line covers office supplies (no change requested in FY 2025), dues for professional organizations (no change requested in FY2025) and fees for conferences for the Committee's appointed members as well as staff. Members and staff have attended the annual meetings of the Association of Town Finance Committees and the Massachusetts Municipal Association. The budget includes funding for 2-4 attendees at each conference. These expenses are increasing by \$170 primarily to cover rising registration fees which were increased minimally or not at all during the pandemic, and have increased in the past year.

Department Information DSR1	
Department	Planning and Community Development
Department Mission	
The Planning and Community Development Department includes three divisions namely, Planning, Conservation, and the Board of Appeals under a single Planning and Community Development budget. The Department is tasked with protecting and advancing the quality of life in Needham through the application of sound land use planning principles and development review standards; facilitating informed land use decisions through community participation and a collaborative process; protecting and enhancing safe, livable neighborhoods which reflect and preserve Needham's unique and historic character; supporting and encouraging healthy reinvestment in the community to provide for a strong local economy; and promoting smart planning and a sustainable future for generations to come.	
On the Horizon	
<u>Key Challenges</u> The key economic development and planning challenges facing the Planning Board and the Planning and Community Development Division over the course of the next five years will be securing the successful implementation of the Needham Center Plan and the Land Use and Zoning Plan for the Needham Crossing area. Unlocking the economic potential of both Needham Center and the Needham Crossing area remains an overarching goal of the Board and Department. Securing compliance with the MBTA Multi-Family Zoning Districts Guidelines under Section 3A of the Zoning Act required by December of 2024 and implementation of the regulatory component of the Town's Climate Action Plan are additionally key priorities. <u>Needham Crossing Business Center Planning</u> The Planning and Community Development Division has focused on the recommendations outlined in the Needham Crossing Business Center Planning study completed in the fall of 2011 and its implementation at the Center 128 project site. Most specifically, the Planning and Community Development Division continues to oversee the permitting and build-out which is occurring within the New England Business Center and the Center 128 project in particular. Plan review and permitting for Center 128 comprising three components was conducted by the Division as follows: Center 128 West, Center 128 East, and the 2nd Avenue Residences. The Center 128 West Development, approved by the Planning Board in April of 2013, consists of: (a) four office/research and development buildings with a total combined square footage of approximately 740,000 square feet; (b) two free standing parking garages (to contain a combined 3,525 parking spaces); (c) 117 surface parking spaces; (d) a hotel comprising approximately 89,740 square feet and containing 128 guest units, together with (e) associated driveways, landscaping and other associated site improvements. A portion of the development has been constructed, which includes the hotel, building 3 (currently occupied by TripAdvisor, Inc.), a portion of Garage B (2,070 spaces) and 153 interim surface parking spaces. Accordingly, three (3) office buildings (Buildings 1, 2 and 4) with an aggregate of approximately 452,000 square feet, Garage A, a portion of Garage B, and the remaining associated landscaping, driveways and other site improvements have yet to be developed. In October 2020 Boston Children's Hospital filed a special permit application with the Planning Board seeking to amend the approval for Center 128 West. Boston Children's Hospital is seeking to construct Building 1 as an approximately 224,000 square foot Pediatric Medical Facility, to complete the construction of Garage B by adding 530 parking spaces and to construct an interim surface parking lot with 105 spaces at 37 A Street. Building 2 and Building 4 are expected to be	

Department Information DSR1	
Department	Planning and Community Development
constructed later and the approved use is currently expected to remain office as set forth in the existing special permit. The special permit amendment for this project was issued by the Planning Board in January 2021. The building permit for the project was issued in February 2023. Construction is currently underway with occupancy anticipated for late 2025. The Center 128 East Development, approved by the Planning Board in November of 2015, includes 420,429 square feet of office space, 19,000 square feet of retail space, a 128-room hotel and surface parking area. Components of the Center 128 East completed project include: the expansion of Parking Garage B at Center 128 West to accommodate the redevelopment planned at Center 128 East, the renovation and occupancy of the building located at 77A Street to accommodate the SharkNinja headquarters and the renovation of the building located at 189 B Street to accommodate the new NBC Universal headquarters. Construction of the hotel and retail space remains to be completed under the project. In summary, Center 128 at completion (with the Boston Children's Hospital amendment) will include a Pediatric Medical Facility, three new office buildings and two renovated buildings totaling 1,160,400 square feet, two 128-room hotels, and 19,000 square feet of retail space. Parking for 4,100 cars distributed across 3 structured parking garages along with surface parking for 778 cars is also planned. The combination of elements will represent a major step forward in the implementation of the vision developed for the district. Lastly, the construction of the 2nd Avenue Residences comprising 390 residential housing units and associated structured parking at 2nd Avenue was completed in the spring of 2018 with full rent-up completed in the fall of 2019. <u>Needham Center Planning</u> The Planning and Community Development Division further continued with implementation of the Needham Center Planning effort. The Planning Board has initiated a review of the land use plan which was established for Needham Center and the Lower Chestnut Street area through the Overlay District to determine if it is meeting its stated objective of establishing a pedestrian friendly streetscape with multi-use development in the form of a traditional New England Village. Further, the Department and Planning Board are coordinating with the BI Deaconess Needham hospital as it finalizes its master plan for the hospital's Needham campus and considers redevelopment opportunities along the Chestnut Street corridor. Finally, the Department and Planning Board participated in the Needham Center and Needham Heights Parking Study completed by Stantec in March of 2023. The study included a view of the Needham Zoning By-Law parking standards as currently applied to Needham Center and Needham Heights. Recommendations on adjustments to the current Needham Zoning By-Law parking requirements to enable a more progressive parking management program are currently under review. <u>MBTA Multi-Family Zoning Districts Guidelines under Section 3A of the Zoning Act</u> In January 2021, Governor Baker signed Chapter 358 of the Acts of 2020 into law, which requires each MBTA community to have "a zoning ordinance or by-law that provides for at least 1 district of reasonable size in which multi-family housing is permitted as of right." The statute requires that: (1) the housing cannot have age-restrictions and must be suitable for families with children; (2) the zoning must allow for at least 15 units per acre; (3) the district must be within 0.5 miles from a commuter rail station, subway station, ferry terminal or bus station; and (4) non-compliant communities will be ineligible to receive state funds from the Housing Choice Initiative, the Local Capital Projects Fund, and the MassWorks infrastructure program.	

Department Information DSR1	
Department	Planning and Community Development
The Executive Office of Housing and Livable Communities (EOHLC) formerly known as the Department of Housing and Community Development (DHCD), in consultation with the MBTA and MassDOT, is responsible for establishing guidelines for implementation and determining if communities are compliant. This legislation is part of a broader effort to encourage transit-oriented development and to address the state's housing shortage, in terms of both the number of units and types of housing stock available. In August 2023 EOHLC released a set of guidelines for how communities can comply with this new multi-family zoning requirement. The EOHLC guidelines classify Needham as a commuter rail community which requires that the Town implement zoning to permit a housing unit capacity equivalent to 15% of the Town's total number of existing housing units. As the Town's 2020 Census count was 11,891 housing units, Needham's minimum unit capacity of 15% is 1,784 units. The guidelines further detail a timeline for compliance. By January 31, 2023, Needham must submit a proposed action plan, including a timeline for any planning studies, community outreach activities, or other actions to create a compliant zoning district. By December 31, 2024, compliant zoning must be adopted by the Town or continued funding under the Housing Choice Initiative, the Local Capital Projects Fund, and the MassWorks infrastructure program will no longer be available to the community. On January 23, 2023, Needham submitted its Action Plan to the Executive Office of Housing and Livable Communities. On March 24, 2023, EOHLC approved Needham's Action Plan and granted the Town Interim Compliance until the due date for District Compliance of December 31, 2024. <u>Affordable Housing Trust and Small Repair Grant Program</u> The Housing Division supports the Town's efforts to promote and maintain affordable housing opportunities in partnership with the Needham Housing Authority (NHA), non-profit and for-profit developers and service providers, other Town departments, as well as other public entities. The Housing Division also provides professional support to collect and analyze housing-related data, coordinates potential affordable housing initiatives, monitors affordability for several housing developments, ensures compliance with funding sources, and addresses inquiries related to housing issues. Another important activity involves the staffing of the Needham Affordable Housing Trust which was established in 2018 to serve as the Town's entity for overseeing housing issues and managing a dedicated fund in support of affordable housing initiatives. The Fund has been receiving funds related to the monitoring of affordable housing units, including resale fees as affordable homeownership unit's turnover. The 2019 Annual Town Meeting approved \$50,000 in funding from the Town's General Fund to introduce a new Small Repair Grant Program. The 2021, 2022, and 2023 Annual Town Meetings each appropriated an additional \$50,000 in funding to continue program benefits for eligible Needham residents. The Small Repair Grant Program provides financial assistance to low-and moderate-income Needham residents to make repairs and alterations to their homes for health and safety reasons. Up to \$5,000 in grant funding is currently available per participant, and applications are evaluated and prioritized based on the extent of the health and safety problems and the financial need of the applicants. Eligible applicants must be 60 years or older or have a disability with incomes at or below 80% of area median income. Grants are awarded during two funding rounds per year. Eligible work items include minor plumbing or electrical work, light carpentry, doorbell switches, window or door repairs or replacements, railing repairs, broken or	

Department Information DSR1	
Department	Planning and Community Development
clogged gutters or downspouts, step or porch improvements, work on locks, smoke/CO2 detectors, weather stripping, bathroom grab board, raised toilets, hand-held shower heads, among others. All program funds appropriated to date have been committed with a total of 60 residents served over the life of the program. The Department has submitted a DSR5 request for \$50,000 in funding for the Small Repair Grant Program from the Town's General Fund for the 2025 fiscal year. <u>Conservation Division Fiscal 2024 Goals</u> Finally, the Conservation Division has identified the following primary goals for FY2024: (1) Fulfilling ongoing obligations for technical support of the Conservation Commission through processing of permit applications under the MA Wetlands Protection Act and the Town of Needham Wetlands Protection Bylaw; (2) Assisting in the implementation of the Comprehensive Trails Master Plan in conjunction with the Park and Recreation Department and the re-invigorated Trails Advisory Group; (3) Assisting the Park and Recreation Department and the Trails Advisory Committee in reactivating the Trail Steward Program including soliciting volunteers; (4) Assisting various Town departments in assessing compliance with the Town's NPDES permit and other initiatives; (5) As part of the NPDES permit public education compliance piece, the Conservation staff will continue to schedule presentations for the public utilizing the Commission's interactive Stormwater Model; (6) Conservation staff will continue to promote the use of pollinator seed mixes as opposed to lawn seed to the public and on various Town projects where applicable; (7) Expanding management activities on Conservation lands to promote use and protect valuable natural resources; (8) Implementing a signage initiative program to improve consistency and quality of signage at conservation lands across town, purchase trail markers, maintain and/or construct new kiosks as well as bird boxes for various properties; (8) Organize themed trail walks with the public and Conservation Commissioners on Conservation lands; and (9) Continue to facilitate presentations to the public on interesting, timely topics.	
Budget Statement	
Fiscal Year 2010 saw the creation of a Planning and Community Development Department. Previously, the four-community development and land use functions had been performed in three Departments namely, Planning, Conservation, and the Board of Appeals. Under the 2010 reorganization the Planning and Economic Development functions were retained under a single budget and the Conservation and Zoning Board of Appeals budgets were combined to create a new "Community Development" budget. A Director of Planning and Community Development was appointed with oversight of both the Planning and Economic Development budget and Community Development budget. A new Administrative Assistant position was created to support the Planning, Economic Development, Conservation and Zoning functions of the Department. The goal of the reorganization was to meet the identified needs of the then existing departments, to improve operational efficiency, and to enhance service delivery. In Fiscal Year 2013, the Planning and Economic Development Department added a part-time Community Housing Specialist position. The Community Housing Specialist provides administrative and technical support relating to affordable housing issues, coordinates the efforts of various town boards and committees in the development of affordable housing opportunities, and assists in the implementation of the Town's Community Housing Plan. In Fiscal Year 2016 a further consolidation occurred with the merging of the Planning, Economic Development, Conservation and Board of Appeals budgets into a single Planning and Community Development budget. In Fiscal Year 2021 the Economic Development Director position was reclassified to Economic Development Manager and the position was moved from the Planning and Community Development Department to the Select Board under the Town	

Department Information DSR1		
Department	Planning and Community Development	
Manager. Additionally, a Recording Secretary position was added to the Department to support the regulatory function of the Design Review Board. Lastly, on September 14, 2021, the Personnel Board approved the retitle and reclassification of the Administrative Specialist I-05 for the Zoning Board of Appeals to a Zoning Specialist GT-06 to adequately meet the professional and administrative demands of the ZBA. We believe that the reorganization has been successful in improving operational efficiency and interdepartmental coordination and thus has enhanced service delivery to Needham’s constituents. In Fiscal Year 2017, the Department secured funding through the Community Preservation Act (CPA) for the Community Housing Specialist in the amount of \$60,000. Under the appropriation 50 percent of the position costs for the Community Housing Specialist were assigned to the CPA and 50 percent to the general fund through the Planning and Community Development budget. Said CPA funding was anticipated to cover a 6-month period in each of the 2017, 2018 and 2019 Fiscal Years with the remainder of the funding for the position coming from a general fund allocation. However, due to Departmental staffing turnovers during the Fiscal Year 2017 thru Fiscal Year 2021 period reduced CPA allocations were required for the Community Housing Specialist position leaving enough CPA funds available to fund the position through Fiscal Year 2023. The Department of Revenue issued guidance for Fiscal 2024 as to how CPA funds may be used and based on said guidance Town Counsel advised that CPA funds could only be directed toward making particular housing assets affordable and that “salaries, wages or benefits or other indirect costs” incurred by general government departments such as the Planning and Community Development Department are ineligible expenditures. Accordingly in Fiscal 2024, the Department requested through a DSR 4 that the 9 hours per week of salary for the Community Housing Specialist previously funded through CPA be added to the Planning and Community Development Department budget and that the total hours for the Community Housing Specialist be increased from 18 hours to 19.5 hours per week so that the additional responsibilities associated with the MBTA Communities Act could be met. This request was approved in Fiscal 2024. As relates to the operating component of the Fiscal Year 2025 budget an overall increase of 6.24% is requested for a total of \$2,400. This requested increase is reflective of increased costs in the following budget categories: professional and technical services, communications, office supplies, building and equipment supplies, and travel and mileage, as well as a decrease in other supplies and equipment and government charges, all as further detailed in the table below.		
Table 1: Detail of FY 2025 Budget Changes		
Category	Change from FY 2024	Comments
Professional and Technical Services	\$1,000	Increase in Seminars and Training for Planning Board and Conservation Commission.
Communications	\$1,250	Decrease of \$600 in wireless communication expense to accommodate reduced cell phone service cost and postage cost based

Fiscal Year 2025 Proposed Budget

Department Information DSR1		
Department	Planning and Community Development	
		on FY 2023. Increase in printing and mailing of \$1,850 based on FY 2023. Net change an increase of \$1,250.
Office Supplies	\$500	Increase in office supplies reflective of FY 2023 costs.
Building and Equipment Supplies	\$500	Increase in building and equipment supplies for Boardwalk repair at the Ridge Hill Swamp Trail.
Other Supplies and Equipment	-\$1,000	Decrease in other supplies and equipment for the Planning Division.
Government Charges	-\$300	Decrease in fees paid to Norfolk County Registry of Deeds based on FY 2023.
Travel and Mileage	\$450	Increase in Planning Board and Conservation Commission in State Conference Expense.
Dues and Subscriptions	No Change	

Planning and Community Development Division

In FY2004, Needham, through its then Planning Department, joined the HOME Consortium based in Newton, which made available approximately \$67,000 annually for affordable housing purposes. Funding at the \$67,000 level continued through FY2012. In FY2013 the federal appropriation to the Home Program was reduced and thus Needham's annual allocation was lowered to approximately \$36,000 annually. Beginning in FY2014 HOME funds not spent by a member community during the year have been placed in a pool where said funds are awarded on a competitive basis to Consortium members. Previously Needham was able to allow its funds to accumulate over a period of five to six years so that a critical mass could be developed to support a desired project. Although project funding is not guaranteed it is felt that having a Community Housing Specialist on staff will give Needham the professional capacity to compete for funding with other Consortium communities that already have in-house staff support. Funding for administrative costs under the HOME Program has continued at approximately \$2,700 annually.

Revenue for FY2024 is expected to increase due to receipt of a grant in the amount of \$70,000 from the Executive Office of Housing and Livable Communities under the Community Planning Grant Program. Said planning funds have been allocated for consultant technical services assistance in helping the Town meet the requirements related to M.G.L. c. 40A Section 3A, sometimes referred to as "MBTA Communities Guidelines".

Conservation Division

During FY2023, the Conservation Commission met formally a total of twenty (20) times and held a total of twenty-six (26) public hearings. During FY2023 the Conservation Commission collected a total of \$10,715.00 in fees.

Table 3: Conservation Commission Public Hearings, State & Bylaw Fees & Enforcement Fines

Fiscal Year	Number of Public Hearings	Total Fees Collected (WPA & Town Bylaw)	Town Portion of State WPA Fee	Enforcement Order Fines Collected
FY2018	35	\$20,812	\$ 5,062.00	0
FY2019	30	\$10,810	\$ 3,350.00	\$300

FY2023	21	6	\$5,800

Design Review Board Division

In FY2023, the DRB met formally a total of fourteen (14) times and held a total of six (6) public hearings for special permits. During FY2023, the DRB collected a total of \$2,762.00 in fees in fulfilling its regulatory function as noted below.

Table 5: Design Review Board Meetings, Public Hearings & Fees

Fiscal Year	Number of DRB Meetings	Number of Public Hearings (Special Permit)	By-Law Fees Collected
FY 2019	21	3	\$2,750.00
FY 2020	16	6	\$1,671.00
FY 2021	19	7	\$3,172.00
FY 2022	17	5	\$1,822.00
FY 2023	14	6	\$2,762.00

Accomplishments and Activities

. Planning and Community Development Division

The Planning Board is charged with broad statutory responsibilities to guide the physical growth and development of Needham in a coordinated and comprehensive manner. Specifically, the Planning Board is legally mandated to carry out certain provisions of the Subdivision Control Law (M.G.L., Chapter 41, Section 81-K to 81-GG) and of the Zoning Act (M.G.L., Chapter 40A). These legal responsibilities are reflected locally in the Subdivision Rules and Regulations and Procedural Rules of the Planning Board, and in the Town's Zoning By-Law. The specific services that the Planning Board provides are as follows:

Review and Approval/Disapproval of:

- Approval-Not-Required (ANR) Plan
- Preliminary Subdivision Plans
- Definitive Subdivision Plans*, including ongoing administration
- Site Plans of certain larger developments (major projects)*
- Residential Compounds (RC's)*
- Scenic Road Applications
- Outdoor Restaurant Seating Applications

* This includes Special Permit Decisions, with legal notices, public hearings, and written decisions.

- Site Plans of certain smaller developments (minor projects)
- Applications to the Board of Appeals for variances and special permits

Department Information DSR1	
Department	Planning and Community Development
Petitions for acceptance/discontinuance of public ways Initiation, Development, and Presentation of Proposed Zoning Amendments to Town Meeting Reprinting of Town Zoning By-Laws and Zoning Map Preparation and Maintenance of a Master Plan and related planning studies to guide future physical growth and development in Needham (including studies referred to the Board by Town Meeting) Revisions to "Subdivision Regulations and Procedural Rules of the Planning Board" and printing of the same Provision of Information on Planning, Zoning and Development matters to the public (including residents, developers, and other government agencies) In its capacity as a special permit granting authority, the Planning Board in FY2023 processed sixteen (16) applications as "Major Projects" under the Site Plan Review By-Law. In addition, the Board reviewed and approved one (1) subdivision plan, and four (4) plans were endorsed "Approval-Not-Required (ANR)" under the Subdivision Control Law, meaning that the lots created or altered on such plan's met minimum frontage requirements. The Board of Appeals referred twenty-one (21) applications for variances, special permits, comprehensive permits, and administrative appeals to the Planning Board last year, and as required by the Zoning By-Law, the Board reviewed each application and submitted its recommendations in writing to the Board of Appeals were warranted. Planning Studies currently underway are as follows: <u>MBTA Communities Planning Study under M.G.L. c. 40A Section 3A</u> In January 2021, Governor Baker signed Chapter 358 of the Acts of 2020 into law. The new M.G.L. c. 40A Section 3A, requires that an MBTA community have at least one zoning district of reasonable size in which multi-family housing is permitted as of right and meets other criteria set forth in the statute. Needham is subject to the new zoning requirements as a "commuter rail community." The Town must adopt the new multi-family zoning by December 2024 to achieve compliance with the Section 3A requirements. The Executive Office of Housing and Livable Communities approved Needham's Action Plan, and the Town, through the process of preparing a Housing Plan last year, has identified potential opportunities for creating the required new zoning. The Town has secured consultant services as a means for testing these approaches through EOHLC's compliance model, which is the primary tool for measuring a zoning district for such compliance. Additionally, the Town is reviewing alternative options for consideration based on the compliance model analysis. Key components of the planning effort include the preparation of build out and fiscal impact analyses for the different development scenarios that are reviewed through the EOHLC compliance model, development of conceptual visualizations for those scenarios, identification of regulatory approaches for implementation either through modification of existing zoning parameters or implementation of a concept for a new district, and the drafting of proposed zoning by-law amendments, including proposed amendments to the zoning map, that allow multi-family housing by right in compliance with M.G.L. c. 40A, Section 3A. Additionally design recommendations pertaining to building placement and orientation, building mass and form, facades and parking placement for the selected zoning approach will be prepared. Lastly, a feasibility study that documents that a reasonable variety of multi-family housing types can be feasibly developed using at least two alternative affordability percentage thresholds, to be determined by the Housing Needham (HONE) Advisory Group, which are a higher percentage than the 10% maximum included under the Section 3A Guidelines will be prepared. The Town must submit this report to EOHLC for	

Department Information DSR1	
Department	Planning and Community Development
approval. The preparation of a plan compliant with the MBTA Communities Act guidelines is using a similar planning process to that established for other planning efforts in Needham. First, to support the new zoning, the Town established a Housing Needham (HONE) Advisory Group that will lead the community engagement process and advise the Select Board and Planning Board on proposed zoning to bring to Town Meeting in 2024, informed by their individual expertise, group deliberations, and feedback received from the public. The composition of the Housing Needham (HONE) Advisory Group includes 2 representatives of the Planning Board, 2 from the Select Board, 1 from the Finance Committee, a Land Use Attorney, a Real Estate Developer, a Renter, and a Citizen at Large. Second, the planning process established incorporates an inclusive public process to engage local leaders and residents in the process of establishing local housing priorities. Three Town-wide meetings are proposed during this planning process. A Town-wide workshop will be held at the beginning of the process to review the MBTA focused housing strategies recommended in the Needham Housing Plan and to test those recommended strategies for compliance against the EOHLC unit capacity testing model established under M.G.L. c. 40A Section 3A. Two to three other additional compliant options which meet community goals will also be tested for compliance with the EOHLC unit capacity testing model and will be presented at this first workshop for public input and feedback on community preference. A second Town-wide workshop is planned for midway through the planning process. Informed by input received at the first workshop, up to three zoning alternatives will be advanced to include a build-out analysis, a fiscal impact analysis and 3D modeling. Based on comments and recommendations received at this second workshop the preferred option will be selected and implemented. At the end of the process, the final recommendations and zoning implementation strategy will be presented at an advertised public meeting. This planning study began in September of 2023 and is expected to conclude in April of 2024. <u>Fiscal Year 2023 Zoning Initiatives</u> In Fiscal Year 2023 four zoning initiatives as described below were adopted by Town Meeting. Article 8 was presented at the October 2022 Special Town Meeting. Articles 19, 20 and 21 were presented at the May 2023 Annual Town Meeting. <u>Article 8. Amend Zoning By-Law – Brew Pub and Microbrewery</u> This article provides for the establishment of Brew Pubs and Microbreweries within Needham. The 2022 Needham Zoning By-Law did not have any provisions for Brew Pubs or Microbreweries and because the noted uses were not specifically identified as permissible, they were prohibited. Accordingly, this zoning amendment introduced Brew Pubs and Microbreweries as permitted uses in Needham taking the following approach: 1) defined the terms “Brew Pub” and “Microbrewery”; 2) identified the zoning districts in which a Brew Pub and/or Microbrewery would be allowed; and 3) established that a Brew Pub and Microbrewery would only be allowed by special permit either from the Planning Board or the Zoning Board of Appeals. <u>Article 19. Amend Zoning By-Law – Accessory Dwelling Units</u> This article provides for the following changes to the current use and permitting framework of the By-Law as relates Accessory Dwelling Units (ADUs): (1) Allows ADUs in a single-family dwelling	

Department Information DSR1	
Department	Planning and Community Development
by-right rather than by Special Permit, while still requiring that the building and design guidelines contained in the current by-law be met. ADUs located in a single-family dwelling will continue to be required to meet all zoning dimensional requirements for a single-family home as specified in the underlying zoning district. (2) Expands the residency requirements of an ADU as contained in the definition of "Caregiver" to include "an adult employed by an Owner to provide childcare to one or more of an Owner's Family members" for use by example of a Nanny or Au-Pair, etc. (3) Expands the residency requirements of an ADU as contained in the definition of "Family" to include "a grandparent, aunt or uncle". (4) Allows a homeowner to rent the ADU with a minimum 6-month written lease, subject to owner occupancy of the property. The minimum 6-month lease term is designed to prevent short-term high frequency leases. (5) Increases the size limit for an ADU from a maximum of 850 square feet of living space to a maximum of 900 square feet of living space. Additionally, the article establishes occupancy and enforcement standards. The initial occupancy permit shall remain in force provided that (1) there is no violation of any provision of this Zoning By-Law or the Massachusetts State Building Code or the conditions of any Special Permit, variance or other zoning relief applicable to the premises, and (2) that ownership of the premises is not changed unless, in anticipation of a change in ownership, the prospective owner files an acknowledgement that the unit to be occupied by said prospective owner shall be said owner's primary residence and evidence that the other unit is to be occupied by a Family member, Caretaker or Lessee of the prospective owner, and such acknowledgement and evidence is satisfactory to the Building Commissioner, and (3) the Owner files with the Building Commissioner in the month of January of each year after the anniversary of the issuance of the occupancy permit, a certification that the unit occupied by the Owner continues to be said Owner's primary residence, together with evidence that the other unit is occupied by a Family member, Caretaker or Lessee of the Owner and a copy of any current lease, and such certification and evidence is satisfactory to the Building Commissioner. Furthermore, at any time upon written request from the Building Commissioner, the Owner will provide evidence that the ADU and the principal dwelling unit are being occupied in accordance with the by-law. In the event the Owner fails to comply with the above requirements the Building Commissioner within thirty (30) days of a written request may revoke the occupancy permit for the ADU. <u>Article 20. Amend Zoning By-Law – Corrective Zoning Amendments</u> Over the years Town Meeting has approved numerous inserts and other changes to the Zoning By-Law. Unfortunately, when those changes occurred, not all references were changed as required. This article updates the reference made to Section 3.15 Accessory Dwelling Units to Section 3.16 Accessory Dwelling Units. Additionally, the article updates the title of "Building Inspector" to "Building Commissioner" as currently used and as it appears throughout the Zoning By-Law. Lastly, the reference to the ITE Parking Generation Manual is updated from "2nd Edition" to "the most recent edition". <u>Article 21. Amend Zoning By-Law – Single Residence B and General Residence Side Setback</u> This article clarifies the side yard setback requirement in the Single Residence B and General Residence districts for both conforming lots and lots that have less than 80 feet of frontage as adopted by Town Meeting in May of 2017. The goal of the amendment is to ensure that a 2-foot offset is provided after 32 linear feet of sidewall at the side yard irrespective of whether a building's placement is at the district's minimum side yard setback requirement or a distance in excess of said requirement. Such was the intent when the original article implementing this provision was presented in May of 2017 to Town Meeting with the policy goal of reducing some of the negative	

Department Information DSR1	
Department	Planning and Community Development
effects of building massing along the sideline. Accordingly, the amendment makes clear that the above-noted 2-foot off-set provision, designed to break-up building massing along the sideline, is to be applied universally irrespective of a building's placement at a distance in excess of a districts minimum side yard setback requirement. <u>Performance Factors</u> The Planning Board returned to in-person meetings at the August 2022 bi-monthly meeting after meeting remotely on Zoom since March 2020. The in-person meetings were hybrid with livestream broadcast on Zoom and on The Needham Channel. During the previous fiscal year, the Planning Department had committed to tracking the turnaround time required on its Major Project Site Plan Special Permits and Subdivision applications. Monitoring of the timeline between application filing and the scheduling of the public hearing, issuance of the Decision following the close of the public hearing and filing of the written decision with the Town Clerk following Board action were tracked. The goal was to schedule the public hearing within 5 weeks of application receipt, to issue the Special Permit Decision or Subdivision Decision within two weeks of the close of the public hearing, and to file the written decision within 5 business days of permit issuance by the Board. The articulated goals were met in two of the three studied criteria in FY2023. During the affected timeline 16 new Special Permit applications and 1 Subdivision application were processed. Public hearings were held on average within 35 days of application receipt, decisions were issued within 26 days of the close of the public hearing, with written decisions filed with the Town Clerk within 3 days of permit issuance. Although the goal of issuing the Special Permit Decision or Subdivision Decision within two weeks of the close of the public hearing (26 day average actual) was not met this delay was due to one outlier project permit which when excluded from the review indicates decisions were issued within 20 days of the close of the public hearing. The total average time required to process an application was 79 days with a minimum of 30 days and a maximum of 260 days. The Department plans to continue to track these items and will submit a similar report with its FY2024 budget request. Conservation Division The Needham Conservation Division is primarily tasked with providing dedicated professional, administrative, and technical assistance to the Town and Conservation Commission in accordance with the MA Wetlands Protection Act (M.G.L. Chapter 131 Section 40) and the Needham Wetlands Protection Bylaw (Article 6), and their respective regulations, guidelines, and policies. Additionally, the Division provides support in office administration and organization, public assistance, grant administration, committee and community support, and land conservation and management. The Needham Conservation Commission is comprised of seven volunteer members appointed by the Select Board to staggered three-year terms. The Commission's primary responsibility involves ensuring compliance with the Massachusetts Wetlands Protection Act (M.G.L. Chapter 131 Section 40) and the local Wetlands Protection Bylaw (Needham General Bylaws Article 6). As the administrative and technical support agency to the Commission, the Conservation Division undertakes the following tasks pertaining to wetlands permitting: • Reviews Notice of Intent applications and other filings for completeness and compliance	

Department Information DSR1	
Department	Planning and Community Development
with wetland statutes and associated regulations. - Assures legal requirements are met including postings, hearing and permit timeframes, minutes, and other records. - Schedules and attends twice monthly meetings of the Conservation Commission. - Maintains case files and materials including computer databases. - Arranges and conducts on-site inspections related to filings. - Reviews wetland delineations. - Drafts permits with associated conditions and other documents. - Monitors construction to ensure compliance with permits. - Reviews building permits for projects occurring within the Commission's jurisdiction to reduce the number of Enforcement Orders issued and provide better public outreach. - Responds to complaints and investigates potential violations. - Keeps regular office hours to provide assistance to the regulated community. - Collaborates with other Town Departments, Boards and Committees on matters pertaining to permitting municipal projects and activities. In addition to wetland permitting, the Conservation Division undertakes broader environmental and land management functions including the following: - Oversees/carries out management tasks such as trail building and maintenance, signage, and cleanup. - Participates in various committees, including the Rail Trail Committee, Trail Advisory Group and the Town's Integrated Pest Management Committee. - Assures compliance with rules and regulations for conservation lands; issues needed permits; and addresses user problems. - Assists the Commission in planning, acquisition, administration, and management of municipal conservation land. - Assists in preparation of Open Space and Recreation Plans to meet criteria for approval. - Researches and conducts on-site evaluations for parcels under consideration for acquisition, donation, conservation, or agricultural preservation restrictions. - Researches, pursues, and coordinates grant and other funding opportunities; writes proposals and manages grants. - Collaborates with other Town Departments, Boards and Committees on matters pertaining to the use, management and protection of the Town's natural resources and open space. - Educates the public about the importance of protecting wetlands and other open spaces. Under both the state and local statutes, the Conservation Commission has a maximum of 21 days from receipt of a completed application to open a public hearing on that application. A hearing may be continued with the consent of the Applicant to allow for the submittal of additional information. After closing the public hearing, the Commission has 21 days to issue an Order of Conditions. In FY2023, all Orders of Conditions were completed within the noted timeline with no requests for additional time requested. The Conservation Division makes every effort to assist Applicants with the filing process. The Division's staff meets frequently with property owners and potential applicants to explain the filing process or to provide input on which application would be most appropriate (for a particular site or project). The Conservation Division conducts well over one hundred site visits each year to review projects associated with both the MA Wetlands Protection Act and the Needham Wetlands Protection Bylaw. The collective knowledge and experience of the Conservation Division serves to benefit the regulated community including the Town of Needham as it provides professional expertise in a	

Department Information DSR1	
Department	Planning and Community Development
growing and more restrictive environmental regulatory time period.	
<u>FY2023 Achievements</u>	
The Conservation Commission and staff continued hosting remote meetings during this time period. The Conservation Commission has had several discussions regarding moving forward with a hybrid format for meetings, but the general consensus has been to stay remote for the foreseeable future as long as the Government allows the opportunity. There have been several new members added to the Conservation Commission over the Fiscal Year. Several long-serving members have stepped down including the long-standing Chair, Janet Carter Bernardo. Janet was on the Commission for 20-years with several years in the role of Chair. While the contributions and history of the retired members will be missed, the new members, including the new Chair David Herer, bring new energy, insights and interests forward. One of the projects the Commission has been working on is revising the Commission's "Guidelines for Tree Removal" document in order to provide clarification of expectations when trees are removed in the Commission's jurisdiction in a written format. In conjunction with the Engineering Department and the Town's NPDES Permit, the Conservation Department purchased an educational interactive Stormwater Model. The Town will get credit for the educational component created by staff educating the public on Stormwater and what they can do at a personal and Town level about Stormwater. Staff have already given a presentation to one of the local garden clubs and also had the model set up at the Harvest Fair. Staff anticipate connecting with the local schools and other entities to provide them with the program. Staff are also working to put together a Webinar with the Stormwater Model that other Town Departments can share with the public. The Conservation Division staff played an invaluable role in restarting the Trails Advisory Committee. The newly formed Committee made up of members from several Town Departments, Conservation Commission members and Park & Recreation Commission members met several times over the Fiscal Year and had productive discussions. One of the charges of the Committee will be to re-invigorate the Trail Steward Program, train the volunteers, and oversee them. Conservation staff continued to install trail cameras to capture wildlife usage of the various Conservation-owned properties. As many members of the public have discovered while exploring nature on these beautiful properties during the pandemic, the variety of species making Needham their home is quite surprising, including bears! There are a number of amazing photographers that share the photos they take of Needham wildlife and landscape on various platforms including the Needham Wildlife page on Facebook. Conservation staff booked several public presentations over the Fiscal Year on topics including Gardening for Wildlife, an in-person Butterfly & Dragonfly walk around the reservoir, a vernal pool presentation and a fun presentation around Halloween that included live animals such as snakes and tarantulas that the audience could touch and hold. This was especially popular with the kids.	
<u>Performance Factors</u>	
The following Table 6 reflects the number of permit application filings and requests received by the Conservation Commission in each of the last four fiscal years. Over the course of Fiscal Year 2023, the Commission once again saw a steady flow of applications, similar to the numbers seen in Fiscal Year 2022. The Conservation staff continued to issue Administrative Approvals for minor projects located within the 100-foot Buffer Zone. This flexibility allows for a shorter, more streamlined experience for the public doing minor projects while maintaining compliance with the	

Department Information DSR1	
--------------------------------	--

Department	Planning and Community Development
------------	------------------------------------

wetland rules and regulations. There were fewer projects that were able to be approved as Administrative Approvals generally because the projects involved work that required a Permit. Only nine (9) Administrative Approval were issued in Fiscal Year 2023. In the past, before the Administrative Approval mechanism was in place, many of these small projects would have gone before the Commission as Requests for Determination of Applicability and Notice of Intent filings requiring the issuance of Permits. During FY2023, the Conservation Commission met formally a total of twenty (20) times and held a total of twenty-six (26) public hearings.

Table 6: Conservation Commission Application Filings & Requests/

Type of Application Filing/Request	FY2020	FY2021	FY2022	FY2023

¹Filing involved a public hearing

*one application withdrawn

In addition to applications reviewed through the public hearing process, the Commission is required to review and act on requests to modify, extend, or close out existing permits. The Commission handled twenty (20) of these requests during this fiscal year. The Conservation Division also coordinates with the Town of Needham Department of Public Works and Public Facilities and provides professional expertise on town projects in a growing and more restrictive environmental regulatory time period. Finally, for that small percentage of projects that occur within the Commission's jurisdiction without obtaining a permit in advance, the Commission is responsible for pursuing enforcement to bring such sites into compliance with the state and local wetland regulations. In FY2023, two (2) projects required the issuance of an Enforcement Order to restore or protect wetland resource areas. These particular instances where Enforcement Orders were issued were for projects that had Permits for the work, but the work was not completed before the Permits expired. The Enforcement Orders were issued as a mechanism for the Applicants to finish the projects and receive a Certificate of Compliance once the work was completed.

Department	Planning and Community Development
Zoning Board of Appeals Division The Zoning Board of Appeals is a quasi-judicial body that hears and renders decisions on: 1) Appeals from Building Inspector administrative decisions; 2) Applications for Special Permits or Variances under M.G.L. Chapter 40A and the Needham Zoning By-Laws; and 3) Requests for Comprehensive Permits under M.G.L. Chapter 40B (affordable housing) as well as hearing amendment and de minimis change requests. The Board of Appeals consists of three regular members and two associate members appointed by the Board of Selectmen as authorized and established by General Laws, Chapter 40A, the Home Rule Charter Act and Article VIII of the General By-Laws. The Division provides guidance to applicants on all zoning matters, including assistance with the application and hearing process; reviews and analyzes applications for completeness and compliance to established zoning guidelines; coordinates the interdepartmental administrative review process, conducts site reviews; organizes the production of Special Permits and Board determinations post-public hearings; provides professional staffing to Board members, provides management and coordination of Comprehensive Permits projects, designs procedures for any new zoning review processes, produces technical reports, conducts research, and maintains and manages all Board data bases, communications and legal documents. Virtually all matters that come before the Board are initiated by residents or businesses seeking relief from the Zoning By-Law. Each application is processed in accordance with the legal requirements and timetables established under the Massachusetts Zoning Act, the Town of Needham Zoning By-Law, and Zoning Board of Appeals Rules and Regulations. <u>Performance Factors</u> The Board of Appeals returned to in-person meetings at the June 2023 monthly meeting after meeting remotely on Zoom since March 2020. The in-person meetings were hybrid with livestream broadcast on Zoom and on The Needham Channel. In FY2023, the Board held twenty-one (21) public hearings and six (6) informal hearings (refer to Table 4). The informal matters consisted of permit renewals, document reviews, project updates, plan substitutions or corrections. The Board of Appeals received twenty-one (21) applications relating to Special Permits, one (1) was withdrawn (refer to Table 7). Ten (10) applications were for residential use; nine (9) were for commercial use; one (1) was for municipal use and one (1) for education use. The Board issued twenty (20) Decisions in FY2023. The Division continues to coordinate the conditions associated with the 40B Comprehensive Permits issued by the ZBA – 1180 Great Plain Avenue, an existing vacant one-story building conversion to 16 rental units, consisting of eight one-bedroom units and eight two-bedroom units with 28 parking spaces. Four units (25%) will meet the definition of low- and moderate-income housing. The appellant withdrew the appeal. The project broke ground and construction is underway.

Design Review Board

The Design Review Board (DRB) consists of five regular members and two alternate members. Three regular members are appointed by the Planning Board where one such regular member is either qualified in the art or design profession and the second regular member is either qualified in fine arts or landscape design. Two regular members and two alternate members are appointed by the Select Board where one such regular member is either qualified in the art or design profession and the second regular member has a retail business in the town. The Board is required to meet monthly, and generally meets two times a month using the zoom format.

The Design Review Board serves the community by reviewing the design of all new commercial structures and outdoor uses, exterior additions, exterior alterations, and exterior changes in all areas as specified in section 7.7.2.2 of the Zoning By-Laws. They review requests for all sign permits, as required under Article XIX of the Needham General By-Laws. Applications that are submitted to the Board are generally initiated by businesses, developers and sign companies. Projects under review by the Planning Board such as major site plan projects, and minor site plan projects are also reviewed by the Design Review Board. They provide comments and recommendations for consideration by the Planning Board in their decisions. The DRB reviews applications for retaining walls under review by the Zoning Board of Appeals and provides comments and recommendations. Appeals to the Sign-By-Law and special permits as allowed in the General By-Laws are reviewed with a public hearing before the Design Review Board.

Performance Factors

In FY2023, the DRB met formally a total of fourteen (14) times and held a total of six (6) public hearings for special permits (refer to Table 5). The Board conducted site plan reviews for six (6) projects that were being heard by the Planning Board and two (2) projects that were being heard by the Zoning Board of Appeals. The DRB provided their comments and recommendations to those boards for consideration. The site plan reviews that were presented and discussed at the DRB meetings were diverse and some very significant. The eight site plans considered included: 1) a new stand-alone ATM building at the Needham Bank, 2) the full renovation of the Roche Brothers supermarket and parking lot, 3) a solar canopy roof over the garage at 140 Kendrick Street owned by Boston Properties, 4) a renovation of the exterior, interior and site improvements at 9 B Street, the Coca-Cola facility, 5) the redevelopment of 557 Highland Avenue, the former Muzi Ford site, 6) the redevelopment of the property at 40 & 50 Central Avenue a mixed use building with retail on the first floor and 15 residential units on the upper floors, parking and other site improvements, 7) the proposal to add a third floor to the Wingate building at 589 Highland Avenue, adding 22

Department Information DSR1

Department	Planning and Community Development
------------	------------------------------------

units and 8) the parking lot solar canopy project at Olin College. Both the Roche Brothers and the Olin College projects were reviewed for the Zoning Board of Appeals. The Design Review Board informally reviewed a couple of other projects presented regarding potential redevelopments. A total of 52 sign applications were also reviewed during the FY 2023 period.

Table 8: Number of Permit Application Filings FY 2020 - FY 2023

Fiscal Year	Number of DRB Meetings	Number of Public Hearings (Special Permit)	# of Sign Applications Reviewed	Site Plan Reviews
FY 2020	16	6	55	2
FY 2021	19	7	69	8*
FY 2022	17	5	58	9*
FY 2023	14	6	52	8*

*Two of the site plan reviews were for ZBA cases.

In March of FY 2023 the DRB also assisted local restaurant businesses in their option to continue providing outdoor dining following the end of the Covid emergency declaration and for the period beginning in the spring of 2022. Outdoor dining had been allowed on an interim basis during the Covid pandemic 2020 to support the local businesses however, after the governor's order relaxing restrictions with regard to outdoor dining expired, Needham restaurants were not allowed to continue to provide such outdoor dining absent a formal approval through either the Planning Board for seating located on private property or Select Board for seating located on public property. During this period, the Design Review Board reviewed three (3) outdoor dining applications that restaurants submitted to the Planning Board. Restaurants provided photos of the proposed seating, décor, lighting, for the Board to review. All three were approved.

Description and Explanation					
The Department of Planning and Community Development seeks the approval of the Town Manager to hire a full-time Planner. The Planner would provide a variety of technical and professional work in the current and long-range planning of the Town. Working under the general supervision of the Director of Planning and Community Development and Assistant Town Planner the essential functions of the position would be as follows: 1. Review applications and development plans submitted to the Planning Board for compliance with Zoning Bylaw and Development Regulations and evaluate site design and landscape components. Conduct research and site assessments and refer to other Town departments for review. Preparation of background and analysis of plans and submittal of recommendations to the Assistant Planner for review. 2. Prepare drafts of recommendations or decisions for action by the Planning Board and prepare reports or exhibits to support Board recommendations. With Assistant Town Planner supervision, oversee subdivision and special permit administration and prepare drafts of the Certificate of Action and the Special Permit. Monitor construction to ensure developer's compliance and enforce remedial action if needed.

3. Conduct research into relevant legal issues, gather and analyzes data, and prepare studies and policy actions related to current Town planning issues, Planning Board policies, regulations and by-laws, and general planning. 4. Attend occasional Planning Board meetings to report on planning issues and to present research findings through oral and/or visual presentations. Provide technical information and support to the Board, perform follow-up action, and conduct additional research as directed. 5. Work with administrative support persons to help organize and maintain all Planning Board records. Assemble materials and documents as required for recording in Registry of Deeds or Land Court. 6. Provide technical support to the Director of Planning and Community Development and assist the Assistant Town Planner in various planning functions. 7. Under the direction of the Director of Planning and Community Development, respond to public inquiries on zoning, subdivision, and planning activities of the Planning Board via phone and electronic mail. Educate the public through correspondence and through presentations at meetings. 8. Communicate with consultants under contract with the Town and make occasional site visits to verify compliance with permit conditions. 9. Attend various other department, committee, and board meetings as assigned to provide technical and staff support. Review and provide feedback on documents and reports. 10. Perform special projects and other related duties as required, directed, or as the situation dictates. Minimum education and experience required for the position: Bachelor's Degree in urban planning, or related field, from an accredited college or university and two to five years of increasingly responsible, planning-related experience. Master's Degree preferred. Required position qualifications to include knowledge of the: (1) Principles and practices of urban planning and development; (2) Site planning techniques and methods; (3) Federal, State and local laws, codes and regulations related to planning, zoning, and land divisions; (4) Geographic Information Systems; and (5) Current literature, information sources, and research techniques in the field of urban planning. Required skills to include ability to: (1) Interpret and explain planning and zoning activities to the general public; (2) Read and interpret comprehensive building and land development plans; (3) Analyze and compile technical and statistical information and write technical reports; (3) Operate computer and various software necessary for performing assigned planning duties; and (4) Communicate clearly and concisely, both orally and in writing, and maintain effective working relationships. Funding of the position will enable the Department to better meet the permit-granting and land-

Title	Planner	Priority	1
development plan review function it performs for the Planning Board. Additionally, it will allow the Department to more quickly advance the Planning Board's planning and zoning initiatives. Planning studies and zoning initiatives identified by the Planning Board include the following items: (1) Review and analysis of the Town's Zoning By-Law parking standards; (2) Review and analysis of the goals of the 2009 Needham Center Plan and the steps completed to date to meet those goals to determine if adjustments to the zoning for Needham Center and Chestnut Street are warranted; (3) Review of the land use and policy goals of the Business District located along Highland Avenue between May and Rosemary Street; (4) Review of the land use and policy goals of the Town's Industrial Districts, particularly the Industrial District on Hillside Avenue; (5) Development of a Town-wide Inclusionary Zoning By-law provision; and (6) Review of the Large House Amendments that were made to our residential districts a few years ago to determine if they have been effective at addressing the concerns of residents regarding size and architectural features. Finally, should the Planning and Community Development Department be successful in this effort, the costs associated with this additional staff position would be added to the Department's FY 2025 salary account. It is anticipated that \$80,000.00 additional dollars would be required to fund the new position during the first year. Additional costs would include benefits and a computer.

Minimum education and experience required for the position: Bachelor's Degree in urban planning, or related field, from an accredited college or university and two to five years of increasingly responsible, planning-related experience. Master's Degree preferred. Required position qualifications to include knowledge of the: (1) Principles and practices of urban planning and development; (2) Site planning techniques and methods; (3) Federal, State and local laws, codes and regulations related to planning, zoning, and land divisions; (4) Geographic Information Systems; and (5) Current literature, information sources, and research techniques in the field of urban planning. Required skills to include ability to: (1) Interpret and explain planning and zoning activities to the general public; (2) Read and interpret comprehensive building and land development plans; (3) Analyze and compile technical and statistical information and write technical reports; (3) Operate computer and various software necessary for performing assigned planning duties; and (4) Communicate clearly and concisely, both orally and in writing, and maintain effective working relationships. Funding of the position will enable the Department to better meet the permit-granting and land-development plan review function it performs for the Planning Board. Additionally, it will allow the Department to more quickly advance the Planning Board's planning and zoning initiatives. Planning			

Performance Improvement Funding Request Supplement DSR4S			
Position Title	Planner	Priority	1
studies and zoning initiatives identified by the Planning Board include the following items: (1) Review and analysis of the Town's Zoning By-Law parking standards; (2) Review and analysis of the goals of the 2009 Needham Center Plan and the steps completed to date to meet those goals to determine if adjustments to the zoning for Needham Center and Chestnut Street are warranted; (3) Review of the land use and policy goals of the Business District located along Highland Avenue between May and Rosemary Street; (4) Review of the land use and policy goals of the Town's Industrial Districts, particularly the Industrial District on Hillside Avenue; (5) Development of a Town-wide Inclusionary Zoning By-law provision; and (6) Review of the Large House Amendments that were made to our residential districts a few years ago to determine if they have been effective at addressing the concerns of residents regarding size and architectural features. Finally, should the Planning and Community Development Department be successful in this effort, the costs associated with this additional staff position would be added to the Department's FY 2025 salary account. It is anticipated that \$80,000.00 additional dollars would be required to fund the new position during the first year. Additional costs would include benefits and a computer.

4. Department Total (1+2+3)		13,700	2,000	15,700
5. Other Costs		1,478		1,478
Budgetary Considerations				Yes No
Does this request address a goal of the Select Board or other Board or Committee?				X
If yes, which Board or Committee?				
Has this request been submitted in the last three fiscal years and not funded?				X
Are there additional costs to implement this request (except for future year operating costs which would be ongoing if funding is approved) which are NOT included in this request?				X
Will the assistance of another department be required to provide support (personnel or financial) for this request to be implemented?				X
Will additional staff (beyond the staff requested in this DSR4 submission) be required if the request is approved?				X
Does the request support activities which produce revenue for the Town?				X
If the request is not approved, will current Town revenues be negatively impacted?				X
Is there an increased exposure for the Town if the request is not approved?				X
Is specialized training or licensing required (beyond the initial purchase)?				X
Does this request address a documented health or safety issue?				X
<i>All "YES" responses above must be explained in the narrative below</i>				
Description and Explanation				
The Department is seeking funding for a new part-time, non-benefitted position of Administrative/Office Support Specialist to serve the Department. The position is requested to be funded on an hourly basis at a rate of 10 hours per week of staff time. Funding in the amount of \$15,700 is requested. Presently, the Department has a part-time Administrative Specialist who provides 27.5 hours of administrative support to the Department. With this change the Department would be provided with administrative support on a full-time basis.

Department Information DSR1	
Department	Police Department
Department Mission	
The Needham Police Department is committed to excellence in everything we do. We pledge to maintain a close working relationship with the community to protect life and property and maintain a safe and peaceful environment for all. We will perform our sworn duties ethically, maintaining respect for individual rights, human dignity, cultural diversity, and community values.	
On the Horizon	
We are still trying to navigate the POST compliance requirements, which we have met all requirements to date. The commission is rolling out new requirements (SRO, discipline, certification) that are being met with confusion, uncertainty, and lack of clear guidance. Some of the requirements will continue to require additional training, SRO, firearms, and de-escalation for the entire department. Recruitment and retention are the most critical issues we face. Leaving civil service and having competitive wages have allowed us to be flexible and timely in our hiring.	
Budget Statement	
The FY 2025 Budget request is \$9,673,085 which is \$923,923 above the FY 2024 budget. The salary and wage amount requested is \$8,683,176, which is \$679,406 above the FY 2024 budget. The increase is a result of contractual increases for members of the bargaining unit under the current collective bargaining agreement, cola increases for civilian and administrative staff, and salary step increases for public safety dispatchers. The operating capital request is \$355,142, which is \$220,248 above the FY 2024 request. The increase is due to replacing five vehicles in accordance with the vehicle replacement schedule compared to just two vehicles in FY 2024. In FY 2023 we had 5 vacancies and 3 officers in the academy who were not available to work shifts. That led to salaries not being utilized, creating an approximate 2% of salary and wages being returned. The department was able to fully staff open shifts with overtime. Using overtime to staff shift minimum can be a short-term strategy but is not sustainable as a long-term solution. In fact, officers were forced to fill a lot of the open shifts. This creates a safety issue as officers are required to work sixteen-hour shifts which can create officer safety and wellness issues. In expenses we were without the department clinician for 5 months as we worked with Riverside to fill this position. We turned back approximately \$30,000 in gasoline. We also gave back approximately \$33,270 in Police Dispatch Repairs and Maintenance. We had just moved into the new station and most of the Motorola and dispatch equipment was brand new and under warranty.	

Fiscal Year 2025 Proposed Budget

% INCREASE FROM FY2024REQUEST 3.98%

Needham was awarded \$34,377.88 through the **Municipal Road Safety Grant** through the National Highway Traffic Safety Administration to help reduce roadway crashes, injuries, fatalities, and their associated economic losses in Massachusetts. The Needham Police utilized this grant for mobilizations- Drink Sober or Get Pulled Over, Distracted Driving, Click it or Ticket, and Speed enforcement. In addition, to increase speed enforcement, 7 new lidar speed guns were also purchased.

Needham was awarded 2 grants through State 911. The total amount awarded through the **Training and EMD Grant** was \$42,913.20 This grant assists the department to receive reimbursement for training-related costs associated with the 9-1-1 system. The total amount through the **Support and Incentive Grant** was \$98,451. This grant is designed to assist public safety answering points in providing enhanced 9-1-1 services.

Through the **Bulletproof Vest Partnership Grant**, Needham requested \$9,845 to provide uniquely fitted bulletproof vests for officers. We are waiting on Federal to be approved so we can submit to the State for the other half of the reimbursement.

Department Information DSR1			
Department		Police Department	
Accomplishments and Activities			
We were able to hold our junior police academy and welcomed a second community caretaking/friendly find service dog. We conducted ASHER (Active Shooter Hostile Event) training with the Needham Fire Department this year. We contracted with Massachusetts Police Accreditation Commission and Massachusetts Police Reform Insight Group to assist with move toward certification and POST Compliance which are both in progress.

Department Information DSR1	
Department	Fire Department
Department Mission	
To provide the Town of Needham with an effective, well-trained team of professionals to protect the lives and properties of its residents. This mission is achieved through providing fire suppression, emergency medical services, emergency disaster preparedness, fire inspections and fire safety education in the most cost-effective manner possible.	
On the Horizon	
As we prepare for another fiscal year, we are focusing on continuing to offer the best service possible to the residents and businesses in Needham. We are working collaboratively with the Building Department and IT to streamline the permitting process to allow online applications. We hope to secure the Student Awareness of Fire Education grant which is made available through the State. This would provide fire safety education to school aged children. Specially trained firefighters would provide this interactive learning experience. During recent contract negotiations, the Department voted to leave Civil Service which will allow us to select from a more diverse pool of candidates. This will be important as we attempt to bring our Department to a full complement in a more timely manner. In FY2025, we look forward to hiring two new firefighters. We are requesting funding to remove all the fire alarm wire throughout Town. We are looking at purchasing a new Fire Engine as part of the fleet replacement program. This will ensure safer working conditions for our firefighters as well as the citizens we protect and serve. In addition, we are working towards making our frontline engines ALS ready in an effort to reduce any potential delay in critical care. With the Departmental goal of accountability and efficiency, we will be looking to update our policies and standard operating procedures with the assistance of an outside vendor. As always, we will continue to provide our firefighters with the best pertinent training in order to be prepared for all emergency and non-emergency responses. We continue to struggle with supply chain issues and make every effort not to let this impede Department operations across the board.	
Budget Statement	
The Fire Department has three main sources of revenue for the Town. In FY2023 we collected: Ambulance Services \$1,396,282 (an increase of \$154,526 over FY2022) Inspection Permits \$40,005 (a decrease of \$11,487 over FY2022) Fire Alarm Master Box Fees \$20,160 (an increase of \$5,280 over FY2022) These three revenue sources represent an 11.3% increase over FY2022. DSR2 Salary and Wages The Salary and Wage Permanent Positions are based on FY2025 salaries as Local 1706 settled a contract through FY2026. It also includes many step and longevity raises along with education compensation. The Scheduled Overtime line item on the DSR2 includes overtime necessary to cover all vacation and $\frac{3}{4}$ of the personal shifts. We have also included \$803,176 to cover the estimated cost of coverage for sick, military tours, mutual aid call backs, holdovers, storm coverage, 111F,	

Department Information DSR1				
Department		Fire Department		
mechanics, training, special events, court, and staff meetings for members of Units A & C. Training and Development costs increased by \$32,379 due to the increase in salaries. We have based the working out of grade cost on the average for FY21, FY22 & FY23, \$12,500. The amount for the Temp PT Special Assignment Admin has decreased by \$11,007 based on the need being less since we are fully staffed in administration. In FY2023, the Fire Department had a budget return of 2.9%. The process of hiring suitable candidates continues to be lengthy. It can take up to a year to hire and academy train a firefighter. We dealt with four vacancies throughout the year. This affects morale and leaves gaps in service and reduces the availability of members for additional training opportunities. The communications center had a vacancy for most of FY2023. This caused stress and strain on the department and its employees when everyone had to work to cover 4 open shifts every 6 days. The cost was kept down by the supervisor using her admin days to work as a 911 operator on the overnight shift, which was far from ideal when the rest of administration works the day shift. Grants: The Emergency Management Performance Grant (EMPG) is a non-competitive grant from FEMA that is administered by MEMA. Needham has been eligible for \$8,500 in recent years. Uses: FY23 – Emergency Shelter Plan FY22 – Hazard and Vulnerability Assessment FY21 – Covid-19 After-Action Report The Hazardous Materials Emergency Preparedness Grant (HMEP) is a competitive grant from U.S. DOT that is administered by MEMA. Needham has been eligible for \$5,000 in recent years. Uses: FY23 – Hazardous Materials Awareness Training FY22 – HazMat/Mass Casualty Tabletop Exercise				
DSR2 Services and Supplies				
Line Item	Description	Change from FY24	Comments	Net Change
Repair & Maintenance Services	Firefighting Equipment	(\$3,958)	Most stayed the same and hose testing has now been included with ladder inspections	\$19,124
	Copier	(\$285)	Decreased based on 3-year usage average	
	Vehicle Inspections	\$3,682	Now includes hose testing. Pump, apparatus, and vehicle inspections had price increases	
	Outside Vehicle Repairs	\$4,698	Based on 3-year average of actual costs	
	Defibrillator & Stretcher Maintenance	\$18,987	Increased based on service contracts for 4 stretcher and a defib with expired warranties.	
	Municipal Outside Alarm Repairs	(\$4,000)	No longer needed	

Fiscal Year 2025 Proposed Budget

Department Information DSR1					
Department		Fire Department			
Rental & Lease	Acetylene Tank Rental	\$21	Increased monthly rental from \$13.90 to \$15.80	\$21	
Professional & Technical Services	New Hire Psychological Test	(\$1,395)	Decrease based on less anticipated to be needed		
	Enhanced Fire Records Mgmt. Software	(\$20,000)	This software will not be utilized		
	Policies & Procedures software	\$21,734	Full implementation software to include state-specific policies, online learning, behavioral health resources.		
	Fire Chief's Prof Dev seminar	(\$500)	Based on lesser need		
	Prof Dev training for Officers & FFs	(\$4,500)	Decreased as can be included in other training opportunities		
	Handtevy Program	\$9,984	Will give our medics access to reference material & equipment which will allow them to make quicker decisions regarding patient care and will also reduce the chance of medication errors.		
	EMD Software	\$80	Increased price for FY2025		
	Pediatric Life Support Certification	\$6,840	With the building of the new Childrens Hospital Clinic in Needham we see this as a training need.		
	Vector Solutions	\$840	Increased based on contract		
	Dispatchers CON ED	\$386	Increased based on current pricing		
	RAVE	\$1,500	Increased based on current pricing		
	Environmental Consultant HazMat reporting	\$8,000	Required by the State for Emergency Management

Medical Supplies	General Medical Supplies	\$1,000	Based on 2% anticipated increase in supply cost	\$1,000	
Other Supplies & Equipment	General Firefighting supplies	\$20,954	Based on quotes, increased cost on some items and other items not needed this year.	\$14,581	
	Uniforms	(\$6,373)	Based on quote for anticipated need		
Government Charges	Food and Drug License	\$15	Based on pricing provided	\$15	
Travel	Various Professional Conferences, Seminar, Parking, Tolls	\$658	Based on increased pricing	\$658	
Capital Expenses	Complete Hitch Gear	\$2,764	Based on quote provided	\$2,764	
Accomplishments and Activities					
We have hired four Firefighters/Paramedics to fill the vacancies. There is often a long wait time to get new hires into an academy. To try to help with this wait time, we have begun allowing new hires to have time on the ambulance and at the hospital for paramedic training prior to attending the Fire academy. We have fully implemented the Vector/CrewSense software program. All attendance, time off, swaps, details and training are documented using this program. This has made payroll processing more efficient and accurate. All members of the Department were offered cancer screenings and scans. There was a big uptake of this opportunity. For the second year in a row, we carried out Active Shooter/Hostile Event training with the Police Department. This increases our level of preparedness for incidents like these. The whole department took part in fire simulation live search and rescue training in houses that had been tagged for demolition. The Department of Fire Services came on-site and conducted electrical vehicle training along with ION battery training. All members of the Department were offered training on the effects of PFAS which is very prevalent.

Department Information DSR1	
Department	Building Department
Department Mission	
The Building Department administers and enforces the Massachusetts State Building and Energy Codes, the Needham Zoning By-laws and several portions of Needham's General By-laws. These various codes and by-laws serve to enhance public safety and general welfare for residents and the general public while constructing, renovating, and using buildings, both public and private, within the Town. Department staff, after reviewing applications, issue Building, Plumbing, Wiring, Fire Alarm, Fire Sprinkler and Sheet Metal/ Mechanical Permits and perform required inspections relative to those. We also inspect certain existing public buildings on a yearly basis to ensure the maintenance of safe egress facilities. Staff works closely with all other Departments including Fire, Health, Planning, and DPW to help coordinate the various processes involved in permitting and inspecting.	
On the Horizon	
The Building Department is funded by its fiscal operating budget. The FY22 Budget was \$839,582 The FY23 Budget was \$848,757 The FY24 Budget was \$894,312 The FY25 Budget submittal is \$901,424 The Building Department is expecting another busy year. While some of the larger anticipated projects such as the redevelopment of the Carter building for assisted living and development of the Highland Innovation Center located on the former 9.27 acre Muzi Ford property, remain on hold, the housing market seems to have adjusted to the rise in inflation rates and cost of materials and several commercial projects such as the new Children's Hospital facility which is under construction, and a new medical office building at 665 Highland Ave is proceeding through its approval process. The Emery Grover School Administration Building is progressing. We continue to work on the implementation of the changing energy codes to improve the energy efficiency of new and renovated buildings.	
Budget Statement	
The only requested budget increase for FY25 is in Salaries – Regular. The FY2025 total request of \$818,988 is an increase of \$7,112 over FY2024 due to normal step increases and longevity amounts. The Department has been fortunate to have steady staffing levels but many of the employees are at, or near the top steps for their positions. There are no other requested changes in the department's FY2025 budget compared to FY2024.	
Accomplishments and Activities	
Monies Generated by the Department are by means of permit fees and misc. fees. Total Fees Collected in FY21 - \$1,885,757 Total Fees Collected in FY22 - \$2,531,894 Total Fees Collected in FY23- \$4,835,389 Building Activity – New Construction: FY23 Residential Single-Family Dwellings – 61 FY23 Residential Two-Family Dwellings – 2 FY23 Residential Multiple Family – 0 units FY23 Commercial Buildings – 1

Department Information DSR1	
Department	Building Design & Construction
Department Mission	
The Building Design and Construction Department (BD&CD) mission is to provide comprehensive project management support and oversight services to the Permanent Public Building Committee, advise and support the Town Manager, \ on municipal facility renovation, construction, planning and operational needs on renovation/construction building projects having a total project cost of \$500,000 or more. BD&CD functions as the Owner's Project Manager (OPM) for large town building projects. The overall goal of the department is to provide a high level of project management services while completing renovation and construction projects on time and within budget. The Department strives to investigate and resolve issues that arise in the design, permitting, construction and commissioning of buildings as quickly and prudently as possible. The Construction Division works to provide comprehensive project management and oversight on all the municipal renovation/construction projects it is charged to complete.	
On the Horizon	
The Department continues to focus on the following current projects: 1) the construction / renovation of the Emery Grover Building for the School Administration at 1330 Highland Ave, 2) the Rooftop Unit Replacement at the Eliot Elementary School, 3) the design / bidding / construction for the Rooftop Unit Replacement at the Broadmeadow Elementary School, and 4) closeout of the Public Safety Buildings and Ridge Hill Demolition project. BD&CD is supporting the School Department's MSBA Statement of Interest (SOI) process and feasibility design phases of School projects that result from the 2020 School Master Plan. This may include renovations / additions to the Pollard Middle School, the demolition and rebuild of the Mitchell Elementary School, and the renovation of the High Rock School, if the preferred Option C.1.a is selected and funded. This approach avoids the construction of a temporary school on the DeFazio parking lot. The department will also be working on the projects /designs that result from the following four studies started in 2022-2023 including: • Dept. of Public Works Complex Feasibility Study • Center at the Heights Space Utilization Study • Theater Sound & Lighting Study at Select School Buildings • Library Space Utilization Study It is anticipated that an additional Senior Project Manager will be needed to manage the upcoming school projects and building projects resulting from the above studies. If these all proceed concurrently then additional staff will be required. Members of the department will also continue to provide staff support to the Climate Action Plan Committee until the Climate Action Plan is adopted by Town Meeting and will then incorporate the CAP recommendations and updated codes into the public building designs noted above. Reimbursement of COVID expenses to the Town from the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) funds in the amount of \$269,068.64 were received and were applied to the Public Safety Complex & Fire Station 2, STM 10/18 A10, in August 2022.	

Department Information DSR1	
Department	Building Design & Construction
Budget Statement	
The Department budget has increased by \$1,951 or 0.58% in the Salary & Wages line item, which will cover projected cost of living increases and/or anticipated step raises. The expense line item stays the same as FY2024. The department allocates project management time to certain capital projects once they are in the detailed design and construction stage which leaves an uncommitted budget balance for FY2023 in the Salary & Wages line item. The amount of \$126,025 or 37% in the Salary & Wages line item remained uncommitted in FY2023. The department did not have any long-term vacancies during FY2023 or FY2024.	
Accomplishments and Activities	
The recent completion of the phased Public Safety projects included the Needham Fire Department Headquarters, Needham Police Department, Fire Station 2, with temporary facilities at the Hillside school and the public safety communication towers. The Town received an Eversource Energy Efficiency rebate in the amount of \$21,551 for the projects. The Ridge Hill Demolition Project designed in 2021-22 was completed by June 2023. Warranty issues for reseeding the wildflower meadow will be addressed during the spring of 2024. The Emery Grover Building construction is on-going. The renovations to the Hillside School for temporary office use by the School Administration were completed in December 2022, allowing the School Administration to relocate during construction at Emery Grover. Other recent accomplishments included: • Sunita L. Williams Elementary School, • Needham High School expansion, • Memorial Park Field House, • Jack Cogswell Storage Facility, • Modular Classrooms addition at the Mitchell Elementary School, • Rosemary Recreation Complex, • School Master Plan Study, • Solar array investigation efforts for the Jack Cogswell Storage Facility. Over the last fiscal year, the department has overseen the Department of Public Works (DPW) Complex Feasibility Study, the Center at the Heights (CATH) Space Utilization Study, the Theater Sound & Lighting Study at Select School Buildings, and the Rooftop Unit (RTU) Replacement Study for the Broadmeadow and Eliot Schools. Several issues were identified in the Theater Sound & Lighting Study that needed to be addressed immediately for safety and code reasons. The Department aided the Building Maintenance Division in bidding, contracting, and completing repairs over the 2023 summer break. The RTU replacement at Eliot School was designed and the bid was awarded. Eliot ES construction will be done during the summer of 2024. Detailed Design of the Broadmeadow RTU replacement has started. The BD&CD assisted the Building Maintenance Division (BMD) with retro commissioning of all Needham Public Schools, enabling them to reopen during the COVID 19 pandemic. The department has managed planning updates to the School Master Plan which will include renovations / additions to the Pollard Middle School, High Rock modifications, and the rebuilding	

Department Information DSR1			
Department		Building Design & Construction	
of the Mitchell Elementary School. The Emery Grover Building renovation study for the school administration & operations started in 2019 and will continue through construction with re-occupancy in the fall of 2024. There is also a two-year commissioning period for the new HVAC equipment which the department will manage, coordinating with BMD. The department assisted the DPW and Town Manager by managing the installation of eight public EV charging stations at three public parking lots in town. This includes grant funding from the DOER’s “make-ready” and “MasseVIP” programs. The estimated MasseVIP grant is \$23,392. The Department also supports the Climate Action Plan Committee in the development of Needham’s Climate Action Plan. The BD&CD has previously worked on several solar energy projects in town that continue to produce income for the Town of Needham including: <u>Needham Solar 1 (Mound Solar X) at the Recycle Transfer Station-</u> 2022 net metering benefit + \$952,561 Shortfall Payment (equipment issues) + \$119,223 Annual Lease Approximately+ \$50,000 <u>Annual Tax on Asset (approx.) + \$100,000</u> <i>Total annual benefit 2022 = \$1,221,784 (year 7)</i> <i>Total benefits after first seven years of operations = \$6,203,846</i> Average carbon offset per year = 2,900 tons CO²/year <u>Sunita Williams Elementary School- Solar Array</u> SMART payments average around \$22,000 per year for ten years. The solar array also saves on electrical bills by providing about one-third of the electrical power demand to the building each year. The solar array has generated 596MWh since September 2019, offsetting 358 tons of CO². The department personnel working as the Town’s OPM has realized <u>over</u> \$2.5M in savings to the Town over the last four years based on over <u>\$71.4M</u> in construction spending. The \$2.5M is based on the customary OPM fee of 3.5 - 5% charged by third party project management consultants acting for the Town as the obligatory OPM on construction projects over \$1.5M pursuant to state law compared to Department payroll contributions being spent on Department personnel.

If yes, which Board or Committee?		Several – see below		
Has this request been submitted in the last three fiscal years and not funded?				X
Are there additional costs to implement this request (except for future year operating costs which would be ongoing if funding is approved) which are NOT included in this request?				X
Will the assistance of another department be required to provide support (personnel or financial) for this request to be implemented?				X
Will additional staff (beyond the staff requested in this DSR4 submission) be required if the request is approved?				X
Does the request support activities which produce revenue for the Town?				X
If the request is not approved, will current Town revenues be negatively impacted?				X
Is there an increased exposure for the Town if the request is not approved?				X
Is specialized training or licensing required (beyond the initial purchase)?				X
Does this request address a documented health or safety issue?				X
<i>All "YES" responses above must be explained in the narrative below</i>				
Description and Explanation				
An additional <u>Senior Project Manager</u> is needed by the BD&C Department to manage the departmental workload for current and future feasibility studies, design, and construction projects noted in the attached PPBC 5-Year Capital Improvement Plan (CIP) schedule (Attachment A). Assuming the funding is approved for the three additional projects in May 2024, the Senior Project Manager will be needed immediately to handle the anticipated workload and maintain the project schedules. BD&CD staff support the Town Manager and help address the goals of multiple boards and committees in Needham as noted below: 1) <u>PPBC</u> – BD&CD supports and manages all PPBC design and construction projects. 2) <u>School Committee</u> - (Emery Grover Renovation, School Master Plan, RTU replacement at Broadmeadow & Eliot, & Theater Sound & Light for Selected School Auditoriums) 3) <u>Select Board</u>- (Building Design & Construction projects resulting from the Public Works Facilities Improvements Study. Also closing out the Public Safety Building projects) 4) <u>Library Trustees</u>- (Phased design & construction projects resulting from the Library Space Utilization Study) 5) <u>Select Board / Health Department</u> (Phased design & construction projects resulting from the CATH Space Utilization Study) 6) <u>Select Board / Climate Action Plan Committee</u>- developing Needham's CAP & Sustainability				

Performance Improvement Funding Request DSR4			
Department	Building Design & Construction	Fiscal Year	2025
Title	Senior Project Manager	Priority	1
Goals • <u>Assistance</u>- from the IT Department will be needed to set up the computer and provide a cell phone for this position. The Senior Project manager will support and coordinate with the following departments: OTM, Planning, Conservation, NPS, DPW, BMD, NFPL, and Health on Working Groups, or as "user representatives" on the PPBC for the respective project. • <u>Revenues</u> - Potential future revenues from solar installations and grant funding from the Inflation Reduction Act, ARPA, CARES, MSBA and other grants could be affected. • <u>Exposure</u> - Town would be required to hire an independent OPM for each major project at more than twice the cost of an employee Project Manager. • <u>Training</u> - MCPPO training or continuing education (CE) to maintain any licenses (for Const. Supervisor, P.E or Arch.) will be required depending upon PM's qualifications. Senior Project Manager – Town Employee vs. 3rd Party "On-Call" Project Management Services <u>Prior requests</u> The BD&C Department has requested funding for additional staff during the past few years to replace staff that have retired, moved to other departments, or pursued employment elsewhere. The current staff work many long days to complete the department's projects. <u>Financial Benefit</u> Using On-Call Project Management Services from the current vendor (Hill International) would typically cost two times (2X) the annual cost of an employee or more. <u>Operational Benefit</u> Maintaining Owner's Project Managers (OPMs) on staff provides the town with greater control, reporting, and administrative flexibility to cover multiple concurrent projects particularly in the early study stages. Close coordination with the Building Maintenance Division helps to identify which Capital Improvement Projects in the 2020 School Master Plan can be completed by BMD and which projects should be referred to the PPBC. The current BD&CD staff is stretched too thin to cover all ongoing and anticipated future projects. <u>Sustainability- ongoing project workload</u> <u>Emery Grover</u> (FY2023-2025), <u>School Master Plan</u> (FY 2025-FY2034 or FY2025-FY2053 depending upon Option selected <u>RTU replacement</u> FY2023-6 Eliot construction and Broadmeadow design, and FY2025-7 Broadmeadow construction <u>DPW</u> -Phased design and construction for Option #4 (FY2024 – FY2037) <u>Library</u> – Phased design & construction (FY2025 – FY2035) <u>CATH</u> – Phased design & construction (FY2026 – FY 2034) Schedule, sequence, and funding for these projects is based upon 5-year CIP funding plan. <u>BD&CD Budget Considerations</u> The goal of the department is to have a proper level of personnel to manage the multiple current and upcoming town design and construction projects for public buildings. The Department has been reduced by two Project Manager positions since FY2020, yet, the workload is projected to increase significantly during the upcoming 5-year CIP.			

Performance Improvement Funding Request DSR4			
Department	Building Design & Construction	Fiscal Year	2025
Title	Senior Project Manager	Priority	1
<u>Health & Safety issues addressed in public building design & construction projects.</u> The BD&CD staff help ensure that each public building project includes an assessment of the public health and safety issues of the building to comply with the contemporary building standards and codes. This includes: handicapped accessibility, egress capacity, earthquake resistance, fire alarm and sprinkler systems, indoor air quality, heating and cooling, and multiple other related requirements. The first step during the feasibility study of an existing building is to assess the compliance with these codes, and how to design the necessary upgrades to the building to bring it into compliance. A similar process is part of the programming and design of a new building. <u>Yearly Benefits</u> for the new position are estimated at \$37,505. The yearly auto allowance for a new Senior Project Manager is \$3,000. Other recurring annual costs include the following: town cell phone service \$880, Software \$930, & Training (\$300 to \$1,000 depending upon qualifications and licensing of the Senior Project Manager hired). All BD&CD staff are currently MCPPO certified and are expected to maintain that certification. Any registered architects or engineers are expected to maintain their respective professional state license while employed in the BD&CD.

Description and Explanation									
<u>Why</u>- A Senior Project Manager is needed by the BD&CD to supplement existing BD&CD staff for current and upcoming projects for PPBC studies, design, and construction projects. <u>Need</u> - The BD&CD workload is increasing pending the projects generated by five recent studies. The School Masterplan will have the largest impact. Additional staff are needed to meet the workload following recent BD&CD staff reductions in FY2020.									

Performance Improvement Funding Request Supplement DSR4S			
Position Title	Building Design & Construction Senior Project Manager	Priority	1
• <u>Other service delivery methods</u> – the BD&CD could rely upon “On-Call Project Manager” support from Hill International under the existing contract which is available until December 2024. Then a new RFQ is required for On-Call OPM services. The current contract with Hill International has hourly rates ranging from \$120/hr. (for Assistant Project Manager) to \$180/hr. (for Project Manager). Negotiated one-year rates could be lower but this option is likely to be about double the FTE costs for a Town Employee. Also, there is no assurance that staff from Hill would be available for the duration of these long-term projects. • <u>Benefits</u>- Ability of BD&CD staff to oversee a project from the feasibility study, design, and construction through to occupancy and warranty provides continuous project administration. Eliminates the need for the PPBC to hire a new outside OPM for each new major building project study. BD&CD staff’s knowledge of other departments, user groups, operations and systems facilitate communication and successful completion of small & large-scale town building projects. • <u>Intended results</u>- Hire a Senior Project Manager that can learn the Town’s Employee Owner Project Manager process for designer selection, feasibility studies, detailed design, bidding, permitting, construction oversight and closeout phases. Enable the staff to grow within the department to sustain a high level of service provided to the PPBC, and consistent with the Town By-law (Section 2.6) on town construction projects exceeding \$500K and Massachusetts OPM (MGL chapters 7C, 149, 149A & 30B) requirements for major projects exceeding \$1.5M.

Department Information DSR1	
Department	Department of Public Works – General Fund
Department Mission	
The Department of Public Works consists of nine different divisions, seven of which are budgeted under the general fund and two of which are independent enterprise funds (Water and Sewer). Within the general fund, there are three support divisions (Administration, Engineering, and Fleet) which provide support services to all of the operating divisions, regardless of their funding source, and four operations divisions (Building Maintenance, Highway, Parks & Forestry, and Recycling & Solid Waste). Overall missions and references to DPW refer to all nine divisions, regardless of funding. Needham DPW strives to maintain and improve the built environment so that Needham continues to be a healthy, safe, and enjoyable place to live. The built environment refers to the roads, bridges, sidewalks, sewer systems, water systems, stormwater infrastructure, trash disposal, recycling, parks, trees, fields, and all School and Town buildings. DPW is preparing to thrive by 2025, creating institutional systems to provide continuity and innovation.	
On the Horizon	
This budget reflects the challenges and opportunities that the Department of Public Works (DPW) is currently facing, and we anticipate will continue to face in the near future. The executive leadership team of the Department has completely transitioned over the past year and all members of the leadership team have 3 or less years in their current role. While losing such institutional knowledge can be difficult it does open up new opportunities for the Department. In addition, the DPW has transitioned a total of 43 employees since July 22, 2023, including promoting 16 internal staff. The DPW has continued its succession planning program, anticipating a significant turnover of staff in the next few years as many staff hit retirement age. The Town has implemented its own program for Entry-Level Driver Training that presently has four internal employees enrolled, being taught by Town employees, that will allow them to take their Commercial Driver's License exam. The Department is currently experiencing the lowest vacancy rate in two years, with almost all union positions filled. The goal is to make the Department's reputation for training and advancing employees attractive to both internal and external candidates as we continue to experience transition. The Department is taking a renewed focus in accelerating our hiring practices, collaborating with regional communities for training opportunities, rebuilding our summer work force which had traditionally served as a strong resource for full time hires, and conducting internal succession planning to grow our own candidates. It is anticipated that further incentives and improvements to the work environment may be needed to increase our competitiveness in the future. In addition, the Public Works Department has increased its scope of work significantly in the past 20 years while minimizing the increase in full-time employees by providing overtime opportunities for existing staff. As staff changes over, it is likely that newer employees will be less interested in overtime to pursue greater work life balance and that additional full-time positions will need to be added to continue to provide these services to the community. The traditional approach to outsourcing work to account for staffing shortages will not work in this current economic environment. We are experiencing an unprecedented increase in the cost for materials and labor for outside services. In addition to staffing and supply chain challenges, the resources being poured into infrastructure investments through several various necessary programs are putting pressure on existing construction and engineering firms that are not	

Department Information DSR1	
Department	Department of Public Works – General Fund
presently set up for the large influx of work. This has resulted in increased prices and project delays. We have continued to develop strong professional relationships and with well drafted contracts, we will continue to ensure services, although costs and timelines will be a factor. A volatile weather climate will also continue to provide challenges for DPW. The DPW reclassified an existing staff position to fill the responsibilities of Sustainability Manager. This position will assist the Town in focusing on reducing carbon emissions and help to prepare the Town for climate adaptation as we continue to see weather patterns shift. The winter months are providing a new challenge as we see less consistent and less predictable weather events, and an increase in the freeze thaw cycle that produces more dangerous icing events. The summer months have produced both drought (Summer of '22) and floods (Summer of '23). Providing infrastructure that can withstand these extremes and assist our property owners to also mitigate these events is time consuming for the Department and will take significant resources in the future to implement. To manage these challenges the Department is continuing to implement prioritization metrics to ensure that the most critical needs are met. Our metrics for prioritization will help to ensure that residents continue to receive necessary services while we work diligently to continue to meet the high expectations of the residents for the built environment in our community. Our priorities are as follows: 1) Safety, 2) Infrastructure Preservation, and 3) Enhancements to the Built Environment. The DPW continues to try and think innovatively about how services are delivered. This requires engaging residents and stakeholders in the process to ensure that there is buy-in when improvements are made to the built environment such as traffic calming measures, reducing permeable surfaces, enhancing walkability and safety, improving trash service delivery, and providing solutions for stormwater quality. This requires more communication in the form of site visits, educational sessions, working with local media, and reporting to appropriate committees of the work we are doing and planning to do. The creation of the Mobility Planning Committee will help solidify existing practices and provide new frameworks for how the Town maintains its transportation infrastructure. The budget we are presenting for FY2025 represents DPW's best attempt at trying to navigate these challenges. Our budget request in our DSR2 is for all DPW divisions to perform the daily maintenance tasks, both proactive and reactive. Our service enhancement requests as presented in our DSR4s are really to address shortcomings in meeting the needs of the community and to prepare for the future. The Public Works leadership believes that the residents of Needham continue to expect a high-quality infrastructure that enables a high quality of life through well engineered and constructed roads, sidewalks, and bridges; safe drinking water and sewer systems; improved stormwater management; beautiful and well-maintained parks, fields, and trees; access to sustainable waste removal and recycling options; and well operated, sustainable Town and School buildings. The items below detail additional and specific work that the individual divisions will be undertaking in the upcoming fiscal year. <u>Administration</u> The Administration Division aims to provide clear and consistent administrative support to the operations divisions of DPW. The Division will continue to look for ways to assist DPW administratively in more efficient ways. There will continue to be a number of transitions and the	

Department Information DSR1	
Department	Department of Public Works – General Fund
Division expects a heavy hit in the next five years, leading to an increased training program in order to educate staff who may be new now, but will be leading in a few short years. The Division will continue to lead the Department wide succession planning program. Over the last few years, Administration has taken on managing various organizational systems for the Department and will continue to implement and manage them. These organizational systems include implementing a time clock system to modernize operations, continue to transition every division from SeeClickFix to Asset Essentials, upgrading all software and programs associated with water meter reading and billing, and leading the charge to deploy more in the field technology. In FY2023, the Division oversaw an employee engagement survey that they will analyze the results of in order to focus on employee retention. Administration is looking forward to beginning work on providing adequate staff facilities with DPW projects that are moving forward in the capital process, as well as continuing to manage a world with ever increasing expectations and requests on similar resources. <u>Building Maintenance</u> The Building Maintenance Division aims to provide reliable, consistent, effective operations of the buildings, ensuring comfort for all occupants. The Division has faced both internal and external challenges, including limited access to buildings throughout the year, finding qualified HVAC Technician applicants to fill vacancies, long lead times on materials needed to complete projects, and reliability of contracted vendors. Despite these pressures, the Division is hopeful for the upcoming year and their anticipated projects. The Building Maintenance Division will be assessing the extensive data collected by Alpha Facilities Solutions to develop a long-term preventative and reactive maintenance plan for the schools and municipal buildings throughout the Town of Needham. Review of this data will allow the Division to efficiently track, maintain, and replace equipment within the buildings, while maintaining a strong preventative maintenance program. Additionally, this will support the efforts to appropriately project costs and make informed decisions in planning future work. The Division plans to execute projects that promote building sustainability through the replacement of inefficient equipment with more efficient options (VAVs, high efficiency boilers, LED lighting, water bottle filling stations, etc.). Building Maintenance will be collecting data to address the custodial and trades staffing needs for the division to ensure that the town and building needs are being met. The Division will also continue to develop their partnership with the Building Design and Construction Department to improve building construction and transitions over to Building Maintenance. Lastly, the Building Maintenance Division will continue to listen to the needs of the community and respond to support these initiatives (e.g., period product dispenser installation in school and town buildings). <u>Engineering</u> The Engineering Division aims to continue to make Needham a welcoming environment. There are many upcoming major projects that will be led by Engineering, including intersection improvements along Central Avenue, a sluice gate replacement at Rosemary Lake, guard rail upgrades, drainage improvements at Concord Avenue and Burnside Road, a water main replacement along South Street, and the multi-phase sewer main replacement along Route 128. Engineering is also undertaking multiple traffic calming improvement projects at Marked Tree Road, Webster Street, Rosemary Street at Hillside, Tower Road, and Country Way. The Department is taking on multiple master plans, including drainage improvements, sewer, water, and roadway intersections, which will be led by Engineering. Additionally, Engineering will provide inspectional	

Department Information DSR1	
Department	Department of Public Works – General Fund
services for the multi-area gas and underground electrical replacement being proposed by Eversource. <u>Fleet</u> The Fleet Division aims to provide green, elite, vehicle servicing. Fleet is responsible for the acquisition, repair, maintenance, and disposal of all department-owned vehicles, and they ensure the department's vehicles and related equipment are available, safe, and dependable so town agencies can deliver essential municipal services. Operationally, Fleet continues to experience challenges with delays in the arrival of replacement vehicle deliveries and also with repair parts availability issues. As a result, fleet continues to focus heavily on providing proactive maintenance and effective utilization of the department's refurbishment budget to minimize potential negative impacts to operations. Fleet continues to utilize an online auction vender to dispose of surplus vehicles and equipment which provides a significant increase in returns to the town when compared to traditional "trade-in" methods. The Division manages the Town's fuel depot, supplying 68,062 gallons of unleaded gasoline and 36,603 gallons of diesel. Fleet continues to utilize B20 biodiesel seasonally to fuel the Town's diesel-powered vehicles, which is produced from renewable resources, emits fewer greenhouse gases, and is biodegradable. As transportation technologies evolve, so do our strategies. In line with the town's commitment to sustainability and green initiatives, Fleet Services manages the town's electric vehicle charging stations. By providing and maintaining the necessary EV charging infrastructure, we support the growing use of electric vehicles and actively contribute towards reducing the town's carbon footprint. <u>Highway</u> The Highway Division aims to construct surface infrastructure in an all-inclusive, multimodal manner. The Division will continue to pursue Federal funding opportunities through the Transportation Improvement Program (TIP) for the reconstruction of Highland Avenue from Great Plain Avenue to Webster Street. In accordance with Shared Streets and Complete Streets standards, the Division will continue to make improvements to improve bicycle and pedestrian safety, including refurbishing traffic markings, implementing traffic calming measures, and increasing the frequency of street sweepings. Highway has seen an increased difficulty in scheduling and coordinating street and sidewalk improvement work due to supply chain issues. This had led to the need to make quick adjustments in schedules to complete their prioritized projects, which will continue in the upcoming year. The Highway Division oversees the snow and ice operations for the Town. Recently, there has been a decrease in the number of contractors participating in the snow program across New England, causing the Division to continuously have to rethink and adapt how they approach their snow operations. <u>Parks and Forestry</u> The Parks and Forestry Division aims to maintain the "front yard of Needham" as welcoming, safe, accessible, and aesthetically pleasing. The Division will continue to maintain the trees, parks, fields, and forest of the Town, ensuring safe and enjoyable options for outdoor activities. Parks and Forestry is looking forward to completing multiple major capital projects, including wrapping up the final touches on the new Town Common, completing the renovation of McLeod field, and completing the permitting required for the Claxton Field renovation. Additionally, the Division will be fully staffed for the first time in many years. Parks and Forestry will continue to partner with the Park and Recreation Department on many projects and programs.	

Department Information DSR1	
Department	Department of Public Works – General Fund
The Division has been facing some challenges, especially with regards to the weather and will need to continue to look at ways to combat these challenges. Historically, grasses in New England go dormant during the summer months allowing the Division to catch up on aesthetics and features, such as landscaping beds and mulch areas. This has not been the case recently. Many of the routine programs such as maintenance at multiple trails, paths, and dog parks, were not able to be completed at their normal standard. Additionally, the weather has been challenging with regards to Forestry operations. Pests are causing harm to ash trees, which Needham has a high population of. Parks and Forestry will continue to look at ways to adapt to these unique weather changes. <u>Recycling and Solid Waste</u> The Recycling and Solid Waste Division aims to keep Needham clean and green by providing efficient, safe, sustainable, progressive, and practical solid waste disposal and recycling. The Town is working on a study of the service delivery model of the RTS facility. Once the results of the study are complete, the Division will need to evaluate the future of the facility and incorporate possible recommendations. The recycling market has been extremely volatile, and the Division will continue to address these market challenges. Recycling and Solid Waste anticipates analyzing the pay-as-you-throw revenues along with the MSW tipping and processing fees. The contract for MSW disposal is set to expire in 2028 and the Division will need to spend the next few years coordinating with other communities to enter into a new agreement.	
Budget Statement	
Salaries & Wages increasing \$530,765, 4.86% Expenses & Services increasing \$1,170,502, 13.31% Operating Capital decreasing \$56,406, -29.12% Total Budget Submission* increasing \$1,644,861, 7.63% *not including snow & ice Salaries The increase in Salaries and Wages is largely due to annual wage adjustments or transition in positions. There was also the transition of the GIS Administrator from Technology into the Department of Public Works. The total increase for Regular Salaries is \$401,522, 4.13%. The increase in the Overtime Budget is due to the increase in base salaries. There was also some transition with positions that were previously exempt now being eligible for overtime. The overtime programs have remained the same from the previous year. The Overtime Budget has increased by \$118,288, 12.42%. The base salary for temporary help has increased. Additionally, after a successful pilot over the summer of 2023, there has been a small increase in the budget to run an internship program. The total increase for Temporary Salaries has increased by \$10,955, 5.2%. The Other Salary and Wages has remained the same. In FY2023, DPW had a turnback of 3.67% in salaries. This was largely due to the vacancy rate. The Department has worked hard to fill these vacancies, including hiring 9 external candidates, promoting or transferring 10 internal staff, and hiring 17 temporary staff. As of October 2023, there are only five remaining vacancies, which are anticipated to be filled by the start of FY2025. The Department was able to continue operations with the assistance of overtime, additional interns, and hired contractors.

RSW	Gasoline	637	\$4.38	\$2,788	-\$535

*Same as prior year's budgetary cost for gasoline (\$4.38/gallon) and diesel (\$5.48/gallon)

Administration

There were incremental increases in the Administration budget, primarily from consolidating and increasing conferences and trainings (10,150). Conferences and trainings that are for Department wide topics are consolidated under Administration while Division specific trainings are housed under the respective Division. The remaining increase came from an increase in usage of gasoline (2,540).

Net Increase \$12,690

Building Maintenance

The most significant increase in the Building Maintenance budget is in Contract Cleaning (616,863). This is due to changes and instabilities in the contract for cleaning services at the High School, Pollard, and Newman. Additionally, the budget for cleaning the seasonal parks and pool restrooms (35,000) have been transferred from the Park and Recreation Department to Building Maintenance. Other substantial changes come from increases due to contractual pricing changes, including Alarm and Sprinkler Servicing (37,009), Building Repairs (19,640), HVAC Maintenance (30,460), and

Department Information DSR1	
Department	Department of Public Works – General Fund
Mechanical, Electrical, and Plumbing Repairs (13,994). There was increase in Oil (12,868) based on the three-year consumption average and the removal of oil heating from the Emery Grover. Other increases were incremental. Net Increase \$783,127 <u>Engineering</u> The most significant increase in the Engineering budget is from transitioning the annual warrant article for Property Surveys (100,000) into the operating budget. Another significant increase was the transition of the GIS Administrator from IT to Engineering, resulting in an increase in Software Licenses (21,721). Other increases were incremental. Net Increase \$126,717 <u>Fleet</u> Most of the increase in the Fleet budget comes from an increase in both demand and cost of repair and maintenance materials, including Hardware Supplies (8,500), Vehicle Repair Parts & Batteries (5,000), and Vehicle Tires (5,000). There was also an increase in the GPS Monitoring Services (2,000). There was a decrease in Diesel (-1,736) that is due in part to the continued transition from diesel to gasoline vehicles where feasible. Net Increase \$25,591 <u>Highway</u> The most significant increase in the Highway budget is in Engineering Consulting (60,000) which comes from an increased need for specialized engineering work for roadway infrastructure additions and adjustments related to the implementation of Complete Streets principles. These improvements are above the level of in-kind replacement after routine maintenance work. Additionally, there were contractual increases in Roadway Paving (13,843), Asphalt (6,119), Roadway markings (5,754), and Road Surface Treatments (4,321). The budget also saw an increase in Seed & Fertilizer (4,000) from the Division taking on hand seeding grass berms during paving projects. Other increases were incremental. Net Increase \$115,621 <u>Parks and Forestry</u> Most of the increases seen in the Parks and Forestry budget are contractual increases, including Seed (13,951), Fertilizer & Grub Control (5,421), Field Work (3,623), and Top Dressing (1,680). Other increases were incremental. Net Increase \$32,975 <u>Recycling and Solid Waste</u> The most significant increase in the Recycling and Solid Waste budget is seen in Recycling Disposal (33,060). This is due to the variability in the cost of recycling materials. Many other increases are driven by the disposal volumes and costs, including MSW Disposal (7,744), MSW Hauling (5,620), Mattress Recycling Program (8,000). A significant increase in Diesel Fuel (25,703) is also seen due to a corrected three year consumption average. Other increases were incremental.	

Fiscal Year 2025 Proposed Budget

Operating Capital

Building Maintenance - Lift

This request is for a lift that would allow for Building Maintenance staff to execute repairs and cleaning in high, hard to reach places.

Highway – Electronic Message Boards

This request is to replace two of the oldest existing electronic message boards in Highway. These

Department Information DSR1	
Department	Department of Public Works – General Fund
message boards are used to alert the Town to construction, detours, and other important messaging. <u>Parks & Forestry - Batting Cages</u> This request is to repair/replace existing batting cages throughout Town on a rotating schedule. <u>Parks & Forestry – Stand-On Leaf Blower</u> This request is for an additional stand-on leaf blower. This would allow staff to clean up leaves throughout Town much more efficiently. <u>Parks & Forestry –Landscape Trailer</u> This request is to replace the 14-foot landscape trailer that is past its useful life. This trailer is used to haul other pieces of equipment, such as mowers, throughout Town. <u>Recycling & Solid Waste - Roll Off Containers</u> This request is to purchase two 40-yard roll-off containers as part of the long-term effort to replace and maintain its inventory of trash and recycling containers. Turnback DPW had a turnback of 2.52% in FY2023. This was largely driven by the 3.67% turnback in the salaries budget due to the massive staff transition. Even though a large majority of the positions have been filled, many took extended periods of time due to internal promotions and transfers, leaving positions vacant for longer than desired. The turnback for expenses was minute (0.67%). DPW anticipates the turnback for FY2024 will be lower, as many of the positions have been filled.	
Accomplishments and Activities	
<u>Administration</u> The Administration Division continued to oversee an increase in hiring and contracting needs throughout the Department. During FY2023, Administration coordinated the hiring processes for 12 external candidates, 14 internal promotions or transfers, 4 interns, and 15 temporary employees. Additionally, the Division issued 47 bids and executed 128 contracts and amendments. Administration also assisted in the ongoing transition to a new billing and collections software throughout the Town. The Division also transitioned to Event Manager, and updated software to rent out spaces in Town. A new Assistant Director of Public Works joined Administration in FY2023 and began the implementation of a comprehensive training program for the Department. The Administration Division also applied for and received two Shared Streets grants for additional snow removal equipment. <u>Building Maintenance</u> The Building Maintenance Division completed many significant repair projects including roof repairs at multiple buildings, elevator repairs to the CATH and Library, fire safety repairs at multiple schools, and exterior lighting repairs at multiple locations. The Division continued work in the auditorium at the High School, including repairing the ceiling. Water bottle fillers were installed at the Library and the High School. The Town-wide initiative to install menstrual product dispensers was continued at the High Rock School. The Division focused much of its attention of repairs masonry concerns at the Rosemary Recreation Center, the Pollard, the Public Safety Complex, and Memorial Park. A significant portion of Building Maintenance’s focus continued to be on completing HVAC repairs and upgrades at almost every building in Town.	

Department Information DSR1	
Department	Department of Public Works – General Fund
<u>Engineering</u> The Engineering Division completed multiple projects including drainage improvements on Harris Avenue at Dedham Avenue and on Walker Lane and preparing plans for traffic calming on Dedham Avenue. The Engineering Division provided extensive construction inspection and oversight services for the water main replacements on Central Avenue and Rosemary Street, for Phase One of the relief drain project at Concord Avenue and Burnside Road, the Route 128 sewer access improvements project, the relief drain project on Highland Avenue at West Street, and the Lake Drive pump station improvements. Additionally, the Division inspected 435 street/sidewalk occupancy and excavation permits, completed 445 building permit reviews, 26 project review for the Planning Board, 20 project reviews for the Zoning Board of Appeals, completed five traffic count studies, and prepared five traffic regulations. <u>Fleet</u> The Fleet Division had to combat many challenges this year caused by the long delays in vehicle deliveries, leading to additional repairs needed on existing vehicles, and the supply chain issues affecting the availability and delivery times of repair parts. The Division was able to successfully adapt and keep vehicles in service to allow for the other divisions to continue their daily operations. The Division often had to pivot and look at other, similar vehicles in order to adapt to the difficult market conditions. Fleet oversaw the addition to the electric vehicle charging inventory and helped to set up a fee structure to charge for electric vehicles throughout Town. Additionally, the Fleet Division led the charge in starting to transition appropriate Town vehicles to electric and hybrid. <u>Highway</u> The Highway Division rehabilitated 5.3 lane miles of roadway, including Bridle Trail, Carleton Drive, Cutter Road, Janye Road, Rosemary Street, Central Avenue (from Cedar Street to River Park Street), Reservoir Street (from Central Avenue to Reservoir Avenue), and Carter Street. The Division also geometrically reconstructed the intersection of South Street at Webster Street, which included realigning 900 feet of sidewalk, adding three wheelchair ramps, installing a pedestrian walk signal (rapid rectangular flashing beacon), and reducing the pavement by over 1,000 square yards, resulting in a significant reduction of storm water runoff. The Division reconstructed 7,760 feet of sidewalk, with locations including both sides of Central Avenue (from Webster Street to River Park Street), Saint Mary Street, Evergreen Road, and the east side of Central Avenue (from Charles River Street to the horse farm). Highway reconstructed 102 wheelchair access ramps throughout town. At Perry Park, the Division created a safety zone, installed an RRFB, and geometrically reconstructed the road and sidewalk. Highway is in the process of updating many outdated traffic signals that utilize loop detection to more modern technologies that accommodate video detection. <u>Parks and Forestry</u> The Parks and Forestry Division spent much of the last year renovating the Town Common. The Division has maintained its Tree City USA designation for the 28th year. The Superintendent of Parks and Forestry was recognized as the Turfgrass Manager of the Year at the NE Regional Turfgrass conference, which is a testimony to the entire Division. Parks and Forestry partnered with many other departments in Town, including working with Park and Recreation on an annual tree seedling hand out in support of Arbor Day and Earth Week, hosting Arbor Day activities at both the Sunita Williams and Newman Elementary Schools, sponsoring two Project Van days to assist youth in working off diversion hours, and working with Youth and Family Services on a wall mural at the Pollard School. Several baseball and softball diamonds were renovated in partnership with Park and Recreation and Needham Youth Baseball/Softball including Memorial Park, Greene's

Field, Upper Broadmeadow Field, High Rock Field, Cusick Field, Lower Broadmeadow Field, and Eliot Fields. Additionally, the Division purchased their first all-electric lawn mower.			
<u>Recycling and Solid Waste</u>			
The Recycling and Solid Waste Division saw a lot of positive transition over the last year, including a new Superintendent, Assistant Superintendent, and Scalehouse Attendant, all successfully promoted from within. The Division held many community disposal activities throughout the year, including Household Hazardous Waste Day, multiple leaf collections, paint collection days, and a paper shredding event. Through a partnership with the School Department, the Division was able to implement food waste recycling in all schools. Recycling and Solid Waste successfully deployed additional BigBelly trash and recycling receptacles Town-wide to deter illegal dumping and create cleaner open spaces. The Division also did a thorough analysis of their fees.			
<u>Spending Request Recap</u>			
Description	Base Request DSR2	Additional Request DSR4	Total (DSR2 + DSR4)
a) Salary and Wages	11,451,218	441,120	11,892,338
b) Expenses	9,964,122	-92,055	9,872,067
c) Capital	137,325		137,235
d) Snow & Ice	441,845		441,845
e) Total DSR2 & DSR4 Request (a through d)	21,994,510	349,065	22,343,575

<i>All "YES" responses above must be explained in the narrative below</i>				
Description and Explanation				
The responsibilities and level of service from the Fleet Division have increased over time, now assisting with all fleet-related issues within DPW and across multiple other Town Departments. There are three mechanics and one master mechanic servicing over 200 vehicles. The vehicles serviced by the Fleet Division have also become more sophisticated and require higher levels of technical expertise to maintain. Meanwhile the Town's vehicle inventory has diversified, with vehicles of multiple distinct types including gas, diesel, hybrid, and plug-in electric, in addition to heavy construction and specialty equipment. As the scope of the Division's duties expand and the need for technological capabilities increase, an additional management position is required to keep up with the workload necessary to maintain fleet operations. Currently, Fleet mechanics are individually responsible for parts management as they perform their everyday tasks. This means that mechanics are often taken away from performing mechanical tasks to place orders and receive parts. There has been increasing difficulty in coordinating the procurement of these parts due to the market disruptions of the past few years. Fleet projects are being delayed in order to accommodate these challenges. This request proposes to address this by centralizing parts inventory management under a new Assistant Fleet Supervisor position. The addition of the new position would allow mechanics to focus on their core responsibilities and reduce the lag time caused when mechanics are

Title	Assistant Fleet Supervisor	Priority	1
placing orders as needed. Centralizing these tasks would lead to better managed inventory controls and allow more opportunity to conduct research on the best sourcing of products and supplies. In addition to coordinating the supply orders, this position would be responsible for coordinating the scheduling of all repairs, both internal and external. This request is for a new Assistant Fleet Supervisor position within the Fleet Division. The costs of this position include salary (91,416), cell phone service (650), and a one-time cost to set up office space (5,000). <u>General Summary</u> The Assistant Fleet Supervisor position is responsible for tracking and updating the Division's maintenance, parts, and fuel software systems to ensure efficiency, proper record keeping, and repair tracking for all Fleet assets and accessories. This position will monitor the Town's fuel depot product levels and coordinate deliveries to meet standard and seasonal demands. The Assistant Fleet Supervisor will order necessary parts and service supplies to ensure schedules are maintained, track all parts and service orders, process invoices, track Division spending, research cost efficient and appropriate parts, and track inventory Division-wide. This position will also coordinate annual State/DOT inspections to ensure compliance and safe operating conditions as well as coordinate and schedule vehicle/fleet preventative maintenance throughout the Town. <u>Responsibilities</u> • Maintains vehicle, maintenance, repairs, parts, and fuel records utilizing the appropriate software to ensure accurate and required documentation. • Facilitates the purchasing and maintenance of repair parts and shop supply inventories to meet scheduling demands. • Utilizes the Town's purchase order software to procure necessary material and services while working within approved budgets. • Processes vendor parts and services invoices in a timely manner. • Manages the Town's fuel depot inventory levels and inspects fuel deliveries to verify accuracy and DEP protocols. • Assists in managing the Department of Public Works pool vehicles. • Maintains the Division's Safety Data Sheet (SDS) files. • Does research on cost effective and appropriate purchasing options for the Division. This request is in support of the Select Board goal #6 that Needham "Models stewardship and sustainability of the Town's financial, human, information and physical assets." Yes, this request has been previously submitted for FY2024 and in years prior as a "Fleet Services and Parts Manager".

Description and Explanation					
This request is for an additional Park Ranger within the Parks and Forestry Division. The increase in trash, litter, and vandalism continues to affect many Town departments and assets. Without enough dedicated park facilities staff to take on these issues, staff members from other departments are still contributing support to the new Park Ranger. Despite the existing Ranger's significant impact, they are not able to effectively provide oversight and services to all of the many park and recreation areas singlehandedly or simultaneously. This additional position would provide much-needed assistance to the Park Ranger on staff and allow others who have helped with these problems to return to their core responsibilities and tasks. As it stands, the Director of Park & Recreation and the Superintendent of Parks & Forestry are covering emergency calls whenever the Park Ranger is not on duty. The new Park Ranger's schedule would be staggered so as to cover Sundays and Mondays, when the current Park Ranger does not work. This would allow for a more constant and stable presence in the parks throughout the entire week, and help to keep up with collecting any accumulated trash and litter. One of the most valuable services the existing Park Ranger has provided is educating the public on the use and permitting of the Town's fields. This has resulted in users calling in to					

Performance Improvement Funding Request DSR4			
Department	Department of Public Works – General Fund	Fiscal Year	2025
Title	Park Ranger	Priority	2
make sure they are going through the proper approval channels and according to Town policies rather than utilizing the park facilities without the required approval. Another Park Ranger would allow the Town to expand this public education effort and further raise awareness regarding the responsible use of these facilities. With wider-reaching oversight and a more visible and frequent presence at Needham's parks and recreation areas, the ability to prevent damage from vandalism would also be expanded. As with the existing position, the additional Park Ranger would be tasked with monitoring Needham's parks, open spaces, and trails, providing safety support to visitors, educating the public regarding pertinent rules and regulations (including permitting), assisting with daily maintenance and stewardship, and serving as a positive presence and resource to those using these facilities. The Park Ranger is responsible for: • Patrolling parks and recreation areas both on foot and in clearly marked Town vehicles to promote public safety, ensure park cleanliness, protect the Town's capital assets from vandalism, and inform and educate patrons about facility rules and regulations. In addition to regular park visitors, this includes monitoring the various programs and permitted activities by athletic groups and other parties. • Interacting/engaging with park visitors Town-wide by providing support and acting as a knowledge resource regarding park facilities and policies. They may provide staff oversight at park events and programs. • Performing routine maintenance and care of all grounds, pathways, picnic areas, public restrooms, pavilions, and other facilities in the parks, open spaces, horticultural areas, and school grounds throughout the Town. • Performing maintenance and improvement projects at park trails. • Reporting safety concerns, incidents, and maintenance needs to DPW, including the need for additional trash pick-ups and vandalism cleanups and repairs. • Utilizing the Town's work order system for asset management This request is in support of the Select Board goal #3 "Promotes and sustains a secure, clean, and attractive place to live, work and play." This position will check in on proper permitting for our fields and outdoor spaces and ensure they are not being used without authorization. Permitting generates revenue for the Town. There has been a significant uptick in trash throughout Town and as our park facilities age, more and more maintenance will be required. There could be potential exposure for the Town if the parks and recreation areas are littered and falling into disrepair. Overflowing trash and litter cause health hazards, and a lack of supervision at and maintenance of the park facilities pose safety concerns.

<i>All "YES" responses above must be explained in the narrative below</i>				
Description and Explanation				
In 2018, the Town outsourced the cleaning of the Newman Elementary School to contracted cleaners to avoid adding additional FTEs to clean the new Williams Elementary School. This facility was added to the preexisting program in place for the Pollard Middle School and Needham High School. This request is to bring the cleaning of the Newman back to in-house staff. Under the current program there are currently two day-time custodians and a night senior custodian at the Newman. This proposal would add an additional three night custodians to provide the deep cleaning and daily night cleaning required at this location. While the Town has had some successes in outsourcing the cleaning of the High School and the Pollard, which are the two largest buildings in Town, the needs of the Elementary School have been less conducive to outside cleaning. The Building Maintenance Division believes it will attract a better level of service by reducing the load of buildings cleaned by non-town staff. General staffing shortages have been a challenge for outside contractors, while the Town has had success in maintaining full staffing levels for custodians. By reducing the number of buildings that the Town relies on outside cleaners to maintain, it will provide better control and flexibility to the Town. Additionally, the economics of outsourced cleaning has changed over the past few years, and there is no longer such a strong cost barrier to providing the services in house.				

Fiscal Year 2025 Proposed Budget

Performance Improvement Funding Request DSR4			
Department	Department of Public Works	Fiscal Year	2025
Title	Newman Cleaning	Priority	3
This request would therefore include three custodians (203,630), the necessary one-time equipment purchases (burnishers, stand-on floor scrubbers, and wet vacs) (33,400), regular cleaning supplies (20,000), and preventative maintenance services on the custodial equipment (340). It would also include a reduction in the expenses budget for contracted cleaning (-343,445). Overall, this request would result in a reduction in the Department of Public Works' budget for the first year of (-83,675) and (-110,395) annually after that.

Description and Explanation					
This request is to fund and formalize a Forest Management Program overseen by the Parks and Forestry Division. This three-fold funding request would address the most pressing issues facing the Division through an immediate and measurable action plan. This plan will support multiple initiatives requested by the public as well as internal goals that have been discussed over the past few years. The first part of this request is to fund a comprehensive tree inventory, to be performed by a qualified arborist contractor. The resulting data would be loaded into DPW's new Asset Manager system and used as a baseline to guide program planning. This information is critical to the health and safety of Needham residents (who may be at risk from fallen tree limbs), as well as to the protection of the Town's tree assets. The inventory findings would also help Parks and Forestry to identify and prioritize tree work that can be addressed internally by Town staff. The second part of this request is to increase funding for tree removals. A significant factor driving the need for an expanded tree removal capacity is the increased presence of a localized pest, the "Emerald Ash Borer," otherwise known as "EAB." In the past few years since Parks and Forestry detected and reported this pest to state authorities, the Division has					

Performance Improvement Funding Request DSR4			
Department	Department of Public Works – General Fund	Fiscal Year	2025
Title	Forestry Management Program	Priority	4
seen a near-doubling in the number of dead or dying trees requiring removal as compared to historical need. In one neighborhood alone last year the Parks and Forestry Division removed 25 dead ash trees. Without increasing staffing capacity to cover the growing removal workload, the Division has been seeking to outsource a significant amount of this dangerous and expensive work. This past year DPW secured a bid contract for a vendor to perform these services on an on-call basis, providing a vehicle through which these services could be covered. Unfortunately, the \$30,000 per year that is currently budgeted is inadequate. At the currently contracted rates, Parks and Forestry has funding for less than one week of removal services. The requested \$78,000 recurring increase in the budget for this portion of the Forestry Management Plan would allow for one week of tree removals to be performed in the spring, summer, and fall. The bid contract also contains pricing for services that can protect the Town in emergencies. The Parks and Forestry Division has long desired to preposition emergency tree crews during hurricane season but have not had the funding to cover the expense. With the increase in budget from this request, the Division will be able to accomplish this goal as well as be better able to manage their anticipated tree removal workloads. Lastly, this funding request includes expanding the Town's investment in the new tree planting program. Few residents know or realize that Needham DPW has been planting trees in public spaces as well as on private properties since 1938. Presently the Forestry Division plants trees in public spaces such as parks and near public buildings and schools, in the grassy median strips along public sidewalks (otherwise known as "berms"), and on private properties in support of the Division's set back planting program. The set back planting program is free to all Needham residents and is seeing a significant growth in popularity. However, due to this increased demand, the wait for a planting can sometimes extend for a year or more. While Parks and Forestry staff would love to plant more trees, they are limited by staffing levels. Presently the Forestry side of the Division is made up of three personnel: one foreman, two certified arborists and one laborer. The Division's internal goal has always been to plant two trees for every one removed, but due to these limitations the Town has not been able to keep up with this goal. With formalized funding in the amount of \$100,000 for this program, DPW will then develop a specification and bid out these additional services to help the Parks and Forestry Division manage the heavy workload, similar to how tree removal services were procured. This request is in support of the Select Board goal #7 that Needham "Protects and enhances the biodiversity and vitality of ecological systems." Due to the hazards associated with diseased and/or dying trees, this requested program would help address these safety issues.

<i>All "YES" responses above must be explained in the narrative below</i>				
Description and Explanation				
This request is for an additional Heavy Motor Equipment Operator (HMEO) within the Highway Division. The Division currently operates with 11 unionized staff. With that staff, it maintains 279 lane miles of roadway, 140 linear miles of sidewalk, and 246 miles of grass, curbing, and parking lots. This expansive scope of work is accomplished through a combination of Town staff and contractors, but in recent years the Division has been unable to recruit and retain as many contractors as before, and they have become more difficult to schedule. The maintenance and construction workload has continued to grow while Highway has been unable to offset the reduced contractor capacity with additional in-house staff. This additional position would allow the Highway Division to deploy two full crews to take on simultaneous construction projects during the summer. The Division would be able to complete projects more quickly and perform more in-house work, reducing the dependence on outside contractors and the complications associated with managing them. As an important added benefit, this additional staff member would support the Snow and Ice Program as well. During major events, the Town depends on all DPW staff, not just union employees, for snow removal operations. Even though union staff are limited in the amount of vacation they can take during the winter months, there is inevitably some absenteeism due to				

Performance Improvement Funding Request DSR4			
Department	Department of Public Works – General Fund	Fiscal Year	2025
Title	Heavy Motor Equipment Operator	Priority	5
vacation or sick time. The new HMEO would be an additional CDL driver, which are vital during snow events. If funded, this position would require an additional vehicle purchase of a medium-duty six-wheel dump truck to transport them to different work sites and assist with hauling and towing materials and equipment. This would not be funded through the operating budget, but would need to be a separate, capital request in the amount of 111,733. This request is in support of the Select Board goal #5 “Plans for and provides equitable, timely and effective services and responses to emergencies and natural disasters.” The ability of the Snow & Ice Program to devote additional resources to keep the downtown sidewalks clear and safe has been explored but has so far been hamstrung by a lack of staff and a large area of coverage that must be maintained for public safety. The additional HMEO would expand the capacity of the Division to clear snow from these central areas and ensure that they are safe for pedestrians.

Budget Request Short Form				
Budget	Municipal Parking Program			
Purpose				
The Town operates and maintains several municipal lots in and around the business districts for customer, visitor, and employee parking. The Town issues parking permits to local businesses for their employees at a fee. The Town maintains and enforces parking regulations in these lots. These parking lots include Lincoln/Chestnut Street, Eaton Square, Mark Lee, Dedham Avenue, Chapel Street, and Kimball Lot.				
Budget Statement				
The Municipal Parking budget is utilized by the Town to repaint pavement markings, repair fences, and maintain the landscaping in the municipally owned parking lots. This funding is also used for rental fees for lots rented from outside organizations. This year, a budget line item has been added in order to rent additional parking spaces in the Center at the Heights (CATH) parking lot for patrons. Additionally, the Town is looking to implement the findings of the parking study, and some of those recommendations may impact the Municipal Parking budget.				
Budget Changes				
Salaries and Wages increasing \$678, 2.59% Expenses and Services increasing \$11,920, 8.93% Total Budget Submission increasing \$12,598, 7.89%				
Salaries There are no changes to the overtime program for the municipal parking services. Increases in this budget are reflective of the base salaries increases in the NIPEA collective bargaining agreement.				
Expenses and Services The increases seen in these line items are from two areas. The first is the addition of a new budget line to rent additional parking spaces at the Center at the Heights (CATH). The second is an increase in the price of leasing both the lot at the Episcopal Church and the lot at the MBTA. There was a slight decrease in the rental cost for the lot at the First Church.				
Line Item	Description	Change from FY24	Comments	Net Change
Salaries & Wages	Overtime Salary & Wages	\$678	Contracted Salary increase	\$678

Department	Health & Human Services
Department Mission	
The Needham Department of Health & Human Services (HHS) provides programs and services that support and enhance the quality of life in Needham. HHS includes the following divisions: Aging Services, Public Health, Veterans' Services, and Youth & Family Services. Its mission is to protect, preserve, and promote the health, wellness, and social and emotional well-being of all Needham residents. * * * * * Aging Services Division <u>Mission:</u> The mission of Aging Services is to respond to the needs of Needham's older residents by providing a welcoming, inclusive, and safe environment with programs, services, and resources that enhance their quality of life and provide opportunities for growth. The Center at the Heights serves as a focal point for supporting aging in the community. <u>On the Horizon:</u> Aging Services continues to offer a wide variety of programs and services to older adults and their families through both in-person and hybrid platforms. Services include daily meals; health benefits counseling; creative and social classes; special events and trips; case management and counseling services; transportation; entertainment; information and referral services; educational programs; the fitness center; health and wellness programming; and volunteer opportunities. The Aging Services Division provides the resources and supports in Needham that are essential to healthy aging. The impacts of COVID-19 on the older adult population remain significant. The results of the 'Needham Healthy Aging Assessment' released in May 2023, support the sentiment that Needham is a desirable place to live, yet also highlight issues of food security, social isolation, housing, and transportation. The Aging Services Division has prioritized the mental health needs of older adults in the community by offering a free short-term counseling program, in addition to continuing to provide ongoing case management and information and referral services. Common topics of support include housing, public benefits counseling, home safety, long term care planning, and more. A request to include operational budget funding for Aging Services' ARPA funded clinician is included in this proposal and is an essential component to maintaining adequate psychosocial support for older adults in our community. In addition to providing mental health and psychosocial supports essential to healthy aging, Aging Services is committed to addressing concerns surrounding social isolation, transportation, and food security. The SHINE (Serving Health Insurance Needs of Everyone) program provides free health insurance counseling to Medicare beneficiaries and their families. Last FY, the program facilitated 8,246 appointments. The Programming Department is another true asset to our division, boasting full programming rooms and offering new and innovative programming both in person, remotely, and via hybrid platforms. The Transportation Department has expanded, utilizing a fleet of four vehicles as well as maintaining a grant funded partnership with a local taxi company to enable transportation to and from the Center, shopping trips, and medical appointments within an 8-mile radius. With the	

Department Information DSR1				
Department		Health & Human Services		
support of dedicated volunteers, the Transportation Department also continues to deliver an average of 250 meals per week, a number that increases during the winter months. The breadth of services provided by the Aging Services Division illuminates the Town’s commitment to supporting healthy aging for its residents. The Aging Services Division is committed to continuing to meet the needs of older adults in the community and serving as a beacon for supporting goals related to healthy aging.				
<u>Budget Statement:</u> This year’s budget submission for the Aging Services Division reflects reductions in three spending categories, reflective of the move towards more hybrid meeting and service options available in the community. Spending increase requests are reflective of increased service and programming offerings, as well as overall utilization of the CATH. Projections are largely based on spending trends with respect to staffing levels, and usage of supplies and materials in FY23.				
Aging Services Division				
Line	Division	Description	Change from FY2024	Comments
Aging Services P&T LIC Prof	Aging Services	Clinical Consultation Services	\$1,250	Increase to reflect the increased costs of retaining mental health consultants for clinical consultation. Clinical consultation fees were raised by \$25 dollars per hour
Postage	Aging Services	Postage and Mailing	(\$500)	Reduction reflects increasing use of e-newsletters, social media platforms, and email list serves to distribute info to older adults in Needham.
Wireless Communication	Aging Services	Cellular Device	\$540	Addition of a cellular device for Clinician Social Work Department. This is essential for staff safety in the field.
Printing & Mailing	Aging Services	Printing & Photocopying	(\$500)	Reduction reflects the reduced cost of printing and production of flyers, and educational materials due to more availability of online platforms for outreach
Vehicle Supplies	Aging Services	Supplies related to van utilization	(\$500)	Decreased need for supplemental supplies last FY.

Department Information DSR1				
Department		Health & Human Services		
Aging Services Division continued				
Line	Division	Description	Change from FY2024	Comments
Gasoline/Diesel	Aging Services	Gasoline for the Aging Services Vans	\$2,461	Due to difficulty in recruiting and hiring van drivers last FY, service provisions were limited. Now being fully staffed we anticipate a continued increase in transportation requests. Next year’s average cost of gas is estimated \$4.38/gallon. Our average monthly cost of gasoline in FY23 was approximately \$422/month at \$4/gallon (approximately 106 gallons/month). We are estimating utilizing 180 gallons per month in FY25 due to an increase in drivers, shopping trips, and programming available.
Food & Service Supplies	Aging Services	Food and supplies related to direct programming costs	\$2,700	Increase reflects higher than anticipated attendance at food related events. Aging Services seeks to hold more DEI, community, and wellness events.
Supplies and equipment	Aging Services	Fitness, Game Room, and miscellaneous programming materials	\$4,500	Maintenance and replacement as needed of fitness room and game room items due to high utilization (i.e., ping pong and pool tables). Additionally, a treadmill in the fitness room needs to be replaced.
Mileage	Aging Services	Mileage reimbursemen ts for work related travel	(\$250)	Increased utilization of remote platforms for conferences and meetings with consumers.
Dues and Memberships	Aging Services	Professional Membership Associations	\$3,210	Reflects ongoing membership costs for MASS-ALA, MCOA and NASW memberships.

There are two DSR4 budget requests for the Aging Services Division, both for part-time staff members. Each request includes part-time salary costs between approximately \$23K to \$35K, along with modest benefit costs for these roles.

Department Information DSR1			
Department	Health & Human Services		
<u>Accomplishments and Activities:</u>			
Programming:			
- The Programming Unit continues to embrace a hybrid model for programming, serving many more individuals than in previous years. Programs include community meals, health and wellness classes, educational lectures, card games, music programs, and more. The Aging Services Division continues to collaborate with the Needham Community Council's Tablets and Tutors program, which distributes free electronic tablets and tutoring to Needham residents and is an essential resource for those who choose to access remote services. - In partnership with Springwell Elder Services, the Aging Services Division continued to provide a home delivered meals program in addition to serving as a congregate meal site. With the help of dedicated staff and volunteers, the Aging Services Division delivered approximately 12,923 meals to the homes of 119 older adults in Needham at no cost to the recipient. The meals are paid for by the State.			
Social Services:			
The Social Services Unit continued to provide case management, information and referral services, and counseling to older adults in Needham. Social Workers offer in-person individual and group support services, both in the office as well as in the homes of homebound older adults. In FY2023, the Social Work Unit served 490 individuals and logged 4,201 interactions.			
Transportation:			
Our Transportation Department provides essential rides to older adults in Needham to and from the Center, on shopping excursions, and trips. Through a grant from MassDevelopment, the Center at the Heights Transportation Department also resumed its medical taxi ride program, offering free transportation to medical appointments within an 8-mile radius for older adults in Needham.			
Volunteers:			
Fifty-one volunteers supported the Aging Services Division in FY23, providing 1,774 hours of service. Volunteers provide vital in-person support including assisting in the gift shop, delivering meals, managing the front desk, and helping serve food in the Café.			
SHINE:			
SHINE (Serving Health Insurance Needs of Everyone) is a free service that provides health insurance counseling for Medicare beneficiaries and their caregivers. The MetroWest SHINE program had over 8,246 appointments during FY 2023, including 4,475 appointments during the Medicare open enrollment period from October to December 2022. During FY 2023, SHINE offered both in-person and remote appointments.			
In FY 2023, the Aging Services Division received the following grants:			
Grantor	Received	Amount	Comments
EEOA - SHINE	7/1/22	\$97,899	SHINE Counselors
EEOA – Earmark	11/3/22	\$67,665	Shine counselors and other needs
EEOA - Formula	11/16/22	\$100,356	General statewide population-based funding for programs and services

Department Health & Human Services

Grantor	Received	Amount	Comments
EOEA -- Needham CATH Kitchen Earmark	7/1/22	\$50,000	Assessment of CATH's kitchen and if it possible to make it a production kitchen rather than a demonstration kitchen
MetroWest Health Foundation - More funding for clinical supervision	11/21/22	\$4,000	Funding for supervision of clinical staff
Beth Israel Deaconess - CHNA	10/1/22	\$31,985	Community health impacts and programs
MA Development Taxi/Livery Grant	11/1/22	\$49,999	Grant for nearly \$50K for transportation for seniors and disabled
	Aging Total	\$401,904	

In FY 2024, the Aging Services Division received the following grants:

Grantor	Received	Amount	Comments
EEOA - SHINE	7/1/23	\$70,076	SHINE Counselors (partial funding due to federal government uncertainty)
EEOA - SHINE Earmark	9/1/23	\$178,676	Legislative earmark
Beth Israel Deaconess CHNA	9/18/23	\$31,985	Community health impacts and programs
EEOA - Formula	9/1/23	\$113,106	General statewide population-based funding for programs and services
NCOA		\$10,000	COVID-19/Influenza Vaccine update related initiatives
	Aging Total	\$403,843	

On the Horizon

Department Information
DSR1

Department	Health & Human Services
-------------------	-------------------------

Public Health Division**Mission:**

The Needham Public Health Division is empowered through the Needham Board of Health by the Massachusetts General Laws to enforce state and local public health and environmental regulations.

The mission of the Division is to prevent disease, promote health, and protect the public health and the social well-being of Needham residents, especially those who are most vulnerable. Public Health staff work toward fulfilling this mission through collaboration with state and local agencies and community partners. The work largely consists of promoting health practices based on research and evidence, enforcing local and state regulations, and advocating for policy and regulatory changes that promote health and well-being.

On the Horizon:

Public health staff are adjusting to the post-COVID "new normal"; some of the key needs and issues that are increasing and are forecasted to continue to increase include continuing vaccination clinics (and requests for new vaccinations like RSV); acquiring funding to address ongoing and emerging concerns about domestic violence, hoarding, and homelessness; and mental health and substance use prevention. Some of the ongoing needs for the public health division include reviewing and updating policies, procedures, and regulations, and pursuing public health accreditation with a final application due in early October 2024.

An upcoming challenge for the Public Health Division in FY2024 is to complete a comprehensive strategic plan, publicize the Community Health Assessment (CHA) and the Community Health Improvement Plan (CHIP), and to conduct a robust public engagement and strategic planning process for the use of opioid settlement funds.

Budget Statement:

This year's base budget submission for the Public Health Division reflects small increases in three spending categories to more closely align with a combination of historical spending levels and projected expenses. Projections largely were based on usage of supplies and materials and related spending from FY 2023 as well as cost estimates and quotes received since the start of FY 2024. The major base budget change is the reduction of \$40,000 in Traveling Meals funding since the Town and the meals producer (Beth Israel-Lahey Hospital Needham) have reached an agreement on continued support for the Traveling Meals program.

Public Health Division

Line	Division	Description	Change from FY2024	Comments
P&T Software License Fees	Public Health	Software Fees	\$1,280	The annual fee for the PH Division's inspectional software (Food Code Pro, and similar modules) has increased

Department Information DSR1				
Department		Health & Human Services		
Public Health Division continued				
Line	Division	Description	Change from FY2024	Comments
Wireless Communication	Public Health	Monthly Charges for Phones, iPads	\$1,500	Monthly costs for Wireless devices (Phones and iPads) have increased
Food & Service Supplies	Public Health	Food Supplies	(\$40,000)	Budget placeholder to cushion the potential impact of a sudden spike in Traveling Meals costs will be removed given that the Town has signed a new agreement with the hospital (which produces the meals)
Medical Supplies	Public Health	Medical Supplies	\$250	Slight budget increase due to increased costs for medical supplies, largely from Covid-19 and flu clinics

There are three DSR4 budget requests for the Public Health Division, two of which would covert ARPA-funded positions into operating budget roles for half of FY 2025 (6 months of funding) and then full-time in FY 2026. The other budget request is for increased Environmental Health Inspector hours at modest part-time salary costs of approximately \$21K, and modest benefit costs for this part-time role.

In FY 2024, the Public Health Division had underspending of about 18% of total expense line costs. This was due to a significant increase in the number of grants available, which allowed for the deferral of some spending on supplies (mainly office supplies and inspectional service supplies), and on account of a manufacturer's delay which pushed a planned purchase of clinical testing equipment from FY 2023 into FY 2024.

Accomplishments and Activities:

FY 2023 and FY 2024 saw increases in activities such as CPR training to the community, vaccinations for children, and the need for more substance use prevention and mental health resources. There continues to be an increased need for financial assistance, food access, and other educational needs.

During FY 2024 the Public Health Nursing team continued to provide COVID-19 vaccinations as needed and continued to adjust to the changing climate. During this time a large focus of the nursing team was to find staffing that could work to provide vaccinations to children of all ages. Providing vaccines to children takes a very specific skill set and practice that not all nurses have. During FY 2024 the nursing team was able to find a public health nurse who possesses these skills and who is passionate about public health. We are now able to provide vaccines as needed to anyone in the community that is 6 months or older.

Department Information DSR1	
Department	Health & Human Services
FY 2024 continued to see an increase in vaccinations compared to pre-pandemic levels. There continues to be a growing need for vaccinations of all ages as new vaccines are developed and an ability to get into a primary care office has been becoming increasingly difficult, especially for the elderly. ARPA funding continues to provide the Public Health team with a data analyst/epidemiologist who has been able to provide data driven analyses to help inform the Public Health team's work. This position has been integral in forming relationships across other town departments and community groups that provide key information to inform the needs for public health work such as data gathering from Beth Israel Deaconess Hospital Needham and Newton Wellesley Hospital. With the data provided this position has been able to provide assessments such as a Healthy Aging Assessment, a Community Health Assessment, and the continued work on the Community Health Improvement Plan. Providing more informed decisions-based data driven outcomes has allowed the Public Health team to better inform the community and find new ways to reach the most needed residents and increase the response to public health concerns. The Substance Use Prevention Teams continue to provide services and education to Needham residents and its shared services partners. Some of the key services include the MetroWest Adolescent Health Survey data that continues to be a source of data and information to help decrease substance use in adolescents. Working on positive community norms throughout the community and providing services such as PhotoVoice projects that help provide qualitative data to Needham and its community partners. The teams have also been able to provide Mental Health First Aid to residents and teens. The highest priority of the Environmental Health Unit is to protect the public's health through implementation and enforcement of State and Federal regulations and local Board of Health ordinances to ensure compliance with environmental health and safety standards. The Environmental Health team monitors and regulates a wide range of business establishments, facilities, and activities, including, but not limited to: food service establishments; tobacco retail vendors; Medical Marijuana Treatment Center; Biotech companies; residential housing; construction activities (demolition, septic system, and well installations); waste hauling; bodywork; public and semi-public swimming pools; and many other activities. We review online permit applications and issue permits through the Town's ViewPoint Cloud permitting website. These permit reviews have become more frequent now that building projects, including septic system installations, have ramped back up again post pandemic. Our team continues to provide outreach/education to the community about environmental health issues and current food safety topics. We conduct 4 annual Food Safety Forum trainings (which includes one bilingual training) to all our permitted food establishment owners, managers, and staff. We have recently adopted FDA Standard 6, where we revised our Board of Health approved Food Code Enforcement Policy, which strengthens our food safety standards and encourages our permitted food establishments to be more proactive with their food safety practices. We will also be rolling out our Food Establishment Grading Certificate of Excellence initiative, which we hope will also help incentivize ongoing compliance with the FDA Food Code. Both of these initiatives will have a six-month pilot program, starting November 2023. In 2023, the Public Health Division Environmental Team was awarded two grants from the National Environmental Health Association (NEHA) and U.S. Food and Drug Administration (FDA),	

Department Information DSR1	
Department	Health & Human Services
specifically from the FDA Retail Flexible Funding Model (RFFM) Grant Program, to adopt and maintain additional FDA Voluntary National Retail Food Regulatory Program Standards and to allow staff to attend conferences. These grants will allow us to continue our progressive work on adopting and maintaining the nine U.S. Food and Drug Administration's Voluntary National Retail Food Regulatory Program Standards. In mid-October 2023, the Public Health Division applied for additional NEHA/FDA grant funds to pursue the adoption of additional Voluntary National Retail Food Regulatory Program Standards during FY 2024. If awarded, these grant funds will be used to finish Standard 8-Program Support and Resources, and to continue work on maintaining the adopted standards. The FDA Standards that we are looking to maintain in the coming year are FDA Standard 1 – Adoption of 2022 FDA Food Code; FDA Standard 2- Standardization of inspection staff; Standard 7- Industry and Community Relations and Standard 9- Program Assessment – Risk-based inspection program. We also hope to receive funding to cover travel expenses and registration fees for Environmental team staff to attend annual conferences and training seminars to keep our staff apprised of the latest updates in the field of Environmental safety and health. We have been very successful in receiving grant money from the FDA for the past <u>six years</u>. These FDA grants are and continue to be a critical source of funding and allow the Division to continue to hold these annual permitted food establishment forum trainings in order to train more than 80% of Needham's 130+ food service establishments on the current Food Code requirements and to review our the most frequently cited Food Code violations that are documented during our inspections. This year we focused on our newly developed Food Safety Excellence Program, which encompasses our revised Food Code Enforcement Policy and our new Food Establishment Grading initiative, and we were also able to share information about safe food handling practices and requirements; as a result, re-training our permitted food establishment staff on an annual basis has proved to be a significant step towards improving food safety compliance in Needham. Grant funds were also used to hire a consultant to conduct FDA Standard reviews and audits to verify compliance. During this year, we had a consultant audit FDA Standard 6- Compliance and Enforcement and Standard 7- Industry and Community Relations, and both standards were successfully verified and approved. We have now adopted eight out of the nine FDA Voluntary Retail Program Standards, and only have Standard 8 left. We hope to adopt that remaining standard in the coming year. After these nine standards are fully adopted, they must continue to be maintained, which will require additional staffing hours to meet the requirements for keeping up with the maintenance of these standards. The FDA Standards that we are looking to maintain in the coming year are FDA Standard 1 – Adoption of 2022 FDA Food Code; FDA Standard 2- Standardization of inspection staff; Standard 7- Industry and Community Relations and Standard 9- Program Assessment – Risk-based inspection program. During FY 2023 and continuing into FY 2024, the Needham Public Health Division ramped up its efforts to achieve accreditation, continuing to update and develop additional policies, revise existing regulations, and develop programs and initiatives. The Division is also continuing to work on workforce development and performance management and has been starting to make the much-needed progress on our quality improvement projects. We just received an approval back from the Public Health Accreditation Board regarding our recently submitted readiness application for our Division. We are excited to share that we have been granted approval by the	

Department Information DSR1			
Department		Health & Human Services	
Accreditation Board to apply for full accreditation. We will now have one year to get everything in order and will focus on submitting our intent to the Accreditation Board in mid-November 2024.			
The successful Traveling Meals program continued to provide meals to the most vulnerable home bound population in town, especially those Needham residents living alone with cognitive or physical limitations that impair meal preparation abilities, with numbers averaging 940 meals delivered in FY 2023. We have up to 28 volunteers delivering meals to an average of 47 clients per month, for nine months out of the year with an average of six paid volunteers working during the summer months, to continue providing the nutritionally balanced two-meal package.			
In FY 2023, the Public Health Division received the following grants:			
Grantor	Received	Amount	Comments
MA DPH - Public Health Excellence Grant	07/01/22	\$150,000.00	Shared services grant staffing and supplies

NACCHO	07/01/23	\$15,000	NACCHO Rise grant
	Public Health Total	\$1,335,700	

Budget Statement

Veterans Services Division

Mission:

The mission of the Veterans Services Division is to provide services determined by Massachusetts law including: the administration of benefits for veterans and their families who meet eligibility criteria; the care of veterans' graves, ensuring the burial of indigent veterans and their eligible family members; the ceremonial observance of national and state holidays dedicated to veterans and patriotic purposes; to take such actions as may be necessary to ensure the well-being of Needham's veterans; and to actively pursue available federal benefits for veterans and their families.

Needham is a member of the West Suburban Veterans District, which was established in fiscal year 2010. The District also includes Wayland, Wellesley, Weston, and Westwood. The district includes a Veterans Director (Sarada Kalpee) and a Deputy Director to work with each community. Todd "TJ" Tedeschi, U.S. Marine Corps (Ret.) was hired as the Deputy Director in January of 2023.

Department Information
DSR1

Department	Health & Human Services
-------------------	-------------------------

On the Horizon:

Partnerships and Outreach continue to grow within the Veteran Services Department, while the ability to provide necessary services to not only low-income Veterans and their families, but also assisting widows and family members with VA applications and resources to assist in the care of their loved ones. One such partnership that is growing rapidly is the joined forces with SSVF (Supportive Services for Veteran Families). The core Concepts of SSVF are Housing First, Crisis Response and Choice. "Choice" refers to the "powerful engagement tool and one that is critical to the success of the Housing First model. Empowered participants are more likely to remain involved in activities after their placement, particularly if these activities have been mutually identified with their case managers, as supporting their housing stability".

Budget Statement:

As a member of the West Suburban Veterans District (WSVD), Needham receives dedicated support for the administration of benefits and services to veterans and their families. The vast majority of the Veterans Services budget is consumed with those two cost categories (veterans' benefits and district administration costs), and funding for Memorial Day ceremony, flags and grave markers, Purple Heart Day Ceremony, Veterans Day remembrance and Vietnam Veterans Day. Some of the funds spent on veterans' benefits and other services are eligible for up to 75% reimbursement from the Commonwealth. The WSVD has not notified Needham about its FY 2024 Assessment. The presumption based on previous budgets and previous years' expenditures is that \$75,000 is an appropriate estimate.

This budget was developed based on the best estimate of the FY 2024 WSVD assessment, the surplus that was available in FY 2023 from the two primary funding lines (Governmental Charges and Veterans' Benefits) and the projected spending levels in FY 2024. Overall, comparing FY 2025's requested budget to FY 2024's budget shows an increase in Governmental Charges from \$67,000 to \$75,000 and a reduction in Veterans Benefit costs from \$25,000 to \$17,500. The difference between the FY 2024 budget and the FY 2025 request is \$8,000 in Governmental Charges line and an increase of \$2,000 in supplies & equipment as the cost for flags and other supplies for ceremonies have increased.

Veterans' Services Division

Line	Division	Description	Change from FY2024	Comments
Other Property Related Services	Veterans' Services	Other Services	(\$400)	The need for repair and maintenance services related to care of graves has decreased
Communications	Veterans' Services	Postage	(\$50)	The need for postage has decreased
Recreation & Cultural Services	Veterans' Services	Recreation Supplies	(\$500)	This category previously funded Memorial Day Luncheon. Funding moved to 5490 Food & Service Supplies
Office Supplies	Veterans' Services	Office Supplies	(\$50)	Office supplies needed for division has decreased

Department Information DSR1				
Department		Health & Human Services		
Veterans' Services Division continued				
Line	Division	Description	Change from FY2024	Comments
Food & Service Supply	Veterans' Services	Food Service	\$500	Funding for the Memorial Day Luncheon re-allocated to this line from 5350
Other Supplies & Equipment	Veterans' Services	Other Supplies	\$2,000	The costs of flags for Veteran graves has increased significantly, despite efforts to find alternate suppliers
Governmental Charges	Veterans' Services	Governmental Charges	\$8,000	The FY2025 budget for the West Suburban Veterans' District has not yet been set, although an increase is a possibility. This item is significantly increased and line 5770 has been decreased by a significant amount
Mileage	Veterans' Services	Mileage	(\$50)	There is limited need for mileage costs to support district staff
Dues & Memberships	Veterans' Services	Dues & Memberships	(\$10)	This budget line has been reduced due to less than anticipated spending over the previous fiscal years
Other Expenses	Veterans' Services	Veterans Benefits	(\$7,500)	Over the last few budget cycles, the West Suburban Veterans' District has bundled district charges and Veterans Benefits into one combined invoice. Funding from this line has been reduced substantially and line 5690 has increased substantially.

In FY2023, the Veterans Services Division had underspending of about 15% of total salary costs (representing less than \$500) due to slight underspending on the stipend related to the Care of Graves, and underspending of just under \$25K in expenses due to the timing of billing for Veterans benefits, which do not always line up cleanly with the start and end of fiscal years.

There are no DSR4 budget requests for the Veterans Services Division.

Accomplishments and Activities

Youth & Family Services Division

Mission:

To provide leadership and a community focus on youth and family issues, and to promote community wellness by: advocating for youth and family interests; developing and implementing

Department Information DSR1	
Department	Health & Human Services
quality programs and clinical services; educating and communicating with the public regarding youth and family issues; identifying and addressing youth and family needs; and partnering with agencies that serve youth and families. <u>On the Horizon:</u> Youth & Family Services has seen a significant increase in mental health need and an increase in the acuity of presenting challenges over the past year. The larger community is experiencing a mental health crisis as we are seeing this reflected in Needham as well. Despite the continued lifting of pandemic restrictions, the need for mental health services, particularly among youth, is continuing to grow. Past research indicates that suicide rates remain stable or decline during infrastructure disruption (e.g., natural disasters), only to rise afterwards as the longer-term sequelae unfold in persons, families, and communities. (<i>Kessler RC, Galea S, Gruber MJ, Sampson NA, Ursano RJ, Wessely S. Trends in mental illness and suicidality after Hurricane Katrina. Mol Psychiatry 2008;13:374-84.</i>) Youth & Family Services is preparing for this continued increase in need while ensuring that the current services offered are the best support for the community. Youth & Family Services has a longer waitlist than ever before, managing 35 youth who are currently looking for mental health support. Part of the difficulty is that other mental health organizations in the area are experiencing similar volumes making it hard for anyone to receive services. The Division staff continue to focus on supporting residents through existing programs in addition to creating new ones. As the Division has always done, staff provide a tremendous amount of clinical treatment including individual, family and group therapy. Due to the very long waitlist for services, staff increased the capacity for group therapy to get as many youth services as possible. The plan is to continue this as it has proven very successful in getting higher numbers of youth into treatment. In addition, staff are continuing to offer enrichment programs, volunteer opportunities, community presentations, workshops classes. There are ongoing programs that will continue into future years such as the peer mentor program, peer tutor program and volunteers around Needham program. Youth & Family Services is working closely with community organizations to provide opportunities for adult education presentations and various workshops. One of the bigger initiatives this year is the roll out of teen Mental Health First Aid. Mental Health First Aid is a course that teaches people how to identify, understand and respond to mental illnesses and substance use disorders. The training gives people the skills needed to reach out and provide initial help and support to someone who may be developing a mental health or substance use problem or experiencing a crisis. This class not only teaches skills, but also helps to eliminate the stigma of mental health, helping people to be less resistant to seeking treatment. Over the past couple of years, Youth & Family Services has been involved in training Youth Mental Health First Aid which trains adults how to respond to youth experiencing difficulties. This year staff are going to be training the entire 10th grade in the teen version of this class which teaches students how to respond to their peers experiencing a mental health challenge. This is going to require 4.5 hours of training for about 20 classes at the High School. The hope is that in 3 years, 75% of the school will be trained. In addition to this, two Youth & Family Services staff have been trained in Question, Persuade, Refer (QPR) which is a suicide prevention training to reduce suicidal behaviors and save lives by providing innovative, practical, and proven training to community members. Youth & Family Services staff are meeting regularly to ensure that the overall needs of the	

Department Information DSR1				
Department		Health & Human Services		
community in terms of mental health stability and create innovative programs. Staff are constantly outreaching to the community to get input on programming from community providers, school personnel and residents. Staff have been involved in various committees and coalitions to ensure that information is shared across divisions and organizations. Youth & Family Service is partnering with community-based organizations for funding support and outreach possibilities. Youth & Family Services staff are also very dedicated to furthering their own education to ensure that staff are aware of best practices and various treatment modalities depending on the mental health challenged. Currently, we have staff who have experience with severe trauma, substance use, depression, anxiety, family disruption, loss, and social struggles. Staff are discussing future training needs in order to best meet the increasing of acuity in current clients and families. <u>Budget Statement:</u> This year’s base budget submission for the Youth & Family Services Division reflects a modest increase in spending. We are requesting a \$2, 000 increase in Professional Consultation services as this service has shown to be essential to support staff as the current presentation of mental health challenges is more complex and every changing. This service, like many services, has increased in price which is reflected in this increase. For the second year, we received a \$4, 000 grant (shared with the Council on Aging) for these services which was helpful in supporting this need. Secondly, we have recommended increasing funds for professional and technical so that staff can attend quality training to best serve the community. Lastly, we would like to increase funding for programming as staff are providing more training than in the past, and prices for materials have increased. Youth & Family Services has a decrease in funds for Software License Fees due to an over projection last year and in mileage as many meetings are occurring virtually. The overall increase is fairly modest given the increase in cost for various items and services.				
Youth & Family Services Division				
Line	Division	Description	Change from FY2024	Comments
Professional Consultation Services	Youth & Family	Consultation services for licensed staff on complex clinical issues	\$2,000	This has been essential with a new staff team. Costs for this have increased.
Professional and technical Seminars and trainings	Youth & Family	Seminars and trainings for staff to enhance clinical expertise	\$1,000	Training of professional staff is essential for skill development
Professional and Technical Software License Fees	Youth & Family	Software License for a registration system and an Electronic Medical Record	(\$500)	The cost is slightly lower than what was estimated last year

Department Information DSR1				
Department		Health & Human Services		
Youth & Family Services Division continued				
Line	Division	Description	Change from FY2024	Comments
Other Supplies and Equipment	Youth & Family	Various supplies for programming	\$1,000	Y&FS has increased programming which has increased the need for supplies
Mileage	Youth & Family	Mileage for staff	(\$300)	Slight decrease in the need for this due to virtual meetings and trainings

In FY2023, the Youth & Family Services Division did have underspending of about 12% of total salary costs. This was due to two main factors – the length of time necessary to fill an open position (which has since been filled) and a staff member who took unpaid family leave following the birth of a child.

There is one DSR4 budget request for the Youth & Family Services Division, that request is for a full-time staff member along with associated benefit costs at 50% cost coverage for FY 2025 and 100% funding in FY 2026.

Accomplishments and Activities:

Youth & Family Services has increased services and pivoted programming based on the needs of the community given that the mental health needs are higher than in years past.

- Individual and family therapy continue to be offered. Staff have increased their presence and time in offering services in various schools to increase outreach. In addition, due to such a long waitlist for individual services, staff have offered an increased group treatment so more individuals can receive beneficial services while waiting for individual treatment. Groups included multiple groups for elementary, middle, and high school youth in addition to some more specific groups such as a grief group for youth who have lost a close family member and a group for youth new to the area after living in a violent country/escaping war.
- Community Outreach:
 - **Community Crisis Response:** Over the past decade, the Needham community has grappled with critical youth issues such as suicide, loss, self-injury, depression, and anxiety. Youth & Family Services has responded by reaching out to youth, parents, families, and other local organizations to help provide clinical support around these challenges. Services included individual meetings, group sessions, and provision of supportive information and materials. Youth & Family Services has engaged more in community outreach and assessment. The Division had more of a presence in many of the public schools and joined several school groups focused on addressing these concerns. Outside of the school system, the Division increased involvement in community collaboration and identifying gaps in services and needed areas of support.

Department Information DSR1	
Department	Health & Human Services
○ Youth & Family Services is part of several community collaborations, including the Youth Resource Network and the Community Crisis Intervention Team. Other groups include the Domestic Violence Action Team, the Homelessness Prevention Committee, The Online Safety Coalition, a Community Health Resource Group, International Overdose Awareness Day Committee and the Substance Use Prevention Alliance of Needham where Youth & Family Services staff sit on all 3 action committees in addition to the steering committee. • Case Management Services have significantly increased this past year. More families have had unique needs that have required staff to help them connect with various services in the area. The increase is partially due to the pandemic but also refugee families who have recently moved into the area. • Youth & Family Services worked closely with a local Expressive Art Therapist to offer Expressive Art Therapy Workshops to the community. This past year there were 3 workshops offered for youth and parents. These workshops focused on expression, self-care, coping and connection. • Family Playgroups is a new program that started this past year. Youth & Family Services worked closely with Family Access Community Connections on a playgroup for caregivers and their babies (ages 0-1). The purpose of the playgroup is to provide a space for new parents to connect and have the support of clinical staff to discuss stressors and coping as depression can be significant when a new baby is born. It also helps to create a social environment for young children. • The Patrick and Patricia Forde Award was given out this year as this is an opportunity to recognize a community member who gave back to the community in unique ways. This year the award recipient was Jean Higgins who is an inspirational community member who exemplifies services as the founder and administrator of "Be-Kind Needham," a Facebook page dedicated to providing critical assistance to local families and individuals in need. • Youth & Family Services organized another Community Mural Project that was completed under the tunnel between DeFazio field and Pollard Middle School. Over 100 community members were part of this project which also helped connect families to Youth & Family Services. • Needham Unplugged was a huge success this year. Unplugged is a joint effort between Youth & Family Services, the YMCA, Needham Park and Recreation, The Needham Public Library, and Needham Public Schools to create a calendar encouraging people to disconnect from electronics. • SHOP (Students Helping Older People) is an Intergeneration program that was started this year – we paired students with older adults to make connections and help the older adults with their grocery shopping. • Youth & Family Services has continued to run various enrichment programs including the Peer Tutor Program, the Peer Mentor Program, and Volunteers Around Needham. • The Division has been very focused on getting information out to the public – the focus has been on various community presentations to provide community education on specific topics. Over the past year the division has implemented the following: ○ A presentation on executive function presented by Engaging Minds ○ In collaboration with the Needham Exchange Club, the Division hosted John Halligan, author of "Ryan's Story." Mr. Halligan provided a community presentation for youth and families. The presentation focused on bullying, social media use and suicide prevention and 75 people participated in the events.	

Department Information DSR1			
Department		Health & Human Services	
○ Chris Willard presented on the Mindful Resiliency in the “New Normal.” This presentation focused on the most common mental health challenges that youth are facing, from depression to anxiety to addiction, self-harm and body image concerns, and ways to help support them. ○ Mitch Abblett, a Wellesley based psychologist, presented on “the Mindful Path to Unwinding Anxiety for Kids and Teens.” He addressed the epidemic of anxiety impact on youth and guided the group through specific hands-on mindfulness-based tools for helping with anxiety. ● Crisis Donation Fund – Needham Youth & Family Services started a crisis donation fund to help people who are in need and some financial support for specific things would help support them. This year we were able to prevent multiple families from being homeless and with some youth needs such as a hearing aid and eyeglasses. ● Staff Trainings – Youth & Family Services has been very focused on training staff to make sure that staff have the clinical skills to manage the current mental health crisis. Staff have attended training on suicide prevention, trauma treatment, eating disorders, depression, and anxiety. Donations: \$7, 500- MetroWest Health Foundation to support an internship program \$4, 000 (split with Council on Aging) – MetroWest Health Foundation to support Professional Consultation Services \$ 2,000 Jog for Joy/High Rock Church donation to support Youth & Family Services Programming \$ 250 donated by the Forde Family for Youth & Family Services Programming

Description and Explanation				
The Data Analyst/Epidemiologist works with the Assistant Director of Public Health and the Director of Health and Human Services to coordinate and manage all evaluation, surveillance, research, and data analysis initiatives for Needham Public Health. The Data Analyst/Epidemiologist will help monitor the effectiveness of programs within the Health Division and the Town of Needham by evaluating programs through surveillance and mixed methods approaches and techniques. This position will monitor specific trends including communicable diseases, food access, mental health and substance use, community health needs, and more. This information is needed to provide programs that will help to decrease disparities and increase services throughout the Town of Needham. The Data Analyst/Epidemiologist will provide data backed research that will allow for evidenced based decisions to be made and increase educational efforts/materials for the community. <u>Prior Activities and Accomplishments:</u> Since joining the Department in 2021 the Data Analyst/Epidemiologist has provided focused scientific research data and reports that have increased and improved the Town of Needham public health response to Covid and mosquito and tick-borne disease through increased

Title	Data Analyst/Epidemiologist	Priority	1
surveillance and education. The data analyst has been instrumental in completion of a Senior Health Assessment (SHA), a Community Health Assessment (CHA) and development of a Community Health Improvement Plan (CHIP). The SHA, CHA and the CHIP identify existing community needs and changes in needs using a variety of data sources. The Data Analyst has aggregated data from multiple sources including hospitals, public safety and fire and other town surveys, resulting in more comprehensive information and reporting on community demographics and community needs. The Data Analyst/Epidemiologist leads the Biosafety Committee, a key function for new business activity. Elected Board Goals: A full-time Data Analyst/Epidemiology will provide support for the following Select Board FY24-25 Goals: Goal 3 Livable - <i>Encourages and appropriately regulates sustainable development</i> by providing oversight and leading the Biosafety Committee and lab safety efforts with businesses in town. - <i>Promote transportation options to remain an age-friendly community</i> through continued assessment of senior health needs. Goal 6 Responsibly Governed - <i>Supports strategic decision-making with opportunities for engagement and timely, reliable, and accurate data and analysis</i> for existing public health programs and changing community needs that may warrant changes in public health programming. Goal 7 Environmentally Sustainable - <i>Combats the climate crisis</i> through data reporting, monitoring, systems creation, and program evaluation. A full-time Data Analyst/Epidemiologist will provide support for the following Board of Health Priorities for FY 2024-25: - <i>Utilize all legal and regulatory actions available to improve and protect the public's health</i> through research and best practice reviews that meet the needs of the Needham community. - <i>Augment the knowledge and information staff has to help inform best approaches to addressing Social Determinants of Health</i> providing data driven decisions and programs that will help to decrease disparities within the community. - <i>Build confidence and trust within the community in Public Health</i> by providing data driven information to help the community understand the growing public health concerns. - <i>Support the strategic use of remediation funds</i> by providing data from different sources such as hospitals, Police & Fire Department, and surveys administered to the Needham community. Budget A full-time Data Analyst/Epidemiologist has elevated Needham Public Health's data collection and evaluation techniques. Having a full-time data analyst position allows Needham Public Health to draw conclusions and make recommendations using high quality epidemiologic and demographic data. Further, this position supports review and improvement of data collection methods and health data quality and enables the department to make and anticipate needed adjustments to programs. The impact of a data analyst is significant – ongoing efforts will support decreases in health disparities and increase ability to be responsive to community needs. Access to

Title	Data Analyst/Epidemiologist	Priority	1
comprehensive, timely and accurate data enables well-informed decision making about community response, program development and planning for efficient use of community resources. The work of the Data Analyst/Epidemiologist provides a basis for Needham Public Health to determine priorities, focus efforts and develop plans for public health service provision in the coming years. For example, using data analysis capacity to assess potential impact of climate change-related changes in weather on disease incidence will allow public health to anticipate needs and can make a significant difference in the effective delivery of public health services. To ensure the continuation of this important work, the Public Health Division requests funding for staffing the position for six-months in FY 2025 and for a full 12 months in FY 2026. Based on current compensation tables, the costs for the second half of FY 2025 will be \$39,449 and approximately \$82,134 in FY 2026. Staffing: \$39,449 is requested for six months of salary for a full-time Data Analyst/Epidemiologist in FY 2025. <u>Description:</u> The Full-time Epidemiologist will support investigation efforts and conduct data analyses of pertinent public health trends. They will also assist with developing public education materials including presentations and talking points about important diseases within the community. The Data Analyst/Epidemiologist will analyze data for clusters and patterns to help inform prevention and intervention activities including investigating disparities in how communicable diseases affect different segments of the community. They will work with different departments throughout the Town to help make data-informed decisions that can improve town wide efforts and improve Needham's responses to events. Expenses: No expense line funding is included in this DSR4 budget request. As a currently existing staff member supported with ARPA funds, all immediate needs for equipment and supplies have already been met. The estimated benefit costs for this position if funded for the six months in FY 2025 is \$18,477. This includes costs associated with health insurance, life insurance, and things such as retirement and pension. This cost estimate was provided by the Finance Department. <u>Scope of data analyst/epidemiology work:</u> The Data Analyst/Epidemiologist work will include disease investigation and trend tracking. Review of State data and websites to find informational needs and create educational materials appropriate to the Town of Needham and its residents. Provide website support and design to the Public Health Division and work with ArcGIS to improve informational sharing and help reduce disparities throughout the town. Applies principles of informatics toward data collection, processing, and analysis in support of epidemiologic practice. Analyzes quantitative surveillance data and qualitative information from public health literature to draw insightful interpretations for data briefs, reports/data requests, and presentations. Reviews surveillance data on an ongoing basis to establish baselines and identify trends. Provide support to the Board of Health by leading the Biosafety committee in conduct of its charge to review business applications for lab safety.

<i>All "YES" responses above must be explained in the narrative below</i>					
Description and Explanation					
Needham Public Health Nursing provides a wide range of services to Needham residents including communicable disease investigation, mental health support and substance use prevention services, vaccinations, financial assistance requests and education programs. Prior to the pandemic, Needham funded a 25-hour week public health nurse (.66 FTE). ARPA funds enabled the addition of a full-time (37.5 hours per week) public health nurse to augment the existing 25-hour weekly position. When ARPA funds expire at the end of calendar year 2024, Needham will revert to having only 25 hours per week of nursing coverage. This reduction will significantly impact services and support available to the community. Public health nurses perform diversified duties to render professional nursing services and health education relating to the public health in the community, homes, clinics, day care centers, schools, and in the office, under the direction of the Board of Health and Health Officer following the Massachusetts General Laws and standard nursing procedures. Core functions include: investigating outbreaks of all cases of diseases dangerous to the public health; consulting to school nurses, physicians, and community on communicable disease issues; receiving reports of food poisoning and carrying out activities necessary for protection of the community, working with the Environmental Health Agent if the outbreak is traced to a public eating establishment; and coordinating various immunization programs throughout the Town.					

Performance Improvement Funding Request DSR4			
Department	Health & Human Services/Public Health	Fiscal Year	2025
Title	Public Health Nurse	Priority	2
In addition to these core functions, public health nursing engages in a variety of ways across the Town. The presence of a full-time public health nurse has increased provision of key prevention programs including CPR educational classes to town staff and residents, the evidence-based falls-prevention program <i>Matter of Balance</i> classes to seniors, and increased vaccination rates which result in increased revenue for the revolving fund. The Town of Needham has seen a significant escalation in need for public health nursing core functions and public health needs over the last three years. Demand increased for communicable disease investigation, mental health support needs and substance use prevention services, as well as need for vaccination, requests for financial assistance and many more. Data for three of these activities are provided below. <u>Vaccinations-</u> The need to provide community vaccines to Needham residents has continued to increase with the ever-changing climate of COVID vaccinations and the introduction of new vaccinations such as RSV. A full-time public health nurse allows public health to reach the most vulnerable residents to help provide these services, especially the elderly or those with the inability to access healthcare. Public Health nurses provided 812 vaccinations in FY2020, 8,201 in FY 2021 and 4,622 in FY 2022. Treating FY 2021 as an outlier, the difference between FY 2020 and FY 2022 is six-fold and projections for FY 2023 resemble FY 2022 numbers. Additionally, future year projections show no decrease, due in part to a continued need for COVID vaccinations. <u>Financial Assistance.</u> Financial Aid needs and applications for assistance have increased significantly in Needham since FY 2020. Pre-pandemic levels of assistance applications were <u>fewer than</u> 20 per year. FY 2023 the public health nurses saw over 50 applications for assistance. It is anticipated that the need for residents to utilize the nurses to help find connections to support and assistance will continue to increase, and likely be influenced by impact of climate change and natural disasters. <u>Communicable disease investigations.</u> Need for this required public health nursing function increased in record numbers during FY 2020 – FY 2022. During this time, the nurses expanded service offerings to include molecular (PCR) testing for Covid. Provision of Covid testing increases both surveillance capabilities and awareness for an ongoing health concern. Disease investigation and contact tracing demand remains high due to the nature of monitoring a new disease. In FY 2022 public health nurses monitored and/or investigated 4,923 cases of disease. Monitoring and case investigation can take an average of anywhere from 2 to 12 hours per case depending upon the nature of the disease and extent of outbreak. Elected Board Goals A full-time Public Health Nurse aligns with the following Select Board FY 2024-25 goals: Goal 1: Healthy & Socially Thriving - Support the physical and mental well-being of its community members <i>through educational programs, health awareness campaigns, vaccinations, and prevention work.</i> Goal 3: Livable			

Performance Improvement Funding Request DSR4			
Department	Health & Human Services/Public Health	Fiscal Year	2025
Title	Public Health Nurse	Priority	2
- Provides high-performing, reliable, affordable public infrastructure, and Town services <i>by increasing vaccinations to children of all ages, providing monitoring of health needs, and professional nursing services.</i> Goal 5: Safe - Encourages shared responsibility, provides education on personal and community safety, and fosters an environment that is welcoming and inclusive <i>through public health education.</i> The full-time Public Health Nurse role supports the following Board of Health FY 2024-25 priorities: - Promote community activities that increase health and wellness, including building partnerships <i>through providing educational programs such as a Matter of Balance.</i> - Build confidence and trust within the community in Public Health <i>by providing timely, professional nursing services.</i> - Utilize all legal and regulatory actions to improve and protect the public's health <i>by providing case investigation and disease management to improve the health of the community and help the Board make decisions about regulations based on needs of the community.</i> Budget A full-time Public Health Nurse has been integral in providing services to residents and staff. Improving care, assistance, and education has been a need especially during the pandemic and will continue to be a high need throughout the coming years. To ensure the continuation of this important work, the Public Health Division requests funding for staffing the position for six-months in FY 2025 and for a full 12 months in FY 2026. Based on current compensation tables, the costs for the second half of FY 2025 will be \$42,491 and approximately \$87,711 in FY 2026. Staffing: \$42,491 is requested for six months of salary for a full-time Public Health Nurse in FY 2025. Expenses: No expense line funding is included in this DSR4 budget request. As a currently existing staff member supported with ARPA funds, all immediate needs for equipment and supplies have already been met. The estimated benefit costs for this position if funded for the six months in FY 2025 is \$18,477. This includes costs associated with health insurance, life insurance, and things such as retirement and pension. This cost estimate was provided by the Finance Department.

Description and Explanation					
The Youth & Family Services Division seeks ongoing funding in FY 2025 to maintain one full-time Clinician position. Previous funding for this role came from the ARPA grant from mid-FY 2022 through the first half of FY 2025. Having a talented staff member in this role has resulted in a reduced YFS Division waitlist for individual, family, and group treatment; creation of needed additional programming; and increased participation in community outreach and support efforts. This position is essential in helping to support the mental health needs of the youth and families in the community. The increased demand for mental health services is a national phenomenon. The 2021 MetroWest Adolescent Health Survey results show an increase in mental health concerns for youth coupled with a decrease in connectedness for youth. Connectedness is an important protective factor because close contacts such as friends, teachers, and coaches are typically able to recognize symptoms of mental health challenges or abuse/neglect and encourage treatment. Reduced connectedness limits recognition and delays treatment which can					

Performance Improvement Funding Request DSR4			
Department	Health & Human Services / Youth & Family Services	Fiscal Year	FY 2025
Title	Youth Mental Health Clinician	Priority	3

increase symptoms and acuity.

- Middle School Students: Reports of mental health issues increased since 2018: 12-month reports of depressive symptoms increased from 9%-13% and self-injury increased from 6%-8%. Reports of seriously considering suicide also increased from 10%-12%. This increase in mental health concerns is increasing consistently among various genders.
- For High School Students: depressive symptoms increased from 13%-22%, self-injury increased from 9%-16% and seriously considering suicide increased from 9%-12%. All of these areas also grew substantially in the Metro-West region.
- For both age groups: the indicators of school connectedness are lower in 2021, reports of having a friend to talk to about personal problems decreased (M:68%-62%/HS: 73%-66%), and reports of adult supports at school have also decreased (MS:72%-70%/HS:75%-72%).

The current climate is extremely worrying as it relates to mental health and funding this position would help to create additional protective factors for people in need.

Prior Activities and Accomplishments:

The YFS division has provided an additional 450 hours of individual/family treatment sessions annually, increased the available hours for group sessions by approximately 50 hours annually, and provided countless additional hours of outreach and case management. In addition to increasing direct services capacity, the temporary position has enabled the division to create 5 new programs in the past year and expand Youth & Family outreach to 3 new committees. We are requesting that this position continue to be funded in the HHS operating budget after ARPA funding is exhausted halfway through FY 2025, so that these increases and improvements can be sustained.

Elected Board Goals:

A full-time Clinician will provide support for the following **Select Board FY24-25 Goals:**

Goal 1 Healthy and Socially Thriving - Needham supports the physical and mental well-being of its community members through the provision of both direct services and community outreach activities supporting mental health.

Maintaining a full-time Clinician also support a pair of Youth Commission goals under the *Clinical Work* goal category, specifically:

- Given the acute needs of the community, increase access to clinical services by increasing therapeutic services and crisis calls by 25%
- Ensure the availability of clinical staff to respond to families in crisis in need of additional support as evidence by responding to these situations within 24 hours.

Having another full-time Clinician on staff, also address a key Youth Commission priority about the Youth & Family Services Division's waitlist (Measure M2), specifically: *"1 additional staff member has been added with ARPA funds, this year through the budgeting process a request will be made to consider this position as a permanent one."*

Performance Improvement Funding Request DSR4			
Department	Health & Human Services / Youth & Family Services	Fiscal Year	FY 2025
Title	Youth Mental Health Clinician	Priority	3
Budget The full-time clinician position has allowed the YFS Division to conduct more community outreach, training, and workshops. Additionally, the position has enabled provision of needed support for embedding of services in the schools and community to increase community access to services, decrease stigma and encourage all youth to connect with mental health professionals. Over time, these efforts will decrease stigma, increase connectedness, and encourage youth to access needed services. This position is essential to meet the increasing needs of youth and families in the community for mental health direct services and community outreach. To ensure the continuation of this important work, the Youth & Family Services Division requests funding for staffing the position for six-months in FY 2025 and for a full 12 months in FY 2026. Based on current compensation tables, the salary costs for the second half of FY 2025 will be \$37,840 and approximately \$77,961 in FY 2026. Staffing: \$37,840 is requested for a full-time Youth Mental Health Clinician in FY 2025. Expenses: No expense line funding is included in this DSR4 budget request. As a currently existing staff member supported with ARPA funds, all immediate needs for equipment and supplies have already been met. The estimated benefit costs for this position if funded for the six months in FY 2025 is \$18,924. This includes costs associated with health insurance, life insurance, and things such as retirement and pension. This cost estimate was provided by the Finance Department.

Description and Explanation				
The Aging Services Division is seeking ongoing funding to maintain one 19.5-hour Clinician position based at the Center at the Heights beyond the duration of ARPA funding and maintain this role as part of its annual operating budget. A Clinician's role in the Aging Services Division includes providing free counseling, case management, information, and referral services to older adults in Needham. These services are provided to Needham residents over the age of 60 at the CATH, in the resident's home, or via remote platforms determined by the given individual's needs. Aging Services Clinicians also assist in program development, running supportive and educational groups, and doing ongoing community outreach. The ability to provide free high quality mental health and supportive services to Needham residents is essential, especially in light of the current mental health crisis in this state. The long-term impacts of the COVID-19 pandemic have drastically impacted the fabric of an already strained mental health system and are highly relevant to this request. The significant clinician shortage in the region, coupled with growing mental needs in the community and an aging population, illuminate the need for comprehensive psychosocial support in town across the lifespan. COVID-19 has had significant impacts on older adults, more specifically; increasing				

Performance Improvement Funding Request DSR4			
Department	Health & Human Services / Aging Services	Fiscal Year	FY 2025
Title	Aging Services Clinician	Priority	4
feelings of loss, isolation, and highlighting the need for more comprehensive mental health and aging-related services in the community. The current shortage of mental health clinicians in the region has created a greater strain on the Aging Services Social Work Department. In addition to hosting two full-time Clinicians, the Aging Services Division hired one part-time Clinician funded through ARPA in June of 2022 to help address these increased needs. Aging Services has developed and promoted a short-term mental health counseling program to help address such needs. This service would not be possible without this additional Clinical support, and yet still frequently has a waitlist. Maintaining this role beyond the completion of ARPA funding at the end of FY24 will provide essential and sustainable mental health support to older adults in Needham. The 2022-2023 Senior Assessment conducted by the Needham Department of Health and Human Services on adults ages 60 and older provided relevant data to support the ongoing need for comprehensive psychosocial support and mental health services for older adults. A quarter of respondents reported feeling 'less then' connected to the community. One survey respondent stated: <i>"The lonely elderly need help when they live along (sic), cant get out, cant get to the Senior Center. Some are very lonely, lacking human interaction, medical attention, not eating (or shopping) adequately and are depressed."</i> This survey respondents' sentiments illuminate many of the unmet needs of older adults in Needham that can be met through the comprehensive psychosocial support and mental health services provided by the Aging Services Division Social Work Department. It is essential to have adequate staffing to address growing these needs. This request is in line with the Select Board in Needham's FY24-25 goals. Goal #1 Healthy and Socially Thriving, Supports the physical and mental well-being of its community members, as well as one of the Council on Aging's multi-year priorities to focus on <i>Senior Isolation and Depression</i> and their mental health consequences. The Aging Services Division has sought to address increased mental health and case management needs in the community in various ways. Within the last year, the Aging Services Division began tracking the number of requests from residents that were strictly for mental health counseling (either in-house or referral requests). Outside therapy referral services such as Interface, Psychology Today, and MetroWest Care Connections, remain available but hold the same limitations as Aging Services Division Clinicians-there are simply not enough clinicians available to meet the needs of the community. This has become an especially challenging issue for older adults (particularly low-income older adults) who are more likely to have difficulty accessing remote services and may also have transportation and accessibility needs that limit in-person options. As the numbers of referrals for mental health counseling alone, the Aging Services Social Work Department has struggled to meet this need while continuing to provide pre-existing services offered (i.e. case management, health benefits counseling, long term care planning, etc). Below are statistics showing the documented case numbers served by the Aging Services Division. Please note that the Aging Services Division often provides a combination of case management, counseling and information and referral services within each interaction with an older adult, as the needs in this population are typically intertwined. Therefore, data tracking counseling services are likely vastly underestimated for prior years, as we only started tracking mental health referrals separately last year.

Maintaining the role of the part-time Clinician currently funded through ARPA, would allow the Aging Services Social Work Department to continue to provide high level psychosocial and mental health services in the community and meet the growing need for comprehensive support for older adults and support the Select Board Healthy and Socially Thriving Goal. Budget A part-time Aging Services Clinician has been integral in providing services to residents and staff. To ensure the continuation of this important work, the Aging Services Division requests funding to staff the position for the full 12 months of FY 2025. Based on current compensation tables, the costs for FY 2025 will be \$34,122 and approximately \$34,122 again in FY 2026. Staffing: \$34,122 is requested for a full 12 months salary for a part-time Aging Services Clinician in FY 2025. Expenses: No expense line funding is included in this DSR4 budget request. As a currently existing staff member supported with ARPA funds, all immediate needs for equipment and supplies have already been met. The estimated benefit costs for this position if funded for the six months in FY 2025 is \$3,921. This includes costs associated with FICA, disability, and unemployment insurance. This cost estimate was provided by the Finance Department.

<i>All "YES" responses above must be explained in the narrative below</i>					
Description and Explanation					
The Needham Aging Services Division is seeking new and sustained I funding for a recently created position: CATH Front Desk Support (i.e. Administrative/Office Support Specialist 1). The Front Desk is one of the busiest places at the CATH and serves as a central communication hub for the entire building. All incoming calls and in person requests come through the front desk, and prior to the creation of this position, were triaged and referred by volunteers in the community. In May of 2023, the Aging Services division utilized supplemental funding from the state to hire a staff member in this requested role, and the resulting improvements in efficiency and operations at the CATH have been extraordinary. Like most other Town buildings, Aging services would like to maintain funding for this regularly scheduled staff person to help manage the workflow and responsibilities historically shouldered by volunteers. In current operations, we have scheduled the Administrative/Office Support Specialist 1 to be present during peak busy hours at CATH. The schedule below has been in practice since May of 2023:					

Performance Improvement Funding Request DSR4			
Department	Health & Human Services/Aging Services	Fiscal Year	FY 2025
Title	CATH Front Desk Support 1	Priority	5
• Monday: 9:30AM - 2:30PM • Tuesday: 9:30AM - 2:30PM • Wednesday: 9:30AM - 2:30PM • Thursday: 9:30AM - 2:00PM There are many measurable benefits to maintaining funding for the role of CATH Front Desk Support. The most pertinent being managing the increase in programming which in turn has resulted in increased attendance in the CATH building itself as well as an increase in attendance in hybrid programming (See Exhibits A and B below). Though it is a policy in the Aging Services Division that participants check in at the front desk when they enter the building, having multiple entrances to the building and a previously rotating front desk team, creates an operational challenge in enforcing this policy. In 2022, the Aging Services Division implemented a secondary tracking system to monitor attendees in programming which is reflected in the data in Exhibit B. We relied on instructors and CATH staff to take attendance in both in-person and remote programming, as opposed to our former system which required attendees to check in at the front desk and indicate which programs they would be attending. We feel strongly that the steady increases in attendance can be attributed both to increases in programming, but also to better tracking mechanisms. These mechanisms would not be possible without the Administrative/Office Support Specialist 1. Having additional support at the Front Desk to manage the check-in process is critical as CATH becomes busier and busier each year. Having more accurate data is essential for reporting needs as well as seeking additional funding to meet a growing demand for senior services. If the volunteers managing the front desk are busy with calls and other consumers' needs, they can't always monitor that consumers are checking in when they enter the building. Additionally, current front desk volunteer support is comprised of two shifts a day, and primarily different volunteers each shift and each day. The inherent challenges in maintaining a consistent workflow and ensuring communication of updates at the CATH with this level of turnover throughout the day/ week are significant. Maintaining the Administrative/Office Support Specialist 1 position will lead to more continuity in service and therefore more accurate tracking of participants and program attendance. This position is an essential need for the Aging Services Division. In addition to the ability to better track programming needs and attendance, the Administrative/Office Support Specialist 1 has proven to be an important liaison for new consumers. The presence of a consistent staff person at the front desk has allowed the Aging Services Division to implement an improved workflow for registering new consumers. Due to the turnover throughout the day and week of volunteers managing the front desk, it was challenging to maintain a consistent protocol for registering new consumers and gather information essential to the Aging Services Divisions data collection needs. The current Administrative/Office Support Specialist 1 has seamlessly been able to implement consistency in this process and as well as offer new consumers tours and introductions to other regular consumers, often referred to as our 'ambassadors.' We believe this consistent presence at the front desk helps newcomers and regular consumers feel more welcome. This Administrative/Office Support Specialist 1 has the ability in their role to get to know people on a one - on - one basis and observes trends and changes that are inherent in aging. For example, a consumer who normally arrives promptly each day, who is well kempt and clear, arrives one day and appears disheveled and confused would raise an alert with the Front Desk support staff who could then connect that person with a			

Performance Improvement Funding Request DSR4			
Department	Health & Human Services/Aging Services	Fiscal Year	FY 2025
Title	CATH Front Desk Support 1	Priority	5
Social Worker in the building for further evaluation. Without this consistency at the front desk, these consumers' needs could go unnoticed, and an opportunity to support an older adult in Needham would in turn be missed. The front desk at CATH serves as a triage point for anyone entering the building, therefore having a consistent professional presence who is aware of the divisions policies and procedures is critical. As Aging Services programming and support services continues to increase, so will the workload and time sensitive tasks placed on the front desk team. Managing calls, new consumer registrations, program sign ups, payments, tours, administrative tasks (i.e., copying, faxing, etc.) are an ongoing critical need for Aging Service Division operations to be successful. Maintaining funding for the Administrative/Office Support Specialist 1 would ensure staffing stability at CATH during busy times and provide additional support to the consumers, who are our priority. This request is in line with the Select Board in Needham's FY24-25 goals. More specifically, the Select Board has prioritized <i>Healthy and Socially Thriving</i>. Bullet one; Cultivates a wide range of recreational, cultural, educational, civic, and social opportunities for all socioeconomic and age groups. As well as bullet two; supports the physical and mental well-being of its community members. This position is essential to the CATH community and to support the Council on Aging multi-year priorities and the Select Board Goals.

Description and Explanation				
Through this budget request, Needham's Health & Human Services Department seeks to provide its Public Health Division with sufficient staffing so that: The Public Health Division has a part-time Environmental Health Inspector who is able to devote his/her time and attention to advancing the goals and objectives of the Board of Health and the Public Health Division, along with supporting the Select Board goal #2. Additional staff hours will enable us to keep up with the increasing demands of fulfilling the influx of activities, especially issues related to the increase in housing challenges and mental health disparities (which we have seen a dramatic increase post pandemic), while allowing us to continue our progressive work on adopting and maintaining the nine U.S. Food and Drug Administration's Voluntary National Retail Food Regulatory Program Standards. We are looking to adopt the last standard, specifically, FDA standard 8, along with maintaining already adopted FDA Standards 1, 2, 7 and 9. The highest priority of the Environmental Health Unit is to protect the public's health through implementation and enforcement of State and Federal regulations and local Board of Health ordinances to ensure compliance with environmental health and safety standards.				

Performance Improvement Funding Request DSR4			
Department	Health & Human Services / Public Health	Fiscal Year	FY 2025
Title	Environmental Health Inspector	Priority	6
The Environmental Health team monitors and regulates a wide range of business establishments, facilities and activities, including, but not limited to: food service establishments; tobacco retail vendors; Medical Marijuana Treatment Center; Biotech companies; residential housing; construction activities (demolition, septic system and well installations); waste hauling; bodywork; public and semi-public swimming pools; and many other activities. We review online permit applications and issue permits through the Town's ViewPoint Cloud permitting website. These permit reviews have become more frequent now that building projects, including septic system installations, have ramped back up again post pandemic. The team licenses mobile food vendors and conducts inspections of temporary indoor/outdoor food events, such as the Needham Town Fairs, carnivals and the weekly seasonal Needham Farmers Markets. Our team continues to provide outreach/education to the community about environmental health issues and current food safety topics. We conduct annual Food Safety Forum trainings to all our permitted food establishment owners, managers and staff. We have recently adopted FDA Standard 6, where we revised our Board of Health approved Food Code Enforcement Policy, which strengthens our food safety standards and encourages our permitted food establishments to be more proactive with their food safety practices. We will also be rolling out our Food Establishment Grading Certificate of Excellence initiative, which we hope will also help incentivize ongoing compliance with the FDA Food Code. Investigations are conducted in response to complaints received about the following: housing, food establishments and general public health nuisances (i.e., pests/rodents, noise, odors, tobacco smoke and unsanitary conditions). In 2023, the Public Health Division Environmental Team was awarded two grants from the National Environmental Health Association (NEHA) and U.S. Food and Drug Administration (FDA), specifically from the FDA Retail Flexible Funding Model (RFFM) Grant Program, to adopt and maintain additional FDA Voluntary National Retail Food Regulatory Program Standards and to allow staff to attend conferences. The following grants were received: - Category 2 Award: \$4,929.00 to enable us to continue to complete and meet the requirements for additional FDA Standards, specifically 6 & 7. This grant funding enabled us to hire a consultant to conduct an initial review of FDA Standard 6 and to re-hire the same consultant to audit our FDA Standards 6 & 7, which were approved. This funding also enabled us to hire a separate food consultant to hold our 4 annual food establishment forum trainings, including one bilingual training. This funding also allowed us to hire an intern to assist us with these FDA grant projects. - Category 3 Award: \$7,381.50 for travel to conferences and seminars and to satisfy requirements for FDA Standard 2. Attending these annual national conferences (i.e., The annual Assoc. of Food and Drug Officials (AFDO) conference in Norfolk, VA; the annual National Env. Health Assoc. (NEHA) conference in New Orleans, LA; and the local MA Env. Health Assoc. (MEHA) Yankee conference in Northampton, MA, and enabled our regulatory staff to receive ongoing trainings; gain additional knowledge on relevant environmental health topics; and continue to network with other health professionals.			

Performance Improvement Funding Request DSR4			
Department	Health & Human Services / Public Health	Fiscal Year	FY 2025
Title	Environmental Health Inspector	Priority	6

We have been very successful in receiving grant money from the FDA for the past six years. These FDA grants are and continue to be a critical source of funding and allow the Division to continue to hold these annual permitted food establishment forum trainings in order to train more than 80% of Needham's 130+ food service establishments on the current Food Code requirements and to review our the most frequently cited Food Code violations that are documented during our inspections. This year we focused on our newly developed Food Safety Excellence Program, which encompasses our revised Food Code Enforcement Policy and our new Food Establishment Grading initiative, and we were also able to share information about safe food handling practices and requirements; as a result, re-training our permitted food establishment staff on an annual basis has proved to be a significant step towards improving food safety compliance in Needham.

Grant funds were also used to hire a consultant to conduct FDA Standard reviews and audits to verify compliance. During this year, we had a consultant audit FDA Standard 6- Compliance and Enforcement and Standard 7- Industry and Community Relations, and both standards were successfully verified and approved. We have now adopted eight out of the nine FDA Voluntary Retail Program Standards, and only have Standard 8 left. We hope to adopt that remaining standard in the coming year. After these nine standards are fully adopted, they must continue to be maintained, which will require additional staffing hours to meet the requirements for keeping up with the maintenance of these standards. The FDA Standards that we are looking to maintain in the coming year are FDA Standard 1 – Adoption of 2022 FDA Food Code; FDA Standard 2- Standardization of inspection staff; Standard 7- Industry and Community Relations and Standard 9- Program Assessment – Risk-based inspection program.

In mid-October 2023, the Public Health Division applied for additional FDA grant funds to pursue the adoption of additional Voluntary National Retail Food Regulatory Program Standards during FY 2024. If awarded, these grant funds will be used to finish Standard 8-Program Support and Resources, and to continue work on maintaining the adopted standards- 1, 2, 7 and 9. We also hope to receive funding to cover travel expenses and registration fees for Environmental team staff to attend annual conferences and training seminars to keep our staff apprised of the latest updates in the field of Environmental safety and health.

The Public Health Division seeks funding to support the hiring of a part-time Environmental Health Inspector to:

- Address Board of Health Goals #2,3,4,7 and 8 (more details noted below.)
- Finalize and adopt our final FDA's Voluntary National Retail Food Regulatory Program Standard, standard 8, which will enable us to assess our program support and resources, which includes an assessment of our inspection team staffing levels.
- Allow us to continue our progressive work on maintaining our already adopted FDA Voluntary National Retail Food Regulatory Program Standards, specifically, maintaining FDA Standards 1, 2, 7 and 9.
- We will also be enacting our recently adopted FDA Standard 6 revised Food Code Enforcement Policy, which has been approved by the Board of Health, and we will need additional staffing hours to help with enforcement of that new policy. As part of our roll out of this policy, we will continue to train and inform our permitted food service establishments and stakeholders. Information will be presented at our upcoming Food

Title	Environmental Health Inspector	Priority	6
Advisory Board meetings, and we will also review the specifics of this policy during our four annual food establishment forum trainings, which includes one bilingual training, in order to gain valuable feedback during the six month pilot program starting this fall. • Pilot and enact a Food Establishment Inspection Grading Certificate of Excellence Program, which we hope to gain valuable feedback on from our food establishments and stakeholders and initiate in FY 2024. • Additional staff hours will enable us to keep up with the increasing demands of fulfilling the influx of activities, especially issues related to the increase in housing challenges and mental health disparities (which we have seen a dramatic increase post pandemic), along with other increases in staff demands such as increase in online permit requests and follow-up inspections, etc. <u>Budget</u> Staffing: Funding is requested in the amount of \$20,995 for the Public Health Division's budget to hire a part-time Environmental Health Inspector, to work up to an additional 9.5 hours/week at a rate of \$42.50 per hour (Schedule C rate). Expenses: No expense line funding is included in this DSR4 budget request. All immediate needs for equipment and supplies can be met within the Public Health Division's existing operating budget lines. The estimated benefit costs for this position if funded in FY 2025 is \$2,083. This includes costs associated with FICA, disability, and unemployment insurance. This cost estimate was provided by the Finance Department. <u>Goals</u> Hiring a part-time Health Agent will address the Board of Health's FY 2024 Priorities; • Build Confidence and trust within the community in the Public Health Department and act as a champion for the department. • Promote community activities that increase health and wellness, including building community partnerships. Increasing the staffing will help support these priorities to be able to assist the community and the businesses. Adding the extra staffing hours would also help achieve the FY 2024-2025 Goal #3: Livable, Promotes and sustains a secure, clean, and attractive place to live, work and play, to be able to ensure the businesses in the community are held to the Needham standard.

Fiscal Year 2025 Proposed Budget

Budget Request Short Form		
Budget		Commission on Disabilities
Purpose		
The Needham Commission on Disabilities (NCOD) purpose is to promote full integration and improve accessibility for the disabled population in the Town of Needham. Through advocacy and special projects and programs, the Commission provides resources in all matters related to disability issues, promotes awareness, and addresses the needs of persons with disabilities in the community		
Budget Statement		
The Commission remains an active partner in the Town's accessibility objectives. During the last fiscal year it advocated to local businesses for accessibility improvements; researched accessible trails in the Boston area with the objective of suggesting ideas for future trails in Town; met with Needham's Transportation Study consultant and provided input on transportation support services designed to benefit those who may not have access to a personal vehicle; and sent representatives to multiple citizen committees and community groups to continue to bring disability awareness and perspective. The NCOD grant opportunity program, which awards funding to community-based organizations and school programs to improve accessibility, awarded grants to the Needham Schools - Special Education Department, for the purchase of materials for its Intensive Learning Classroom (ILC) which supports students with significant disabilities, and the Needham Community Council, for the purchase of lightweight wheelchairs to be made available to the community on an as-needed basis.		
Budget Changes		
This year's budget request remains level-funded. The Commission is continuing to meet virtually, which has resulted in some office supplies cost savings. Other ongoing expenses are met by the annual budget, without a need for additional funds. This includes office supplies, costs related to attend trainings for members and the stipend for the Town liaison.		
Description	Purpose	Amount
Printing, Mailing	Education and Communication, ads	\$200
Office Supplies	Paper, printer ink, etc.	\$100
Other Supplies and Equipment	Recognition plaques for exiting members	\$150
Mileage	Transportation reimbursement for conference travel	\$100
Town Liaison Stipend		\$1,500

Fiscal Year 2025 Proposed Budget

Budget Request Short Form		
Budget	Historical Commission	
Purpose		
Serves as an advisory body to the Select Board on topics relative to historic preservation. The Commission also holds public hearings relative to the Town's Historic Building Demolition by-law, and renders judgement on proposed demolitions governed by the by-law.		
Budget Statement		
The Historical Commission is often required to hold noticed public hearings relative to the Needham Historic Building Demolition by-law. These notices may carry associated printing and publishing costs that are borne by the Commission.		
Budget Changes		
There are no proposed changes to the Historical Commission's budget in FY2025.

Department Information DSR1	
Department	Public Library
Department Mission	
Mission: The Needham Free Public Library provides access to materials, resources and information in its endeavor to expand minds, celebrate diversity, embrace differences, and build community. Vision Statements: The library will provide and expand resources and information to satisfy curiosity and will provide opportunities to discover and share new ideas. The library will be a vibrant and welcoming place for all people to gather, meet, and learn. The library will create opportunities for programs, services and outreach by building partnerships with institutions such as schools, businesses, and organizations.	
On the Horizon	
Usage of the Needham Free Public Library notably increased in FY2023 compared to FY2022. The library had 50,614 more patron visits in FY2023, an increase of 21%. That is an annual total of 237,165 visits; an average of 680 patrons per day. An additional 14,630 materials were circulated (2.6% increase), study room usage was up 41% (1,876 additional bookings) and computer usage was up 31% (6,318 more uses). Library program attendance was also up across all age groups: a 63% increase in adult participants (2,240 more for 3,577 total), a 17% increase in young adult participants (182 more for 1,041 total), and a 42% increase in child participants (4,091 more for 9,674 total). As the library has seen each year following the pandemic, there is no question that Needham patrons want increased access to physical and electronic materials and services as well as hybrid and in-person events. We anticipate that this upwards trend will continue, as the number of in-person visitors and program attendees remain below pre-pandemic levels, while the number of materials circulated by the library have surpassed pre-pandemic levels. The library continues its efforts towards streamlining operations to efficiently serve the residents of Needham and meet demands. Careful review of the budget allocations is always a large part of that effort and consideration. Towards these efforts, the library completed a new 2023-2027 Strategic Plan. The strategic plan was created after soliciting input and information from all stakeholders in our community. It serves as a roadmap to the future, describing what our community is seeking from the library and our responsive action plans for the next five years. Library staff and the Board of Trustees will be focused on making measurable progress on these six goals: (1) provide a seamless, efficient, equitable and outstanding user experience, (2) increase visibility as a critical community partner, known and valued by everyone in Needham, (3) offer a user experience catered to the specific wants and needs of the Needham community, (4) provide access to an outstanding, diverse collection of materials for Needham patrons and understand the importance of building and promoting a representative collection, (5) ensure staff is well-trained and fluent in analytic resources to provide the best collection of materials for the community, and (6) allocate time and resources to explore the future use of interior and exterior space and design. On a dual track, the library embarked upon a Space Planning Study with Boston architectural firm Utile, the Town's Permanent Public Building Committee, and informed by community input. This feasibility study was completed in September 2023 and identified four top priorities: (1) Create a new dedicated young adult area on the second floor to improve the space for the significant number of teens utilizing the library most days while preserving the experience for other patrons; (2) provide an improved children's area on the first floor to accommodate the increasing number of children excited to experience the library's offerings; (3) improve the Rosemary entrance and create a new multipurpose room on the library's first floor, and (4) improve the Highland entrance	

Fiscal Year 2025 Proposed Budget

Department Information DSR1				
Department		Public Library		
and enhance staff workspace. Library staff and Trustees will be advocating for design and construction funding to make these capital projects possible.				
The library has taken strides to offer increased outreach to the community, which patrons request frequently. Our newly hired Reference Supervisor comes with extensive community outreach experience. We look forward to increased presence at community events such as the Harvest Fair, collaboration with Needham Housing Authority, and working with Youth and Family Services, among other partnerships.				
The Town is in the midst of the hiring process for the Library Director position. The library will continue to focus on filling all full and part-time vacancies during this challenging labor market.				
Budget Statement				
The FY2025 Budget request includes the following changes from FY2024:				
OBJ	Description	Comments	FY2025 Request	Net Change
5110	Library Salaries Regular	Increasing for normal step-raise, longevity amounts.	\$1,315,870	\$38,817
5120	Library Salaries Temporary	Increasing to maintain existing library services for a growing number of patrons entering the library and higher number of materials circulated.	\$566,175	\$24,594
5257	Repair & Maintenance Equipment	Increasing to replace 12 folding tables in Library Community Room.	\$3,900	\$3,500
5270	Rental & Leases	Decreasing due to usage.	\$200	(\$50)
5305	P&T Software Licensing Fee	Increasing due to usage and anticipated cost increase to Minuteman Library Network fee.	\$81,000	\$2,000
5341	Postage	Increasing to reflect FY23 expenditures.	\$850	\$100
5344	Wireless Communication	Increasing to reflect FY23 expenditures.	\$5,500	\$1,000
5345	Printing & Mailing	Increasing due to cost and FY23 expenditures on labels, library cards, and business cards.	\$3,200	\$1,350
5420	Office Supplies	Decreasing to align with historical spending.	\$8,000	(\$500)
5580	Library – Other Supplies	Increasing to reflect FY23 expenditures.	\$10,000	\$2,000
5584	Library Databases	Increasing to reflect the addition of our Summer Reading Program tracking software, previously paid for by the State, and the addition of a successful resource teaching children to code, which was funded by the	\$105,000	\$4,000

		Friends previously as a 3-year pilot.		
5585	Computer Supplies & Equipment	Decreasing to align with historical spending.	\$11,000	(\$2,000)
5711	Mileage	Decreasing to align with historical spending.	\$900	(\$500)

In FY23, the library had a budget return of \$127,442 (5.9%). This was almost entirely from salaries (\$126,800 or 7.2%), as the return from expenses was \$642 or 0.2%. The FY23 regular salaries budget was based off of the anticipated salary of tenured incumbents in the Library Director and Supervisor of Technical Services roles. The library had turnover in both of those positions prior to FY23, resulting in lower salary levels for each with no longevity pay, and thus a return from regular (full time) salaries of \$44,811. The budget return from temporary (part time) salaries of \$81,989 was largely attributable to drastic shifts in the labor market. A number of part time library employees accepted full time or more lucrative positions elsewhere. Some of these part time staffers continued to work in Needham, but on a reduced schedule, to help cover scheduling gaps.

During this period, the library focused on maintaining consistent staffing at each desk. However, other tasks were delayed, effecting operations over time as those delays accumulated. For instance, processing a new book used to take approximately twenty-four hours from unpacking it to placing it on the shelf for public access. During the most significant staff shortage, it has taken two to three weeks. Due to staff vacancies, the library has had to periodically reduce or cancel programming and staff have been unable to provide as much one-to-one assistance to patrons.

Accomplishments and Activities

The Needham Free Public Library has had a year of notable achievements. As mentioned in "On the Horizon," the library completed its new 2023-2027 Strategic Plan in December 2022. The strategic plan is a roadmap to the future, describing what our community is seeking from the library and our responsive action plans for the next five years. The library also completed a Space Planning Study in September 2023 with Boston architectural firm Utile, and the Town's Permanent Public Building Committee.

During the summer of 2022, the library started Needham's "Library of Things". A "Library Of Things" are everyday objects loaned out just like other library materials. Objects often include kitchen appliances, tools, gardening equipment and electronics, toys and games, science kits, craft supplies, musical instruments, and recreational equipment. The library unveiled the collection on October 17, 2022. It has been welcomed and received by our library users very enthusiastically.

The library focused on new and improved collections over the last year. The English language learning collection was processed and put in place in July 2022. The library continued to expand our World Languages section, catering to the diverse linguistic needs of our patrons. A New Adult Graphic Novel Collection was developed and introduced. Video games and graphic novel collections were put in place in the Fall of 2022. These initiatives aimed to engage a wider audience and offer a broader range of recreational and educational materials.

The library's Technical Services staff, along with some help from Circulation Department staff, completed a DEI (Diversity, Equity, and Inclusion) Audit of our print collections. This audit will allow staff to assess and improve the representation and inclusivity of our materials.

Department Information DSR1			
Department		Public Library	
The library is continuously striving to enhance its offerings and meet the evolving needs of the community. By fostering inclusivity, expanding collections, and engaging in outreach efforts, we aim to provide valuable and exciting services to the residents of Needham. This year has also been a time of leadership transition at the Needham Free Public Library. The library has recently welcomed a new Reference Supervisor and Technical Services Supervisor. The Town is currently undertaking a search process to fill our vacant Library Director position.

If yes, which Board or Committee?		Board of Library Trustees			
Has this request been submitted in the last three fiscal years and not funded?					X
Are there additional costs to implement this request (except for future year operating costs which would be ongoing if funding is approved) which are NOT included in this request?					X
Will the assistance of another department be required to provide support (personnel or financial) for this request to be implemented?				X	
Will additional staff (beyond the staff requested in this DSR4 submission) be required if the request is approved?					X
Does the request support activities which produce revenue for the Town?					X
If the request is not approved, will current Town revenues be negatively impacted?					X
Is there an increased exposure for the Town if the request is not approved?					X
Is specialized training or licensing required (beyond the initial purchase)?					X
Does this request address a documented health or safety issue?					X
All "YES" responses above must be explained in the narrative below					
Description and Explanation					
This request would add funding to accommodate a new, part-time Reference Librarian/Young Adult Specialist. Earlier this year, the Needham Free Public Library completed its 2023-2027 Strategic Plan. The Board of Library Trustees voted on an FY24 Action Plan to further prioritize specific action items for the year that are necessary to achieve the longer-term goals and objectives of the Strategic Plan. One of their top priorities is Goal 3, Objective 1: Improve service, space, outreach and resources for Emerging Adults. A priority action towards this goal is to hire additional Young Adult (YA) room staff. This is a significant need for the Needham Free Public Library as we often see 50-100 teens in the building after school. Currently, the Library has a full-time Young Adult Specialist in the Reference Department who spends 40% of her time on-desk performing reference librarian duties. The YA Specialist's off-desk time is committed to responsibilities of maintaining the YA collection (e.g. weeding, shifting, and creating displays), doing school outreach, and conducting program development (e.g. generating ideas, researching feasibility, budgeting, procuring supplies and presenters, and facilitating day-of). This leaves little time to be in the Young Adult room or out in the areas where teens sit after school to be a presence and a resource directly to them.					

Fiscal Year 2025 Proposed Budget

Performance Improvement Funding Request DSR4			
Department	Public Library	Fiscal Year	2025
Title	PT Reference Librarian/Young Adult Specialist	Priority	1
Adding a part-time Reference Librarian/Young Adult Specialist will provide additional support for both on-desk and off-desk time. Funding this position will enable the Library to staff the Young Adult room in addition to the reference desk. The position would also provide some relief to the department by covering additional reference desk hours, and allowing the full-time Young Adult Specialist to focus on programming and outreach in her off-desk time. Expenses for this position are \$2,000 for a workstation and \$2,000 for a computer. Annual benefit costs are \$3,511, which would be reflected in the town-wide budget. If approved, this position would be recurring in future year operating budgets.

Department Information DSR1	
Department	Park and Recreation
Department Mission	
The Park and Recreation Department's major responsibilities include providing diverse, inclusive, and equitable year-round programming and leisure services for residents of all ages; administering all Town athletic fields, including scheduling, and permitting functions; managing Town playgrounds; operating and managing the Pools at the Rosemary Recreation Complex; providing seasonal employment and volunteer opportunities; administration of all Town trails; and providing support to community organizations. The Park and Recreation Commission is a five-person elected board. The Commission has jurisdiction over approximately 300 acres of land, including the Town Forest. They set policies related to recreation facilities and programs, including the use of all athletic fields, except Memorial Park. Working with the Director, the Commission provides long-range planning for recreation facilities and services.	
On the Horizon	
This past summer, for the first time since 2020, we were able to open the Pools at Rosemary without restrictions, though we still needed to prepare for staffing and capacity limitations. We were lucky to hire a full pool staff including lifeguards, swim instructors, supervisors, maintenance, and booth staff. In the summer of 2023, we converted our summer programs over to legally-licensed Summer Camps. Our staffing luck continued, hiring a full staff of counselors, group leaders, site supervisors, specialists, and camp directors. The transition was seamless, though we are continuing to revamp and improve our summer offerings and work towards shifting our summer programs into a more appropriate Summer Camp structure. We continue to march towards upgrading and renovating our 18 playgrounds in Needham to not only be ADA compliant, but to move toward full inclusivity within each of our playgrounds. Due to the success of our playground assessment, the Department and Commission are looking into an Athletic Field Assessment to determine the exact needs of each of our thirty-five (35) fields. In addition to a field assessment and playground projects, the Department will be working on projects around town such as the Claxton & McLeod Field Renovations, Needham High School Tennis Court renovations, Rosemary Beach Upgrades & the feasibility study for the Action Sports Park. Seasonal, Temporary & Part-time Staff Salaries – Minimum Wage: On January 1, 2023, minimum wage increased to \$15.00/hour. Both our summer pool and camp seasonal salaries fall in two separate fiscal years each summer, and any increases affect our budget twice. Additionally, most companies and organizations in the area are currently hiring between \$16-\$20/hour. Pools in the area are currently hiring from \$18-\$20/hour to start, with many of them offering signing bonuses. In order to hire and maintain quality and capable staff, we have updated the seasonal salary scale to increase our starting wages across all part-time and temporary staff:

Budget Statement							
In FY2023, the department turned back to the town over 14% of our operating budget. About 12.5% of this turnback was due to understaffing. We were without an Assistant Director of Park and Recreation for 6 months during FY2023. The other 1.5% return was a combination of removing old phone landlines and a reduction in our park and pool restroom cleaning contracts. The Park and Recreation Commission and Department review program fees at least three times a year, adjusting fees as appropriate, with the intent of having the majority of programs be self-sustaining. The fees for the 2023 pool season were updated and approved in December of 2022. Most of the department’s programs are in the Revolving Fund, but the major summer programs are all funded through the Operating Budget and the revenue is deposited into the General Fund. The pool rates for the 2024 season will be voted on in December 2023. Revolving Fund: The programs held in the Fall, Winter, and Spring, as well as some small summer programs, are operated through the fee-generated Revolving Fund (53D). The Revolving Fund also includes revenue and expenses related to the Field Maintenance Fee, Court Badge Fee, Memorial Park Lights Fee, DeFazio Park Lights Fee, Claxton Lights Fee, and the Carleton Pavilion Fee. Gift Fund: The Park and Recreation Commission has a Gift Fund for a variety of projects. The majority of the fund holds donations for the Arts in the Parks concert series and the Children’s Theatre programs. The donation of \$20,000 from the estate of Harold J. A. Street is also in the fund, with a balance of approximately \$9,000.

Accomplishments and Activities				
In Spring of 2023, the Department was able to hire for the position of Assistant Director. Hannah Corrigan joined us in March of 2023. She comes from East Lyme, Connecticut and relocated here to join our team. Since day 1 she has been a formative and indispensable addition to our staff. As mentioned above, the department transitioned from summer programs to licensed Summer Camps in June 2023. Though the process of getting there was long and arduous, our team persevered, and the first Camp summer was extremely successful. Programmatically, the Department continues to collaborate with three school departments, the Post-Grad program, Extended School Year (ESY) and the Summer Bridges program. Our Post-Grads interned with us 2-3 days a week at the pool and in the office doing cleaning, shredding and general office organization. ESY kids attended their scheduled classes during the mornings and met up with our staff for fun-filled afternoons. At Summer Bridges, children attend reading and math classes in the morning and then were able to come outside and join our summer camps in the afternoons. All programs were a huge success and we are continuing with our Post-Grad interns through the school-year. The Park and Recreation team were tremendously successful in running numerous passive and active recreational activities for community members ranging from young preschool to seniors.

Fiscal Year 2025 Proposed Budget

Budget Request Short Form		
Budget	Memorial Park Trustees	
Purpose		
In accordance with Part 5 section 33 of the Town of Needham Charter, the land known as the Memorial Park in the town of Needham shall continue to be under the jurisdiction of the Trustees of Memorial Park. The trustees shall continue to: (i) receive, hold and manage, with the approval of Town Meeting, any devise, bequest, or gift for the establishment or equipment of memorials for properly commemorating the service of members of the armed forces of the commonwealth and the armed forces of the United States; and (ii) maintain and operate, upon such portion of Memorial Park as they determine, an athletic field with suitable equipment and, in their discretion, to regulate its use for athletic games and other entertainment of a public nature, to which an admission fee may be charged upon such terms and conditions as the trustees may impose. There are five elected Trustee of Memorial Park each for a term of three years, plus the Chair of the Select Board, or designee. Memorial Park includes the memorial garden with an adjacent gazebo. Memorial Park also includes a natural grass 90' baseball diamond, a synthetic turf multi-purpose field, a synthetic turf 60' diamond, and a pedestrian path circling the park. All field spaces have lights. Further, Memorial Park includes the Gateway Garden at the corner of Highland Avenue and Rosemary Street, with signboards announcing community and park events.		
Budget Statement		
The primary operating costs for the Memorial Park fieldhouse and the athletic fields are in the Department of Public Works (DPW) operating budget, primarily in the building maintenance and parks and forestry divisions, with a small portion covered by Park and Recreation. The primary expenses related to the building include electricity and heat. The electrical costs are under the Needham Electric, Light and Gas Program budget, and other expenses including cleaning and maintenance are covered by DPW. In recent years, the Trustees of Memorial Park have voted to use their budget for the purchase of American and POW flags for the poles at the Park, but in some years the budget paid for small projects which benefit the park.		
Budget Changes		
Outside of the annual Memorial Day, Veterans' Day, and Purple Heart Day engagements, Memorial Park hosts games and activities for Needham Public School Athletics and Needham Park and Recreation programming, as well as non-profit organizations like Needham Soccer, Needham Flag Football, and Needham Baseball & Softball. Memorial Park is also home to the Annual Arts in the Parks summer concert series hosted by Park and Recreation. Trustees of Memorial Park meet approximately once a month at 7:00 p.m. in the Memorial Park Field House. The actual meeting dates are posted with the Town Clerk's Office and published on the Town's website.l.

Fiscal Year 2025 Proposed Budget

Department Spending Request Short Form		
Budget	Needham Council of Arts and Culture - FY2025	
Purpose		
The purpose of the Needham Council for Arts and Culture (NCAC) is to support community-based projects and activities in the performing and visual arts, humanities, and interpretive sciences to benefit the residents of Needham.		
Budget Statement		
The NCAC requests funding in the amount of \$18,300 (\$8,300 as the base budget and a DSR4 request for \$10,000) to support local programming in Needham. The objective behind the funding request is to allow the NCAC to have an even bigger impact on the number of people its programming reaches. The request is an additional \$10,000 over what was requested in FY 22-23, and FY 23-24. In addition to Town funds, the Massachusetts Cultural Council (MCC) distributes funding to NCAC annually, which was \$7,800 in 2021, \$9,000 in 2022 and \$9,000 in 2023.		
Accomplishments and Activities		
In recent years, the increased interest in local grants has forced the NCAC to turn down many applicants' requests, resulting in almost 55% of requests going unfunded/underfunded. All grants directly benefit the Needham community through events, public art, and community art projects such as Arts in the Park, Needham Open Studios, New Years Needham, and Needham Diversity Initiative. Lectures, concerts, Storytime Crafts, and performances like these bring the community together. It is especially important, now more than ever, to nurture community connection and build on the incredible success that the NCAC has accomplished in the past few years. The NCAC has completed our long-range Arts and Culture Plan and will use the Town of Needham funds along with MCC funds to continue our outreach and develop programming based on our plan. The 2022-2023 Accomplishments include funding 28 artists, performers, musicians and programs. 14 Volunteer Committee Members successfully completed 1 large scale mural installed "Blossom by Arch" an Outdoor Community Mural Event, a Creative Conversation held in North Hill and the development of the Arts and Culture plan with a survey with over 300 responses. Now with the completed Arts and Culture plan we will continue the excellence in Arts and Culture we have provided the community over the past 26 years.

Does this request address a goal of the Select Board or other Board or Committee?				x	
If yes, which Board or Committee?		NCAC			
Has this request been submitted in the last three fiscal years and not funded?					x
Are there additional costs to implement this request (except for future year operating costs which would be ongoing if funding is approved) which are NOT included in this request?					x
Will the assistance of another department be required to provide support (personnel or financial) for this request to be implemented?					x
Will additional staff (beyond the staff requested in this DSR4 submission) be required if the request is approved?					x
Does the request support activities which produce revenue for the Town?					x
If the request is not approved, will current Town revenues be negatively impacted?					x
Is there an increased exposure for the Town if the request is not approved?					x
Is specialized training or licensing required (beyond the initial purchase)?					x
Does this request address a documented health or safety issue?					x
<i>All "YES" responses above must be explained in the narrative below</i>					
Description and Explanation					
An additional \$10,000 to support additional grants for local Needham Art and Culture projects. The additional funds will also allow for expanded and larger projects the NCAC can support with the completion of their Arts and Culture Plan. In the current budget year 2022-2023 NCAC has funded \$17,300 worth of Grants with Town of Needham funds (\$8300) and State MCC Funds (\$9,000) but has \$36,930 in funding requests leading to a grant funding deficit of \$19,630. With the additional funding the NCAC can fund those additional excellent NCAC project requests and work on funding their newly completed Arts and Culture Plan. Currently this represents a funding shortfall of over 55%. Even with the additional funding there would still be a shortfall of \$9,630 from what is being asked to what the NCAC could fund. Applications need to meet strict rules for acceptance including ADA Accessibility, geographical boundaries and provide public benefit. Some of the groups applications were granted include Arlekin Players Theater, Needham Housing Authority, Puppet-master John Lechner, Needham Community Theater, Needham Community Revitalization Trust Fund, Rehearsal for Life, The Needham Concert Society, Rivers School Conservatory. Since its inception in 1998 NCAC has granted over \$149,000 to 330 recipients making the Town of Needham an exceptional place to call home.

Department Information DSR1	
Department	Sewer Enterprise
Department Mission	
The Sewer Division of the Department of Public Works is responsible for maintaining the Sanitary Sewer System (Sewer) and the Storm Sewer System (Drains), as well as all related programs and infrastructure.	
On the Horizon	
The overall budget On the Horizon statement can be found under the Department of Public Works. The Sewer Division has seen operational challenges and delays caused by the increase in material costs and the supply chain shortages. The Water, Sewer, and Drains Division saw a lot of staff turnover, causing the Division to re-evaluate their operational processes and needs. The Sewer Division of the Department of Public Works to perform the daily maintenance tasks, both proactive and reactive to keep our sewer and drain systems operating. The items below detail additional and specific work that the division will be undertaking in the upcoming fiscal year. The Sewer Division will continue to focus on meeting the stormwater requirements that went into effect with the Municipal Separate Stormwater Systems (MS4) permit in July 2018. This involves the cleaning and maintenance of brooks and culverts as well as catch basin cleaning. The Division will also continue to perform the flushing programs, inspect sewer and drain lines with the CCTV camera truck, and thoroughly clean all sewer station wet wells. The Division will continue to maintain and improve their sewer flow monitoring system that monitors for inflow and infiltration at all ten sewer pump stations throughout Town. Sewer will be recruiting new staff in addition to training existing staff in order to continue to combat staffing shortages, which have been the most challenging within the Water, Sewer, and Drains Divisions. The Town will be implementing a new billing and collections software over the next year, which will impact the process of sewer billing.	
Budget Statement	
Salaries & Wages increasing \$49,899, 4.36% Expenses & Services increasing \$43,172, 5.24% Operating Capital increasing \$31,000. 47.69% Total Budget* increasing \$124,071, 6.10% *not inclusive of MWRA, Debt Service, or Reserve Fund Salaries The Sewer Division has seen a high volume of staff turnover recently, which has led to fluctuating salaries. Additionally, the NIPEA union received an annual cost of living increase and some employees who were previously at the top end of the pay scale now have additional steps. The total increase for Regular Salaries is \$ 40,696, 4.36%. The overtime programs from the prior year remain in place. Due to the increase in base pay, the budget for overtime programs has increased. The Overtime Budget has increased \$8,219, 4.41%. The Temporary Salaries budget has increased due to an increase in the base pay for temporary positions. The programs have remained the same. The total increase for Temporary Salaries is \$984, 5.23%. The Other Salary and Wages budget has not increased as this reflects one-time benefit costs. In FY2023, the Sewer Division had a turnback in salaries of 7.13%. This is due largely to the high vacancy and turnover rate. During FY2023, the Sewer Division filled three vacancies, leaving only one remaining vacancy to be filled as of October 2023. Many vacancies were open for an extended

------------	------------------

period of time because two of those hires were internal promotions or transfers. The Sewer Division utilized more overtime than normal and outsourced some programs to contractors in order to accomplish many of their regular operating tasks, but this is not a long-term sustainable solution.

Expenses and Services

Energy

Energy Type	3 Year Consumption Average	Cost per Unit	Fixed Costs	Budgeted Amount*	Difference from Prior Year Submission
Electric	509,430	\$0.24	\$1,500	\$123,763	\$1,096
Natural Gas	2,448	\$3.30	\$1,500	\$9,580	-\$1,726

*Same as prior year's budgetary cost for electricity (\$0.24) and natural gas (\$3.30).

Vehicular Supplies

Division	Fuel Type	3 Year Consumption Average	Cost per Unit	Budgeted Amount	Difference from Prior Year Submission
Drains	Diesel	329	\$5.48	\$1,801.00	-\$1,238
Sewer	Diesel	2,186	\$5.48	\$11,979.00	-\$577
Sewer	Gas	2,932	\$4.38	\$12,843.00	\$695

*Same as prior year's budgetary cost for gasoline (\$4.38/gallon) and diesel (\$5.48/gallon)

Highlighted Changes

There are incremental changes in the FY2025 budget. The largest increase is seen in Repairs and Maintenance Services, based on an increase in pricing and need for vehicle repairs (10,750) and mechanical on-call services (8,650). There is also an increase in Public Works Supplies (9,682), primarily due to contract pricing and the volatility of the market. Another increase is seen in police details (8,000) due to an increase in need.

Department Information DSR1			
Department		Sewer Enterprise	
Operating Capital <u>Pump Replacement Program</u> The Sewer Division will be purchasing new replacement pumps as back up for the pumps in our sewer stations.			
<u>Turnback</u> In FY2023, the Sewer Division had a turnback of 13.8%, which included a 7.13% turnback in salaries and a 23.93% turnback in expenses. The salaries turnback was due to long-term vacancies, which the Division has been working hard to fill and anticipates being fully staffed during FY2024. The turnback in expenses is largely due to a transition in the NPDES budget, which was moved into the operating budget, while the Division is trying to spend outstanding monies. These monies have been spent down and it is anticipated that the Division will better utilize their operating budget. The turnback is also due to the inability to complete as many of the operational tasks as anticipated because of staffing shortages.			
<u>Accomplishments and Activities</u>			
A new Superintendent of Water, Sewer, and Drains started in FY2022 after repeated turnover in that role. This allowed the Division to re-evaluate their operations.			
The Sewer Division performed regular scheduled maintenance tasks in addition to larger projects and impromptu projects for the benefit of the public. The Division also responded to work order requests initiated through the Town’s online reporting tool, SeeClickFix.			
The Sewer Division performed cleaning of stormwater drain catch basins. This involved removal and proper disposal of sediment from the stormwater drain system. During FY2023, the Sewer Division repaired or replaced 9 stormwater catch basins, installed 300 feet of new drainpipe, and performed 8 pipeline point repairs on the sewer and drain lines. The Division CCTV’d 85,852 feet of sewer pipe, 51,889 feet of storm drainpipe, and flushed/jetted 190,875 feet of sewer and drainpipes within the Town’s roadways and easements. Using the CCTV truck to investigate the sewer and drain lines allows the Division to locate any defects and make necessary repairs prior to the completion of road surface improvements.

Department Information DSR1	
Department	Water Enterprise
Department Mission	
The Water Division of the Department of Public Works is responsible for maintaining the infrastructure associated with the water delivery system and the development and production of the water supply in the Charles River Well Field, as well as supplemental water from the Massachusetts Water Resources Authority (MWRA).	
On the Horizon	
The overall budget On the Horizon statement can be found under the Department of Public Works. The Water Division has seen operational challenges and delays caused by the increase in material costs and the supply chain shortages. The Water, Sewer, and Drains Division saw a lot of staff turnover, causing the Division to re-evaluate their operational processes and needs. The Water Division of the Department of Public Works to perform the daily maintenance tasks, both proactive and reactive to keep our sewer and drain systems operating. The items below detail additional and specific work that the division will be undertaking in the upcoming fiscal year. The Water Division will continue the maintenance, improvement, and repair of the overall water distribution system, including replacing fire hydrants, water services, water mains, water gate valves, and water meters. Water will continue their testing and inspection programs which look at all commercial, municipal, and industrial cross-connection and backflow prevention devices. Water completes annual leak detection services, proactively locating leaks and repairing them before they become a water break or a source of Un-Accounted for Water (UAW). The Massachusetts Department of Environmental Protection (MA DEP) developed their Primary Drinking Water regulations regarding PFAS (per- and polyfluoroalkyl substances) and require monthly sampling protocols. Due to the hard work of the Water Division, Needham's PFAS levels are consistently below the Maximum Contaminant Level (MCL) of 20 ppt. Needham's averages are approximately 11 ppt. This has allowed the Water Division to request and receive permission to move to quarterly sampling for this substance. There has been a shortage of those in the water industry with the appropriate distribution and treatment licenses. The Water Division will continue to evaluate ways to increase licensure of existing staff while recruiting new staff with the necessary licensure in addition to combating the workforce shortages seen in DPW, which have been prominent in the Water and Sewer Divisions. The Town will be implementing a new billing and collections software over the next year, which will impact the process of water billing.	
Budget Statement	
Salaries & Wages increasing \$34,081, 2.13% Expenses & Services increasing \$125,528, 8.02% Operating Capital increasing \$3,495, 6.52% Total Operating Submission increasing \$163,104, 5.07% *not inclusive of MWRA, Debt Service, Reserve Fund	
Salaries The Water Division has seen a high volume of staff turnover recently, which has led to fluctuating salaries. Additionally, the NIPEA union received an annual cost of living increase and some employees who were previously at the top end of the pay scale now have additional steps. The total increase for Regular Salaries is \$28,420, 2.24%.	

Department Information
DSR1

Department	Water Enterprise
------------	------------------

The overtime programs from the prior year remain in place. Due to the increase in base pay, the budget for overtime programs has increased. The Overtime Budget has increased \$4,087, 1.38%.

The Temporary Salaries budget has increased due to an increase in the base pay for temporary positions. The programs have remained the same. The total increase for Temporary Salaries is \$1,574, 2.13%.

The Other Salary and Wages budget has not increased as this reflects one-time benefit costs.

In FY2023, the Water Division had a turnback in salaries of 24.06%. This is due largely to the high vacancy and turnover rate. During FY2023, the Water Division filled five vacancies and to date, has filled another three vacancies, leaving only one remaining vacancy to be filled as of October 2023. Many vacancies were open for an extended period of time because three of those hires were internal promotions or transfers. The Water Division utilized more overtime than normal and outsourced some programs to contractors in order to accomplish many of their regular operating tasks, but this is not a long-term sustainable solution.

Expenses and Services

Energy

Energy Type	3 Year Consumption Average	Cost per Unit*	Fixed Costs	Budgeted Amount**	Difference from Prior Year Submission
Electric	1,974,725	\$0.24	\$2,200	\$495,823	\$54,005
Natural Gas	17,261	\$3.30	\$250	\$71,953	\$17,724

*Same as prior year's budgetary cost for electricity (\$0.24) and natural gas (\$3.30).

**Budgeted amount used FY2023 actual consumption due to an increase in consumption over time.

Vehicle Supplies

Fuel Type	3 Year Consumption Average	Cost per Unit	Budgeted Amount*	Difference from Prior Year Submission
Diesel	3,599	\$5.48	\$19,724	-\$2,746
Gasoline	6,203	\$4.38	\$27,169	-\$344

*Same as prior year's budgetary cost for gasoline (\$4.38/gallon) and diesel (\$5.48/gallon)

Highlighted Changes

There are two main factors causing an increase in the FY2025 expenses budget submission. The most significant increase is seen in Energy (68,729). This is due to an increase in consumption for both electricity and natural gas. The other driving cause is an increase in our existing contracts, specifically for Public Works Supplies, which includes Treatment Process Chemicals (13,686), Water Main Parts (6,421), and Water Services Parts (5,222). As part of the upgrade to the billing and collections software for the Town, the Water Division had to upgrade their meter reading software (18,000).

Operating CapitalBackwash Valves

At the Water Treatment Plant, the Division needs to regularly conduct a backwash that helps to clean accumulated particulate from the filters and restore their full functionality. A backwash valve controls and automates that process. It redirects water from another pressurized line up through the filter bed, and then out through the drain line. This funding request is to replace the existing backwash valves to ensure the effectiveness of the water treatment filters and the cleanliness of the water supply.

Light Tower

The Water Division utilizes a portable light tower that allows them to do work at night. This request is to replace an existing light tower that is past its useful life.

Turnback

Overall, the Water Division had a 7.92% turnback (excluding any Debt Service and Reserve Fund values). This was solely driven by the turnback in salaries, as the expense turnback was 0.43%. This is anticipated not to be the case moving forward, as many of the vacancies have been filled.

Department Information DSR1			
Department		Water Enterprise	
Accomplishments and Activities			
The Water Division performed regular tasks in addition to larger projects as well as impromptu projects for the benefit of the public. The Division also responded to work order requests initiated through the Town’s online reporting tool, SeeClickFix.			
The Water Division staff repaired and/or replaced fifteen fire hydrants, repaired five water leaks during normal business hours, performed nineteen emergency water repairs after normal business hours, replaced five inoperable water gate valves and removed three lead water services and replaced them with new copper services.			
The Water Division continues to replace and install new water meters, respond to customer and resident calls for leaks, and water quality testing, staff continued testing of all backflow protection devices, and surveyed facilities to ensure cross-connection compliance.			
Additionally, during FY2023 the DPW’s Water, Sewer & Drains Division hired a contractor to remove and replace 243 lead-lined or lead gooseneck water service pipes throughout town in a proactive manner to prepare for the new 2024 EPA’s/DEP’s Lead Copper Rule (LCR) Regulation implementation. The Division also hired Weston & Sampson to redevelop two of our three water wells at the Charles River Water Treatment Facility. This redevelopment consists of reconditioning the well and associated pumping equipment for better well (water) production and pumping efficiencies.

Fiscal Year 2025 Proposed Budget

Budget Request Short Form	
Budget	Community Preservation Committee
Purpose	
The Community Preservation Act (CPA) M.G.L. c. 44B, allows Massachusetts cities and towns to raise monies through a surcharge of up to 3% of the real estate tax levy on real property. These funds may then be used to acquire, create, rehabilitate and preserve open space; acquire and preserve historic resources; create, preserve and support community housing; and acquire, create, rehabilitate and preserve land for recreational use. Community housing may be rehabilitated or restored if purchased with Community Preservation funds. The legislation was updated in July 2012. Needham voted to accept the legislation in November 2004, with a 2% surcharge. The Community Preservation Committee (CPC) is appointed to make recommendations for use of the Community Preservation Fund. The Community Preservation Committee develops and maintains an annual five-year look out on projects, with the assistance from the Town Manager and staff. To apply for Community Preservation funding, proponents must first apply, and the Community Preservation Committee must deem it eligible for funding from guidance provided by the Community Preservation Coalition and as authorized from the Community Preservation Act. Once deemed eligible, the proponent will answer the Committee's due diligence questions and present the full scope of the project to both the Committee and during a public meeting. At the public meeting, the Committee encourages feedback from the public in support or non-support of the projects under review. The Committee will also present proposed projects to both the Select Board and the Finance Committee prior to their final recommendation for fund to Town Meeting.	
Budget Statement	
The Massachusetts Community Preservation Act permits up to 5% of annual revenues to be spent on administrative and operating expenses. Though typically not using the full amount each year, the Community Preservation Committee puts aside approximately 5% to be prepared for unknown expenses. Unused funds, at the end of each fiscal year, are returned to the Community Preservation Fund. Since the inception of the Community Preservation Committee, the administrative budget has been primarily utilized for personnel expenses, office supplies, and communication. Funds are reserved for the Committee to investigate and research proposed projects to determine their viability for funding. In FY2024, part of the administrative budget was used to contract with an affordable housing/financial consultant, hired through a Request for Proposals process, to provide analysis and advice with respect to anticipated project applications from the Needham Housing Authority. The Director of Finance and Administration for Public Services, in the Department of Public Works, has been appointed by the Town Manager to serve as staff liaison to the Committee. The Committee's administrative budget typically pays for staff support, including a Recording Secretary and use of Town Counsel. Starting in FY2024, the Committee has hired a part-time Administrative Coordinator in lieu of a Recording Secretary, in order to better support the administrative needs. The Needham Community Preservation Committee is a member of the Massachusetts Community Preservation Coalition and pays annual membership dues. From time to time, the Committee consults with Coalition staff on issues related to project applications. Coalition staff have also provided Committee members with education and training regarding CPA administration. The May 2023 Annual Town Meeting authorized \$276,052 through reserve funds or by bond to	

Fiscal Year 2025 Proposed Budget

Budget Request Short Form		
Budget	Community Preservation Committee	
support projects related to Community Housing initiatives identified in the Needham Housing Authority's most recent report at Seabeds and Cook properties, and design funding for a new tot lot at DeFazio playground. The application deadline for funding that will be recommended at the May 2024 Annual Town Meeting is November 1, 2023.		
Budget Changes		
The overall budget for the Community Preservation Committee remains the same, but there have been adjustments to individual line items. The amount for staff support has increased to reflect the addition of a part-time Administrative Coordinator in addition to the staff liaison. The budgets for postage, legal notices, office, supplies, and signs have been decreased to account for the above addition, and also to be more reflective of the Committee's actual spending. The budget for proposal support/consultants has been adjusted to better reflect the needs of the Committee.

Fiscal Year 2025 Proposed Budget

Townwide Expense Budget			
Townwide Budget		Minuteman Assessment	
Purpose of the Budget			
Minuteman School is a public regional vocational/technical high school. The District includes nine member towns: Acton, Arlington, Bolton, Concord, Dover, Lancaster, Lexington, Needham and Stow. In accordance with M.G.L. c. 74, Minuteman also provides services to surrounding non-member communities on a tuition basis, if space is available. Minuteman is designed to provide a combination of career-focused high school learning and college preparation.			
Budget Activities			
The Minuteman assessment is spread among the member towns and fluctuates based on the total change in the Minuteman budget versus member town enrollment. This budget estimate is based on budget growth assumptions and Needham’s share of the total enrollment, as well as assumptions about Needham’s share of the capital investment in the new High School. The final assessment will be available in early 2024. Historical full-time student enrollment is shown below:			
Full-Time High School Student Enrollment			
2014/2015 School Year 22			
2015/2016 School Year 24			
2016/2017 School Year 21			
2017/2018 School Year 20			
2018/2019 School Year 21			
2019/2020 School Year 24			
2020/2021 School Year 27			
2021/2022 School Year 31			
2022/2023 School Year 39			
2023/2024 School Year 46			
Ten Year Change: 109%			
Budget Changes			
The Minuteman Assessment is based on the following components: minimum required contribution, operating assessment, transportation, debt and capital assessment, building project debt, and post-graduate assessments. The Minuteman School District has not completed its estimate of the assessments for member towns. Based on early projections and increasing Needham enrollment, the estimated budget represents a 17% increase over the FY2024 per student cost. The budget request will be updated when preliminary assessments are released.

DANIEL E. GUTKANST, ED.D.
SUPERINTENDENT OF SCHOOLS

Date: December 12, 2023
To: Needham School Committee
From: Daniel E. Gutekanst, Superintendent

Enclosed, please find the proposed FY 2024/25 operating budget for the Needham Public Schools. The proposed plan totals **\$97,694,162** and represents a **\$5.5 million, 6.01% increase** over the current year budget of **\$92,155,973**.

FY25 Budget Summary

This request provides the resources required to address existing staff contractual obligations, enrollment growth, special education needs, and the District's Portrait of a Needham Graduate Five-Year Strategic Plan. In addition, the budget plan provides the resources we require to continue to meet ongoing student needs resulting from disrupted learning and to address equity needs and interventions.

Highlights of the enclosed plan are identified below.

At the **elementary level**, the proposal includes the additional resources and staffing needed to: maintain elementary class sizes at or below School Committee policy guidelines (Eliot, Newman); strengthen English Language Learner (ELL) and Reading infrastructure (Sunita

Williams, Eliot), and provide additional and targeted special education and counseling support, including continued funding for the new Intensive Learning Center (ILC) classroom (Newman).

At the **middle school level**, the proposal includes additional resources and staffing to do the following: provide enhanced ELL and special education services (High Rock, Pollard), and ensure that eighth grade students have ongoing access to American Sign Language (ASL) instruction.

At the **high school level**, resources and staffing are proposed to: support the 9th and 10th grade Interdisciplinary Programs (IP); provide additional financial resources for athletics; and enable all 11th grade modern world languages students to take the AVANT STAMP test.

At a **district level**, we include additional funding for: transportation, including an additional Connolly bus, a subsidy increase to help fee-paying families, and additional funds for special education transportation; a fourth installment of funds to replace technology and one-to-one devices; a pay rate for substitute teachers; additional technology licenses and subscription costs; more staff training on mandated topics and responsive classroom; and theater inspections and flame retardancy treatment for stage curtains.

The plan also addresses the District's need to maintain services; to provide reasonable, fair, and competitive wages (given current inflationary rates); and to meet a substantial increase in the cost of tuition for students enrolled in special education private schools.

Significant Assumptions Incorporated into the FY 2024/25 Budget:

- ***Enrollment.***

- The budget is based on a preliminary projected PreK-12 enrollment of 5,560 students, an increase of 13 students over the current year enrollment of 5,547. Although the overall enrollment is still below the pre-Pandemic enrollment of 5,707 (FY20), elementary enrollment has rebounded quickly. The increase in elementary enrollment and the need to meet student needs resulting from disrupted learning, are significant drivers of the additional staffing and operational resources requested.
- As noted above, elementary enrollment is projected to increase, from 2,512 in the current year to 2,535 next year, requiring the addition of a new classroom teachers at Eliot and Newman schools.
- In addition, ongoing funding also is required to continue the ILC classroom added at Newman School during the current year. This request includes resources for teachers, therapeutic specialists, and instructional assistants.

- ***Cost of Living Adjustments.*** A cost-of-living adjustment is provided for school staff, including teachers, administrators, instructional assistants, and administrative support personnel. The following increases have been set by collective bargaining contracts for

FY 24/25: a 2.70% increase for Unit A (teachers), a 2.70%/2.75% increase for Unit B (administrators), and a 2.0% increase for Unit C (instructional assistants) and for Unit D (administrative assistants). The Units C and D contracts also restructure salaries in such a way as to increase Needham's competitiveness with our comparison districts, and promote the recruitment and retention of staff, given general economic conditions. A modest cost of living adjustment is included for other, non-union employees. Level funding is proposed for all non-salary accounts.

- ***Out-of-District Tuitions.*** Out of District tuition and transportation expenses increase by \$1,398,651 in FY25, including \$1,223,507 for tuition and \$175,144 for transportation.
 - o Total tuition costs increase by \$1,582,319 over the prior year, reflecting the effect of OSD's 4.69% cost of living adjustment for FY25, a \$1,223,507 increase in the cost of students attending high-cost residential placements, and an increase in the average cost of private and collaborative day placements over and above the OSD increase. These additional expenses are offset by \$358,811 in new Circuit Breaker revenue for FY25, an amount which is much less than the projected expenditure increase. The net required increase of \$1,223,507 is included within the recommended FY25 operating budget request.
 - o Out of district transportation costs increase by \$175,144. Although ridership remains relatively steady at 70-77 students, the number of students being transported as singleton riders is higher than in the past, as is the number of Boston students riding vans instead of the METCO buses. In addition, we are transporting some students for longer distances at higher rates. The FY25 budget reflects these changes, as well as a five percent rate increase for our contract services provider.

Budget Development Process & Priorities:

The FY 2024/25 budget development process began earlier in the school year, when the School Committee identified budget priorities to guide the administration in the budget planning process. These included:

- o The District's Portrait of a Needham Graduate Strategic Priorities.
- o The need for highly qualified staff, teaching within established student/ teacher ratio guidelines.
- o The ongoing refinement of curriculum, instruction and assessment practices; and
- o The need to develop and maintain educational resources and a technology infrastructure that supports student learning and meets District goals.

Administrators developed budget requests in the Fall and submitted them for consideration and discussion in November. The Central Office Administration then met with principals and program directors to review and discuss budget requests in light of the School Committee's identified priorities and district goals. Finally, the Superintendent consulted with the Town Manager and the School Committee and Finance Committee budget liaisons to understand Town and School needs as they relate to the overall budget planning process.

What are the Capital Project Priorities for FY 2024/25?

The requested capital budget for FY25 includes funds for technology and equipment replacement, and for feasibility designs for Master Plan Facilities Projects. These additional requests include:

- \$661,150 for school technology;
- \$62,630 for school vehicle replacement;
- \$66,767 for copier replacement;
- \$25,000 for school furniture replacement;
- \$32,673 for NHS fitness center equipment replacement;
- \$54,000 to update the structures on the Newman preschool playground;
- \$344,558 in theatrical lighting, sound and rigging repairs and upgrades; and
- \$3.95 million in feasibility design funds for Pollard Middle (Master Plan Option C1a).

As of this writing, the Massachusetts School Building Authority (MSBA) Board will consider a recommendation to invite the Pollard School into its eligibility period – an important first step in securing state funding for this project. In addition, the School Department supports the school-related operating and capital facility requests submitted by the Town's Building Maintenance Department.

What are the Next Steps in the Budget Process?

The School administration is eager to discuss this preliminary budget request with the School Committee and members of the community. Additional meetings and deadlines include:

- **December 13th:** School Committee and Finance Committee liaisons budget workshop
- **December 19th and subsequent meetings in January:** School Committee reviews the Superintendent's budget request
- **December and January:** Finance Committee liaisons meet with School Committee liaisons and Central Office staff to review and discuss requests.
- **January 2nd:** Town Manager consults with School Committee about the budget plan and releases FY25-29 Capital Improvement Plan

Fiscal Year 2025 Proposed Budget

- **January 16th:** School Committee holds a public hearing on the budget plan.
- **January 23rd:** The School Committee votes the budget plan and sends the budget to the Town Manager and Finance Committee.

I look forward to presenting the budget plan to the School Committee, Finance Committee, and other Town boards and community members in the weeks ahead. We will have thoughtful and sometimes challenging discussions, and I know our focus will be on ensuring a reasonable and appropriate level of funding is available to support the community's greatest assets: its schools and the young people they serve.

Title	Appropriate Funds from Outside Sources		
Fiscal Year	2025	Department	Department of Public Works – General Fund
Funding Amount	TBD	Funding Source	Misc.
Article Information			
Text of Proposed Article: "To see if the Town will vote to appropriate funds from [TBD] in the sum of [\$XX,XXX] for the purpose of [TBD], said sum to be spent under the direction of the Town Manager, and take any other action relative thereto." The Town often receives monies from outside entities, such as Eversource or through the Planning Board process, to spend for a specific public works infrastructure purpose. In order to be able to spend these funds, Town Meeting must appropriate the received sum for the intended purpose. The ability for the Town to receive these funds often relies on the Town committing to spending the funds on the intended purpose. The exact payer, sum, and purpose of the funds will be determined prior to Town Meeting, as it will vary.

Title	Facilities Maintenance Warrant Article		
Fiscal Year	2025	Department	Department of Public Works – General Fund
Funding Amount	1,000,000	Funding Source	General Fund
Article Information			
“To see if the Town will vote to raise and/or transfer and appropriate the sum of \$1,000,000 for the purpose of funding the Facilities Maintenance Program, said sum to be spent under the direction of the Town Manager, and to meet this appropriation that \$1,000,000 be transferred from Free Cash; or take any other action relative thereto.” The Facilities Maintenance Program includes the annual maintenance of public buildings used throughout Town and by the School Department, including, but not limited to, asbestos abatement, HVAC work, painting, and other repairs and necessary upgrades. In 2020, the School Facilities Master Plan was released, identifying a number of major repairs needed in the school buildings. DPW is requesting \$1,000,000 to continue to address the recommended repairs in the Master Plan as well as other planned projects necessary to the continued operation of Town buildings. The anticipated projects for the FY2025 funding request include replacing doors and entrances at Town Hall, repairing or replacing collapsible wall partitions at the Eliot and High Schools, replacing the elevator at the Library, and replacing flooring at the Eliot School. Also included under this article are planned maintenance programs that use a rotating annual schedule by building, such as duct cleaning at the High School and wood floor refinishing at the Mitchell, Broadmeadow, Eliot, and Pollard Schools, as well as Town Hall. Additional projects will be identified as we approach FY2025.

Special Financial Warrant Article Request DSR5			
Title	Funding to Retain Scientific Experts and Consultants		
Fiscal Year	FY2025	Department	Health & Human Services/ Public Health Division
Funding Amount	50,000	Funding Source	Operating Budget
Article Information			
The Public Health Division requests funding to support a Board of Health (BOH) goal, a Select Board priority, and a pressing community need. The request is to establish a source of funding that allows the BOH to retain outside scientific experts and consultants to evaluate novel and emerging health issues about which the Board and the Public Health Division lack the necessary expertise. For example, this fund would allow for the retention of an outside expert to evaluate a proposed utility project that has unknown or uncertain environmental and health impacts, such as the Eversource Underground Utility Line Redundancy project. When there is a permit application process, the BOH has the ability (via regulation) to require applicants to pay an 'outside consultant fee' so that the BOH may retain an independent expert to review the application and to advise the BOH. This funding request addresses the need to access expertise to evaluate community impact in instances when there is no public health division permit application, such as large-scale utility projects. A previous Financial Warrant Article for \$50,000 was approved in FY 2022 and was expended just before the end of FY 2023 to support the costs of unexpected environmental testing for Claxton Field following a negotiation with MA DEP that required sampling and analysis of the soil at that site.

Title	Funding to Retain Scientific Experts and Consultants
health challenges in Needham is a high priority of the BOH as one of the Boards priorities is to <i>"Utilize all legal and regulatory actions available to improve and protect the public's health"</i>. To continue to improve and protect health, having these funds available will allow the department to hire consultants to help provide expertise and scientific guidance. Additionally, one of the Select Board's New FY24-25 Goals is Goal #7: Environmentally Sustainable <i>"Needham is a sustainable, thriving and equitable community that benefits from and supports clean energy; preserves and responsibly uses the earth's resources; and cares for ecosystems."</i> Funding this request would help achieve the Board of Health and Select Board goals/priorities and strengthen Needham's capacity to assess environmental health impacts and continue to protect the Needham community.	
V2025	

Special Financial Warrant Article Request DSR5			
Title	Planning Consulting Assistance		
Fiscal Year	2025	Department	Planning and Community Development
Funding Amount	\$80,000	Funding Source	Tax Levy
Article Information			
The Planning and Community Development Department is requesting an appropriation of \$80,000.00 for Planning Consulting Assistance. These funds would provide support to the Planning and Community Development Department, enabling the Director to engage professional services from time to time to support two of its functional areas: (1) the regulatory functions of the Planning and Community Development Department, which oversees permit granting for the Planning Board, the Zoning Board of Appeals, and the Conservation Commission; and (2) the land use and town planning initiatives of the Planning Department. Funding for this activity was previously approved in FY2015 in the amount of \$45,000.00 and in FY2022 in the amount of \$60,000.00. Examples of projects completed under the FY2015 appropriation include build-out and traffic analysis for the Gould Street Industrial 1 and Reservoir Street Industrial Districts; 3D modeling and presentation drawings for the proposed Highway Commercial 1 zoning district at the Muzi Ford and Channel 5 site; and fiscal and traffic impact analyses for the proposed Highway Commercial 1 zoning district. The FY2022 appropriation has been allocated in whole to the MBTA Communities Planning Study under M.G.L. c. 40A Section 3A currently underway. The need for such professional services in both function areas is noted below. <u>Regulatory Functions:</u> The permit-granting and land-development plan review function of the boards that the Planning and Community Development Department supports has called for contracted professional services over the last decade, and this is expected to continue over the next few years. The Director anticipates that professional services in such areas as traffic/transportation engineering and fiscal impact analysis to complement the expertise of Town staff would be procured. Having access to professional expertise across multiple land use disciplines in a complex regulatory environment has proven essential to allowing the Department to effectively address the permitting issues coming before it. In addition, the funds would be used to help the Department research and advise other appropriate regulatory Boards when presented with complex development projects. <u>Land Use and Planning Initiatives:</u> The use of contracted services is also anticipated to support the Planning Department's planning and zoning initiatives, and in some cases this funding would supplement funding from other sources. Several planning projects which the Planning Board is considering are as follows. The Planning Board wants to conduct a review and analysis of the Town's Zoning By-Law parking standards. This is an advancement of the recommendations contained in the Needham Center and Needham Heights Parking Study completed by Stantec in March 2023. A review of the Town's off-street parking requirements for all zoning districts would be reviewed, compared to national standards, best practices and actual utilization levels to			

Special Financial Warrant Article Request DSR5	
Title	Planning Consulting Assistance
	assist in determining appropriate parking ratios for implementation across all zoning districts. Adjustments and clarifications to parking ratios in zoning to make them simpler to understand, to better reflect actual demand and to be more context sensitive to broader Town goals would be developed. Relevant zoning language would be prepared with supportive table and graphics to implement the recommended standards. • The Planning Board wants to review the goals of the 2009 Needham Center Plan and the steps completed to date to meet those goals to determine if adjustments to the zoning for Needham Center and Chestnut Street are warranted. The Board anticipates that this effort will include a workshop to present accomplishments to date and to identify any constraints to redevelopment not anticipated in the 2009 Needham Center Plan. The 2009 Plan detailed the Village Concept that called for "diverse, mixed-use districts combining residential, commercial and civic uses in a compact area" and proposed new zoning regulations to "encourage massing that helps define the street edge and that serves as a backdrop to the streetscape." Some projects carrying out this vision have occurred over the past decade - the mixed-use building at 50 Dedham Avenue, the Beth Israel Deaconess Hospital's new facilities, the new Needham Public Safety building, and a new mixed-use building at 15-17 Oak Street, but most of the under-developed areas identified in the Plan have yet to fulfill their full potential. The purpose of this review would be to examine current impediments to redevelopment and to make the warranted adjustments. Suggestions from the Needham 2025 plan will be examined along with other identified constraints. The Board anticipates that this planning effort will provide a framework for informing adjustments to both the zoning and implementation plan for Needham Center and the Chestnut Street corridor moving forward. • The Board wants to review the land use and policy goals of the Business District located along Highland Avenue between May and Rosemary Street. The land use and dimensional regulations for this district have not been updated in over 50 years. Prior to 1989, all the Town's commercial areas were zoned under a single "Business District" designation. Recognizing that each commercial area had unique attributes and land use objectives, beginning in 1989 the Town began the process of studying each area to establish a more tailored regulatory framework for the studied area consistent with the Town's land use objectives. This subsequently led to the creation of the Needham Center Business District, Chestnut Street Business District, Avery Square Business District, Commercial 128 Business District, the Hillside Avenue Business District, and the Neighborhood Business District. The Business District located along Highland Avenue between May and Rosemary Street is the only remaining Business District on which the land use and regulatory profile has not yet been updated. • The Board also wants to review the land use and policy goals of the Town's Industrial Districts, particularly the Industrial District on Hillside Avenue. • A very important goal for this coming year is to review and consider amending the Inclusionary Zoning provisions of our Zoning By-Law. The Town has incorporated inclusionary zoning mandates into its Zoning By-Law for several Overlay Districts, including the independent living units in the Elder Services Zoning District, as well as zoning for the Needham Center, Lower Chestnut Street, and Garden Street Overlay Districts. In these areas at least 10% of the units must be affordable to those earning at or below 80% of area median income and meet all other state requirements for inclusion in the Subsidized

**Special Financial Warrant Article Request
DSR5**

Title	Planning Consulting Assistance	
Housing Inventory. More recent zoning as part of the Mixed-Use Overlay District, in the Highland Avenue/128 area, as well as changes to the Neighborhood Business District increased the affordability requirement to 12.5% with the option of a payment in-lieu of units provision in the case of the Neighborhood Business zoning. New zoning for the Carter Mill development at Avery Square also included a 12.5% affordability requirement. More than one-third of the municipalities in the state have such inclusionary zoning in place with percentage of affordable units in multi-family rental or condominium developments required at a range of between 10% and 15% or even up to 20% of the units. The level of income to be reached is also a factor to be considered. Not having such Inclusionary Zoning in place for all our zoning districts is causing the Town to miss opportunities for new affordable units as part of recent subdivisions and a new 8-unit residential project on Hunnewell Street for example. • Another goal for the coming year is to review the so-called Large House Amendments that were made to our residential districts a few years ago – have they been effective at addressing the concerns of residents that reconstructed houses are too large and lack the architectural features that are typical of Needham neighborhoods? In summation, the above noted items provide an overview of potential areas of planning initiatives in which professional services might be required.

Title	Removal of Fire Alarm Wire Throughout Town		
Fiscal Year	FY2025	Department	FIRE
Funding Amount	\$201,885	Funding Source	General Fund
Article Information			
This request is to fund the removal of all the 100 Mil fire alarm wiring on all the circuits throughout Town. This wire is no longer being utilized. We received a quote from LW Bills in the amount of \$403,536. This quote is to drop the wire to the ground and the grounded wire would need to be removed by the Fire Department. It does not include Police details. We have a plan for the project to be completed by the Fire Department using our own staff and equipment. There are 13 circuits. We have come up with a total of \$201,885 for the project in its entirety which is over 50% less than the outside vendor quote we received. The breakdown of the cost is as follows: 35 weeks, two days per week, 8 hours per day, 4 personnel per day Overtime \$169,205 Police Details \$29,680 Dumpster rental \$3,000 Depending on the market value of copper at the time of disposal, there may be an offset for the cost of the dumpster rental, and it may return a profit to the general fund. We have confirmed that there are no permits required from DEP as copper is a clean metal.

Fiscal Year 2025 Proposed Budget

Special Financial Warrant Article Request DSR5			
Title	Small Repair Grant Program		
Fiscal Year	2025	Department	Planning & Community Development
Funding Amount	\$50,000	Funding Source	Tax Levy
Article Information			
The Small Repair Grant Program provides financial assistance to low-and moderate-income Needham residents to make repairs and alterations to their homes for health and safety reasons. Up to \$5,000 in grant funding is currently available per participant, and applications are evaluated and prioritized based on the extent of the health and safety problems and the financial need of the applicants. Eligible applicants must be 60 years or older or have a disability with incomes at or below 80% of area median income. Grants are awarded during two funding rounds per year. This request seeks to provide funding for the program in the 2025 fiscal year. Program funding in the amount of \$50,000 was previously appropriated in the 2020 fiscal year, 2022 fiscal year, 2023 fiscal year and 2024 fiscal year. Because CPA funding is restricted to housing improvements involving properties that were acquired or built with CPA assistance, funds from the General/Enterprise Fund have been used. Eligible work items include minor plumbing or electrical work, light carpentry, doorbell switches, window or door repairs or replacements, railing repairs, broken or clogged gutters or downspouts, step or porch improvements, work on locks, smoke/CO2 detectors, weather stripping, bathroom grab board, raised toilets, hand-held shower heads, among others. The Small Repair Grant Program responds to findings and recommendations in the Council on Aging and Needham Public Health Division's Assessment of Housing and Transit Options for Needham seniors which indicated that one of the major barriers to aging in place involves the costliness of modifying existing homes to increase accessibility. Repairs made during the Program's first years of operations indicate that most repairs related to accessibility, including walkway and railing improvements for example. Most repairs also involved work on the exterior of homes which was not surprising given the pandemic. Almost all of the grants involve the maximum amount available of \$4,000 for the first year and \$5,000 for the second and third. All program funds appropriated to date have been committed with a total of 60 residents served over the life of the program.

Title	Transportation Network Company – Transportation Improvements		
Fiscal Year	2025	Department	Department of Public Works – General Fund
Funding Amount	TBD	Funding Source	Commonwealth Transportation Infrastructure Enhancement Trust Fund - MassDOT
Article Information			
Text of Proposed Article: "To see if the Town will vote to appropriate funds from the Commonwealth Transportation Infrastructure Enhancement Trust Fund in a sum of [TBD] for the purpose of infrastructure improvements, said sum to be spent under the direction of the Town Manager, and take any other action relative thereto." The Transportation Network Companies ("TNCs") in Massachusetts for the 2017 calendar year and the requirement of a \$0.20 per-ride assessment. St. 2016, c. 187, § 8. The Transportation Network Company Division ("Division") of the Department of Public Utilities ("Department"), as the oversight authority for TNCs, has recently collected assessments from all TNCs and will be proportionately distributing the funds to municipalities. Chapter 187 of the Acts of 2016 established a Commonwealth Transportation Infrastructure Fund ("Fund"). St. 2016, c. 187, § 8(a). As required, each TNC has submitted to the Division the number of rides from the previous calendar year that originated within each city or town and a per-ride assessment of \$0.20, which has been credited to the Fund. St. 2016, c. 187, § 8(a). One-half (½) of the amount received from the Fund will be distributed proportionately to each city and town based on the number of rides that originated in that city or town. St. 2016, c. 187, § 8(c)(i). The distributed funds are special revenue. The funds must be used "to address the impact of transportation network services on municipal roads, bridges and other transportation infrastructure or any other public purpose substantially related to the operation of transportation network services in the city or town including, but not limited to, the complete streets program established in [G.L. c. 90I, § 1] and other programs that support alternative modes of transportation." St. 2016, c. 187, § 8(c)(i). The exact amount will be determined as the time gets closer and is dependent on the Commonwealth.

Fiscal Year 2025 Proposed Budget

Special Financial Warrant Article Request DSR5			
Title	Water Fleet Refurbishment Program		
Fiscal Year	2025	Department	Department of Public Works – Water Enterprise
Funding Amount	75,000	Funding Source	Water Enterprise
Article Information			
"To see if the Town will vote to raise and/or transfer and appropriate the sum of \$75,000 for the purpose of funding the Water Fleet Refurbishment Program, said sum to be spent under the direction of the Town Manager, and to meet this appropriation that \$75,000 be transferred from Free Cash; or take any other action relative thereto." In FY2018, the Fleet Division implemented a refurbishment program for Fleet assets and related components within the General Fund. This article would be a refurbishment program for the Water assets within the Water Enterprise Fund. The goal of this program is to extend the life cycles of the vehicles, increase operational safety, and eventually reduce reactive maintenance. This will be a recurring request, spread out based on need. Refurbishment work on the DPW's fleet includes corrosion abatement, treatment, and refinishing, replacing corroded chassis, air brake tanks, and brake valves, rebuilding primary components, replacing suspension systems and brakes, and updating lighting and reflective striping. Spending funds to refurbish the existing Water fleet helps to extend life cycles. While this has been an ongoing practice of the DPW, current market conditions are creating a growing need to extend a vehicle's lifecycle longer than initially anticipated, as replacement vehicles are taking an unprecedented amount of time to be delivered. The Fleet Division must invest additional resources into the planned maintenance of their equipment in order to ensure continued operations.

1. This request was submitted last year. 2. This is a recurring special financial warrant article intended to fund lifespan-extending repairs and maintenance on DPW Water Division vehicles and equipment. It is requested based on need as previous allocations are expended. 8. This program will continue as additional fleet repair and maintenance projects on DPW Water Division vehicles and equipment will be identified as necessary every year. However, the specific			

Special Financial Warrant Article Request DSR5	
Title	Water Fleet Refurbishment Program
maintenance items completed under this request will be performed as needed, and as a result, will vary from year to year. 12. This program will maximize the useful lifespan of Water Division fleet assets and ensure that Water personnel are utilizing vehicles that are safe and effective in providing operational services to the Town. This program is in support of Select Board Goal #6 that Needham "Models stewardship and sustainability of the Town's [...] physical assets."	
V2025	

EXECUTIVE SUMMARY

The Recommended Capital Plan

The Town Charter requires that the Town Manager, after consultation with the Select Board, submit in writing to the Board a careful, detailed estimate of recommended capital expenditures showing specific amounts necessary for each office, department, and activity, as well as a statement of the amount required to meet the debt service requirements and other indebtedness of the Town. This plan includes the proposed FY2025 Capital Budget, which will be recommended to the Finance Committee and ultimately to Town Meeting for consideration. The projects presented for FY2026-2029 reflect an assessment by municipal departments and the School Committee of future capital needs and are primarily shown for planning purposes. While many of the out-year projects may be recommended for funding in future capital budgets, the plan is fluid and projects may be added or removed as circumstances change. Proposed financing for the recommended FY2025 Capital Budget is shown in Table 1.

Table 1
Proposed Financing Plan

Fund	Cash	Debt	Other	Total
General Fund Tier 1	\$9,927,361	\$6,475,000	\$1,860,000	\$18,262,361
General Fund Tier 2	\$691,707			\$691,707
General Fund Total	\$10,619,068	\$6,475,000	\$1,860,000	\$18,954,068
Community Preservation Fund	\$1,857,000			\$1,857,000
Sewer Enterprise	\$1,397,917	\$12,000,000	\$202,083	\$13,600,000
Water Enterprise	\$557,769		\$623,045	\$1,180,814
Total (all funds)	\$14,431,754	\$18,475,000	\$2,685,128	\$35,591,882

Eight Facility Plan

In October 2016, the Select Board convened a Capital Facility Summit and committed to planning for the renovation, reconstruction, or construction of eight facilities: Rosemary Pool, the Public Safety Building, Fire Station #2, the Memorial Park Fieldhouse, the DPW Complex, the Hillside School (now Sunita L. Williams), Needham High School, and Emery Grover. Over the last seven years, the Town has made significant progress on this plan.

Fiscal Year 2025 Proposed Budget

Project	Status
Rosemary Pool	The Rosemary Recreation Complex includes two pools, parking, and office and programming space for the Park & Recreation and Health Departments. The facility opened in 2018, with the first full pool season operating in 2019.
Public Safety Building & Fire Station #2	Construction of the new Fire Station #1 was completed in 2020, and the Fire Station #2 reconstruction was complete in November 2021. Occupancy of the new Police Station occurred in the winter of 2022. The public safety communications network, including towers in four locations, is also complete.
Memorial Park Fieldhouse	The Town dedicated the newly constructed fieldhouse in September 2019.
DPW Complex	This project is progressing in phases. A new fuel station was installed in 2017, and construction of the Jack Cogswell Building storage facility was completed in the fall of 2019. Continued planning for the phased reconstruction of the DPW operations building at 470 Dedham Avenue is a priority of the Select Board. Funding for a refreshed feasibility study was approved at the 2022 Annual Town Meeting, and funding for design of the next phase of the project is included in this plan.
Sunita Williams Elementary School	The new school at 585 Central Avenue replaced the Hillside School on Glen Gary Road, and opened in September 2019.
Needham High School	The cafeteria was expanded in 2017, and the construction of eight new classrooms and "A" gym renovations were completed in 2018.
Emery Grover Building	The October 24, 2022 Special Town Meeting approved supplemental funding for the renovation of the Emery Grover School Administration Building. Construction began in early 2023, and School Administration staff have been relocated to the Hillside School. Occupancy is planned for late 2024.

Other Highlights

In addition to the above projects, the Town has been invited to participate in the eligibility phase for the reconstruction of the Pollard School. Funding for the feasibility study – which must be completed in collaboration with the Massachusetts School Building Authority – is included in the recommended cash capital items. This significant investment – which is required to be by cash – has resulted in changes to priority funding for other items. The plan also includes design funds for phased improvements to the Library beginning in FY2025 and renovations to the Center at the Heights in future years. The FY2025 capital budget includes funding for code compliance repairs to school auditorium light and sound – conversations about future upgrades will continue. Other large projects include environmental remediation and field renovation at Claxton Field, and replacement and expansion of the tennis courts at the High School.

In the coming years, the Town will also be required to make significant investments to improve stormwater quality. To this end, the Select Board proposed and Town Meeting voted to establish a Stormwater Stabilization Fund, appropriated to in part by a newly established stormwater fee, which will be implemented in 2024. In addition, to address an increasing number of high-intensity rainstorms, the Town will also need to assess opportunities to increase stormwater capacity. These efforts will likely require funding in the operating budget (for maintenance) and capital budget (for construction items).

Capital Planning 101

Capital Improvement Plan

A capital expenditure is defined by Needham General By-laws as the acquisition, construction, renovation, betterment, or improvement involving land, public buildings and facilities; water and sewer system laterals, mains and appurtenances; and equipment or vehicles; provided that the cost is \$25,000 or more and the improvement will have a

useful life of five years or more; or any planning, feasibility, engineering or design study in preparation for such capital expense.

The Capital Improvement Plan (CIP) is a multi-year tool used to coordinate the financing and timing of major public improvements for the Town of Needham. It contains a list of capital projects proposed for the Town within the next five years and reflects the recommendations of citizens, boards, commissions, and staff from each of the Town departments. The CIP identifies each proposed project and presents a summary description, estimate of cost, method of financing, and a schedule of implementation. Capital planning helps ensure that the community is positioned to:

- preserve and improve its basic infrastructure through construction, rehabilitation and maintenance;
- maximize the useful life of capital investments by scheduling major renovation, rehabilitation, or replacement at the appropriate time in the life cycle of the facility or equipment;
- identify and examine current and future infrastructure needs and establish priorities among projects so that available resources are used to the community's best advantage; and
- improve financial planning by balancing needs and resources and identifying potential fiscal implications.

Operating Budget and Capital Budget

The Town's capital budget and operating budget are developed separately but are closely linked. The annual operating budget provides for general municipal service delivery, to include personnel, supplies, and other contractual services, as well as certain capital equipment. Most appropriations in the annual operating budget are for a single fiscal year. In contrast, the capital budget is a multi-year plan designed to expend monies which add to the physical assets of the Town. Capital projects typically require expenditures that take place beyond a single fiscal year, funding with debt because of significant costs shared by current and future beneficiaries, the systematic acquisition of equipment over an extended period in order to implement major operating systems or programs, and scheduled replacement or maintenance of specific elements of physical assets.

The operating and capital budgets are closely interwoven because operating costs related to capital projects are estimated and incorporated into the operating budget. Many capital projects have an impact on operating costs once constructed or acquired. Town practice is to project the net effect of a capital project on the operating budget. While maintenance and repair costs may be lower in a new facility, larger and more modern facilities are often more costly to operate. In addition, since many capital projects are financed through municipal debt, repayment of that debt becomes part of the operating budget and is incorporated into the Town's forecasting models. The necessity to incur some degree of debt in order to finance the CIP carries with it the burden to effectively manage that debt within the Town's financial resources.

Best Practices

The following best practices have been used in the development of the FY2025 Operating and Capital Budgets:

1. Current revenues must be sufficient to support current expenditures.

2. The operating and capital budgets will be developed in conformance with the Town's comprehensive financial policies and must not be reliant on one-time revenue or unsustainable practices.
3. The five-year Pro Forma budget is a preliminary planning tool and should be updated to ensure that underlying assumptions reflect changing conditions and data.
4. Debt must not be used to fund ongoing operating expenses and will only be issued for capital improvements greater than \$250,000 with a useful life of five years or more.
5. The use of Free Cash to fund operations will be minimized by limiting such use to no more than 2% of the prior year's appropriated operating budget, or the actual turn back, whichever is lower.
6. Adequate contingency funds will be maintained.
7. Appropriate maintenance and replacement funds will be allocated to ensure that capital facilities and equipment are properly maintained.
8. The operating and capital budgets must be resilient, allowing the Town to maintain existing service levels, withstand typical local and regional economic disruptions, and meet the demands of natural growth, decline, and change.
9. The operating and capital budgets must be sustainable, meeting the needs of the present without compromising the ability of future generations to meet their own needs.

Budget Priorities

The Select Board has adopted seven goals that serve as key guidelines in the evaluation and prioritization of departmental spending requests.

- Goal #1: Healthy and Socially Thriving – Needham residents enjoy plentiful recreational, cultural, and educational opportunities in an environment that upholds human rights, celebrates diversity, and fosters a sense of connection among neighbors, thus strengthening their bond to the community they proudly call home.
 - Cultivates a wide range of recreational, cultural, educational, civic, and social opportunities for all socioeconomic and age groups;
 - Supports the physical and mental well-being of its community members;
 - Fosters inclusion, diversity, and equity in order to become a culturally responsive, anti-racist, and anti-biased community; and
 - Values public art.
- Goal #2: Economically Vital – Needham welcomes investment in local businesses and has a thriving local economy that contributes to a growing local tax base to support desirable community amenities and programs.
 - Has a growth mindset and encourages business development and redevelopment;
 - Supports an environment for creativity, innovation, and entrepreneurship;
 - Promotes a well-educated, skilled, and diverse work force that meets employers' needs;
 - Fosters a collaborative and resource-rich regional business climate;
 - Attracts, sustains, and retains a diverse mix of businesses, entrepreneurs and jobs that support the needs of all community members; and
 - Supports financial security and economic opportunity.
- Goal #3: Livable– Needham values diversity and a broad spectrum of housing options. The community is supported by well-maintained public infrastructure and desirable amenities that accommodate a variety of community needs.

Fiscal Year 2025 Proposed Budget

- Promotes and sustains a secure, clean, and attractive place to live, work and play;
- Supports an increase of housing, including a variety of types and price points;
- Provides high-performing, reliable, affordable public infrastructure and Town services;
- Encourages and appropriately regulates sustainable development; and
- Supports and enhances neighborhood livability and accessibility for all members of the community.
- Goal #4: Accessible and Connected – In Needham, people can easily and affordably travel to their desired destinations without relying solely on cars.
 - Supports a balanced transportation system that reflects effective land use, manages congestion, and facilitates strong regional multimodal connections;
 - Offers and encourages a variety of safe, comfortable, affordable, reliable, convenient, and clean mobility options;
 - Applies Complete Street principles to evaluate and prioritize bicycle and pedestrian safety;
 - Coordinates with state and federal leaders to ensure access to safe, reliable, and efficient public transit;
 - Provides effective infrastructure and services that enables people to connect with the natural and built environment; and
 - Promotes transportation options to remain an age-friendly community.
- Goal #5: Safe – Needham is a welcoming and inclusive community that fosters personal and community safety.
 - Provides public safety in a manner consistent with community values;
 - Provides comprehensive advanced life support level care;
 - Plans for and provides equitable, timely and effective services and responses to emergencies and natural disasters;
 - Fosters a climate of safety in homes, businesses, neighborhoods, streets, sidewalks, bike lanes, schools, and public places; and
 - Encourages shared responsibility, provides education on personal and community safety, and fosters an environment that is welcoming and inclusive.
- Goal #6: Responsibly Governed – Needham has an open and accessible Town government that fosters community engagement and trust while providing excellent municipal services.
 - Models stewardship and sustainability of the Town's financial, human, information, and physical assets;
 - Invests in making Town-owned buildings safe and functional;
 - Supports strategic decision-making with opportunities for engagement and timely, reliable, and accurate data and analysis;
 - Enhances and facilitates transparency, accuracy, efficiency, effectiveness, and quality service in all municipal business;
 - Supports, develops, and enhances relationships between the Town and community and regional partners;
 - Proactively reviews and updates Town policies and regulations and ensures compliance;
 - Promotes collaboration between boards and committees;
 - Values the local government workforce;
 - Identifies and implements strategies to hire, support and retain diverse staff at every level of the organization; and
 - Prioritizes acquisition of strategic parcels.

- Goal #7: Environmentally Sustainable – Needham is a sustainable, thriving and equitable community that benefits from and supports clean energy; preserves and responsibly uses the earth’s resources; and cares for ecosystems.
 - Combats the climate crisis;
 - Prioritizes sustainability, including transitioning from fossil fuels to clean, renewable energy;
 - Encourages the efficient use of natural resources; and
 - Protects and enhances the biodiversity and vitality of ecological systems.

Financial Benefits of Capital Planning

Needham’s capital planning initiatives have contributed to the successful maintenance of a AAA bond rating from Standard and Poor’s. This bond rating places Needham in the top tier of Massachusetts municipalities and allows the Town to borrow at a lower interest rate. Investors and bond rating agencies stress the value of a CIP for a municipality seeking to borrow funds. The absence of a rational, long-term planning instrument would weigh against the bond rating assigned to Needham by rating agencies and result in higher interest rates on bond issues and the diversion of tax dollars towards interest. Another financial benefit of the capital planning process is the avoidance of poorly timed projects. Good planning can ensure that capital improvement efforts are coordinated. In addition, significant savings can accrue to taxpayers when major capital financing is coordinated so that bonds are issued infrequently, and at times when the Town can take advantage of low interest rates.

Development of the CIP

The process for preparing the FY2025-2029 CIP and associated FY2025 Capital Budget involved active participation by the Town Manager, Deputy Town Managers, and requesting departments, boards, committees, and commissions. The Capital Budget is prepared in the context of a five-year determination of need by departments and the School Committee, in conjunction with the Town’s overall financial capacity to affordably accommodate the required debt service payments. Projected debt service payments and budgetary impacts are forecast annually to help ensure affordability and sustainability of the CIP. The Town’s capital improvement policies provide guidance for assessing capital needs. These policies define capital projects as those items requiring the expenditure of at least \$25,000 and having a useful life of more than five years. Recommended capital project requests are prioritized using the following criteria:

- the project is required to comply with State and/or Federal accessibility standards;
- the project is necessary to protect the health and safety of people; or
- the project is necessary to maintain an existing capital facility, or operation of equipment used in providing Town services.

In addition to the criteria listed above, the Town has a long practice of funding the systematic replacement of obsolete or worn-out equipment, and items requested for the improvement of operating efficiency and the equitable provision of services.

The development of the CIP occurs over the following approximate timeframe:

Late Summer — Following Town Meeting, departments are provided with their previously submitted five-year requests for review, update and the addition of the next fifth year. While requests for each year should remain the same as in the initial request, there are occasionally changed circumstances which necessitate alterations to the requests. This information is returned to the Town Manager and staff for review. The Deputy Town

Fiscal Year 2025 Proposed Budget

Manager/Director of Finance periodically reviews a five-year pro forma forecast, which is one of the tools used to forecast capital funding availability.

Autumn — The Town Manager and staff meet with each department to gain a better understanding of each request.

Late Autumn/Early Winter — The Deputy Town Manager/Director of Finance updates the preliminary debt schedules and financial forecasts in order to provide context to the capital budget as well as the five-year CIP, and the Town Manager presents the Select Board with a proposed five-year plan.

January – The Town Manager transmits the CIP, along with any recommendations made by the Select Board, to the Finance Committee by the Tuesday after the first Monday in January.

January/February/March — The Finance Committee reviews each project in the capital budget and makes recommendations on items included in the Town Meeting Warrant.

May — The Capital Budget is presented to Town Meeting for consideration.

Financing of Capital Projects

The number of capital projects to be funded must be considered in the context of the total Operating Budget, Capital Budget needs, and revenue growth. Capital improvement projects are funded through current receipts, reserves, and/or other funds such as grants.

Current Receipts – Current receipts include property tax revenue, local receipts (such as fees and charges), and state aid. This plan includes no projects to be funded from current receipts.

Free Cash – Free Cash is a function of actual revenue collections in excess of estimates and expenditures less than appropriations. Because Free Cash should not be relied upon as a recurring revenue source, the Town's practice is not to rely upon it as an operating revenue source. In this plan, we have continued the effort to minimize the Town's reliance on Free Cash to support on-going operations by limiting such use to no more than 2% of the prior year's appropriated operating budget, or the actual turn back, whichever is lower. The recommended plan includes \$9,927,361 in Tier 1 projects to be funded from Free Cash.

Capital Improvement Fund – In 2004, the Town created a General Fund Cash Capital Equipment and Facility Improvement Fund (CIF). The purpose of the CIF is to allow the Town to reserve funds to use for general fund cash capital. The CIF may be used in future years to fund the acquisition of new equipment, the replacement of existing equipment that costs less than \$250,000, and for which the Town may borrow for a period of five years or more. Projects must be included in the CIP in order to be eligible for funding through the CIF. This plan includes no projects to be funded from the Capital Improvement Fund.

Capital Facility Stabilization Fund – In 2007, the Town created a Capital Facility Stabilization Fund to allow the Town to reserve funds for design, maintenance, renovation, or reconstruction relating to the structural integrity, building envelope, or MEP (mechanical, electrical, plumbing) systems of then existing capital facilities. For this purpose, capital facility refers to any building or structure located on Town property and under the jurisdiction of the Town Manager, to include any Town-owned building,

structure, room, or space within a building, facility, park or plaza, open space, driveway, landscaped area, or other physical improvements under the administrative control of the Town. This plan includes no projects to be funded from the Capital Facility Stabilization Fund.

Athletic Facility Improvement Fund – In 2012, the Town created an Athletic Facility Improvement Fund to reserve funds for the design, maintenance, renovation, reconstruction, or construction of athletic facilities. For the purpose of the fund, athletic facilities include any Town-owned building, structure, pool, synthetic turf and natural grass turf playing field or ball diamond, and associated grounds and parking areas whose primary purpose is for organized athletic events for Needham children, adults, and school teams. This plan includes \$1,000,000 in projects to be funded from the Athletic Facility Improvement Fund.

Debt Service Stabilization Fund – The November 2, 2015 Special Town Meeting approved the establishment of a Debt Service Stabilization Fund to set aside funds to be available as necessary to pay certain debt obligations. This fund is intended to be part of the Town's overall planning strategy for addressing capital facility needs. The fund would provide added flexibility to maintain the Town's capital investment strategy by smoothing out the impact of debt payments in years when the debt level is higher than is typically recommended. The fund would also be beneficial at times when interest rates are higher than expected. The plan for the fund is designed to ensure that the monies are not depleted in a single year, and that the amount available for appropriation is known before the budget year begins. All appropriations to and from the fund require Town Meeting action. This plan includes no projects to be financed through use of the Debt Service Stabilization Fund.

Retained Earnings – Two of the Town's operations – water and sewer – are accounted for as enterprise funds. The revenues and expenditures of these operations are not commingled with those generated by General Fund operations. Generally, each enterprise will generate surplus funds on an annual basis. The Select Board's retained earnings policies are included in the CIP. The policies contain reserve targets to ensure liquidity and stability of operations. Surplus funds above the target are considered available for appropriation. This plan includes \$1,397,917 in Tier 1 funding from Sewer Enterprise Fund retained earnings and \$557,769 in Tier 1 funding from Water Enterprise Fund retained earnings.

Debt – The Select Board's debt management policies provide guidance in translating capital expenditures into annual debt service. This plan contains a graphic presentation of the Town's current debt service and a calculation of the Town's debt burden (annual debt service as a percent of total Town revenues). The figures used in calculating the debt burden are derived from the Town's long-term debt service schedule that is also included. This plan includes \$6,475,000 in projects to be funded through General Fund debt.

Community Preservation Fund – The Community Preservation Act (CPA) allows cities and towns to raise monies through a surcharge on the tax levy. These funds may then be used to acquire, create and preserve open space, acquire and preserve historic resources, create, preserve and support community housing, and acquire, create and preserve land for recreational use. The CPA also provides for matching funds from the Commonwealth. The CPA requires that each fiscal year Needham must spend, or set aside for later spending, at least 10% of the annual revenues in the Community Preservation Fund for each of three CPA target areas: open space (but not including land for recreational use), historic resources, and community housing. The remaining 70% may be appropriated at

the Town's discretion as long as it is used for the three target areas or recreation. The statute also permits the Town to appropriate up to 5% of the annual revenue estimate for the administrative expenses of the Community Preservation Committee (CPC). Projects submitted for inclusion in the CIP that qualify for CPA funding are forwarded to the CPC for its consideration. This plan includes a recommendation for \$1,857,000 in projects contingent upon Community Preservation Funding for FY2025. The Community Preservation Committee has not yet made recommendations for FY2025 funding.

Other Available Funds – An Available Fund is actual monies which have become available and may be used to fund expenditures. Monies may become available after a project is completed and the cost was less than appropriated, monies that were previously set aside for future expenditure (e.g., stabilization fund), or monies that are received by the Town but must be specifically identified as a funding source in the Town Meeting motion. An available fund may be restricted to certain purposes (e.g., surplus bond proceeds, special stabilization funds, sale of surplus real estate, grants), or may be non-restricted and hence can be appropriated for any legal purpose. Some Available Funds carry over from year to year and others expire at the end of the fiscal year and close out to fund balance. This plan includes \$2,685,128 contingent on other available funds (including American Rescue Plan Act or other State/Federal Funding) for FY2025.

The CIP Is a Flexible Planning Tool

While much of the Town's budget and financial planning efforts are by necessity focused on one or at most two-year intervals, capital planning helps to focus attention on the Town's long-term objectives and financial capacity, and the balance between operating and capital needs. The Town is often faced with the option of reducing its capital plan in order to balance the operating budget. Having a formal and accepted plan helps to maintain a consistent level of spending for capital needs, barring extraordinary circumstances. Individual projects are evaluated against long-term objectives and in relationship to each other. By strategically programming capital projects, the Town can maintain a tolerable level of debt service and prevent unexpected changes in debt service payments.

Investment in Real Property, Facilities, Infrastructure, Equipment, Technology, and Fleet

While significant investments in many capital facilities are still required, the Town has made an extraordinary investment in public infrastructure over the past decade. The Town's success in this area is a direct result of continued and sustained focus on asset evaluation, needs assessment, careful planning, and prioritization. As noted previously, the Town has seen significant progress in several major building projects over the last few years. The Town has also continued its investment in athletic facilities, parks, and recreational amenities, such as Walker Gordon Field, Greene's Field and playground, Newman Fields, Eastman Trail, Rail Trail, Amity Path, the replacement of the synthetic turf fields at Memorial Park and DeFazio Complex, the renovation of Cricket Field, and the Rosemary Lake sediment removal project. Investment in equipment, technology and fleet is primarily in Public Safety, Public Schools, and Public Works. Table 2 shows the Town's investment in facilities and infrastructure for the five-year period FY2020 through FY2024, and Table 3 shows the Town's investment in equipment, technology, and fleet for the same period.

Table 2
Facility and Infrastructure Investment FY2020 to FY2024

Description	2020	2021	2022	2023	2024	Total	Average
Municipal Facilities	\$794,000	\$460,000	\$1,896,000	\$544,500	\$135,000	\$3,829,500	\$765,900
Fields, Open Space, Playgrounds, & Trails	\$3,662,000	\$101,500	\$2,568,091	\$2,550,000	\$1,630,000	\$10,511,591	\$2,102,318
Public Works Infrastructure Program	\$2,219,550	\$820,500	\$2,639,000	\$4,001,000	\$2,891,500	\$12,571,550	\$2,514,310
School Facilities	\$1,471,200	\$1,016,000	\$1,848,100	\$24,011,250	\$9,250,000	\$37,596,550	\$7,519,310
Drains, Sewer, and Water Infrastructure	\$7,021,500	\$270,000	\$2,073,000	\$610,000	\$7,313,500	\$17,288,000	\$3,457,600
Total Appropriations	\$15,168,250	\$2,668,000	\$11,024,191	\$31,716,750	\$21,220,000	\$81,797,191	\$16,359,438

Fiscal Year 2025 Proposed Budget

Total Appropriations	\$3,379,489	\$2,680,723	\$2,798,718	\$2,390,319	\$6,381,681	\$17,630,930	\$3,620,458

Project Summaries – Recommended Projects for Fiscal Year 2025

GENERAL GOVERNMENT

TOWN FACILITY REPLACEMENT FURNITURE AND OFFICE FIXTURES

This funding request is for the replacement of furniture in Town Hall and the Public Services Administration Building. These facilities were equipped with new furniture when they reopened and opened in 2011 and 2010 respectively. In FY2025, some furniture will be well over 10 years old, and many items require replacement due to heavy wear and tear. (Submitted by the Select Board and the Office of the Town Manager)

The Town Manager's recommendation for Town Facility Replacement Furniture and Office Fixtures is \$40,000 to be funded by Free Cash.

POWERS HALL IT AND AV

This funding will support updating IT and AV equipment and infrastructure in and supporting Powers Hall. While some IT and AV assets are and will continue to be replaced relatively easily on an as-needed basis, larger updates are required to improve reliability and usability for the coming decades. This project includes both the design and build phases. The design phase will permit a full scope design of both the required improvements and the requisite facilities modifications needed to facilitate the improvements. The build phase will implement the design. (Submitted by the Select Board and the Office of the Town Manager)

The Town Manager's recommendation for Powers Hall IT and AV is \$220,000 to be funded by Free Cash.

TELEPHONE SYSTEM REPLACEMENT

This funding request will replace legacy telephone ("landline") technology that is increasingly prone to degradation and failure. Due to the shift in the market from landlines to cellular data and voice over internet protocol (VOIP), replacement infrastructure, parts, and equipment required for the Town's systems are no longer able to be efficiently procured. Similarly, utilities that manage landline infrastructure have drawn down investment in this infrastructure, in line with market trends. This has led to an increasingly unreliable system prone to unscheduled outages and degraded performance over a system that provides a vital and equitable link between residents and Town government. (Submitted by the Finance Department)

The Town Manager's recommendation for Telephone System Replacement (\$500,000) is to defer action until fall, 2024 at the earliest, dependent on the outcome of an on-going pilot program.

NON-PUBLIC SAFETY AND PUBLIC SAFETY DATA CENTERS AND NETWORKING EQUIPMENT REPLACEMENT

This funding request is for the replacement of servers, storage units, data center switching, a network core switch, firewalls, and services for installation needed in the Town Hall data center (Data Center 1), Public Safety Building data center (Data Center 2) and Public Services Administration Building (Staging 1). Data Center 1 is the primary data center where Town Departments access files and programs, the internet, and where network and internet security take place, Data Center 2 acts as fail over in case the Town Hall network and infrastructure go offline and will require duplicate hardware as designed for Data Center 1. Staging 1 is being delegated as a location for file staging prior to

backing up to the cloud. The servers and storage units in Data Center 1, as well as in Data Center 2, are physical devices that support over 120 virtual servers with corresponding data maintained on the storage units. There are other physical servers that are for specific software solutions such as financial operations. (Submitted by the Finance Department)

The Town Manager's recommendation for Non-Public Safety and Public Safety Data Centers and Networking Equipment Replacement is \$600,000 to be funded by Free Cash.

TOWN BUILDING SECURITY AND TRAFFIC CAMERAS REPLACEMENT

This funding request is for the replacement and upgrade of traffic cameras and security cameras at intersections and buildings. Traffic cameras are currently located at two intersections downtown, Great Plain at Chapel and Chestnut, and Great Plain at Highland and Dedham. The downtown intersections are both traffic management control and equipped with cameras. The traffic control cameras, at the time of installation, were low resolution and will be updated to cameras with higher resolution to better help control traffic. The security cameras are not only for the intersections above which have been added over the last ten years during construction and retrofitting across the Town at multiple municipal buildings and locations. Each building with security cameras also maintains a Digital Video Recorder which currently are backed up through the local area network to a storage unit in the Public Services Administration Building (Staging 1). The cameras installed on municipal buildings are high resolution cameras used for maintaining the security of the buildings and properties. The Town is pursuing several different funding opportunities for improving the traffic cameras, so the recommended funding is for building security cameras only. (Submitted by the Finance Department)

The Town Manager's recommendation for Town Building Security and Traffic Cameras Replacement is \$190,000 to be funded by Free Cash.
--

PUBLIC SAFETY

PERSONAL PROTECTIVE EQUIPMENT

This funding request will replace Personal Protective Equipment (PPE) – known as "bunker gear" – for 20% of all firefighting personnel on an annual basis. This is to ensure the life span of the equipment does not exceed the 10-year guideline. All line personnel now have two sets of PPE available. By having a second set of PPE, fire personnel are able to clean one set after an incident while remaining in service for other emergencies. Properly maintaining PPE helps ensure its expected longevity and can significantly reduce long term health risks faced by personnel. (Submitted by the Fire Department)

The Town Manager's recommendation for Personal Protective Equipment is \$54,290 to be funded by Free Cash.
--

LIFEPAK 15 V4 MONITOR/DEFIBRILLATOR

This funding request will replace lifesaving hardware for public safety personnel. The Physio Lifepak 15 (LP15) is the cardiac monitor/defibrillator that the Department uses on frontline rescues. The Department has two frontline rescues with two backup units. The average lifespan for this piece of lifesaving equipment is estimated to be about five years. At the time of this request, the Town currently has only one operating LP15. The Town was notified that Stryker no longer has parts or services for older generation models. As a result, the Town is currently using a "loaner" LP15 from Stryker. Having an additional LP15 will allow the Town to act swiftly if one of the main LP15 devices were to have a service issue. (Submitted by the Fire Department)

The Town Manager's recommendation for Lifepak 15 Equipment is \$44,671 to be funded by Free Cash.

PUBLIC SCHOOLS

POLLARD MIDDLE SCHOOL RENOVATION/ADDITION FEASIBILITY STUDY

This funding request is for a feasibility study of renovation of the Pollard Middle School. The Town has been invited to participate in the eligibility phase of the Massachusetts School Building Authority process. Feasibility includes funding for OPM, designer, survey, initial geotechnical analysis, wetlands, hazardous materials and traffic study costs. This project assumes that the Pollard would be constructed in partnership with the Massachusetts School Building Authority (MSBA), at a potential reimbursement rate of 20-22% of total project costs. The Pollard School project has been the subject of the School Committee's master planning process for many years. (Submitted by Needham Public Schools)

The Town Manager's recommendation for Pollard Middle School Renovation/Addition Feasibility Study is \$3,950,000 to be funded by Free Cash.

NEWMAN PRESCHOOL PLAYGROUND UPDATE WITH SHADE STRUCTURE

This funding request is for the additional funds required to install a shade structure that also functions as climbing equipment and to replace the existing poured-in-place surface. The estimated cost of the renovated playground is \$228,800, toward which the School Department proposes to apply the \$69,200 previously appropriated for a custom shade shelter (Article 37 of the 2019 Annual Town Meeting), as well as \$105,600 in reserved fund balance from the Preschool Revolving Fund. The additional amount required to complete this project is \$54,000. (Submitted by Needham Public Schools)

The Town Manager's recommendation for Newman Preschool Playground Update with Shade Structure is \$54,000 to be funded by Free Cash.
--

NEEDHAM HIGH SCHOOL FITNESS CENTER EQUIPMENT REPLACEMENT

This funding request is for the purchase of equipment for the Needham High School Fitness Center, which is undergoing modernization to increase student use, improve accessibility, and better meet student needs. This request anticipates that \$25,000 in offsetting funds will be available. (Submitted by Needham Public Schools)

The Town Manager's recommendation for Needham High School Fitness Center Equipment Replacement is \$32,673 to be funded by Free Cash.

SCHOOL COPIER REPLACEMENT

This funding request is to replace three copiers in the following locations: Production Center, Emery Grover, and Needham High School. School photocopiers in all school buildings are used both by administrative and teaching staff. Copiers which are heavily used are replaced more frequently than copiers that are lightly used. The average life cycle is calculated at seven years, although planned replacement ages range from five to nine years, depending on use. It is important to replace machines regularly, even if they have not yet reached maximum copy allowances, given the additional operating expense associated with servicing and maintaining older equipment, as well as the difficulty in obtaining replacement parts. This analysis also assumes that copiers are re-deployed around the District as needed, to better match projected usage with equipment capacity. (Submitted by Needham Public Schools)

The Town Manager's recommendation for School Copier Replacement is \$66,767 to be funded by Free Cash.

SCHOOL FURNITURE

This funding request is a recurring capital item to replace furniture in poor and fair condition and to provide new classroom furniture as needed for new enrollment or replacement purposes. (Submitted by Needham Public Schools)

The Town Manager's recommendation for School Furniture is \$25,000 to be funded by Free Cash.

SCHOOL TECHNOLOGY

This funding request is a recurring capital item to fund the School Department technology replacement program. This program funds replacement of desktop computers, printers, classroom audio visual devices, specialized instructional labs, projectors, video displays, security cameras and electronic door access controllers. The request also incorporates funding for school technology infrastructure, which consists of servers, network hardware, wireless infrastructure, data cabling and access points. The FY2025 School Technology request includes \$548,150 for hardware and \$113,000 for infrastructure replacement. (Submitted by Needham Public Schools)

The Town Manager's recommendation for School Technology is \$661,150 to be funded by Free Cash.

THEATRICAL LIGHTING, SOUND & RIGGING REPAIRS & UPGRADES

This request is for funds to complete code compliance repairs in all three auditoriums. Funding requested for upgrades theatrical lighting and sound will be revisited in future years. (Submitted by Needham Public Schools)

The Town Manager's recommendation for Theatrical Lighting, Sound & Rigging Repairs & Upgrades is \$114,630 to be funded by Free Cash.

PUBLIC WORKS

ELECTRIC VEHICLE CHARGING STATIONS

This request is for funding at a minimum one Level 2 charger (typically used for regular passenger vehicles and smaller trucks) and four Level 3 chargers (used to charge mid-sized vehicles more quickly or to feasibly charge larger trucks and high-capacity passenger vehicles). The Town will purchase and install additional chargers if outside funding is received. (Submitted by Public Works - Administration)

The Town Manager's recommendation for Electric Vehicle Charging Stations is \$800,000 to be funded by Free Cash.

PUBLIC WORKS FACILITIES IMPROVEMENTS

This request is for funding of Phase One design of the DPW Facilities Improvement. Phase One is to construct a new fleet maintenance facility as an expansion of the Jack Cogswell Building that will house the Fleet Division, including fleet storage and the equipment and facilities needed for their daily operations. Funding for the construction phase of this project is planned for fall 2026. (Submitted by Public Works - Administration)

The Town Manager's recommendation for Public Works Facilities Improvements is \$2,300,000; \$1,600,000 to be funded by General Fund debt, \$523,720 to be funded by alternative funding sources, and \$176,280 to be provided from Enterprise Fund sources.

DPW SPECIALTY EQUIPMENT

This request is for large equipment that fits the definition of capital but is not included in the fleet request because the equipment is not a registered vehicle. Specialty equipment proposed for FY2025 includes a John Deere Gator (\$32,400) and a Smithco Super Start Renovator (\$31,400) for the Parks & Forestry Division, as well as a Dynapac Roller (\$55,700) and a Salso Paver (\$60,500) for the Highway Division. (Submitted by Public Works - Administration)

The Town Manager's recommendation for DPW Specialty Equipment is \$180,000 to be funded by Free Cash.

ELIOT BOILER REPLACEMENT DESIGN

This request is for the design phase of the project to replace both boilers at the Eliot School. The design for the replacements would include high efficiency condensing boilers. This setup would both improve the performance and reliability of the boilers and the energy efficiency of the system. This request has been advanced from FY2026 to FY2025 due to the continued deterioration of the boilers warranting more frequent and increasingly expensive repairs. (Submitted by Public Works – Building Maintenance)

The Town Manager's recommendation for Eliot Boiler Replacements is \$34,000 to be funded by Free Cash.

SUSTAINABLE BUILDING RETROFIT PROGRAM

This request is for lighting upgrade projects at the Broadmeadow and High Rock schools, converting their existing outdated lighting to high-efficiency LED systems. Similar projects have been successfully completed in the past few years at the Pollard, Newman, Mitchell, and Hillside schools, and these projects would be modeled on those. Building Maintenance plans to continue these lighting upgrade projects at all Town and School buildings wherever feasible to reduce energy consumption and to take advantage of state programs that subsidize their cost. This request was previously submitted as "Energy Efficiency Upgrades". The project title change is to reflect the more holistic purpose of the projects. (Submitted by Public Works – Building Maintenance)

The Town Manager's recommendation for Sustainable Building Retrofit Program is \$100,000 to be funded by Free Cash.

NPDES SUPPORT PROJECTS

This funding request is for identification of opportunities for stormwater quality improvements. Such opportunities are vital for the Town to achieve Town's full compliance with federal stormwater standards. FY2025 funding is planned for NPDES program objectives in Watershed Areas 4, 5, and 6. (Submitted by Public Works – Engineering)

The Town Manager's recommendation for NPDES Support Projects (\$806,000) is to defer funding until the new fee is implemented.

GPS EQUIPMENT

This request is for the purchase and installation of replacement GPS units fleet-wide (approximately 80 units) that are compatible with the modern software platform. These new units will restore DPW's ability to generate reporting on the locations of its assets and operators. The replacement units would also allow the ability to physically integrate with the vehicles' systems with reporting features designed to support snow fighting operations. (Submitted by Public Works – Fleet)

The Town Manager's recommendation for GPS Equipment is \$75,000 to be funded by Free Cash,

COMMUNITY SERVICES

LIBRARY RENOVATION: YOUNG ADULT AREA DESIGN

This request is for the design phase of a project to expand and improve the young adult area. Recommendations from the Utile space study that would be further detailed in the design phase include: an expanded footprint of the young adult area on the second floor, installing glass walls and doors to enclose the young adult space while maximizing daylight and providing visibility, removing the built-in desk in the existing teen room, providing a variety of seating options for groups and individuals, improving the HVAC systems in the young adult area, addressing acoustic impacts of the young adults on the rest of the library, and adding a dedicated young adult staff desk. (Submitted by the Needham Free Public Library)

The Town Manager's recommendation for Library Renovation: Young Adult Area Design is \$454,000 to be funded by Free Cash.

LIBRARY TECHNOLOGY PLAN

This request is for the replacement of self-check stations, catalog computers and monitors, Chromebooks and laptops, a pay-station computer and monitor, and gaming systems. (Submitted by the Needham Free Public Library)

The Town Manager's recommendation for Library Technology Plan is \$47,000 to be funded by Free Cash.

ATHLETIC FACILITY IMPROVEMENTS

This request is for the funding of design and construction phases of planned improvements to Town athletic fields as well as improvements to some of their adjacent passive recreation areas. The FY2025 request is for the construction phase of the Claxton Field Renovation, including environmental remediation, and for fencing improvements at the DeFazio Complex. (Submitted by the Park & Recreation Department)

The Town Manager's recommendation for Athletic Facility Improvements is \$3,600,000 to be funded by General Fund debt and \$417,000 contingent on Community Preservation Funding.

HIGH SCHOOL TENNIS COURT IMPROVEMENTS - CONSTRUCTION

This request is for the construction to renovate four courts and install four new tennis courts at Needham High School. All courts include post-tension concrete as the base. Post-tension concrete is now an industry norm as the warranty on post-tension concrete is 25+ years. An asphalt-based tennis court has a 5- to 7-year warranty with many factors influencing surface deterioration. (Submitted by the Park and Recreation Department)

The Town Manager's recommendation for High School Tennis Court Improvements - Construction is \$1,000,000 to be funded from the Athletic Facility Stabilization Fund, \$10,804 to be funded from alternative funding sources, \$149,196 to be funded from Overlay Surplus, and \$1,440,000 contingent of Community Preservation Funding.

GENERAL FUND FLEET REPLACEMENT PROGRAM

This request is for the Town's fleet replacement program, established in FY2015. The program includes a budget and schedule for the Town's rolling stock fleet of appropriately

270 vehicles, trailers, and large specialized attachments and the School Department fleet of vans and buses. The fleet program is classified across three categories, which have been revised from FY2024: core fleet (general purpose vehicles), special purpose/high value vehicles, and trailers (requires another vehicle to transport). General purpose vehicles include pickup trucks, a variety of sedans, SUVs, and vans (police vehicles are not included). They comprise approximately 44 percent of the entire fleet. General purpose vehicles are utilized in every department and are relatively inter-changeable. The replacement of these vehicles can proceed on a regular schedule and should be part of the Town's recurring costs. The Town relies on a number of trailers for the purpose of moving tools and equipment, hauling trash and debris, and transporting special equipment, which represents approximately 23 percent of the fleet. Specialized, high value vehicles and snow and ice equipment comprise the other 33 percent of the fleet. These vehicles and equipment are just as integral to Town operations as the general-purpose vehicles but serve the unique purposes of specific departments or divisions. Included in this group are the high value vehicles such as ambulances, large dump trucks, fire engines, street sweepers, and others for which appropriations need to be planned. Unless circumstances require otherwise, the proposed FY2025 fleet replacement schedule is presented below. (Submitted by Multiple Departments)

GENERAL FUND CORE FLEET REPLACEMENT

UNIT	EXISTING	DIVISION	YEAR	REPLACEMENT	AMOUNT
703	Ford Transit Connect Cargo	DPW Building Maintenance	2015	Utility Van (Electric)	81,647*
302	N/A	DPW Parks and Forestry	N/A	Small Pickup	50,880*
C-43	Ford Escape	Fire Department	2017	Public Safety Response Vehicle	72,523
588	Ford F-150	Police Department	2014	Work Truck Class 3	82,902*
New	N/A	Needham Public Schools	N/A	Utility Van with Lift	66,388*

The Town Manager's recommendation for General Fund Fleet Core Replacement is \$354,340 in the Tier 2* Cash Capital category.

GENERAL FUND FLEET REPLACEMENT – SPECIALIZED EQUIPMENT

UNIT	EXISTING	DIVISION	YEAR	REPLACEMENT	AMOUNT
72	Ford F550 Super Duty	DPW Parks and Forestry	2015	Work Truck Class 5 Chip Box	152,142*
74	Ford F550 Super Duty	DPW Parks and Forestry	2016	Work Truck Class 5	116,996*

Fiscal Year 2025 Proposed Budget

UNIT	EXISTING	DIVISION	YEAR	REPLACEMENT	AMOUNT
350	John Deere Tractor Loader 4720	DPW Parks and Forestry	2010	Work Truck Class Specialty Tractor	68,229*
61	Genie Forklift	DPW RTS	2013	Forklift	149,884
E-04	E-One Cyclone II Fire Truck	Fire Department	2005	Fire Engine	1,275,000
89T	Warren Open-Top Trailer	DPW RTS	2017	Specialty Trailer	\$119,296

The Town Manager's recommendation for General Fund Fleet Specialized Equipment Replacement is \$1,751,474, \$269,180 to be funded by Free Cash in the Tier 1 Cash Capital category, \$337,367 in the Tier 2* Cash Capital Category, and \$1,275,000 to be funded by General Fund debt.

TRANSPORTATION NETWORK

TRANSPORTATION SAFETY COMMITTEE PROJECTS

This request is for funding construction-related transportation safety projects and interventions in response to resident petitions, including roadway geometry changes, accessibility ramps, crosswalks, flashing LED pedestrian signs, speed radar signs, "Stop", "School Zone", and "Children Playing" signs, and other pedestrian improvements. In 2023, the committee transitioned from the Traffic Management Advisory Committee (TMAC) to the Transportation Safety Committee (TSC), which has a wider scope and range of interventions. The amount has increased by \$50,000 annually to address the additional needs coming from the TSC as well as the estimated increase in costs to complete the proposed projects. (Submitted by Public Works – Engineering)

The Town Manager's recommendation for the Transportation Safety Committee (TSC) is \$100,000 to be funded by Free Cash.

QUIET ZONE SAFETY UPGRADES

This request is for the design and potentially construction of a plan to upgrade each grade crossing in Needham with the goal of achieving a Quiet Zone designation from the MBTA. The design will include a review of the necessary upgrades to MBTA infrastructure and railroad controller equipment, and the design for the installation of quad-gates as well as vehicle and pedestrian detection systems. This request is a placeholder – the Town has engaged a consultant and has created a Quiet Zone Working Group to make final recommendations on construction and costs. (Submitted by Public Works – Engineering)

The Town Manager's recommendation for Quiet Zone Safety Upgrades is \$1,340,000 to be funded by Free Cash.

PUBLIC WORKS INFRASTRUCTURE PROGRAM

This request is for the Public Works Infrastructure Program which allows the Department of Public Works to make improvements and repairs to Town infrastructure, including but not limited to roads, bridges, sidewalks, intersections, drains, brooks, and culverts.

STREET RESURFACING

The Town aims to resurface 17 lane miles (or 120,000 square yards) per year, either through traditional milling and paving, micro surfacing, or rubber chip seal surface treatments, as appropriate. The cost per lane mile for resurfacing in FY24 is \$128,000 or more per lane mile. A basic overlay at 1.5 inches with asphalt berm curb and casting adjustments is \$105,000 per lane mile. The cost of micro surfacing treatments and rubber chip seal surfacing treatments are approximately \$6.13 per square yard.

Target funding for street resurfacing in FY2025 is \$1,655,000.

SIDEWALK PROGRAM FY2024 contract pricing to reconstruct one mile of asphalt sidewalk with incidental costs is estimated to be \$451,440 per mile (\$85.50/lf). Contract pricing to install a mile of granite curb with minor drainage improvements and incidental costs is estimated to be \$485,760 per mile (\$92.00/lf). These costs do not include engineering, design, tree removal and replacement, major drainage improvements, or major public or private property adjustments.

Target funding for the sidewalk program in FY2025 is \$995,500.

INTERSECTION IMPROVEMENTS

This request is for improvements at the Hunnewell Street at Central Avenue intersection. There have been traffic flow concerns along Central Avenue, including at the intersection at Hunnewell Street. The traffic signal system at this intersection is outdated and beyond its useful life. This project would include a replacement/improvement of the traffic signal system. The new traffic signal system would feature modern technology better able to control the flow of traffic through the intersection, reducing traffic back-ups. The signals would be located in a way that leaves space for further improvements to the overall layout of the intersection to comply with Complete Streets principles. This project would be part of a larger traffic improvement plan along Central Avenue.

Target funding for Intersection Improvements for FY2025 is \$1,100,000.

Stormwater Capacity Master Plan

The request is to fund a Stormwater Master Plan that would evaluate the capacity and the condition of the existing Townwide stormwater drainage system. The master plan would identify, prioritize, and address the health and safety, regulatory, and capacity concerns associated with the management of stormwater. It would also provide estimates for the financial investments that would be required for the construction and maintenance of future storm drain improvement projects to be funded out of the infrastructure article, including storage areas for discharge (e.g. retention ponds, underground vaults, dry wells). The Stormwater Master Plan would be closely tied to the ongoing master planning of the Town's brooks and culverts, which function as another important component of the stormwater network capacity by controlling the flow of surging water during heavy rains/storms. Destructive flooding in the summer of 2023 continued a pattern of increasingly erratic weather that is expected to worsen over time, further illustrating the need to continuously maintain and improve stormwater management infrastructure through holistic planning. It is difficult to ensure that the DPW is targeting projects that will have the maximum impact without a comprehensive master plan to inform the Town's stormwater strategy.

In addition to the capacity and resiliency considerations, the Stormwater Master Plan would also allow the Town to identify ways to improve surface water quality by mitigating pollutants through the stormwater drainage system. This portion of the Master Plan would assist the DPW in their efforts to comply with standards set by the National Pollutant Discharge Elimination System (NPDES) permit.

Target funding for guardrail improvements for FY2025 is \$250,000.

BROOKS AND CULVERTS

This request is for the design phase of the project. Funding for the construction phase will be requested for FY2027. Alder Brook is considered a category 5 impaired water body under NDPEs. Category 5 is the worst rating a water body can receive from the EPA. An engineering consultant will be brought in to design a project to remove sediment and vegetation from the brook as well as repair/replace failing walls/culverts. The design will be focused on effectively cleaning the brook to remove the phosphorus contaminated sediment and improve the overall water quality. The section of the brook being addressed is from Webster Street at Dedham Avenue to the Charles River.

Target funding for Brooks and Culverts improvements for FY2025 is \$225,000.

Fiscal Year 2025 Proposed Budget

(Submitted by Department of Public Works – Engineering)

The Town Manager's recommendation for Public Works Infrastructure is \$475,000 to be funded by Free Cash. A portion of the unfunded request may be funded through State Highway Funds (Chapter 90).

SEWER ENTERPRISE FUND

SEWER MAIN REPLACEMENT

This request is for the second construction phase of the Interceptor Phase 2 project. The funding for the design phase was approved in FY2023, and the first construction phase was funded through the American Recovery Plan Act (ARPA). The Town is actively working on identifying and applying for funding from other grants and external funding sources from state agencies such as the MWRA and MassDEP (SRF loan program). The second phase involves the replacement of a section of the sewer interceptor under the MBTA tracks, as well as additional lining south of the tracks. The existing interceptor is struggling to handle the sewer flow, so it is necessary to replace part of this segment with larger piping to increase its capacity while lining the rest to prevent collapse and infiltration. The limits of work for the second construction phase are from Kenney Street to Valley Road at Norwich Road (replacement of 2,900 linear feet) and from Valley Road at Norwich Road to the MWRA sewer siphon (lining of 3,400 linear feet). (Submitted by Department of Public Works – Water & Sewer)

The Town Manager's recommendation for Sewer Main Replacement is \$1,397,917 in Sewer Enterprise Fund retained earnings, \$202,083 from alternative funding sources, and \$12,000,000 from Sewer Enterprise Fund debt.

WATER ENTERPRISE FUND

DPW SPECIALTY EQUIPMENT - WATER DIVISION

This request is for large equipment that fits the definition of capital but is not included in the fleet request because the equipment is not a registered vehicle. Specialty equipment proposed for FY2025 includes a new mini excavator (\$67,500). (Submitted by Department of Public Works – Water & Sewer)

The Town Manager’s recommendation for DPW Specialty Equipment - Water Division is \$67,500 funded by Water Enterprise Fund Retained Earnings.

WATER SERVICE CONNECTIONS

This request is funding to develop a plan to document and identify all known and unknown water service pipe materials and their locations, confirm the unknown services through test pit excavation, and remove old lead or plastic service connections wherever they exist, replacing them with new copper service piping. Services identified for replacement could range from supply mains into residential homes just prior to the water meters. (Submitted by Department of Public Works – Water & Sewer)

The Town Manager’s recommendation for Water Service Connections is \$376,955 in Water Enterprise Fund Retained Earnings and \$623,045 in alternative funding sources.

WATER FLEET REPLACEMENT

UNIT	EXISTING	DIVISION	YEAR	REPLACEMENT	AMOUNT
151T	Ingersoll Rand	DPW Water	2008	Specialty Trailer	31,323
157T	PP&P E6 Portable Pump Trailer	DPW Water	2012	Specialty Trailer	81,991

(Submitted by Department of Public Works – Water & Sewer)

The Town Manager’s recommendation for Water Fleet Trailer Replacement is \$131,314 funded by Water Enterprise Fund Retained Earnings.

CAPITAL IMPROVEMENT POLICIES

A. General Provisions

1. Capital items for the purpose of this Capital Improvement Plan shall be defined as follows:
 - Items requiring an expenditure of at least \$25,000 and having a useful life of more than five years.
 - Projects consisting of real property acquisitions, construction, capital asset improvements, long-life capital equipment, or major maintenance/repair of and existing capital item, as distinguished from a normal operating expenditure.
 - Items obtained under a long-term lease.
2. Town departments will submit spending requests that provide sufficient funding for adequate maintenance and orderly replacement of capital plant and equipment.
3. All assets will be maintained at a level that protects capital investment and minimizes maintenance and replacement costs.
4. All equipment replacement needs for the coming five years will be projected and the projection will be updated each year.
5. Future operating and maintenance costs for all new capital facilities will be fully costed out.

B. Capital Improvement Fund (CIF)

1. In accordance with the provisions of Massachusetts General Laws Chapter 40 Section 5B, as amended by Section 14 of Chapter 46 of the Acts of 2003 and Section 19 of Chapter 140 of the Acts of 2003, the Town of Needham has established a General Fund Cash Capital Equipment and Facility Improvement Fund hereinafter referred to as the Capital Improvement Fund or CIF (Article 58/2004 ATM). The purpose of the CIF is to allow the Town to reserve funds to use for general fund cash capital.
2. Appropriations from the CIF are restricted to the following items for which the Town may borrow for a period of five years or more: the acquisition of new capital equipment and the replacement of existing capital equipment.
3. Only General Fund capital items that have been recommended in the Capital Improvement Plan for the current year, are eligible for funding from the CIF.
4. Appropriations into the CIF and interest earnings on the Fund become part of the Fund.

C. Capital Facility Fund (CFF)

1. In accordance with the provisions of Massachusetts General Laws Chapter 40 Section 5B, as amended by Section 14 of Chapter 46 of the Acts of 2003, and as further amended by Section 19 of Chapter 140 of the Acts of 2003, the Town of Needham has established a Capital Facility Fund (Article 10/2007 ATM). The purpose of this Fund is to allow the Town, from time to time, by appropriation, to reserve funds for the design, maintenance, renovation, or reconstruction relating to the structural integrity, building envelope, or MEP (mechanical, electrical, plumbing) systems of then existing capital facilities.
2. For the purpose of the Fund, the term "capital facility" shall refer to any building or structure which is located on Town property and is under the jurisdiction of the Town

Manager.

3. The term "building or structure " shall include, but not be limited to, any Town-owned building, structure, room, or space within a building, facility, park or plaza, open space, driveway, landscaped area, or other physical improvements under the administrative control of the Town
4. Appropriations into the CFF and interest earnings on the Fund become part of the Fund.

D. Athletic Facility Improvement Fund (AFIF)

1. In accordance with the provisions of Massachusetts General Laws Chapter 40 Section 5B, as amended by Section 14 of Chapter 46 of the Acts of 2003, and as further amended by Section 19 of Chapter 140 of the Acts of 2003, the Town of Needham has established an Athletic Facility Improvement Fund under Article 39 of the 2012 Annual Town Meeting. The purpose of this fund is to allow the Town, from time to time, by appropriation, to reserve funds for the design, maintenance, renovation, reconstruction, or construction of athletic facilities.
2. For the purpose of the fund, the term "athletic facility" shall refer to any Town-owned building, structure, pool, synthetic and natural grass turf playing field or ball diamond, and associated grounds and parking areas whose primary purpose is for organized athletic events for Needham children, adults, and public school teams.
3. Appropriations into the AFIF and interest earnings on the Fund become part of the Fund.

E. Debt Service Stabilization Fund

1. In accordance with the provisions of Massachusetts General Laws Chapter 40 Section 5B, as amended by Section 14 of Chapter 46 of the Acts of 2003, and as further amended by Section 19 of Chapter 140 of the Acts of 2003, the Town of Needham has established a Debt Service Stabilization Fund to allow the Town to plan for long-term capital expenses and, from time to time, by appropriation, reserve funds to pay the debt service for engineering and design, renovation, reconstruction or construction of Town facilities.
2. Appropriations into the Debt Service Stabilization Fund and interest earnings on the Fund become part of the Fund.

F. Stormwater Stabilization Fund

1. In accordance with the provisions of the fourth paragraph of Massachusetts General Laws Chapter 40 Section 5B, which allows the dedication without further appropriation 100% of the Community Stormwater Mitigation Assessments collected, the Town of Needham has established a Stormwater Stabilization Fund under Article 35 of the 2023 Annual Town Meeting. The purpose of this fund is to allow the Town to reserve funds for future capital costs associated with compliance with the National Pollutant Discharge Elimination System (NPDES) program. Use of the monies in the Fund may only be approved by Town Meeting appropriation.
2. Receipts credited to the Stormwater Stabilization Fund and interest earnings on the Fund become part of the Fund.

Fiscal Year 2025 Proposed Budget

Approved May 1991; Revised December 20, 2005; Revised May 11, 2010; Revised October 8, 2013; Revised December 20, 2016, Revised December 20, 2022, Revised January 9, 2024

DEBT MANAGEMENT POLICIES

- A. Proceeds from long-term debt will not be used for current, ongoing operations.
- B. The Town will strive to limit total debt service, including debt exclusions and self-supporting debt, to ten percent (10%) of gross revenues.
- C. The Town will allocate or reserve three percent (3%) of projected General Fund revenue (e.g. property taxes less debt exclusions, state aid, and local receipts) for debt service.
- D. The Town will limit annual increases in debt service to a level that will not materially jeopardize the Town's credit rating.
- E. For those previously authorized bonded projects with residual balances, the Town Manager shall propose the reallocation of these balances for other capital projects in conformance with Massachusetts General Laws Chapter 44, Section 20.
- F. For those previously authorized projects funded with available revenue (tax levy or reserves), that have residual balances in excess of \$25,000, the Town Manager shall propose the reallocation of these balances for other future capital projects in conformance with Massachusetts General Laws Chapter 44, Section 33B. This practice will avoid abnormally inflating general fund surplus with one-time receipts.
- G. For those previously authorized projects funded with available revenue (tax levy or reserves), with residual balances of less than \$25,000, the Deputy Town Manager/Director of Finance may authorize the Town Accountant to close these balances to the appropriate fund surplus.
- H. The Town will attempt to limit bond sales in any calendar year to \$10,000,000 in order to maintain bank qualifications and thereby receive lower interest rates on bonded debt.
- I. Long-term borrowing will be confined to capital improvements too expensive to be financed from current revenues. In general, the Town will attempt to finance purchases costing less than \$250,000 with operating revenues.
- J. Bonds will be paid back within a period not to exceed the expected useful life of the capital project.
- K. To the extent practicable, user fees will be set to cover the capital costs of enterprise type services or activities - whether purchased on a pay-as-you-go basis or through debt financing - to avoid imposing a burden on the property tax levy.
- L. Ongoing communications with bond rating agencies will be maintained, and a policy of full disclosure on every financial report and bond prospectus will be followed.

Approved May 1991; Revised December 1998, April 7, 2009; Revised December 20, 2022; Revised January 9, 2024

RETAINED EARNINGS POLICY FOR WATER AND SEWER ENTERPRISE FUNDS

It shall be the policy of the Select Board to maintain a level of unreserved retained earnings sufficient to address the financing of: working capital; revenue shortfalls; unanticipated increases in MWRA wastewater assessments; and unanticipated and emergency expenditures.

Unreserved retained earnings are cumulative surplus funds, as certified by the Massachusetts Department of Revenue, that are available for appropriation by Town Meeting to support any capital expense of the enterprise or to reduce user charges.

The rationale for, and the calculation of, unreserved retained earnings to be maintained by the Town are described below and are referred to as the "Liquidity Method" and the "Credit Quality Method." Retained earnings targets shall be calculated using both methods, and shall be set using the method which represents the higher number in any given year. Under the Liquidity Method, the total amount of retained earnings to be maintained shall be equal to 80 percent of the sum of the following individual calculations. The factor of 80 percent is based on the assumption that the likelihood of all factors occurring in one fiscal year is small; therefore there is no need to maintain one hundred percent of the calculated level of retained earnings. Under the Credit Quality Method, the total amount of retained earnings should not be less than fifteen percent of the operating revenue of the most recent audited fiscal year.

Liquidity Method

Working Capital: For those periods where monthly expenses exceed available cash, the water and sewer enterprises must have access to working capital to finance operations. In the absence of retained earnings, operations would require the use of General Fund cash which would reduce General Fund cash available for investment, and consequently reduce General Fund Revenue. To avoid the use of General Fund cash as working capital for the water or sewer operations, retained earnings shall be maintained at a level to provide sufficient working capital to finance the operations of these enterprise funds. The amount retained for this purpose shall be equal to the average of the largest monthly operating deficit of the prior three years.

Consumption Contingency: Annual water and sewer revenue is a function of the amount of water purchased by customers. If, in any year, purchases are less than projected, a revenue shortfall will occur. Retained earnings shall be maintained at a level sufficient to offset any loss in revenue due to unanticipated decreases in purchases. That level shall be equal to the difference of the consumption used for rate making purposes versus the lowest level of consumption for the prior six fiscal years, multiplied by the current sewer rates and water rates shown as Step 3 of the Town's step rate structure. Step 3 is selected as it generally represents the point at which discretionary purchases of water begin. The scenario envisioned here is a wet year in which customers will not need to make discretionary purchases of water.

MWRA Assessment Mitigation: The Town's MWRA wastewater assessment is levied on a fiscal year basis, yet it is a function of the volume of effluent discharged into the MWRA system in the prior calendar year. The Town's wastewater system is subject to high levels of infiltration and inflow (I/I) given its age. Infiltration and inflow can substantially increase the volume of effluent discharged into the MWRA system. Following a year in which high levels of I/I occur, the Town's MWRA assessment will increase at a rate that substantially exceeds the average increase for all MWRA members. An increase of this magnitude can adversely affect rates charged to Town customers. Consequently, retained earnings shall be maintained at a level sufficient to mitigate rate increases needed to fund large increases in the Town's assessment. That level shall be equal to the largest annual amount - for the prior six year period - by

which the average rate of increase in assessments for all MWRA members exceeds the rate of increase in the Town's assessment, multiplied by the most current MWRA assessment.

Unanticipated Budgetary Fluctuation: Retained earnings shall be maintained at a level sufficient to fund unanticipated or emergency capital or operating expenditures. It shall be a goal to maintain an amount equal to 6% of the annual sewer operating budget and 10% of the annual water-operating budget.

Restoration of Depleted Retained Earnings: If, in any year, retained earnings fall below the targets established by this policy, it shall be the policy of the Select Board to set future rates to restore retained earnings to the target level over the following three year period.

Adopted by the Needham Select Board on April 20, 1999; revised June 6, 2003, revised January 12, 2010.

GLOSSARY

Provided below are some of the commonly used terms in budget and capital planning and fiscal and debt management.

Account - A classification of appropriation by type of expenditure.

Accounting Period – A period of time (e.g., one month, one year) where the Town determines its financial position and results of operations.

Accrual Basis - The basis of accounting under which transactions are recognized when they occur, regardless of the timing of related cash flows.

Actuarial - A methodology that makes determinations of required contributions to achieve future funding levels by addressing risk and time.

ADA - Americans with Disabilities Act

Athletic Facility Improvement Fund - This fund was created at the 2012 Annual Town Meeting. The purpose of this fund is to allow the Town to reserve funds for the renovation and reconstruction of the Town's athletic facilities, with particular emphasis on the turf fields installed at the Memorial Park and DeFazio Field.

American Rescue Plan Act - The American Rescue Plan Act of 2021, also referred to as ARPA, was signed into law by President Joseph Biden on March 11, 2021. ARPA is a \$1.9 trillion Federal rescue package designed to ease the United States' recovery from the economic and health effects of the COVID-19 pandemic. The Act provides financial relief to state and local governments to support public health and promote economic recovery. The Act also provided funding for state and local governments to invest in infrastructure, such as water, sewer, and broadband services.

Appropriation – A legal authorization granted by Town Meeting to expend money and incur obligations for specific public purposes.

Assessment – The official valuation of property for purposes of taxation.

Available Funds – Balances in the various fund types that represent non-recurring revenue sources. As a matter of sound practice, they are frequently appropriated to meet unforeseen expenses, for capital expenditures or other onetime costs. Examples of available funds include free cash, stabilization funds, overlay surplus, and retained earnings.

Balanced Budget – A budget is balanced when planned funds or total revenues equal planned expenditures, that is, total outlays or disbursements, for a fiscal year.

Betterment (Special Assessment) – Whenever part of a community benefits from a public improvement, or betterment (e.g., water, sewer, sidewalks, etc.), special property taxes may be assessed to the property owners of that area to reimburse the governmental entity for all, or part, of the costs it incurred in completing the project. Each property parcel receiving the benefit is assessed a proportionate share of the cost which may be paid in full, or apportioned over a period of up to 20 years.

Bond – A written promise to pay a specified sum of money (called the face value or principal amount) at a specified date or dates in the future (called the maturity date), together with

periodic interest at a specified rate. The difference between a note and a bond is that the latter runs for a longer period of time and requires greater legal formality.

Bond Anticipation Note (BAN) – Short-term interest-bearing notes issued by a government in anticipation of bonds to be issued at a later date. Notes are retired from proceeds from the bond issue to which they are related and/or from a cash payment and/or Town appropriation.

Capital Budget - A plan for capital expenditures for projects to be included during the first year of the capital improvement plan.

Capital Exclusion – A *temporary* increase in the tax levy to fund a capital project or make a capital acquisition. Exclusions require 2/3 vote of the entire Select Board and a majority vote in a town-wide election. The exclusion is added to the tax levy only during the year in which the project is being funded and may increase the tax levy above the levy ceiling.

Capital Facility Stabilization Fund - This fund was created at the 2007 Annual Town Meeting. The purpose of this fund is to allow the Town to reserve funds for design, maintenance, renovation or reconstruction relating to the structural integrity, building envelope or MEP (mechanical, electrical, plumbing) systems of then existing capital facilities. For this purpose, capital facility refers to any building or structure which is located on Town property and is under the jurisdiction of the Town Manager, including any Town owned building, structure, room, or space within a building, facility, park or plaza, open space, driveway, landscaped area, or other physical improvements under the administrative control of the Town.

Capital Improvement Fund – This fund was created at the 2004 Annual Town Meeting. The purpose of this Fund is to allow the Town to reserve funds for the acquisition of new equipment and/or the replacement of existing equipment (for which the Town may borrow money for a period of five years or more), and/or for building/facility improvements with a cost of less than \$250,000 (for which the Town may borrow money for a period of five years or more). Only general fund capital that has been recommended in the Capital Improvement Plan (CIP) is eligible for funding in this manner.

Capital Improvement Plan (CIP) – A financial planning and management tool that identifies public facility and equipment requirements and schedules them for funding and implementation on a multi-year basis.

Capital Project – Major, non-recurring expenditure involving one or more of the following: acquisition of land for a public purpose; construction of or addition to a facility such as a public building, water or sewer lines, play field, etc.; rehabilitation or repair of a building, facility, or equipment, provided the cost is \$25,000 or more and the improvement will have a useful life of five years or more; purchase of equipment costing \$25,000 or more, with a useful life of five years or more; and any planning, engineering, or design study related to an individual capital project.

CARES Act – The Coronavirus Aid, Relief, and Economic Security Act, also referred to as the CARES Act, was signed into law by President Donald Trump on March 27, 2020. This was a \$2.2 trillion economic stimulus package in response to the economic fallout of the COVID-19 pandemic in the United States. The Act provided funding to state and local governments for certain expenses incurred due to COVID-19.

Cash Basis - A basis of accounting under which transactions are recognized only when cash

changes hands.

Chapter 90 – Massachusetts General Laws Chapter 90, Section 34 authorizes the Commonwealth to allocate funds to municipalities, through the Transportation Bond Issue, for highway construction, preservation and improvement projects that create or extend the life of capital facilities; routine maintenance operations such as pothole filling and snow and ice removal are not covered. The formula for determining the Chapter 90 level of funding is based on a municipality's miles of public ways, population and level of employment. Municipalities receive Chapter 90 reimbursement only for pre-approved projects.

Cherry Sheet - Originally printed on a cherry-colored form, this document reflects all Commonwealth charges, distributions and reimbursements to a city or town as certified by the state Director of the Bureau of Accounts.

Collective Bargaining - The process of negotiations between the Town and bargaining units (unions) regarding the salary and fringe benefits of town employees.

Community Preservation Act (CPA) – Enacted as Massachusetts General Laws Chapter 44B in 2000, CPA permits cities and towns accepting its provisions to establish a restricted fund from which monies can be appropriated only for a) the acquisition, creation and preservation of open space; b) the acquisition, preservation, rehabilitation, and restoration of historic resources; and c) the acquisition, creation and preservation of land for recreational use; d) the creation, preservation and support of community housing; and e) the rehabilitation and restoration of open space, land for recreational use and community housing that is acquired or created using monies from the fund. The local program is funded by a local surcharge up to 3 percent on real property tax bills and funds from the state generated from registry of deeds fees. The voters of Needham approved a 2 percent surcharge effective July 1, 2005.

Community Preservation Fund - A special revenue fund established pursuant to Massachusetts General Laws Chapter 44B to receive all monies collected to support a community preservation program, including but not limited to, tax surcharge receipts, proceeds from borrowings, funds received from the Commonwealth, and proceeds from the sale of certain real estate.

Conservation Fund – The Town may appropriate money to a conservation fund. This money may be expended by the Conservation Commission for lawful conservation purposes as described in Massachusetts General Laws Chapter 40 Section 8C. The money may also be expended by the Conservation Commission for damages arising from an eminent domain taking provided that the taking was approved by two-thirds vote of Town Meeting.

Contingent Appropriation – An appropriation that authorizes spending for a particular purpose only if subsequently approved in a voter referendum. Under Massachusetts General Laws Chapter 59 Section 21C (m), towns may make appropriations from the tax levy, available funds or borrowing, contingent upon the subsequent passage of a Proposition 2½ override or exclusion question for the same purpose. If initially approved at an annual Town Meeting, voter approval of the contingent appropriation must occur by certain date after the Town Meeting dissolves. The question may be placed before the voters at more than one election, but if not approved by the applicable deadline, the appropriation is null and void.

Debt Exclusion – A *temporary* increase in the Town's levy limit (and possibly the levy ceiling) to exclude the payment of debt from the limits of Proposition 2½. The debt service is added to the levy limit for the life of the debt only. To place a debt exclusion question on the ballot

requires a 2/3 vote of the entire Select Board. The debt exclusion question requires a majority vote by voters for passage.

Debt Exclusion Offset – Other funds that are received and are used to reduce the amount of the debt paid by the tax levy.

Debt Limit – The maximum amount of gross or net debt that is legally permitted under State Law.

Debt Policy – Part of an overall capital financing policy that provides evidence of a commitment to meet infrastructure needs through a planned program of future financing. The Town of Needham has debt policies that have been developed in consultation with the Finance Committee and reviewed and approved by the Select Board.

Debt Service – The amount paid annually to cover the cost of both principal and interest on a debt issuance until its retirement.

Debt Service Stabilization Fund - This fund was created at the November 2015 Special Town Meeting. The purpose of this fund is to allow the Town, from time to time, by appropriation to set aside funds to be available if necessary to pay certain debt obligations. This fund is intended to be part of the Town's overall planning strategy for addressing capital facility needs. The fund provides added flexibility to maintain the Town's capital investment strategy by smoothing out the impact of debt payments in years when the debt level is higher than is typically recommended. The fund would also be beneficial at times when interest rates are higher than expected.

Department - A service providing entity of the town government.

Division - A budgeted sub-unit of a department.

Encumbrance – The setting aside of funds to meet known obligations.

Enterprise Fund – A municipal fund established for the operation of a municipal utility, health care, recreational, or transportation facility whereby the operations are fully funded by the fees associated with that enterprise rather than by the tax levy. The "surplus" or retained earnings generated by the operation of the enterprise remain with the fund to offset future capital improvements, extraordinary maintenance expenses, or to reduce future fees and charges of the fund.

Expenditure Account Code - An expenditure classification according to the type of item purchased or service obtained, for example, regular compensation, energy expense, communications, educational supplies, and vehicle equipment.

Fiscal Year - The twelve-month financial period used by the Town beginning July 1 and ending June 30 of the following calendar year. The Town's fiscal year is numbered according to the year in which it ends.

Fixed Assets – Assets of a long-term character, which are intended to continue to be held or used, such as land, building, and improvements other than buildings, machinery, and equipment.

Formula Grant – Federal funding for which the allocation methodology is strictly determined in federal statute or regulation, and for which a government agency prepares a single

application and receives subsequent years' allocation without re-application.

Free Cash – Free cash is the amount of the General Fund unassigned fund balance that may be used as a source to fund appropriations. The Massachusetts Department of Revenue certifies the amount of "free cash" resulting from closing the financial books as of June 30, the end of the fiscal year. Free cash may only be used as an appropriation source after the certification process by the Department of Revenue is complete. For example, the July 1, 2022 certified amount may be used to fund supplemental appropriations voted during fiscal year 2023 or applied as a revenue source to support the fiscal 2024 appropriations that may be voted in the spring of 2023.

Fringe Benefits – Employee-related costs other than salary, e.g., insurance and retirement costs.

Full Faith and Credit – A pledge of the general taxing power for the payment of debt obligations. Bonds carrying such pledges are referred to as general obligation bonds or full faith and credit bonds.

Full-time Equivalent Position (FTE) - A concept used to group together part-time positions into full-time units.

Fund - An independent fiscal and accounting entity with a self-balancing set of accounts recording cash and/or other resources with all related liabilities, obligations, reserves, and equities that are segregated for specific activities or objectives. Among the fund types used by the Town are General, Special Revenue, Capital Projects, Trust, and Enterprise.

Fund Balance - Fund balance is the difference between assets and liabilities in a governmental fund. The fund balance consists of two categories – reserved or unreserved. The fund balance that is reserved means that the resources are in a form that cannot be appropriated and spent (such as buildings) or that the resources are legally limited to being used for a particular purpose. The fund balance that is unreserved represents resources that may be used for any purpose. However, the specific amount of the unreserved balance that is allowed to be appropriated and spent is determined by the Department of Revenue annually. The amount that is determined to be available is referred to as Free Cash.

FY - Fiscal Year

GASB – This refers to the Governmental Accounting Standards Board which is currently the source of generally accepted accounting principles (GAAP) used by state and local governments in the United States. It is a private, non-governmental organization. The GASB has issued Statements, Interpretations, Technical Bulletins, and Concept Statements defining GAAP for state and local governments since 1984.

GASB 34 – The Governmental Accounting Standards Board's Statement Number 34 requires government entities to report infrastructure assets in their statement of net assets. The Town of Needham has implemented statement number 34, Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments, financial reporting model. This standard changed the entire reporting process for local governments, requiring entity-wide financial statements, in addition to the current fund statements and other additional reports such as Management Discussion and Analysis.

GASB 45 – The Governmental Accounting Standards Board's Statement Number 45 requires government employers to measure and report the liabilities associated with other (than

pension) postemployment benefits (or OPEB). The Town of Needham has implemented statement number 45. GASB 45 requires that the Town accrue the cost of the retiree health insurance and other post employment benefits during the period of employees' active employment, while the benefits are being earned, and disclose the unfunded actuarial accrued liability in order to accurately account for the total future cost of post employment benefits and the financial impact on the Town. This funding methodology mirrors the funding approach used for pension/retirement benefits. The Town has established Fund and annually appropriates the required contribution based on updated reports. The Fund will allow the Town to capture long-term investment returns and make progress towards reducing the unfunded liability.

Generally Accepted Accounting Principles (GAAP) - The basic principles of accounting and reporting applicable to state and local governments, including the use of the modified accrual or accrual basis of accounting, as appropriate, for measuring financial position and operating results. These principles must be observed to provide a basis of comparison for governmental units.

General Fund - The fund into which the general (non-earmarked) revenues of the municipality are deposited and from which money is appropriated to pay the general expenses of the municipality.

General Obligation Bonds - Bonds for the payment of which the full faith and credit of the issuing government are pledged.

Infrastructure - The underlying foundation or basic framework of an organization or system, e.g., roads, bridges, buildings, land, and natural resources.

Lease-Purchase Agreements - Contractual agreements which are termed "leases," but which in substance amount to purchase contracts in which the financing is provided by an outside party.

Levy Limit - Property tax levy limits that constrain the total amount of revenue that can be raised from the property tax. In Massachusetts, the levy limit is governed by Proposition 2½.

Mandate - A requirement from a higher level of government that a lower level government perform a task in a particular way or in conformance with a particular standard.

Massachusetts Water Pollution Abatement Trust (MWPAT) - The Massachusetts Water Pollution Abatement Trust in partnership with the Massachusetts Department of Environmental (MassDEP) provides low interest loans to municipalities and other governmental entities to finance water quality improvement and public health-related projects.

Massachusetts Water Resources Authority (MWRA) - The Massachusetts Water Resources Authority is a Massachusetts public authority established by an act of the Legislature in 1984 to provide wholesale water and sewer services to 2.5 million people in 61 metropolitan Boston communities. The Town of Needham disposes all wastewater through the MWRA system and purchases drinking water as needed from the MWRA during the year.

Modified Accrual Basis - The accrual basis of accounting adapted to the governmental fund type, wherein only current assets and current liabilities are generally reported on fund balance sheets and the fund operating statements present financial flow information. Revenues are recognized when they become both measurable and available to finance expenditures of the

current period. Expenditures are recognized when the related fund liability is incurred except for a few specific exceptions. All governmental funds and expendable trust funds are accounted for using the modified accrual basis of accounting.

Note Payable – In general, an unconditional written promise signed by the maker to pay a certain sum in money on demand or at a fixed or determinable time either to the bearer or to the person designated therein.

Official Statement - The municipal equivalent of a bond prospectus.

Operating Budget - A budget making appropriations for the ordinary maintenance or administration of activities for the fiscal year.

Operating Equipment - Equipment that has a life expectancy of more than one year and a value of less than \$25,000 dollars. Equipment with a useful life of five or more years and a value greater than \$25,000 dollars is capital equipment.

Overlay Surplus - Any balance in the overlay account of a given year in excess of the amount remaining to be collected or abated can be transferred into this account. At the end of each fiscal year, unused overlay surplus is "closed" out to fund balance, in other words, it becomes a part of Free Cash.

Override - A permanent increase of the Town's levy limit (but not the levy ceiling) when a majority of voters in an election approve such an override. The override amount becomes part of the levy base when setting the next year's levy limit. To place an Override question on the ballot, requires a majority vote of the Select Board.

Pay-As-You-Go – A term used to describe the financial policy of a government which finances all of its capital outlay from current revenues rather than by borrowing. A government which pays for some improvements from current revenues and others by borrowing is said to be on a partial or modified pay-as-you-go basis.

Pay-As-You-Use – A term used to describe the financial policy of a government which finances its capital outlays from borrowing proceeds and pays for capital assets over their useful life.

Performance Measure - An indicator of progress toward a goal or strategy. Measures can be defined for identifying output, work or service quality, efficiency, effectiveness, and productivity.

Proposition 2½ - That measure which limits municipal property taxes to 2½ percent of the community's full and fair cash value (levy ceiling), and which limits the amount of revenue a municipality can raise through property taxes (levy limit) to 2½ percent each year, plus a factor for new growth. A municipality may exceed its levy limit in two ways: override or debt exclusion.

Provisional Capital – A capital request that is submitted by a department to identify a future need or obligation, but the department is not in the position to provide the necessary details so that the request can be evaluated.

Reserve Fund - An amount set aside annually by a vote of Town Meeting to provide a funding source for extraordinary or unforeseen expenditures. Only the Finance Committee can authorize transfers from the reserve fund. Any balance remaining in the reserve fund at the

end of the fiscal year is “closed” out to fund balance and ceases to be available.

Special Revenue Fund - Used to account for the proceeds of specific revenue sources (other than special assessments, expendable trusts, or sources for major capital projects) that are legally restricted to expenditures for specific purposes. A special revenue fund is accounted for in the same manner as a General Fund.

Stabilization Fund – Massachusetts General Laws Chapter 40, Section 5B allows municipalities and districts to create one or more stabilization funds, which are special reserves into which monies may be appropriated and reserved for later appropriation for any lawful municipal purpose. Creation of a fund requires a two-thirds vote of Town Meeting. The Treasurer shall be custodian of the fund(s) and may invest the proceeds legally; any interest earned shall remain with the fund.

Stormwater Stabilization Fund - This fund was created at the 2023 Annual Town Meeting. The stormwater stabilization fund serves as a repository for funds collected to address the capital costs associated with compliance with the National Pollutant Discharge Elimination System (NPDES) program. The Select Board adopted a community stormwater mitigation assessment which applies to parcels that have impervious cover, including residential, commercial, non-for-profit and tax-exempt properties. The funds collected from the mitigation assessments are deposited directly into the Stormwater Stabilization Fund to be used for NPDES compliance only.

Technology Infrastructure - The hardware and software that support information requirements, including computer workstations and associated software, network and communications equipment, and system-wide devices.

Town Meeting - Town Meeting is both an event and a governmental body. As an event, it is a gathering of a Town’s representative Town Meeting Members (TMM), and is referred to as “the Town Meeting.” As a governmental body, it is the legislative body for the Town of Needham, and is referred to simply as “Town Meeting.”

Trust Funds - Funds held by the Town in a fiduciary role, to be expended for the purposes specified by the donor.

Uniform Procurement Act – Enacted in 1990, Massachusetts General Laws Chapter 30B establishes uniform procedures for local government to use when contracting for supplies, equipment, services and real estate. The act is implemented through the Office of the Inspector General.

Warrant - The warrant lists a Town Meeting’s time, place, and agenda. A warrant is also known as a warning. A Town Meeting’s action is not valid unless the subject was listed on the warrant.

Updated 12/26/2023

Town Manager Budget Guidelines

Budget Process

This booklet includes instructions, forms, and key dates for submitting budget requests for fiscal year 2025.

The annual budget cycle begins soon after the start of the current fiscal year. Preliminary budget requests from all municipal departments are submitted in the fall, and each department manager is scheduled to meet with the budget review team to review their operating budget submissions. As in past years, I will invite the Finance Committee liaisons to participate in these preliminary budget reviews. All departmental spending requests are then submitted together to the Finance Committee by the second Wednesday in December.

During the months of December, January and February, the Finance Committee holds hearings with departments. At the same time, the budget review team will be working to balance spending requests with available revenue. The Town Manager's balanced budget proposal is then forwarded to the Finance Committee by January 31st.

Spending Requests

There are two levels of spending requests – base requests and performance improvement requests.

Base Budget Requests – Also referred to as level-service requests, the base budget request assumes that the same level of service will be provided by the department in fiscal year 2025 as was planned for fiscal year 2024. Base budget requests should include:

1. Adjustments for salaries and wages, expenses, and operating capital due to changes in staff, contract pricing, service fluctuations, etc.
2. Statutory and regulatory mandates for which the Department is responsible.
3. Salary and wage increases provided for by collective bargaining agreement or personnel policy, as provided on the PRD1 forms; and
4. Other items considered necessary and approved by the Town Manager.

Performance Improvement Requests – While opportunities for Performance Improvement funding are always limited, department managers are invited to submit such requests on the DSR4 form. Performance Improvement requests for additional headcount must include a detailed analysis of the condition giving rise to the request, and a description of other alternatives for providing the service that were explored by the department. This category of spending requests includes items such as:

1. Funding to meet significant inflationary pressure or target population increases; and
2. Funding for contractual or personnel services that will improve service delivery, result in future cost-savings (such as through reduced legacy costs), or are deemed necessary to meet goals and objectives set by the Town and its policy-making boards. *Performance Improvement requests should articulate how the funding will contribute to ensuring that Needham is a livable, economically vital, accessible and connected, healthy and socially thriving, safe, responsibly governed, or environmentally sustainable community.*
3. In recognition that successful operations need to look out beyond one fiscal year, departments are encouraged to include funding requests for the operating budget that are forthcoming not in FY2025, but in a future year. This assists the Town in planning future funding demands.
4. Department managers must contact the Director of Human Resources to discuss each request for additional staffing including new FTEs and increases in hours for existing personnel. You must submit a sign off from Human Resources with each DSR4 request that states Human Resources has reviewed the request with your department. Your meeting with Human Resources must be completed by October 19, 2023.

Operating Budget Submission Requirements

Please comply with the following submission requirements:

1. Review all the text and make sure it is fresh and up to date.
2. Provide short and concise narratives.
3. Include relevant charts and tables to support the budget request.
4. Include a chart in the Budget Statement section of the DSR1 form that clearly identifies requested line-item changes by category. A sample is included in the budget guidelines.
5. Proofread the text for spelling and grammar.
6. Round to whole dollar amounts.
7. Check the math, then recheck the math, and last recheck your math.
8. When referring to a fiscal year, use the format: **"FY2025"**.
9. Follow the required margins and font instructions.
10. Eliminate any dead space.
11. Do not include pictures in the narrative. Pictures should be reserved for Town Meeting presentations and the Annual Town Report.
12. Do not attach any supplemental material that is not embedded in the DSR1.
13. Print and review the document before filing to make sure it fits properly on the page.
14. Ask an employee in another department to read the document for tone, spelling, spacing, clarity, etc. Members of the budget review team are sure to ask who reviewed your document!
15. If you are uncertain whether an item should be filed as a DSR4 or as a special financial warrant article (DSR5), please contact the Deputy Town Manager/Director of Finance for guidance. Note that requests for studies should be submitted on the DSR5 unless they are leading to a construction project, in which case they should have been submitted during the capital planning process.

Many individuals have devoted considerable time and effort to developing the budget forms, calculating the PRD1 data, and preparing for the budget process. This allows department managers greater opportunity to analyze historical spending patterns, make necessary adjustments, evaluate the operations of your departments, identify areas for improved efficiency and service delivery, and translate those ideas into understandable and persuasive spending requests. As you will be presenting and defending information provided to you by others, it is critically important that you understand all of the material. If you have any questions or need additional information, please contact the Finance and Human Resources Departments as necessary.

I appreciate your commitment to the Town and our constituents – be they businesses, residents, or other departments. Your thoughtful and professional participation in this process will help us all meet the challenges ahead.

Thank you,

Kate Fitzpatrick

Town Manager

PREPARATION HINTS

Please do not change any **margin settings** [All are set at 1"] or the **font styles or sizes** [the primary font is VERDANA 10]. They have been predetermined so that the Town Manager's Budget will have a uniform look throughout and can be more easily bound so that text will not be hidden. If you need or want to bring attention to a particular word, phrase, or sentence you may **bold** or underline as appropriate. You may also use **highlighting** or *italics*, but please be aware that they don't photocopy as well.

Personnel: In accordance with the State's accounting rules for operating budgets, payment of salary and wages are to be charged to the fiscal year in which the related time falls. This means that in the first or last week of any fiscal year, and more often than not both, the accounting for the payment wages is split between two fiscal years. Budgeting for salary and wages should be based on 52.2 weeks (or 52 weeks plus one extra working day). The estimated dollar impact of the additional day is shown on its own line near the bottom of the PRD1 schedule as "Budgetary Adjustment". **All individual positions are calculated based on 52 weeks.**

Calculating Overtime: *The amount for budgeting general overtime should not be more than overall wage growth unless you document in your budget submission the reason for a higher amount and the calculation used for the submitted amount. Generally, increases in the overtime budget should not be more than 4.25%.*

Energy and Fuel Prices: The Town budgets for all General Fund electricity and natural gas expenses under one budget – Needham Electric, Light and Gas Program. This has been done to manage the Town's solar program, to improve the transparency of energy use and to help expedite movement towards the Town's "Green" goals. Heating oil, gasoline, and diesel fuel are budgeted and managed in individual operating budgets. In lieu of specific documentation, the following prices per unit (see below) may be used in developing your department spending request for Fiscal Year 2025. Departments must provide the actual consumption data for 2023, 2022, and 2021 in their budget submission if the budget includes funding requests for the items below. In order to calculate your requested budget amount for the supplies below, you may use the higher of the three-year average or the FY2023 actual, multiplied by the rates below. In addition, you must also include in the budget request any flat dollar charges (including the monthly service fees) paid for the service. These are the fees that will be paid during the period of July 1, 2024 through June 30, 2025.

Gasoline 87 Octane	\$4.38/gal
Diesel Low Sulfur	\$5.48/gal
Heating Oil #2	\$5.22/gal
Electric	\$0.24/kwh
Natural Gas	\$3.30/therm

Expenses: There are no automatic across-the-board percent changes for any expense; calculations must be based on the best information that is available to you at the time of submission, and you must be able to document how you came to the requested amount.

***** It is very helpful for you to first complete the Excel budget worksheet (EBW1) before completing the Department Spending Request forms. *****

BUDGET SUBMISSION CHECKLIST

1. Read the Budget Guidelines.
2. Attend one of the Budget Submission Overview sessions. The first session is scheduled for **Friday, September 29, 2023 at 9:00 a.m.** and the second session is scheduled for **Friday, September 29, 2023 at 2:00 p.m.**
3. Complete all required forms. Most forms will be found in the TEAMS group labelled **FY2025 Budget Submission**. The Excel Budget Worksheet (EBW1) will be posted to your department's TEAMS channel by the Deputy Town Manager/Director of Finance after you attend the Budget Training Session. If you cannot access the file, please contact the Deputy Town Manager/Director of Finance to make other arrangements.
4. Complete the Schedule of Fees, Fines, and Charges form and return to the Deputy Town Manager/Director of Finance by **Friday, October 6, 2023**. **The information is to be saved to the TEAMS channel labelled "Schedule of Fees, Fines, and Charges".**
5. Schedule your appointments with Building Maintenance (contact Cecilia Simchak), Human Resources (contact Tatiana Swanson) and/or Information Technology Center (contact David Davison) to review any request related to a repair to a building or facility, increase in the number of positions, creation of new positions, or increase in hours for an existing position, or for the purchase, upgrade, or replacement of technology. Sign off from the department is required to have your submission accepted for consideration.
6. Most software related expenses, except for software related specifically to a single department, are budgeted by the Finance Department. A request for new technology hardware for a new position, additional positions, or for an existing employee who currently does not have the equipment is to be requested by the department. Replacement technology hardware is requested through the Finance Department, BUT the department must identify in writing to the Finance Department any equipment that it would like to see replaced next year. Any request whether new or existing technology must be reviewed with the Deputy Town Manager/ Director of Finance **by 12:00 p.m. Friday, October 6, 2023**. You may schedule a meeting by emailing DDavison@needhamma.gov. ***You must disclose to the Finance Department the number of Office 365 licenses needed for FY2025. You must also disclose the number of email accounts needed, the number of Adobe subscriptions, and the number of ZOOM licenses needed for FY2025. The annual fee will continue to be paid by the Finance Department, but only if disclosed by the department to both Finance and the Deputy Town Manager.***
7. Building related budget requests that do not constitute capital improvement are budgeted in the Department of Public Works, Building Maintenance Division. Illustrative examples of such requests include, but are not limited to, additional custodial staff, painting of offices, new rugs, blinds, and portable air conditioners. Your request is to be submitted via email to CSimchak@needhamma.gov by **Friday, October 6, 2023**. Your request will be evaluated by the Department of Public Works prior to any submission to the Town Manager.
8. A request for a new position, an additional position, or an increase in hours for an existing position, is not only to be submitted on the DSR4 Form, but also reviewed

with Human Resources. Each request must be reviewed by Human Resources by **Thursday, October 19, 2023** in order to be submitted to the Town Manager. Your request is to be submitted via email to TSwanson@needhamma.gov.

9. Review and verify the Position Register Detail worksheet (PRD1). Any change to the PRD1 must be sent to the Deputy Town Manager/Director of Finance who will determine whether a change is necessary.
10. Review your narrative to ensure it is written for the layperson. **Please explain if your department had a FY2023 budget return of 2% or more, why this was so. If your department had any long term vacancies during FY2023 or FY2024 (long term is defined here as 4 months or longer) how the department was able to operate without the position(s). Explain any work that has been postponed, delayed, or not done at all due to the vacancy.**
11. Re-check all dollar amounts – round to the nearest dollar. Do not include cents on any of the forms. Re-check all totals to make certain they total correctly.
12. Submit all spending request forms electronically by saving the forms under your Department's designated budget submission folder found in TEAMS group labelled FY2025 Budget Submission. **Requests are due 12:00 p.m. Friday, October 27, 2023.**
13. Prepare for your appointment to discuss your Department's requests.

KEY DATES FOR THE FY2025 BUDGET PROCESS

Date	Activity
01-Aug-23	Capital Improvement Budget Guidelines Released
01-Aug-23	Vehicle Request Forms and Instructions Released
06-Sep-23	Town Manager Budget Consultation with the Finance Committee
12-Sep-23	Town Manager Budget Consultation with the Select Board
14-Sep-23	Deadline to meet with Building Maintenance and Information Technology Center to review capital requests
15-Sep-23	Vehicle Request Forms Submission Due by 12:00 P.M.
26-Sep-23	Select Board Closes Special Town Meeting Warrant
28-Sep-23	FY2025 Operating Budget Guidelines Released
29-Sep-23	FY2025 Operating Budget Submission Overview Session I, 9:00 A.M. to 10:30 A.M. Town Hall
29-Sep-23	FY2025 Operating Budget Submission Overview Session II, 2:00 P.M. to 3:30 P.M. Town Hall
06-Oct-23	Schedule of Fees and Charges Due by 12:00 P.M.
16-Oct-23	Final Capital Requests Due by 12:00 P.M.
27-Oct-23	Department Spending Requests Due by 12:00 P.M.
30-Oct-23	Special Town Meeting
01-Nov-23	Town Manager Budget and Capital Meetings with Departments Begin
28-Nov-23	Town Manager Reviews the Preliminary Capital Improvement Plan with the Select Board
13-Dec-23	Department Spending Requests are due to Finance Committee from the Town Manager and School Superintendent
19-Dec-23	Select Board votes on Capital Improvement Plan Trans Recommendations
02-Jan-24	Town Manager Budget Consultation with the School Committee
02-Jan-24	FY2025 – FY2029 Capital Improvement Plan Released
31-Jan-24	Town Manager's Balanced Budget Due to the Finance Committee
05-Feb-24	Warrant Articles for 2024 Annual Town Meeting Due to the Select Board
22-Feb-24	Finance Committee FY2025 Draft Budget Due to the Town Manager
15-Mar-24	Finance Committee Budget Recommendations are Due for Inclusion in the Annual Town Meeting Warrant
09-Apr-24	Town Election
06-May-24	Annual Town Meeting
01-Jul-24	Start of Fiscal Year 2025

AN OVERVIEW TO THE DEPARTMENT SPENDING REQUEST FORMS

Spending Request Forms

The spending request forms are to be used at the department-wide level and may be used at the divisional levels of the organization. Department managers should not prepare forms for programs, but if the department manager needs or wants to identify a particular program or the costs associated with it, this can be explained under operational considerations on the Department Information (DSR1) form. At a minimum, most department managers will complete the Department Information form and the Department Expenditure Detail (DSR2) form which consists of three parts: personnel, expenses, and operating budget capital, and the Excel Budget Worksheet (EBW1). Department managers wanting to submit requests for additional hours for existing positions, for additional new staff positions, or for new services must use the Performance Improvement Funding Request (DSR4) form. How this information is to be entered on the EBW1 form will be explained at the budget submission training. A department seeking funding that would not be part of the operating budget or qualifies as capital, or seeks approval of a financial related item that may require separate Town Meeting action, or would only be considered if an alternative source of funds is secured, should be submitted on Special Warrant Article Request (DSR5) form.

EBW1: Excel Budget Worksheet – you should complete the worksheet **before you begin to fill out the DSR forms.** The purpose of this worksheet is to have departments enter their spending request amounts by the account numbers that the expenditures are tracked in the Town's accounting system. This information will be uploaded into Infinite Visions (IV). After Town Meeting has acted on the budget, and any changes that may have been made by Town Meeting have been reflected in the spending request, the budget data will then be transferred into the General Ledger. This will allow departments to begin preparation for the new fiscal year sooner. The worksheet that you will complete shows the Department's current budget as it was posted into IV prior to the start of the fiscal year. There are columns to enter your DSR2 and DSR4 spending request amounts. The worksheet will total, show the dollar change from the current year for each account number and will show the percent change the requested total is to the current year total budget.

DSR1: Department Information – the purpose of this form is for the department to provide a narrative about the department, including financial and services demands. The form focuses on factors affecting the cost of services, and explains programs that are operated through revolving funds, grants, or donations. This form should include information relative to the department's accomplishments over the past year, goals for the coming year, and should identify efforts undertaken in the area of performance measurement (benchmarking, program evaluation, and/or customer satisfaction). The department's spending request is to be summarized at the bottom of the form.

DSR2: Department Expenditure Detail – the purpose of this form is to provide budgetary information about personnel and non-personnel costs. The form is broken into subsections for

personnel salary and wage costs, and a line by line expense detail.

The DSR2A section provides the reader with an overview of the staffing levels broken out by the major salary and wage items for the department. If applicable, information for line 1 of the form (Salary and Wage Permanent Positions) has been provided to you on the Position Register Detail (PRD1) worksheet. You have been provided specific details of compensation by position on the PRD1 worksheet. The PRD1 worksheet lists the permanent full-time and part-time positions; it does not list seasonal, temporary, substitute, or other non-permanent positions. The department manager should determine what amounts, if any, are necessary to fund these services. If the amount changes from the current year you must explain the basis for the change. This information is to be requested under line 2 of the form. If there is scheduled overtime or other compensation that is not incorporated in the PRD1 worksheet, those should be shown in the respective lines, e.g., payment in lieu of vacation, stipends not inherent to a permanent position, seasonal labor, etc.

The DSR2 form is also broken out between expenses (DSR2B) and operating budget capital (DSR2C). This section provides a line by line expense detail of services, supplies and other costs. You must provide a short description of the major items which make up the total object code request. There are examples of the type of expenses that may fall under the different object codes provided in **Appendix A**.

DSR3: Department Personnel Supplement - the purpose of this form is to allow departments to provide additional information about positions that are not detailed on the PRD1 schedule, or wage expenses that are not easily discernable from the information provided under sub sections 2, 3, and 4 of the DSR2 form.

DSR4: Performance Improvement Funding Request - the purpose of this form is to allow departments to identify specific funding requests above the Base Request that would, if funded, provide the resources to allow the department to improve, expand, and/or address unmet needs. Requests for additional hours, additional positions, or new positions must be included on the DSR4 form, and not embedded in the Department Expenditure Detail (DSR2) form. The details for additional personnel resources must be shown on the DSR4S (supplemental form for personnel requests) form. Each position requested and each request for an increase in hours must be submitted on its own DSR4S form. No personnel-related request will be considered if the DSR4S form is not completed and submitted. **The form design allows the department to submit not only for the coming fiscal year, but also for a future fiscal year.**

DSR5: Special Financial Warrant Article Request - the purpose of this form is to allow departments to submit other types of financial requests that may not necessarily be part of the operating budget or qualify as a capital expenditure. This form **must** be used if a request requires a Town Meeting appropriation (e.g., senior corps program), or seeks alternative funding such as CPA. **This form will be provided to the Finance Committee and Select Board at the same time the department spending requests are provided.**

PRD1: Position Register Detail - this worksheet was prepared by the Finance and Human Resources departments. This information provided most if not all of the figures that have been prepared and for you to report on DSR2. This register shows the positions that are **currently funded for FY2024** in the department's budget and projected compensation for each position based on the incumbent (as of September 15, 2023). If a position has been filled within the last year, we budget FY2025 at the new hire's estimated step for FY2025*. We ask that you review the PRD1 for accuracy. **Although we make every effort to be accurate, we rely on the department manager to ensure that the PRD1 is reflective of all existing personnel and the pay rates are correct.** The schedule **does not** include overtime or other non-definitive salary and wage items such as payment in lieu of paid time off, tuition reimbursement, seasonal labor, etc. The department manager should be in a much better position to determine the amounts, if any, are necessary to fund those costs. The schedule **does not** include any additional positions or any increase in hours for existing positions. This information is to be requested and itemized in the DSR4 form. Please note any changes proposed to the PRD1 form must be approved by the Deputy Town Manager/Director of Finance.

Schedule Fees and Charges - this is an internal document to be prepared by the department and submitted to the Finance Department to disclose all the non-tax and non-state aid revenue collected by the department. The information is important in order to ensure that the Town is conducting regular reviews of the various revenues collected and that rates are current. The Town will produce a comprehensive schedule of fees which will be for public inspection.

**Department Information
DSR1 Form
Instructions**

DSR1 – Department Information

This form serves as a cover letter to explain the spending request for next year. The form focuses on factors affecting the cost of services, and explains programs that are operated through revolving funds, grants, or donations. This section should include information relative to the department's accomplishments over the past year, goals for the coming year, and should identify efforts undertaken in the area of performance measurement (benchmarking, program evaluation, and/or customer satisfaction). The department's spending request is to be summarized at the bottom of the form.

1. **Department:** Fill in the name of the department.
2. **Department Mission:** This section is to provide a description of the Department, including the primary business centers. Explain the primary functions the department provides to the Town. For most departments a single paragraph should be sufficient to provide an overview.
3. **On the Horizon:** This section is to provide information regarding any internal and external pressures that are affecting the department and are driving cost increases. **If your department increase request is a result of inflation, you must explain and provide examples of the increased cost.** Explain the challenges the department had to overcome in order to continue to be of service to the public. Discuss projects and activities that the department is or will be undertaking within the next two to four years. Explain what resources will be required to address these issues.
4. **Budget Statement:** Explain the dollar changes to your department's FY2025 request from the current appropriated budget for FY2024. **You must clearly identify and explain any increase or decrease from the current budget.** *Here is an example of the format that was utilized by DPW which is the preferred style.*

Line Item	Division	Description	Change from FY22	Comments	Net Change
Energy	Sewer	Electricity	\$10,916	Based on 3-year consumption average	\$10,517
	Sewer	Natural Gas	(\$399)	Based on 3-year consumption average	
Repairs & Maint. Services	Drains	Trench Restoration	\$1,000	Based on an increased need	\$26,130
	Sewer	Alarm & Sprinkler Maint.	\$14	Based on current contract pricing & 3.5% inflation	
	Sewer	Generator Maint.	\$108	Based on current contract pricing & 3.5% inflation	
	Sewer	Mechanical On Call Services	\$25,000	Based on an increased need	

Fiscal Year 2025 Proposed Budget

Line Item	Division	Description	Change from FY22	Comments	Net Change
	Sewer	Overhead Door Maintenance	\$8	Based on current contract pricing & 3.5% inflation	
Other Property Related Services	Drains	Debris Disposal - Catch Basin	\$1,085	3.1% inflation based on current contract pricing	\$2,496
	Drains	Debris Disposal - Sweeping	\$1,411	4.3% inflation based on current contract pricing	
Communications	Sewer	Cell Phone	\$400	Based on current pricing	\$400
Other Purchased Services	Drains	Street Sweeping	\$1,093	Based on current contract pricing & 3.5% inflation	\$4,947
	Sewer	Police Details	\$730	Based on updated police detail rates	
	Sewer	Sewer Flow Meter Annual Maint.	\$1,899	Based on current contract pricing & 3.5% inflation	
	Sewer	Sewer Flow Meter Upgrades	\$1,225	Based on current contract pricing & 3.5% inflation	
Building & Equipment Supplies	Sewer	Pump Station Supplies	\$400	Based on an increased need	\$400
Gasoline & Diesel Fuel	Drains	Diesel	\$530	Based on 3-year consumption average	\$4,399
	Sewer	Diesel	\$835	Based on 3-year consumption average	
	Sewer	Gasoline	\$3,034	Based on 3-year consumption average	
Public Works Supplies	Sewer	Asphalt	\$3,000	10% increase on current market inflation	\$13,326
	Sewer	Manhole Frames & Covers	\$217	Based on current contract pricing & 3.5% inflation	
	Sewer	Pump Replacement Parts	\$10,000	Based on an increased need	
	Sewer	Sewer Pipe	\$109	Based on current contract pricing & 3.5% inflation	

You should identify changes in **personnel** levels which have occurred over time and whether the department may be seeking additional hours for existing positions, or additional positions. However, if you are seeking such an increase the request must be made through the **DSR4 form** and not embedded in the Base Request. **You must schedule a meeting with Human Resources to review the request.** You should also disclose any increased costs in **expenses** which have impacted the department's ability to provide the expected level of service for the current year budget, and/or any increase in the **expense** dollar request over the current fiscal year budget. Indicate whether the cost is fixed and/or non-discretionary, or whether it is discretionary based on numbers served. Indicate which expenses are covered by related program/service generated revenue which is credited to the general fund, as opposed to a reserve or revolving fund, (e.g., each additional parking permit tag sold generates more income, but also requires an appropriation to pay for the physical tag to be

increased as well).

The department should also identify programs that are supported or administered by the Department which are funded in part or fully by a **revolving fund, grant, or donation**. Also identify activities that are supported by volunteers. However, do not include in the budget request any amounts that will be paid by a revolving fund, grant, or donation. You must disclose in your narrative any Federal and/or State grants that have been relied upon to support ongoing programs or that make available resources which allow the Department to perform its primary responsibilities. **You should disclose all grants received during FY2023 and FY2024 (to date) that have been provided as fiscal stimulus funds.** You must also answer the question on the DSR2 form whether there are grants.

This section should also include details of any significant changes that would affect the revenue estimate for the fiscal year, (e.g., change to the fee structure, change in level of demand for a service, creation, or elimination of a program or service). Any adjustment to a charge or fee for next year that is pending action by a Board, Committee, or Town Meeting must be disclosed with a justification as to why you expect the change to be approved and included in the revenue estimate.

5. **Accomplishments and Activities:** Discuss recent accomplishments and goals met in the past year, provide information on workload and performance related activities, ideally three or more years of results is preferred.
6. **Spending Request Recap:** This section is to summarize the spending requests identified under DSR2 and DSR4 Forms, and any additional amounts which are appropriated under separate budget lines at Town Meeting. The DSR2 totals are to be shown under the Base Request column; DSR4 requests are totaled and shown in their own column. If your Department's spending request includes a different appropriation line description (e.g., Snow and Ice), type in the title under the description column and enter the amount(s) under the respective columns.

**Department Expenditure Detail
DSR2 Form
Instructions**

DSR2 – Department Expenditure Detail

The purpose of this form is to provide budgetary information about personnel and non-personnel costs. The form is broken out by subsections for personnel salary and wage costs, and a line by line expense detail.

DSR2A Section - Personnel

The purpose of this section is to provide the personnel budget data for the department. Information for line 1 has been provided to you on the PRD1 worksheet. The forecast assumes an annualized salary level based on the rate of pay on the last day of the fiscal year (06/30/25) for a period of **52** weeks. You are more familiar with individual situations, and we will rely on you to review the information carefully. You have been provided specific details of compensation by position on the PRD1 worksheet. The PRD1 worksheet lists the permanent full-time and part-time positions; it does not list seasonal, temporary, or non-permanent positions (positions which rates of pay are found in Schedule C). If there is scheduled overtime or other compensation that is not calculated in the PRD1 worksheet, these should be shown in the respective lines. **Requests for new positions must be included on the DSR4 form, and not embedded in the DSR2A.** Please remember to disclose any significant changes from the prior year and identify the reasons under the **Operational Considerations** section of the DSR1 form.

1. **Department:** Fill in the name of the department and if desired, the division.
2. **Permanent Personnel:** Enter the head count for the number of full time positions under the **FT Head Count** column, the number of "permanent part time" benefit-eligible positions under the **PT Head Count** column, and the appropriate calculation of the two columns as **Full Time Equivalent (FTE)** under that column (this information has been provided to you on the PRD1 form). You should enter the number that was funded in the prior fiscal year, the current fiscal year, and the expected number of positions that will be funded within the **Base Request** for next fiscal year. Please note that the FTE count should **NOT** include the portion of the position that is grant and/or revolving fund supported, or temporary, seasonal, and other **Schedule C** positions regardless of the funding source. The FTE total for FY2025 must equal the total shown on the PRD1 report. Please contact the Deputy Town Manager/Director of Finance if you have questions.
3. **Personnel Non-Budget:** Identify whether the department will rely on any positions funded by a grant and/or revolving fund to provide services next year (FY2025). Indicate the number of full-time and part-time positions that are funded by these sources. Do not double count positions – these positions should not be duplicative of the figures entered in the lines above (item 2) that are funded by the operating budget.
4. **Union Positions:** Identify the number of funded positions by union that are part of the department operating budget. If there are no union positions in the department, mark "NA"

5. **Salary and Wage Permanent Positions (line 1):** Fill in the total salary and wage amount to fund the full time positions and “permanent part time” positions (these are usually positions working an average of 20 hours or more per week, but may be less than 20 hours provided the work is on a regular basis and the position is held by a specific individual – **a position that is filled in by more than one individual or a rotating or as needed basis is considered temporary help – see #6**) in the Base Request. This information is obtained from PRD1 worksheets. Although we make every effort to be accurate, we rely on the department manager to ensure that the PRD1 is correct. The amount shown on the PRD1 worksheet are to be sub totaled by the amount that is classified in the General Ledger as regular personnel expense and the amount that is classified as other personnel expense. Other personnel expenses are salary and wage items that are coded within the 519x series (i.e., education pay, uniform pay, etc.) If there is other compensation that was not included in the PRD1 form but is paid to full time or permanent part time employees, you will need to add and itemize this information under the “Other Salary and Wage Expenses” section (see instruction #7). Some examples of other salary and wages would be payment in lieu of accrued leave, tuition reimbursement, training, and stipends not specific to the position or part of a collective bargaining agreement. Calculate the total of the lines (a – e) and enter the amount to the right of **Sub Total 1**. *This total must agree with the PRD1 sheet.*

6. **Salary and Wage Seasonal and Temporary Positions (line 2):** Fill in title or general description of the positions or work that would be funded. You should also include temporary part-time, intermittent and substitute workers, and seasonal help under this section; many of these positions are listed on Schedule C, but not all positions are listed under Schedule C. Provide an explanation of how the total was determined, e.g., number of hours, number of dates, events, etc. Calculate the total of the seasonal and temporary positions and enter the amount to the right of **Sub Total 2**.

7. **Salary and Wage Overtime (line 3):** Fill in the total overtime budget request. Provide an explanation for the overtime. Calculate the total of the overtime and enter the amount to the right of **Sub Total 3**.

8. **Other Salary and Wage Expenses (line 4):** Itemize other salary and wage expenses which are not included in line one, two, or three e.g., payment in lieu of vacation, tuition reimbursement, stipends, etc. Then calculate the total of the individual entries, if any, shown on lines a, b, c, d, e, f, g, and h. Calculate the total of the other salary and wage expenses and enter the amount to the right of **Sub Total 4**.

9. **Total Salaries and Wages (line 5):** Combine the totals of 1, 2, 3, and 4 and enter the amount to the right of **Total Salaries and Wages**.

If you have difficulty determining the amount for any position, please contact the Human Resources office.

DSR2B & DSR2C Sections – Expenses and Capital.

This section provides a line by line expense detail of services, supplies, materials, tools, equipment, and operating budget capital requested by the department. You must provide a short description of the major expenses that make up the total for each object code. Some

examples of the type of expenses which would be included under the respective object codes are shown on the form. It is up to each department manager to determine whether to prepare division based expense requests or a combined single total department request, (remember divisions are not programs, e.g., Highway is a division of DPW, but traffic control is a program within the highway division of DPW). Use as many lines as necessary to provide the appropriate amount of detail.

10. **Object/Description:** The shaded column on the left lists the basic object codes (we have included the primary object code digits (the first three of the four digits) for your reference as to the expenses that are to be reported on the line). To the right is an area intended to describe the significant components that make up the total for each accounting object code. For a listing of which object codes fall under the account group, refer to the **Account Codes** found in **Appendix A**. Describe the major items that make up the expense line. In parenthesis enter the total which corresponds to the identified expense described to the immediate left, e.g., for the "Communications" expense code the components that make up the total object are:

Object	Description	Amount
Communications (543X)	Postage (\$1,200)	
	Cellular Service (\$840)	
	Photocopying Fees (\$500)	
	Legal Notices (\$775)	
	Other Communication Expenses (\$115)	\$3,430

The individual components must total the amount typed under the "Amount" column (see item 10).

11. **Amount:** Enter the total of the itemized expenses shown to the immediate left.
12. **Total Expenses (line 6):** Calculate the total of all object lines and enter the amount to the right of the shaded area.
13. **Total Operating Budget Capital (line 7):** Calculate the total of any capital items requested through the operating budget in line and enter the amount to the right of the shaded area. **Operating Budget Capital** items are those items which either have a total cost of less than \$25,000 or have a primary operational useful life of less than 5 years.
14. **Total Base Request (line 8):** Enter the combined total of lines five, six, and seven.
15. **Does the Department depend on any Federal or State grants to provide services?** Indicate with an "X" in the appropriate box (YES or NO) whether the Department receives or relies on any Federal or State grants to fund services or to provide resources (supplies, contractors, services, multiparty agreements, etc.) that the Department relies on to do its primary responsibilities. This should be explained in the Department narrative in the DSR1 form.
16. **Did the Department submit any requests for the replacement or upgrade of technology hardware or software to the Information Technology Center and/or include funding request for hardware or**

software with the budget submission? Indicate with an "X" in the appropriate box (YES or NO) whether the Department submitted, by the deadline, any requests for the replacement and/or upgrade of technology and or software the Information Technology Center (ITC).

17. Did the Department submit any requests for FY2025 to the Department of Public Works to improve or upgrade a public building or facility?

Indicate with an "X" in the appropriate box (YES or NO) whether the Department submitted any requests to improve or upgrade a public building or facility.

18. Did the Department meet with Human Resources prior to submitting any request for new or additional personnel resources? Indicate with an "X" in the appropriate box (YES or NO).

19. Recheck your work.

V2025				

**Department Personnel Supplement
DSR3 Form
Instructions**

DSR3 – Department Personnel Supplement

The purpose of this form is to provide additional salary and wage detail which is not apparent from the DSR2 or PRD1 documents. The form is broken out by subsections for personnel type and cost detail.

1. **Department:** Fill in the name of the department.
2. **Description:** Fill in the title or general description of the positions or work that would be funded. Enter the description of the type of pay; this may be a position title, pay type, function, and or purpose. Indicate the unit of measure and how many units are being requested. Examples of positions:

Select Board Member
Building Monitors
Care of Graves
Coordinator of Ceremonies
Drivers
Election Workers – Wardens and Clerks
Election Workers - Inspectors
Parking Clerk
Playground Maintenance Specialist
Public Health Nurses
Town Meeting Workers
Traffic Supervisors

3. **Amount:** Fill in the total amount for the year requested for this pay item.
4. **Amount Reflected:** Indicate with an "X" which group on the DSR2A section the amount to the left (under the Amount Column) was added.
5. **Total (Line I):** Calculate the total of the items requested lines 1 through 25 and enter the amount to the right of **Total** line.
6. **Total (line II):** Combine the totals of Sections 1, 2, 3, and 4 and enter the amount to the right of **Total** line. Remember, the Total I must equal Total II, if not recheck your work.

If you have difficulty determining the amount for any position, please contact the Human Resources office.

V2025

**Performance Improvement Funding Request
DSR4 Form
Instructions**

The purpose of this form is to allow departments to submit additional operating funding requests beyond Level Service to improve, or expand services, or to address unmet needs.

1. **Department:** Fill in the name of the department and if desired, the division.
2. **Fiscal Year:** Enter the fiscal year for which funding is anticipated to be requested.
3. **Title:** Provide a short title description to identify the request.
4. **Priority #:** Indicate the Department's (not a division's) priority for this request.
5. **Expenditure Classification:** Itemize the cost by the standard budget appropriation lines: Salary and Wage, Expenses, and Operating Capital. If the request is for additional employees (head count and/or hours) provide the full time equivalent under the FTE column. The form also requires the cost to be broken out by recurring (an annual expenditure) and non-recurring (e.g., startup costs). You then will calculate the total of each appropriation line under the **Total Amount** column, and also a total for each column that you entered to the right of the **Department Total (line 4)**. The amounts on line 4 are also reported on the DSR1 Form under the Additional Request (DSR4) column. **Other Costs** (line 5) would be amounts that may need to be appropriated to other budgets should your request be funded. Other costs include employee benefits for an additional, expanded, and/or new position, contracted services generally provided by another department to repair, maintain, or improve the requested items (most often this would be the Public Works), non-employee insurance coverage, and service fees, etc.
6. **Budgetary Considerations:** Answer the 10 questions with a YES or a NO. Explain whether the request will impact other department budgets. If there are costs that would be paid from another appropriation, state and provide an estimate of that cost (e.g., a new full time position would have benefit costs which are carried in the town-wide budget group). **Please contact the Finance Department for assistance in calculating these costs.** Please provide answers to the following questions (any **YES** response must be explained under Description and Explanation):
 - *Does this request address a goal of the Select Board or other Board or Committee? If the response is "YES", please indicate on the line below the name of the Board or Committee.*
 - *If yes, which Board or Committee? Enter the name of the Board or Committee.*
 - *Has this request been submitted in the last three fiscal years and not funded? If the response is "YES" please explain why the request is being submitted again.*
 - *Are there additional costs to implement this request (except for future year operating costs which would be ongoing if funding is approved) which are NOT included in this request? If the response is "YES" please explain why and how those costs will be covered.*

- Will the assistance of another department be required to provide support (personnel or financial) for this request to be implemented? *If the response is "YES", please identify the other department(s) and what assistance would be needed in order to achieve the intended goal of the request.*
- Will additional staff (beyond the staff requested in this DSR4 submission) be required if the request is approved? *If the response is "YES", please identify what position(s) would be required and the estimated cost of those positions. Explain whether the request is inclusive of those costs.*
- Does the request support activities which produce revenue for the Town? *If the response is "YES", please identify the revenue(s) that are generated as a result and how the revenue is generated.*
- If the request is not approved, will current Town revenues be negatively impacted? *If the response is "YES", please identify the revenue(s) that would be effected, how much, and why.*
- Is there an increased exposure for the Town if the request is not approved? *If the response is "YES", please explain what the exposure is and why.*
- Is specialized training or licensing required (beyond the initial purchase)? *If the response is "YES", please explain and provide an estimate of the additional cost, if any. If there is not an additional cost, please state such.*
- Does this request address a documented health or safety issue? *If the response is "YES", please identify the issue(s), and provide the citation reference.*

7. **Description and Explanation:** Provide a brief narrative as to why the request is being made. Explain any significant changes affecting the department which led to this request. Priority will be given to performance requests that are directly related to department goals, the need for which can be demonstrated by performance measures and data. Explain the benefits and/or intended results. Provide a detail of the specific budget items, number of hours, position title, type of service, supplies; etc. Summarize by Town Meeting appropriation line the requested amount. Indicate whether the request is recurring, (will appear in subsequent operating budgets if approved this year), or is one-time, (not to be requested in subsequent years). The line totals are to be reported on the DSR1 form under the DSR4 column. If additional head count is requested, include an analysis of other service delivery methods explored and explain why they were not selected. You must also explain any YES answer to the questions under the **Budgetary Considerations** section (item 4) and identify any other budgetary issues which could influence the evaluation of the request.

Fiscal Year 2025 Proposed Budget

Performance Improvement Funding Request DSR4				
Department	(see instruction #1)		Fiscal Year	(see instruction #2)
Title	(see instruction #3)		Priority	(see instruction #4)
DSR4(see instruction #5)				
Expenditure Classification	FTE	Frequency		Total Amount (A + B)
		Recurring Amount (A)	One Time Only Amount (B)	
1. Salary and Wage				
2. Expense				
3. Operating Capital				
4. Department Total (1+2+3)				
5. Other Costs to be budgeted by other Departments				
Budgetary Considerations (see instruction #6)				Yes No
Does this request address a goal of the Select Board or other Board or Committee?				
If yes, which Board or Committee?				
Has this request been submitted in the last three fiscal years and not funded?				
Are there additional costs to implement this request (except for future year operating costs which would be ongoing if funding is approved) which are NOT included in this request?				
Will the assistance of another department be required to provide support (personnel or financial) for this request to be implemented?				
Will additional staff (beyond the staff requested in this DSR4 submission) be required if the request is approved?				
Does the request support activities which produce revenue for the Town?				
If the request is not approved, will current Town revenues be negatively impacted?				
Is there an increased exposure for the Town if the request is not approved?				
Is specialized training or licensing required (beyond the initial purchase)?				
Does this request address a documented health or safety issue?				
<i>All "YES" responses above must be explained in the narrative below</i>				
Description and Explanation				
(see instruction #7)				
V2025				

**Performance Improvement Funding Request Supplemental
DSR4S Form
Instructions**

The purpose of this form is for departments that submit DSR4 requests for additional hours for existing positions, and/or new positions to provide more detailed information about the request. A separate DSR4S **MUST** be completed for each new position and/or increase in authorized hours requested. Any request for additional personnel will NOT be considered if the supplemental form is not completed and submitted with the related DSR4 request.

1. **Position Title:** Enter the Position Title Description. Only one position per page.
2. **Priority #:** Indicate the Department's (not a division's) priority for this request.
3. **Classification:** Enter the Position Classification and indicate with an "X" whether the position request is for Full Time, Part Time or Seasonal. If you do not know the classification of the position, contact Human Resources.
4. **Part Time /Seasonal:** If the request is for a part time or seasonal position indicate the number of hours per week being requested and the number of weeks the position would be needed.
5. **Compensation Detail:** Itemize the compensation costs for the requested position. The first line is the base rate. For full-time positions show the annual rate of pay. For part-time and seasonal positions show the hourly rate times the number of hours for the year. Positions that provide additional compensation, for example shift differential or education enter the pay type in the first column and the annual pay in the second column. Total the pay and show it on the "Salary and Wage Total" line.
6. **If Funded the Position Will Require the Following Additional Items:** Indicate which of the items will need to be funded if the personnel request is funded. The cost is to be broken out by startup cost and recurring costs.
7. **Estimated Annual Benefit Cost:** You must include the estimated annual costs for benefits. Benefit costs covered by Town wide Expense Budgets. **Please contact the Deputy Town Manager/Director of Finance for assistance in calculating these costs.**
8. **Description and Explanation:** Provide a brief narrative as to why the request is being made. Include an analysis of other service delivery methods explored and explain why they were not selected. Explain any significant changes affecting the department which led to this request. Explain the benefits and/or intended results. The line totals are to be reported on the DSR1 form under the DSR4 column.

**Special Financial Warrant Article Request
DSR5 Form
Instructions**

The purpose of this form is to allow departments to submit other types of financial requests that may not necessarily be part of the operating budget or qualify as a capital expenditure. This form may be used if a request requires an independent Town Meeting action (matching a grant or establishing a revolving fund), or seeks funding for a purpose that could overlap fiscal years or requires continuation of the appropriation beyond a single fiscal year (e.g., senior corps program), or seeks alternative funding such as CPA. Requests for new software which are not part of the Department's operating budget must be requested using this form. Software is not considered capital.

1. **Title:** Provide a short title description to identify the request. Should this request be added to the Warrant, the Title will be the basis for the Warrant Article title.
2. **Fiscal Year:** Enter the fiscal year for which funding is being requested. Funding requests that will be requested for more than one fiscal year should be submitted on separate DSR5 forms. A request that is for only one fiscal year but may require more than one fiscal year to complete may be submitted as one DSR5 request.
3. **Department:** Enter the name of the Department that will be responsible for carrying out the required actions if approved.
4. **Funding Amount:** Enter the amount that is requested for appropriation.
5. **Funding Source:** Indicate whether the requested funding comes from sources other than the General Fund (Enterprise Fund). Please state the source(s) and amount(s) of the funds. If the funding is coming from the General Fund, then type General Fund.
6. **Article Information:** Provide a brief narrative as to why the request is being made and what is the intended result. Explain any significant changes affecting the department that may have led to this request. This should be written for the layperson who may not understand the article as written or what is actually being requested.
7. **Disclosures:** Answer all the questions and explain all "YES" answers under the Disclosure Explanation section.
 1. Was this request submitted last year?
 2. Is this a recurring special financial warrant article?
 3. Is this a matching grant funding request?
 4. Is this a CPA funding request?
 5. Is this a revolving fund request?
 6. Is this a pilot program request?
 7. Is this a study?
 8. Is this a program that is planned to be in place for more than one year?
 9. Is this required by a court or other jurisdictional order?
 10. Is this a personnel related request?
 11. Is this a local option acceptance request?
 12. Is this in support of a goal of a Board or Committee?

**Schedule of Fees and Charges
Instructions**

The purpose of this form is to itemize the various sources of non-tax and non-state aid receipts collected by the department. This will become an important resource going forward to identify all types of revenues relied upon by the Town to help defray the cost of the service or to change behavior. Examples of fees and charges include penalty charges, water use, parking permits, trash disposal, review fees, permits and licenses, street permits, program fees, rentals, bus service, etc.

1. **Department:** Fill in the name of the department.
2. **Description:** The title of the fee and identify the purpose.
3. **Authority:** Identify the applicable law or regulation for establishing and setting the fee.
4. **Frequency:** Indicate how often the fee is to be paid, i.e., annually, quarterly, monthly, one-time, per occurrence/use, etc.
5. **Rate:** Enter the amount of fee.
6. **Last Reviewed:** Indicate when the fee became effective or was last revised. If unknown, indicate "unknown".
